

Take advantage of the **FREE** **REPLACEMENT** offer on **COREX® pipets**

We will replace . . . free . . . any COREX serological or Mohr pipets you buy between now and October 9, 1964, which become unusable for any reason in normal use on or before December 31, 1964.

We can make this offer because COREX pipets are six times stronger than any other pipet, so they last six times longer. You should take us up on it because this much longer life can cut your pipet replacement costs as much as 50%.

Get details today from your Corning rep, your lab supply dealer salesman, or write to us. Remember, the offer closes Oct. 9, 1964. Laboratory Glassware Dept., Corning Glass Works, Corning, N. Y.

ly dangerous contamination, and (iii) the development of measures to remove contaminants whose introduction we have been unable to prevent.

Biologic and toxicologic research, chemical and physical methodology, engineering for prevention of pollution, the use of substitute and less toxic materials where contamination is inevitable, and eventually further development of methods to restore polluted water insofar as possible are all essential. Anderson also cautioned about the creation of other hazards in solving a problem. The elimination of enteric infections ranked high on Anderson's list of accomplishments but he cautioned again on our lack of knowledge concerning viruses and chemicals.

| Air Products and Chemicals, Inc. has production capability in all atmospheric and rare gases, fluorine and fluorine-containing compounds, various C ₁ -C ₄ range hydrocarbons, carbon monoxide, nitric oxide, and many other specialty gases oriented to laboratory, research, and pilot plant applications. | Air Products and Chemicals, Inc. gases are produced, processed, analyzed, and packaged under advanced control techniques that assure consistent quality. Constant monitoring by gas chromatograph, infrared spectrophotometer, and other analytical procedures maintains dependability to meet exacting customer requirements. | Specialists from Air Products engineering and research departments are available to assist customers in the solution of technical problems involving the application of specialty gases, as well as their more efficient and economical utilization. | Specialty gas customers are further served by availability of complete lines of gas handling equipment and accessories, instrumentation, and analytical accessories. Many items in these lines are of exclusive Air Products design and manufacture. Air Products engineering service is also available to assist with particular customer inquiries. |

IS THERE SOMETHING FISHY IN YOUR LAB RESULTS LATELY?

If your problem has to do with the purity of GC or TLC standards or supplies, or the accuracy of GC or TLC apparatus, Applied Science can help you. Applied Science leads the field in high-purity lipids, fatty acids, radiochemicals, cholesterol esters, triglycerides, and phosphoglycerides. A purity level of 99.5% is maintained unless otherwise stated. Test results on our own GC calibration standards are supplied to customers. We are proud of our highly purified TLC adsorbents and the GAS-CHROM supports sieved and treated in our labs, as well as the TLC apparatus and our GC supplies—packings, columns, accessories—most of which we use as well as sell. As for service, 90% of orders are shipped within 6 hours of receipt.
