

24,544 PETRI DISHES

IN ONE INCUBATOR

If you *did* have to load this many petri dishes (100x15 mm) in one incubator, it could be done in National's 32 cu. ft. model. However, practically speaking, Model 3512 provides 30 sq. ft. of shelf space; yet, requires floor space of but 3'x2½'. Extra shelves in addition to the six standard shelves are available. It can be fitted with 21 separate student training sections. Since shelves can be adjusted on movable brackets, work can easily be increased or rearranged.

Smaller models, 3516 and 3518, offer the same economical work area—floor space ratio. Models for use with CO₂ tensions are also available.

These incubators have been specifically designed for use by schools and public health bureaus and may be placed side by side for convenience and economy.

A well balanced mechanical convection produces even heat by distributing preheated air throughout the entire work space. Temperatures are maintained within one degree over a range of ambient to 65°C.

ing round-table discussion on the direction of developments in the science. In this broad perspective physical anthropology was seen as the study of the gamut of human variability.

At the meetings, the National Institute of Anthropology and the National University first issued two volumes, *Physical Anthropology 1953-1961* and *Yearbook of Physical Anthropology—1962*. These are volumes 9 and 10 of the Yearbook series formerly published by the Wenner-Gren Foundation for Anthropological Research. These and future issues may be secured from the Instituto de Antropología e Historia, Córdoba 45, Mexico 7, D.F. (\$4.50 per volume).

Research Gas News

FROM MATHESON

New! Higher Specifications!

Actual analysis proves Matheson offers the best Minimum Specifications on those gases classified as Research Grade and listed below.

	% by Vol.
Argon	99.9995
Carbon Dioxide	99.995
Carbon Monoxide	99.8
Chlorine	99.965
Helium	99.9995
Hydrogen	99.9995
Krypton	99.995
Neon	99.995
Nitrogen	99.999
Oxygen	99.95
Xenon	99.995

NEW! LOWER PRICES

Matheson's prices for these 11 gases are now the lowest in the industry. Prices include gas and cylinders. Write for new Research Grade Gas Price List.

NEW! CYLINDERS AT NO EXTRA COST

Lightweight Throwaway Cylinders?? No! No! Matheson uses I.C.C. approved high pressure cylinders. More steel, more strength. Priced so low you don't have to return them. If you should wish to return them, we'll pay you \$3.50 per cylinder.

No Deposit! No Demurrage!
on Research Grade gas cylinders

NEW GAS ADDED

Chlorine has been added to our list of Research Grade Gases

AN INVESTMENT IN QUALITY CARY Model 15 UV-Vis Spectrophotometer

For details on the Model 15, send for Data File E403-104.

Technical personnel are a large investment. Model 15's advanced design prevents their capabilities being instrument-limited. ■ **Reliability is an investment.** Model 15's quality and craftsmanship minimize expensive down-time. ■ **Versatility is an investment.** Model 15 has ten different accessories which mount in seconds into spacious sample compartment (5¼"x5½"x5¾") to offer ready adaptability to a wide range of problems. ■ **Performance is an investment.** Model 15's precision and repeatability meet tomorrow's needs as well as satisfying those of today. ■ **Make an investment in quality** with a CARY 15. Priced under \$12,000.

STERILE OR CONTAMINATED?

TSI TAPE

identifies the condition!

Protect laboratory personnel from contamination and assure **STERILE** glassware for each test by following this simple procedure:

1. Place all glassware in basket marked with TSI Tape.
2. After glassware has been autoclaved for 15 minutes at 250° F., TSI Tape will show a color change indicating "STERILE."
3. Following use, *and before disposing of dangerous material*, place glassware in basket marked with a new tape and autoclave.

TSI is the *only* tape which shows a color change after 15 minutes in the autoclave at 250° F. TSI Tape leaves no sticky residue when removed.

See your laboratory or hospital supplier for TSI (Time Sterile Indicator) Tape.

For samples and complete description write to:

PROFESSIONAL TAPE CO., INC.

365-L Burlington Avenue • Riverside, Illinois 60546

Electrothermal ARMoured HEATERS

Exceptionally well-adapted to **NUCLEAR RESEARCH TECHNIQUES**

Meets the need for an electric heating cable to operate under more severe conditions than tapes and for use at temperatures of 800°C. Supplied in standard dimensions shown and in lengths to suit individual requirements. For operation on power supply from 12 to 250 volts, A.C. or D.C.

The Electrothermal Armoured Heater is constructed of a mineral core and insulated according to temperature range. Resistance alloy is moulded in wire form beneath insulation covering and then enclosed in a braided nickel alloy sheath. Nickel alloy input terminals insulated with ceramic for trouble-free operation at maximum temperature. Braiding combines flexibility with excellent mechanical strength, to withstand handling and abrasion without injuring the heating element. Ideal where a high rate of heat transfer is required. May be applied directly to metal vessels or pipes and may be lagged or close-coiled.

* Successfully applied to METAL PIPES, CATALYST TUBES, METAL REACTION, VESSELS, ETC.
