Can an engineer flunk Fortran and still find happiness?

Happiness is
finding a digital computer with a simple keyboard,
whose language is algebra.

Happiness is
having 48 to 88 individually addressable storage registers
plus 5 separate registers for arithmetic manipulations,
480 steps of program memory,
and/or 18 optional prewired programs of 48 steps each,
right in your own department.

Happiness is
not spending a million dollars for a digital computer,
or \$50,000, or \$20,000, or even \$10,000.

Happiness is
getting 8 to 9 significant digit accuracy
with a 2 digit power of ten exponent,
automatic decimal placement,
paper tape readout,
100 column number capacity.

Happiness is
getting intelligent accessories,
like a paper tape punch and reader,
or a page printer.

Happiness is
a Mathatron 8-48 plus the new
Auxiliary Program Storage.

New AAAS Symposium Volume ENVIRONMENTAL VARIABLES IN ORAL DISEASE

Editors, Seymour J. Kreshover and F. J. McClure, 328 pp., illus., bibliography index, 1966. Price: \$8.75. AAAS members' cash orders: \$7.75.

Recent research on the role of environmental factors in oral disease is reported in this collection of papers from a symposium held at the AAAS meeting in Montreal, December 1964.

Twenty-four distinguished scientists present their findings in 17 chapters under four general headings:

Geographical and clinical consideration.

Nutrition and dental caries.

Experimental considerations in oral soft tissue lesions.

Prenatally induced oral anomalies.

AMERICAN ASSOCIATION FOR THE ADVANCEMENT OF SCIENCE

1515 Massachusetts Ave., N.W.
Washington, D.C. 20005

SENIOR CHEMIST, Ph.D. NUCLEOTIDES

An excellent opportunity exists for a Senior Chemist in a newly established group within our Chemical Research Department.

This professional will participate in an interdisciplinary approach to problems in the general field of molecular biology; and will be expected to contribute to overall planning; his immediate responsibility will be the chemical synthesis and manipulation of nucleotides, and related topics.

Our research laboratories are conveniently located in a pleasant North Jersey suburb 30 minutes from NYC.

If interested in this opportunity, please forward a summary of your background to:

PERSONNEL PLACEMENT

POSITIONS WANTED

Bacteriologist/Clinical Chemist. 15 years' experience including 10 years as laboratory director. Seeks interesting position in hospital, research, or industry. Experienced in manufacture of reagents for clinical chemistry and diagnostic aids for bacteriology. Writing ability. Varied interests. Box 125, SCIENCE. 6/17

Cytogeneticist Ph.D. Experience in tissue culture. Research preferably with teaching. West. Box 126, SCIENCE. X

Ecology, Entomology Ph.D. Physiological ecology, 6 years of teaching experience at university level in entomology and zoology, background in morphology and systematics. Box 127, SCIENCE. X

Microbiologist Ph.D. Microbial genetics and physiology; 12 years of medical school teaching, postdoctoral and independent research experience. Seeking academic or research position. Box 119, SCIENCE. 5/10

(a) **Microbiology Ph.D.:** immunology, physiology minors; university teaching; tumor, metabolism, atmospheric research experience; prefers research or academic appointment. (b) **Zoology Ph.D.:** entomology M.S.; seeks teaching or research position. Write Woodward Medical Personnel Bureau, 185 North Wabash, Chicago 60601. X

Physiologist/Endocrinologist, Ph.D., background in zoology, biochemistry, and physiology. Grants societies, publications. Currently holding tenured position in eastern medical school. Desires advanced academic/administrative post in biology or physiology department with established graduate program or opportunity to develop one. Prefer West Coast or Northeast but location not major concern. Box 128, SCIENCE. X

POSITIONS WANTED

Veterinary-Virologist, 11 years' experience, 4 years' work with tropical virus diseases, seeks position in U.S. Box 129, SCIENCE. 6/17

POSITIONS OPEN

BROCK UNIVERSITY Department of Biosciences

Applications are invited, from persons with experience in establishing and maintaining stores in Biology or Chemistry, for the position of Senior Storekeeper in this new Department. Duties commence July 1966. Apply, stating experience and giving the names of two referees, to the Head, Department of Biosciences, Brock University, St. Catharines, Ontario, Canada.

ENDOCRINE- PHYSIOLOGIST

Seeking a Ph.D. with a strong formal training in endocrine physiology and experience or interest in the biochemistry of endocrine functions. Duties will involve aiding in the design, direction and evaluation of fundamental research efforts in various aspects of the endocrine system as well as some future product development. In addition, individual will supervise a group of two or three junior scientists. Liberal company benefit program.

Please send resume to Cyrus M. Greenberg, Ph.D., Director of Scientific Employment, SMITH KLINE & FRENCH LABORATORIES, 1504 Spring Garden Street, Philadelphia, Pa. 19101. An equal opportunity employer.

POSITIONS OPEN

ANIMAL BEHAVIORIST PSYCHOLOGIST

Challenging opportunity for a Ph.D. or M.S. with strong interest in behavioral science.

Research project involves working with other scientists in defining the neurophysiological, pharmacological, and behavioral effects of air pollutants.

Excellent opportunities for advancement. Civil Service requirements apply. Liberal benefits including life insurance, health insurance and sick leave, vacation and retirement plans. Major costs of travel as well as transportation of household goods and personal effects to Cincinnati, Ohio, area will be paid by employer. U.S. citizenship required. Send resume (transcripts and list of publications desirable) or application (Standard Form 57), available from any post office to:

Geologists; Geophysicists;

**Department of National Development
AUSTRALIA**

Geophysicists Class 3

(2 positions)
\$A5,826 - \$A6,446

Geologist Class 3

\$A5,826 - \$A6,446

Applicants should have considerable experience in geological interpretation of geophysical results, particularly seismic. For the second geophysicist post, experience in seismic geophysical survey is necessary. Qualifications should be a degree or better from an appropriate University and passes in physics and mathematics at second year standard, and one or more of the following subjects: geophysics, physics geology, mathematics, electronics or electrical radio or mining engineering at third year standard or other equivalent educational qualifications.

Applicants for this post should have either a degree in geology (preferably with honours) of an appropriate University with a major in geology or other equivalent educational qualifications. Applicants who should have had a wide experience in subsurface geology will be required to supervise and conduct sedimentary petrology on sedimentary basins in Australia and Territories.

Geophysicists Class 1

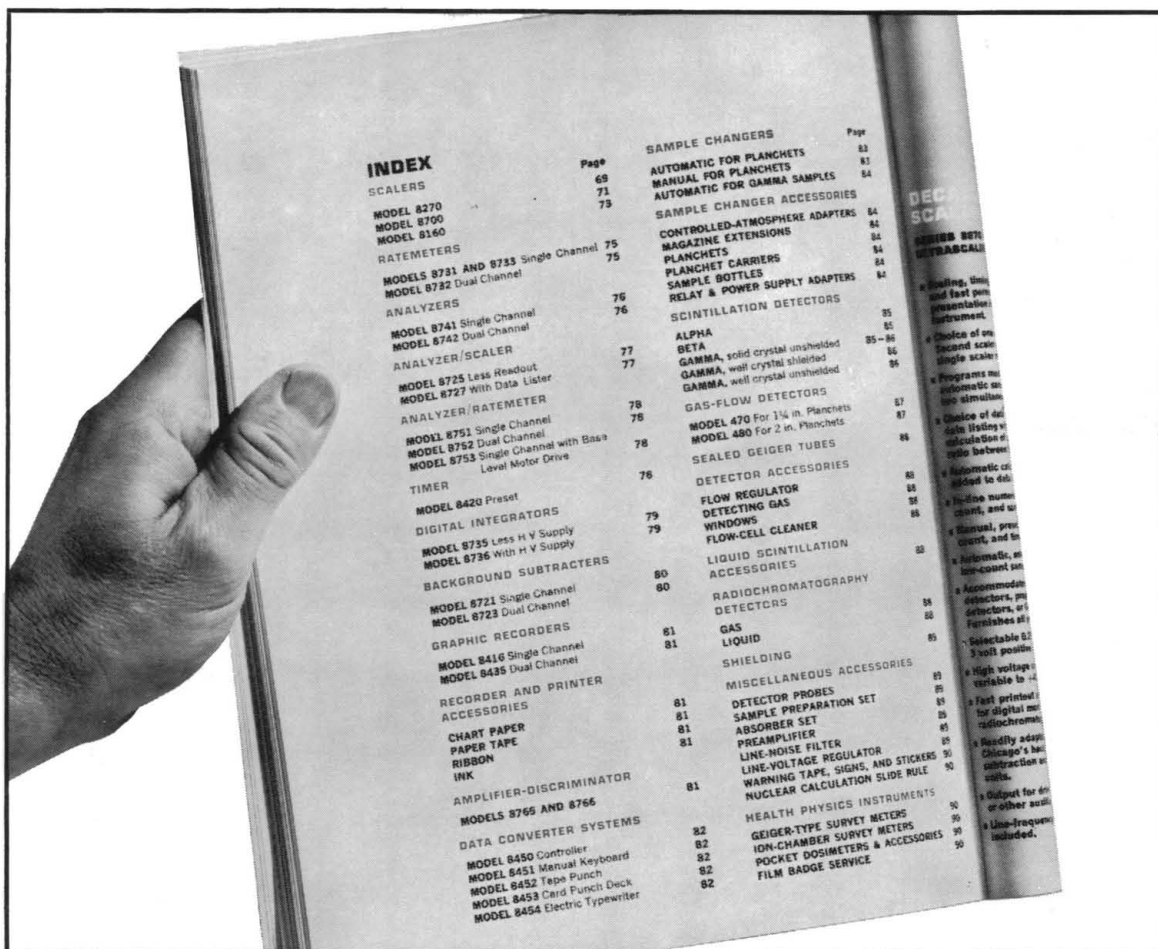

(3 positions)
Macquarie Island,
Wilkes, Mawson.
Australian National
Antarctic Research
Expedition.
\$A2,960 - \$A4,768

The successful applicants' duties will include maintaining and standardising recording geomagnetic and seismological equipment, processing photographic records and carrying out preliminary evaluations to be made in Canberra during the following year. Qualifications should be a degree or better from an appropriate University and passes in physics and mathematics at second year standard and one or more of the following subjects: geophysics, physics, geology, mathematics, electronics or electrical radio, or mining engineering at third year standard or other equivalent educational qualifications. An initial period of preparatory work will be spent in Canberra followed by approximately twelve months at the Station. Tentative sailing date: late December 1966. While absent from Australia, kitting and maintenance are provided free by the Commonwealth and there is an overtime allowance of 37½ per cent of salary up to a maximum of \$1400 per annum. An additional district allowance of \$650 for married men and \$400 for single men is also paid. Recreation leave accrues at the rate of five weeks per annum. Subject to the provisions of the Income Tax and Assessment Act, Zone Allowance deductions of \$540 may be allowable. Applications will be considered for Antarctic duties in later years. Following this tour of duty with the Antarctic Research Expedition a transfer will be made to one of the appropriate divisions of the Geophysical Branch.

Salaries will be paid to the successful applicants from the date of embarkation at a United Kingdom (or other overseas) port. Fares of successful applicants and those of their families (if any) will be paid subject to the applicants completing a bond of service to remain in the service of the Commonwealth for at least three years.

Application forms can be obtained from the Official Secretary, Australia House, Strand, London, W.C.2. England, marked Attention:—Department of National Development. Closing date for applications: 24th August 1966.

Even the "miscellaneous" took us 24 pages.

Get the full details on our radiation
counting instruments and accessories
(as well as our complete counting systems)
for life-science research.

Ask for our new 96-page catalog.

It has 24 pages on our liquid scintillation counting systems, 16 on planchet counting systems, 12 on gamma counting systems, 12 on radiochromatography systems, and, as the picture shows, 24 pages on "miscellaneous." The remaining 8 pages tell you about radiochemicals, the Data Retrieval Computer System, and other items of interest.

Within these 96 pages, you're sure to find the instrument or system that you're looking

for. To get a copy of Catalog LSR-100, call your local Nuclear-Chicago sales engineer or write to us.
