PERSONNEL PLACEMENT

POSITIONS WANTED

Biochemist, Ph.D. 1956. Broad teaching experience, research in lipid and amino acid metabolism, radioimmunoassay, 6 months as head of endocrine laboratory; interested in clinical chemistry area with opportunity for teaching and research. Box 342, SCIENCE. 1/4

Biologist, Ph.D., university teaching, research experience, publications; seeks teaching, research. Box 347, SCIENCE. X

Clinical Chemist, M.S., experienced in supervising large hospital labs, teaching, developing new procedures, familiar with the newest instrumentation, seeks position in New York or vicinity. Box 350, SCIENCE. X

General Physiologist, Ph.D. seeks teaching-research position. Box 312, SCIENCE. X

Geology. Desire permanent opportunity teaching geology and related courses. Three years of college teaching, consulting; 4 years as geologist, Department of Interior; 2 years state survey. M.S. Box 337, SCIENCE. X

Physiologist, nerve-muscle. Associate professor, 10 years of academic experience. Desires teaching/research position, minimum administrative load. Box 343, SCIENCE. X

Research Director. Proven success record, top management experience, basic medical science training, publications, NDA experience. Attributes include organization, communication, development of new formulations, international experience. Seeking position offering challenge and opportunity. Box 336, SCIENCE. X

POSITIONS WANTED

Scientific Glassblower (Israeli) with 20 years of experience in research institutes, expert in quartz working, glass to metal seals and high-vacuum assemblies is looking for employment. Box 3, SCIENCE. X

(a) **Virology Ph.D.;** cancer, cell culture, infectious disease experience; available for research appointment. (b) **Botany Ph.D.;** bacteriology minor; space biology, fermentation, frozen food experience; seeks research or academic position. Write Woodward Medical Personnel Bureau, 185 N. Wabash, Chicago 60601.

POSITIONS OPEN

Graduate Assistantships and Fellowships Biochemistry

Director of Graduate Studies, Department of Biochemistry, State University of New York at Buffalo.

WEST VIRGINIA UNIVERSITY Department of Biology

Applications are invited from persons suitably qualified for appointments at either the Assistant or Associate Professor level. Persons in the following disciplines: experimental plant anatomy, ecology, developmental biology, cellular, and reproductive physiology should submit curriculum vitae and list of publications to **Dr. Earl L. Core, Chairman.**

POSITIONS OPEN

BIO-ANALYTICAL OR CLINICAL CHEMISTS

To fill two challenging new positions with a rapidly expanding laboratory:

1. R&D in clinical methodology. Publications and facility at technical writing required. An opportunity for a creative chemist with a strong background in clinical chemistry. Salary open.
2. Automation research in clinical and biochemical methodology. Some experience necessary.

This 128-channel pulse height analyzer—yours, at the price of a single-channel unit!

\$3650*, that's all it takes to own the ND-110. And just think how much more you accomplish with a 128-channel instrument:

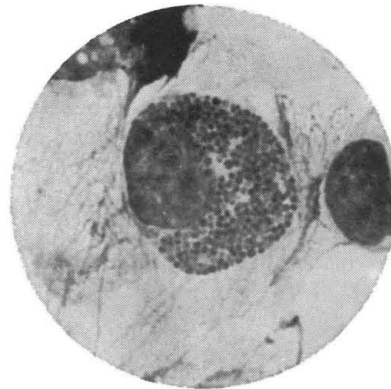

- 128 channels eliminate the need to position a peak in a "window" and try to hold it there. Readings are fast, clear, accurate.
- In the multi-scaling mode you use the ND-110 as 128 scalers and record events as a function of time. Ideal for studying isotope flow in plants, organs or animals—because you get numbers instead of an analog curve.

• In illustrating energy and half life characteristics of radiation emitted by different elements, the ND-110 shortens experiments. Students can plot the whole energy spectrum and radiation decay in two simple counting operations.

All this and much more with the 128 channel ND-110—just \$3650. Also available with display monitor (shown above), digital printer, shield assembly and scintillation detector (a complete radiation analysis system). *Write for ND-110 literature today.*

*Price for U.S.A. and Canada: Export Price add 10%

The AO Microstar gives you flat field optics and more . . .

**It gives you versatility never before possible
in one microscope. To illustrate . . .**

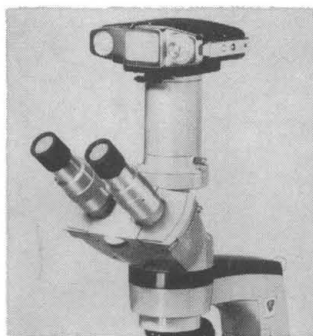

only AO Microstar® gives you all these extra features:

DUAL VIEWING MICROSCOPY:

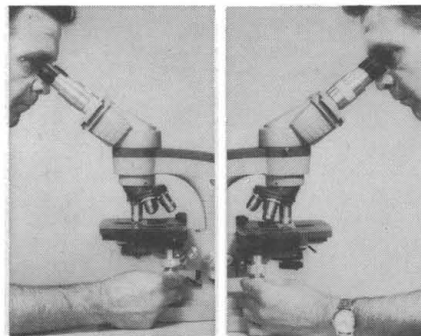

There is nothing like it for teaching and consultations . . . simultaneous viewing plus an illuminated pointer that positions anywhere in the field.

GADGET-FREE PHOTOGRAPHY:

Simple, most convenient photomicrographic system yet for black and white or color. Choice of 35mm or Polaroid.

RIGHT OR LEFT HAND STAGES:

Whether you prefer to face the front or back of the instrument . . . use your right or left hand . . . AO has the mechanical stage to fit your exact needs.

And there are more . . . Superb color correction, timesaving "auto-focus", converging or parallel eyetubes, focusing nosepiece, viewing screen . . . See them all in one complete demonstration by your AO Representative. Contact him soon or write:
