Announcements

The Commission on Undergraduate Education in the Biological Sciences has moved from Washington University, St. Louis, Mo., to Washington, D.C. Correspondence may be sent to V. A. Greulach, Executive Director, George Washington University, 2023 G St., NW, Washington, D.C. 20006.

The U.S. Public Health Service has announced a change in deadline dates for the receipt of applications for research grants. The new dates, effective 1 January 1965, have been established to allow more time for staff review of applications before they are presented to the nonfederal advisory review panels.

The new deadlines for new and supplemental applications are: 1 October, 1 February, and 1 July. The respective council/committee meetings are: March, June-July, and November.

The new deadlines for renewal applications are: 1 September, 1 January, and 1 June. The respective council/committee meetings are: March, June-July, and November.

No deadline changes have been made for noncompeting continuation applications or for applications for other types of support.

Meeting Notes

Papers are invited for presentation at a symposium on the **inelastic scattering of neutrons**, scheduled 15-19 December in Bombay, India. It will be sponsored by the International Atomic Energy Agency. The topics for discussion will center around experimental and theoretical studies, including experimental techniques and facilities, dynamic properties of solids and liquids, molecular energy levels and molecular motion, neutron interaction with gases, and dynamics of magnetic systems. Abstracts of 250 to 350 words are required. Deadline for abstracts: 20 September; for completed manuscripts: 9 October. (J. H. Kane, International Conferences Branch, Division of Special Projects, U.S. Atomic Energy Commission, Washington, D.C. 20545)

About 55 papers will be presented 15-17 October during the second international conference on **beryllium** metallurgy and technology. The meeting will take place at the Franklin Institute, Philadelphia, and will include sessions

on purification and alloying studies, physical metallurgy, process metallurgy, and design and application of beryllium structures. (D. A. Parks, 345 E. 47 St., New York 10017)

Scientists in the News

B. Theodore Cole, biology professor at the University of South Carolina, has been appointed head of the department.

Robert H. Felix, director of the National Institute of Mental Health since 1949, has been appointed professor of psychiatry and dean of the medical school at St. Louis University. He will retire from NIMH 1 October.

Ryukichi Sawada, physics professor at Kyushu University, Japan, has joined the National Center for Atmospheric Research, Boulder, Colorado, as a visiting scientist in atmospheric studies, until next April.

John O. Corliss, professor of zoology at the University of Illinois, has been appointed head of the department of biological sciences at the university's new college of liberal arts and sciences, Chicago, as of 1 September.

Milton R. J. Salton has been named professor and chairman of the department of microbiology at New York University's medical school and postgraduate medical school. He has been a professor of microbiology at the University of New South Wales, Sydney, Australia.

Bodil Schmidt-Nielsen, associate research professor in zoology and physiology at Duke University, will become professor of biology at Western Reserve University in September.

Planned Parenthood-World Population recently appointed **Frederick S. Jaffe** vice president in charge of program planning. He had been director of special program development and associate director of information and education.

Erratum: The ranges of the Beckman IR-10 and IR-12 spectrophotometers ("What's new in research instruments," 15 May, p. 894) should have been described, respectively, as 4000 to 300 cm^{-1} and 4000 to 200 cm^{-1} .

Erratum: In the book review by G. E. Erikson (*Science*, 17 July, p. 256), the sentence in line 4, column 3, page 256, should read "Andrews reviews a whole universe of behavior in 'The displays of the primates' . . ." Line 8, column 1, page 257, should read "the task of relating karyotype to taxonomy."
