

# INFORMATION SCIENTIST

The Technical Information Department of the Warner-Lambert Research Institute has an excellent opportunity for an information scientist with a degree in the biological sciences or a related field. The person selected will participate in the design and operation of indexing and retrieval systems for the biological research data generated by internal research programs.

Experience preferred but not absolutely necessary. Advanced degree desirable.

Modern research facilities • Attractive location  
• Excellent benefit program

## THE KLETT FLUORIMETER

No. 2070

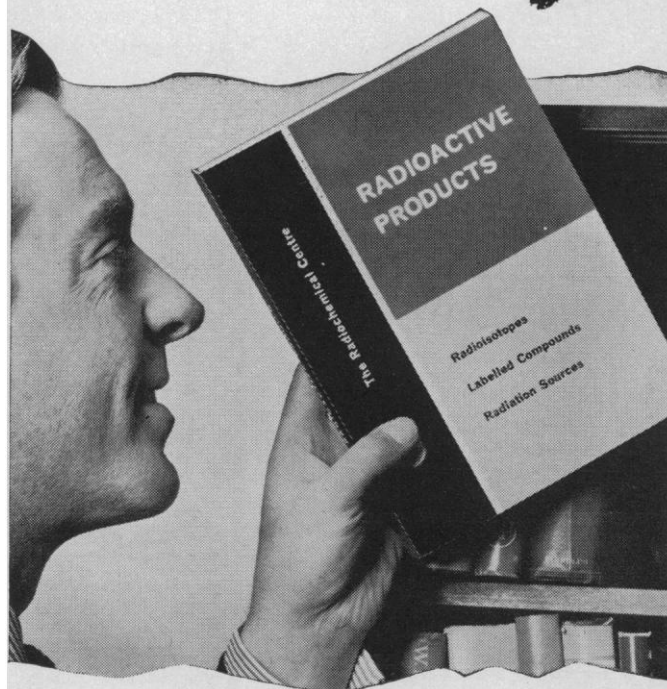

Designed for the rapid and accurate determination of thiamin, riboflavin, and other substances which fluoresce in solution. The sensitivity and stability are such that it has been found particularly useful in determining very small amounts of these substances.

# PERSONNEL PLACEMENT

**CLASSIFIED: Positions Wanted.** 25¢ per word, minimum charge \$4. Use of Box Number counts as 10 additional words. Payment in advance is required.

**COPY** for ads must reach **SCIENCE** 2 weeks before issue date (Friday of every week).

**DISPLAY: Positions Open.** Rates listed below—no charge for Box Number. Rates net. No agency commission allowed for ads under 4 inches. No cash discount. **Minimum ad:** 1 inch. Ads over 1 inch will be billed to the nearest quarter inch. Frequency rate will apply only to repeat of same ad. No copy changes. Payment in advance is required except where satisfactory credit has been established. Send copy for display advertising to **SCIENCE**, Room 1740, 11 West 42 St., New York 36.

Single insertion \$65.00 per inch  
4 times in 1 year 60.00 per inch

For **PROOFS** on display ads, copy must reach **SCIENCE** 4 weeks before date of issue (Friday of every week).

Replies to blind ads should be addressed as follows:

Box (give number)  
**SCIENCE**  
1515 Massachusetts Ave., NW  
Washington, D.C. 20005

## POSITIONS WANTED

**Biochemical Plant Pathologist** interested in molecular biology; publications, research grant; desires research or research-teaching position. Box 475, **SCIENCE**.

## POSITIONS OPEN

### SPACE FOR BIOLOGICAL RESEARCH

An institute managed exclusively by its active investigators is being organized in Los Angeles. Present programs supported by NIH are in iron metabolism and nutrition. We welcome established investigators with supported programs in related fields. For details contact A. Shoden, Executive Vice President, **Institute for Biological Research**, 9325 Venice Boulevard, Culver City, California.

**CENTER FOR AIR ENVIRONMENT STUDIES** has opening for a Ph.D. with a broad interest in the air environment field. Assistant to the Director with individual responsibilities in a new University wide research and teaching program. Send résumé to: **Dr. Seymour Calvert, Air. Env. Ctr., Penn State Univ., University Park, Pa.**

### HISTOCHEMIST

Experimental morphologist, Ph.D. or equivalent. Active research program in enzyme and electron histochemistry. Opportunity for training in electron microscopy. Salary commensurate with qualifications. Hospital-affiliated research institute. New York.

Box 460, **SCIENCE**

### MICROBIOLOGIST Ph.D.

With experience in animal virology. Assistant professor in teaching and research in a college of veterinary medicine at a midwestern university.

Box 474, **SCIENCE**

### Ph.D. BIOCHEMIST

For research in diabetes. Salary \$12,500 up, commensurate with qualifications, prerequisites. Send résumé (held confidential) to

**Sansum Research Foundation**  
317 W. Pueblo  
Santa Barbara, California

## POSITIONS OPEN

### BIOCHEMIST

Biochemist (M.S. or Ph.D. or experience equivalent) to work in the field of bio-detection. Must have basic background in enzymology, knowledge of electro-chemistry and instrument design.

An Equal Opportunity Employer

## Research Pathologist-Toxicologist

Position available for Ph.D. or D.V.M. in toxicology-experimental pathology program. Major responsibility in gross and histopathologic diagnosis, and in conducting safety evaluation studies of new drugs. Should have training and/or research experience in the anatomy and pathology of the commonly used research animals and interest in toxicological research.

Salary open. Excellent company benefits include educational assistance at local colleges. Travel and moving expenses paid. Located near Albany in the heart of New York State vacation land.

Send complete resume to C.E. Alford  
Director of Personnel

**STERLING-WINTHROP  
RESEARCH INSTITUTE**

Rensselaer, New York

An equal opportunity employer

## SCIENTIFIC RELATIONS ASSOCIATE

An international chemical company with headquarters in the metropolitan area has an unusual oppty open for a scientist to establish and maintain contacts with universities, government & industry for the purpose of keeping his company informed of scientific and technical developments both in the U.S. and abroad.

The candidate must have a Ph.D. in a biological science and some recognition in his field. He must have an interest in, and be free to, travel abroad.

Box 476, **SCIENCE**

AN EQUAL OPPORTUNITY EMPLOYER

## POSITIONS OPEN

Position starting as assistant professor open for veterinary pathologist at University of Minnesota, College of Veterinary Medicine. Teaching and research. Salary commensurate with training and experience. ACVP diplomate or about to qualify. Contact Dr. J. H. Sautter, College of Veterinary Medicine, University of Minnesota, St. Paul 1.

## The Market Place

**DISPLAY:** Insertions must be at least 1 inch in depth. Weekly invoices will be sent on a charge account basis—provided that satisfactory credit is established.

Single insertion \$65 per inch  
4 times in 1 year 60 per inch  
13 times in 1 year 50 per inch  
26 times in 1 year 50 per inch

**PROOFS:** If copy is to be set, and proofs submitted for approval, complete copy and cuts must be received 4 weeks in advance of issue date (Friday of each week); complete plates no later than 3 weeks in advance of issue date.

## BOOKS AND MAGAZINES

## Authors

Your book can be published, promoted, distributed by a reliable company on a subsidized basis. Fiction, non-fiction, poetry, scholarly, religious and even controversial manuscripts welcomed. Free Editorial Report. For Free Booklet write Vantage Press, Dept. SC, 120 W. 31 St., New York 1, New York.

## MECHANISMS OF HARD TISSUE DESTRUCTION

Editor: Reidar F. Sognnaes, 764 pp., 430 illus., 1963. \$13. AAAS member's cash price \$11.

"It is a refreshingly well-planned, well-edited, and interesting symposium."—*J. Am. Med. Assoc.*, 20 July 1964

AAAS

**4½" planchets  
give 5 times  
the sample area,  
5 times the speed,  
5 times  
the accuracy...**

**...of 2"  
planchets**

Only LOWBETA® II has them.

This low background-radioactivity counting system monitors contamination levels in air, water, chemical, and even food samples with greater speed than ever before. Wherever large samples are available LOWBETA II cuts time and offers high precision.

The new 4½" planchets give five times the sample area of 2" planchets. Overlapping 5" radiation detectors for greater over-all sensitivity, coupled with shielding for the lowest background at any price, give you five times the counting speed of a 2" system. Low activity samples are no longer any problem.

You can count to a given statistical accuracy in less time than with any other system. Or, given a fixed time, count to far greater accuracy. Reproducibility is guaranteed.

LOWBETA II comes in automatic or manual models. Both have printed and visual readout and operate in preset time and preset count modes. Fully transistorized electronics assure reliability. The automatic sample changer holds 60 4½" samples—up to 100 of smaller sizes.

And LOWBETA II is moderately priced.

Let us show you how it outperforms five 2" systems. Call your local Beckman Sales Engineer today, or write direct for Data File LLB-15-164.

## **Sharpen knives automatically with the AO Microtome Knife Sharpener**

The AO Automatic Knife Sharpener reconditions microtome knives to like-new sharpness. It will sharpen a knife edge so perfectly that no subsequent stropping is necessary. And, it maintains and polishes the true, original bevel . . . both a sharp edge and a true bevel are prerequisites for a properly reconditioned knife.

On-the-spot sharpening facilities mean you always have the sharp knives you need for cutting consistently uniform serial sections. And you save money and time! You need fewer knives in stock . . . put an end to

the expense, inconvenience and lengthy delays of factory sharpening.

The AO Automatic Knife Sharpener is remarkably compact . . . requires no more bench space than your AO 820 Microtome. It's completely automatic . . . quiet, safe, efficient . . . and will sharpen any AO or similar microtome knife up to and including 185 mm. in length in just minutes.

For further information or a convincing demonstration, see your AO Sales Representative or write.
