

NEW from PHOENIX

LIQUID CHROMATOGRAPHY HANDBOOK

This 110 page pocket size ring-binder handbook from the Phoenix Precision Instrument Co. describes and illustrates some of the most widely used automatic equipment in the field of ion exchange chromatography as applied to amino acid and nucleic acid analyses.

HANDBOOK INCLUDES:

■ Applications ■ Principles of Operation ■ Sample Preparations ■ Actual Chromatograms and their Interpretations ■ Special Section on Instrument Maintenance and Trouble Shooting.

Write for your free copy on your letterhead to:

A Subsidiary of **CERCO** Instruments Corp.

3803-05 North Fifth Street, Phila., Penna., 19140, U.S.A.
World Wide Sales & Service

NOW A SIMPLE, DISPOSABLE ELECTROPHORESIS SYSTEM

WITH 2 DIFFERENT APPLICATIONS:

1. **HYLAND LDH ISOZYMES TEST**

for semiquantitative differentiation of lactic dehydrogenase isozymes

2. **HYLAND HEMOGLOBIN ELECTROPHORESIS TEST**

for separation, differentiation, and identification of human hemoglobins

The two tests are separately packaged, each comprising an integrated, easily-set-up system for semiquantitative electrophoresis by the agar gel method. Kits contain reference controls, agar gel plates, and all necessary reagents and equipment, except for a power supply, for up to 60 determinations. A power supply which will provide a current of up to 50 ma. is available separately. Write for complete details.

FREE TRIAL OFFER

Isn't it time you looked into a
CHROMATO-VUE®
Cabinet?

Borrow this portable fluorescent analysis darkroom. Use it in your own laboratory with your own paper and thin layer chromatograms. Find out if you are seeing everything you should. Let your staff enjoy working with it on a day-to-day basis. Much more than just an ultraviolet lamp, the CHROMATO-VUE® is an analytical instrument, with two high intensity ultraviolet lamps and controls designed for convenience and efficiency. See for yourself how much more contrast, brightness and clarity you get with a CHROMATO-VUE. Then you'll know why 1 out of 2 who try it, buy it. No obligation, but this free trial offer is for a limited time. We arrange delivery, personal demonstration and return. Write us now for details.

ANALYTICAL AND PREPARATIVE DISC ELECTROPHORESIS

Precise and rapid high resolution fractionation of complex organic compounds
• PROTEINS • POLYNUCLEOTIDES • PEPTIDES • ENZYMES • HORMONES
under efficient temperature regulated conditions. Temperature regulated bath permits fractionation of heat labile substances.

POLYANALYST

- Compact and convenient to use
- 0.005 to 0.2 mgm/column
- Fractionation 30-45 minutes
- 12 sample columns
- Separation-destaining in single unit

Bulletin #S-3-1750

POLY-PREP

- Continuous, symmetrical elution of fractions
- 1 mgm to 200 mgm capacity
- Sample volumes to 160 ml
- Gel length 1-20 cm
- Fractionation in less than 10 hrs.

PHARMACOLOGIST

Rapid expansion and growth of Syntex Research has created an immediate opening for a Pharmacologist with Ph.D. or equivalent Degree, and broad, rather than specialized training and interests. Some industrial experience preferred, but not a condition.

Responsibilities will include the organization and general build-up of a staff to provide competent pharmacologic research services for the Institute of Clinical Medicine.

Syntex is an international, ethical pharmaceutical company and provides an excellent research climate. Its U.S. subsidiary is located in Palo Alto, California, adjacent to Stanford University, 35 miles south of San Francisco.

Please send resume in complete confidence to:

Mr. Robert P. Dilks

Employment Manager

SYNTEX RESEARCH

PERSONNEL PLACEMENT

POSITIONS WANTED

Pharmacologist, Ph.D. Extensive laboratory and administrative pharmacologic background. Seeks responsible position in research and development, industry or government. Box 276, SCIENCE.

(a) **Physiology Ph.D.; M.D.;** respiration, lung function research, computer use; prefers research or academic appointment. (b) **Bacteriology Ph.D.;** biochemistry minor; radioisotope training; genetic research teaching experience; desires research or academic position. Write **WOODWARD MEDICAL PERSONNEL BUREAU**, 185 North Wabash, Chicago 60601. X

Science Editor. Free to relocate; highly developed language skills; broad science and engineering background; desires challenging position in science documentation. Box 278, SCIENCE. X

POSITIONS OPEN

ACADEMIC OPENING

Ph.D. in physics, physical chemistry or engineering, to teach undergraduate physics in small, young college. Previous teaching experience preferred. Salary and rank commensurate with experience. Write to:

DR. ERWIN DELANO
PHYSICS DEPARTMENT
ST. JOHN FISHER COLLEGE
ROCHESTER, NEW YORK 14618

LAB . . .

CHIEF MICROBIOLOGIST

400 Bed Bronx Teaching Hospital offers an excellent opportunity for a Microbiologist experienced in clinical procedures to direct and supervise a staff of 7 Technicians in Microbiology, Serology and Parasitology. Ph.D. preferred, Masters considered. Full range of benefits including liberal tuition refund. Salary commensurate with education and experience. Send resume to: Box S 1438, 125 W. 41 St., NYC 10036. An Equal Opportunity Employer

POSITIONS OPEN

Applications are being accepted for two training programs in Steroid Biochemistry sponsored by the National Cancer Institute, one in Salt Lake City, Utah, the other in Worcester, Massachusetts. Both programs will include lectures, laboratory sessions, and research, designed to train investigators in theoretical and methodological aspects. Stipends will vary according to the recipients' degrees. Application deadline: 1 April.

The program, established in Salt Lake City by the University of Utah, is open only to persons with an M.D. or Ph.D. Appointments are for 2 years. (Kristen Eik-Nes, Department of Biochemistry, University of Utah, Salt Lake City.) Predoctoral and postdoctoral candidates will be considered for 1-year, renewable appointments in Worcester. The program is organized by the Worcester Foundation for Experimental Biology and Clark University. (Fernand G. Peron, Worcester Foundation for Experimental Biology, 222 Maple Avenue, Shrewsbury, Massachusetts.)

College graduates at the bachelor's level, or higher, to work in pleasant surroundings in challenging research and laboratory positions; scientific education and experience desired; age open; salary commensurate with background; excellent benefits. Please write **Personnel Department, Indiana University Medical Center**, 1100 West Michigan Street, Indianapolis, Indiana.

GENETICIST

Ph.D. to teach genetics, general botany, and principles of biology in undergraduate college. Excellent research facilities in new science building. Write: **Sumner Richman, Department of Biology, Lawrence University**, Appleton, Wisconsin 54911.

POSITIONS OPEN

GRADUATE STUDY IN PHARMACOLOGY. A program leading to the Ph.D. degree involving course work and research training which stresses research on fundamental mechanisms of drug action on neural, neurohumoral, membrane transport, and endocrine systems using electrophysiological, biochemical and computer techniques. Full stipend and tuition available. Early application for September 1967 strongly advised. **Department of Pharmacology, Schools of Medicine and Dentistry, State Univ. of New York at Buffalo**, 122 Capen Hall, Buffalo, N.Y. 14214.

GOVERNMENT OF NEW ZEALAND

VACANCY for Chief Advisory Officer (Plant Health)
Wellington (Vacancy No. 4802).

SALARY: In the range £1,895 to £2,365 depending on experience and qualifications.

QUALIFICATIONS

REQUIRED: A recognised University Degree in Science or Horticulture; wide practical experience in Horticulture generally, and knowledge and experience in the field of disease and pest control.

DUTIES: Provide advice and assistance on plant quarantine matters and the issuing of permits for the import and export of horticultural products. Responsible to the Director for the review and maintenance of standing procedures and the post entry quarantine treatment and release of plants. Initiate and co-ordinate action on outbreaks of new and established plant pests and diseases.

Applications close on 28 February 1967 and should be addressed to the New Zealand Embassy, 19 Observatory Circle, NW, Washington, D.C. 20008.

(A) Faculty Appointments, Ph.D., M.S. animal and embryo microbiology, to \$14,000. (B) Pharmacologist, Ph.D. experienced in administration and development of pharmaceuticals in animal and human health and nutrition products field, \$20,000 up, fee paid. (C) Biologists, Ph.D., M.S. to do research on anadromous fish, to \$14,000. (D) Toxicologist experienced in the chemistry, metabolism, and toxicity of pesticide chemicals, to \$13,000, fee paid. (E) Organic Chemistry, Ph.D. with 5 years postdoctoral experience in medicinal chemistry, to \$14,000. Write Science, The Medical Bureau, 900 N. Michigan Ave., Chicago, Illinois 60611.

Immunologist Biochemist-Immunochemist — For research with antigens and antibodies. To conduct studies on purification and characterization and to develop immunological methods for studying problems of reproduction in animals and humans. Salary open depending on qualifications. **Center for Research in Reproductive Biology, 202 Women's Hospital, University of Michigan Medical Center, Ann Arbor, Michigan.**

Predoctoral Assistantships and Traineeships in Physiology

Excellent opportunities for graduate students leading to the Ph.D. Ample stipends and free tuition. Training and research in endocrinology, gastrointestinal, water and electrolyte metabolism, cardiovascular, sensory physiology, biophysics and bioengineering. Write for details, to:

Head, Department of Physiology
University of Illinois at the Medical Center
P.O. Box 6998
Chicago, Illinois 60680

VIRUS CONTROL IN SPACE FLIGHT

VIROLOGIST to participate in setting up a laboratory and evaluating methods of virus control in spacecraft. SALARY \$10,000 or more, depending on qualifications of applicants with advanced degree. Generous fringe benefits.

SEND resume to Personnel Officer, U.S. Public Health Service Hospital, 15th Ave. & Lake St., San Francisco, Calif. 94118. Federal civil service position. ALL qualified applicants will be considered. Non-discrimination in employment.

Chemistry Department, University of Victoria, Victoria, B.C., Canada. Two Faculty Positions. (1) Inorganic with emphasis on X-ray crystallography or other structural technique. (2) Any branch with theoretical emphasis. Applications close March 15, 1967. Appointment for July 1, 1967.

UNIVERSITY OF SURREY

SENIOR-LEVEL HUMAN NUTRITIONIST with appropriate background (e.g. biochemistry, physiology, medicine, or survey work) required for Biochemistry Dept. of University of Surrey, London, S.W.411, England, to conduct independent research and to contribute to advanced teaching. The post is a Readership (=Associate Professorship), with starting salary which could be over £3,000 sterling. The Department is now planning new laboratories at Guildford, for occupancy in 1969. Enquiries with an outline of past career should be sent to the Staff Officer.

FELLOWSHIPS

GRADUATE STUDY IN THE ANATOMICAL DISCIPLINES leading to the Ph.D. degree. Preference is given to biology majors, but others may be admitted. Graduate training is offered in Radiation Biology, Aging, Neuroanatomy, Hematology, Teratology, Vital Microscopy, Cell Biology, Endocrinology and Experimental Embryology. **FELLOWSHIPS**, which are tax free, pay \$2,400 to \$2,600 plus tuition. Write Dr. Roger C. Crafts, Chairman, Department of Anatomy, University of Cincinnati College of Medicine, Cincinnati, Ohio 45219.

Postdoctoral U.S.P.H.S. Fellowships in reproduction biochemistry are available July 1, 1967. The training and research is in steroid and protein biochemistry. The program is for two years and includes travel funds to meetings as well as stipends to \$7500 per year. Write for details to:

Paige K. Besch, Ph.D.
Department of Obstetrics and Gynecology
Ohio State University Medical School
Columbus, Ohio 43210

PRE AND POSTDOCTORAL FELLOWSHIPS IN GENETICS

A number of fellowships are available at Kansas State University for candidates seeking further training in Genetics. K.S.U. has an active interdepartmental program for the study of molecular and cellular genetics. Awards are open only to U.S. citizens and will be made on a competitive basis. Applicants for predoctoral training must have a B average during junior and senior undergraduate years. Postdoctorals must have suitable letters of reference. For further information and application forms (closing date February 15, 1967) please write K. W. Fisher, Dept. of Physics, Kansas State University, Manhattan, Kansas 66502.

**This is a new
automatic pipette.**

**Among other things,
it doesn't touch the
liquid it pipettes.**

(How's that again?)

When using the BIOPETTE automatic pipette, all of the measured aliquot is held in the disposable plastic tip. The liquid never has to enter the housing of the BIOPETTE itself. Hence, the BIOPETTE stays clean, can't contaminate anything else, and doesn't need washing. And to switch from one liquid to another: just put in a new disposable tip. Period.

Fast? It takes approximately 2 seconds for *both* filling and discharging. Without sacrificing accuracy.

Safe? Safety is inherent in the design. Liquid does not come in contact with operator.

Reproducible delivery volume? Using the same instrument: $\pm 1\%$.

Easy to use? Yes. With virtually no training. Requires no special "touch" or technique. (Goodbye meniscus.) Weighs less than 2 oz. with tip.

Economical? If time *is* money, yes. Two ways: greatly reduces time for pipetting; totally eliminates time required for the washing ritual. (Special bonuses: no broken or contaminated glass pipettes.)

Useful? Without doubt. Interesting current animal care

applications include, for example, forced feeding, artificial insemination, blood dilutions, and so forth.

Guarantee? A real one, lasting ten years. If a problem develops (unlikely), we will immediately send you a replacement BIOPETTE automatic pipette while we fix yours for you. Or we'll throw yours away and let you keep the replacement.

For further information and prices, please write: Lab Cages Inc., 126 John St., Hackensack, New Jersey 07602. (And why not ask for our new, interesting catalog also?)

lab cages inc.

A SUBSIDIARY OF BECTON, DICKINSON AND COMPANY

BIOPETTE is a trademark of Becton, Dickinson and Company.

**A lot of life scientists who buy our
liquid scintillation systems also buy
radiochemicals and accessories from us.**

And vice versa.

Some start big with us in liquid scintillation counting. They see the unparalleled performance we build into our complete systems. Top of the line is the Mark I™ Liquid Scintillation Computer (shown above). It has everything it takes for simple, high-performance counting of soft-beta radioisotopes. And system owners stay with us, because we do equally well in supplying everything else they need for their counting programs, right down to the smallest item.

Those researchers who come to us for something as simple as a sample bottle quickly discover that small orders get big service. Plus our knowledgeable, personalized help whenever they're ready to move ahead with us in liquid scintillation counting.

So, whatever you want—complete counting systems, standards, sample blanks, chemicals, solvents, radiochemicals, or sample bottles—Nuclear-Chicago can supply it.

To take advantage of this single source of supply for everything in liquid scintillation counting, consult your local Nuclear-Chicago sales engineer. Or write directly to us. NUC-B-8-224
