

National Meetings

10-13. **Mining**, conv., Denver, Colo. (R. W. Van Evera, AMC, Ring Bldg., Washington, D.C. 20036)

10-15. **American Chemical Soc.**, 154 annual mtg., Chicago, Ill. (A. T. Winstead, ACS, 1155 16th St., NW, Washington, D.C. 20036)

11-13. **Electric Propulsion and Plasmadynamics**, conf., Colorado Springs, Colo. (Meetings Manager, American Inst. of Aeronautics and Astronautics, 1290 Sixth Ave., New York 10019)

11-13. **Space Simulation**, 2nd annual conf., Philadelphia, Pa. (J. Wheeler, ASTM, 1916 Race St., Philadelphia)

11-14. **Instrument Soc. of America**, 22nd annual conf., Chicago, Ill. (M. Reed, ISA, 530 Wm. Penn Pl., Pittsburgh, Pa.)

11-16. **Magnetism**, intern. congr., Boston, Mass. (J. S. Smart, IBM Thos. J. Watson Research Center, Yorktown Hgts., N.Y. 10598)

12-14. **Chemical Vapor Deposition of Refractory Metals, Alloys and Compounds**, conf., Gatlinburg, Tenn. (J. E. Cunningham, Metals and Ceramics Div., ORNL, Box X, Oak Ridge, Tenn. 37830)

12-14. **Materials Sciences in Oceanography**, symp., New York, N.Y. (D. H. Kallas, U.S. Naval Applied Science Lab., Brooklyn, N.Y.)

14-16. **American Thyroid Assoc.**, annual mtg., Ann Arbor, Mich. (W. McConahey, ATA, 200 First St., SW, Rochester, Minn. 55901)

15-23. **American Acad. of General Practice**, mtg., Dallas, Tex. (M. F. Cahal, AAGP, Volker Blvd. at Brookside, Kansas City, Mo.)

17-20. **Petroleum Mechanical Engineering**, conf., Philadelphia, Pa. (A. B. Conlin, Jr., ASME, 345 E. 47 St., New York 10017)

18-20. **Electrical Insulation and Dielectric Phenomena**, conf., Pocono Manor, Pa. (Col. R. A. Cliffe, Conf. on EIDP, National Acad. of Sciences, 2101 Constitution Ave., NW, Washington, D.C.)

18-20. **Society of Logistics Engineers**, 2nd annual conv., Washington, D.C. (J. L. Carpenter, Jr., Martin-Marietta, Friendship Intern. Airport, Baltimore, Md. 21240)

18-20. **Standards Engineers Soc.**, 16th annual mtg., Detroit, Mich. (B. J. Powell, Bendix Corp., Res. Lab. Div., Southfield, Mich. 48076)

18-21. **Marine Corrosion**, seminar, Wrightsville Beach, N.C. (T. P. May, Box 656, Wrightsville Beach)

18-21. **Pulp and Paper**, 22nd engineering conf., Atlanta, Ga. (H. B. Harris, Jr., Union Camp Corp., Savannah, Ga.)

18-22. **Localized Excitations in Solids**, Los Angeles, Calif. (A. A. Maradudin, Dept. of Physics, Univ. of California, Irvine 92664)

19-22. **Pulsed High-Density Plasmas**, conf., Los Alamos, N.M. (F. L. Ribe, Los Alamos Scientific Lab., Box 1663, Los Alamos 87544)

21-24. **American Medical Writers' Assoc.**, annual mtg., Chicago, Ill. (E. G. Dailey, AMWA, Box 267, Arlington, Va. 22210)

PERSONNEL PLACEMENT

CLASSIFIED: Positions Wanted. 25¢ per word, minimum charge \$4. Use of Box Number counts as 10 additional words. Payment in advance is required. Send copy for position wanted ads to:

SCIENCE
1515 Massachusetts Ave., NW
Washington, D.C. 20005

COPY for ads must reach **SCIENCE** 2 weeks before issue date (Friday of every week).

DISPLAY: Positions Open. Rates listed below—no charge for Box Number. Rates net. No agency commission allowed for ads under 4 inches. No cash discount. **Minimum ad:** 1 inch. Ads over 1 inch will be billed to the nearest quarter inch. Frequency rate will apply only to repeat of same ad. No copy changes. Payment in advance is required except where satisfactory credit has been established. Send copy for display advertising to:

SCIENCE
Room 1740
11 West 42 St.
New York 36

Single insertion \$75.00 per inch
4 times in 1 year 70.00 per inch

For **PROOFS** on display ads, copy must reach **SCIENCE** 4 weeks before date of issue (Friday of every week).

Replies to blind ads should be addressed as follows:

Box (give number)
SCIENCE
1515 Massachusetts Ave., NW
Washington, D.C. 20005

POSITIONS WANTED

Anatomist Ph.D., seeking academic position to teach gross anatomy and neuroanatomy; member of American Association of Anatomists; postdoctoral research training. Write for curriculum vitae to Box 522, **SCIENCE**. 9/1

Academic: Surface Chemistry, Polymers, colloids. Ph.D. physical chemist, age 44, with 14 years' industrial research experience in surface-active agents, micelles, solubilization, rheology, polymer characterization, seeks faculty position in biochemistry or pharmacy department to do research, direct theses, teach. Thirty publications, languages. Box 534, **SCIENCE**. X

Biochemist, Ph.D., 1966. Female; New Jersey area. Research in metabolic disorders. Box 535, **SCIENCE**. 9/1, 8, 15

Electron Microscopist, M.S., seeks position as laboratory coordinator, research and clinical experience, prefers East. Box 536, **SCIENCE**. X

Microbiologist, M.S., extensive research experience in microbiology, virology, tissue culture, immunology seeks immediate research position, academic or industry. Box 537, **SCIENCE**.

Microbiologist Ph.D. Successful life science aerospace chief, publications, broad activity spectrum including biomedical instrumentation, solid customer relations, desires reaffiliation. Box 538, **SCIENCE**. X

Ph.D. Broad synthetic polymer experience. Seeks challenge in biopolymer research. Mid-Atlantic or West Coasts. Box 539, **SCIENCE**. X

Ph.D. Insect Toxicology (biochemistry and genetics), 3 years' postdoctorate, desires a suitable position in Canada. Box 540, **SCIENCE**. 9/8

Palynologist, Paleobotanist, Ph.D., trained in Europe, 15 years' laboratory and field experience, over 20 publications, seeks research position in university or commerce, Christopher Bitner, 52 Charter Oak Ave., Hartford, Conn. X

POSITIONS WANTED

Administrative Assistant Coordinator, B.A. social sciences; editing, secretarial skills, mature; seeks health program opening. Prefers D.C. area, all considered. Box 545, **SCIENCE**. X

Pharmacologist/Physiologist, Ph.D., publications, postdoctoral training in renal physiology. Seeking industrial or academic/research position; preferably in the southeast or midwest. Box 541, **SCIENCE**. X

(a) **Physics Ph.D.**; mathematics minor; university teaching, electronic equipment design experience; prefers academic or research appointment. (b) **Cytology Ph.D.**; completing postdoctoral studies cytotoxicity-cytogenetics of grafts; seeks research or teaching opportunity. Woodward Personnel Bureau, 185 North Wabash, Chicago 60601.

Poultry Nutritionist, Ph.D., world-wide traveled, 8 years' industrial experience, seeks position with academic institution or industry. Write for details. Box 542, **SCIENCE**. 9/8

Virology, Ph.D. 1967 seeks oncogenic virus research position. Box 543, **SCIENCE**. X

POSITIONS OPEN

Academic Pathologist. Immediate opening for qualified pathologist interested in devoting full time to teaching and research with no service responsibilities. Well-equipped research facilities including electron microscope available. Salary and rank dependent upon qualifications. Write: **Dr. Donald F. M. Bunce, II, Acting Chairman, Department of Pathology, College of Osteopathic Medicine and Surgery, 722 Sixth Avenue, Des Moines, Iowa 50309**.

ASSISTANT TOXICOLOGIST

Will help supervise Toxicological analysis and Poison Information and will assist in teaching and research. U.S. Citizenship, Master's degree and experience in Toxicology required. Write or call collect indicating minimum acceptance salary: **F. Rieders, Ph.D., Office of the Medical Examiner, 13th & Wood Sts., Phila., Pa. 19107. (215) MU 6-9700, Ext. 5198**.

Biochemist with M.S. or Ph.D. Degree, with or without experience in Biological testing of new drugs. Should be ambitious and energetic. Apply **Bio/toxicological Research Associates, Box 101, Spencerville, Ohio 45887**.

(a) **CLINICAL CHEMIST**, Ph.D., to be Assistant Director of Dept. of Chem.; experienced in supervision and operation of clin. chem. lab., incl. automated equipment; opportunities for research.

(b) **TOXICOLOGIST**, preferably M.D. or Ph.D., extensive experience in analytical toxicology for position as **CHIEF TOXICOLOGIST** in large clinical laboratory; primarily research and development plus consultation to routine toxicological lab.

(c) **CLINICAL CHEMIST**, Ph.D.; experienced in methodological research and development, automated and/or non-automated techniques; excellent modern facilities and equipment.

(d) **BIostatistician** to head up quality control program in large clinical laboratory and do research in quality control and the application of statistics to the clinical laboratory field. IBM 1440 and 1800 systems available.

Apply, with resume for (a) and (b) to **S. L. Jacobs, Ph.D., Director, Dept. of Chem.; (c) & (d) to V. J. Pileggi, Ph.D., Director of Research, BIO-SCIENCE LABORATORIES, 7600 Tyrone Ave., Van Nuys, Calif. 91405**.

PHARMACOLOGIST

Opportunity for BS Biologist or Pharmacy major with background in general or respiratory physiology/pharmacology.

Stimulating position in respiratory research involving you in respiratory drug evaluation, surgical procedures, dosage work and assisting in new methodology development. Experience in these pharmacology laboratory procedures is desirable; however, individual with equivalent background can be trained.

NATIONAL offers an outstanding opportunity in job, benefits and salary. As an ethical pharmaceutical division of Richardson-Merrell Inc. we have the association and work challenges of a small company combined with the growth and benefits of one of the largest pharmaceutical corporations. Please send your resume and letter in complete confidence to:

J. DOUGLAS DIETRICH

THE NATIONAL DRUG COMPANY

Division of Richardson-Merrell Inc.

4663 Stenton Avenue
Philadelphia, Pa. 19144

An Equal Opportunity Employer

EXPLORATORY ENTOMOLOGIST—State of Hawaii civil service position involving extensive travel in the United States and foreign countries to locate natural enemies of agricultural pests adaptable to biological control. Requires graduation from college with degree in entomology and 6 years' experience in insect pest research, of which 2 years shall have been in a supervisory capacity. \$8,508-\$11,388. Write Dept. of Personnel Services, 825 Mililani Street, Honolulu, Hawaii 96813.

GRADUATE STUDENTS IN ENGINEERING, MICROBIOLOGY, PHYSIOLOGY, & PSYCHOLOGY to participate in aerospace systems studies to be conducted in Dayton, Ohio. Excellent financial rewards and opportunity to continue course work while participating in the program. For further information, contact **Frank J. Schmidt**,

**REPUBLIC AVIATION DIVISION,
FAIRCHILD HILLER,
Farmingdale, L.I., N.Y. 11735**

An equal opportunity employer.

Health Science Administrator—The Air Quality Criteria Activity, National Center for Air Pollution Control, is interested in hiring a biological scientist or physician to participate in development of criteria of air quality for atmospheric pollutants. Experience in laboratory investigation, field studies or teaching is desired. Aptitude for medical writing is particularly desired. Part time employment of retired persons may be possible. Position is career civil-service and U.S. citizenship is required. There is no discrimination in employment. Please write: **Air Quality Criteria, Room 2516, National Center for Air Pollution Control, Washington, D.C. 20201.**

(a) **Microbiologist, M.S.** & (b) **Virologist, M.S.** to participate in clinical study of sterile environment in the treatment of leukemia. Large teaching & research center. Write to **Mr. H. Warrington, Personnel Dept., Maimonides Medical Center, 4802 Tenth Ave., Brooklyn, N.Y.**

Research Administrator:

With or without experience in administration. Research and advanced course work in Biomedical Sciences desirable. Located in pleasant academic environment. Please send resume including salary history to **The Ohio State University Research Foundation, 1314 Kinnear Road, Columbus, Ohio 43212.**

Pharmaceutical Chemists, Ph.D., M.S. and B.S. with experience in drug formulation. Challenging opportunity in a progressive company. **Smith, Miller, & Patch, Inc., 401 Joyce Kilmer Avenue, New Brunswick, New Jersey 08902.**

PHYSIOLOGIST / PHARMACOLOGIST —Ph.D.—

Seeking a Ph.D. in Physiology or Pharmacology with interest and some training in the gastrointestinal system. Person will participate in the planning, investigating and evaluating research in a program designed toward developing new chemotherapeutic agents for use in gastrointestinal disorders. Will supervise a group of 2 to 3 junior scientists. Position offers an opportunity to work closely with scientists trained in a variety of disciplines. Company offers a liberal salary and benefit plan. Please send resume and salary requirements to: **CYRUS M. GREENBERG, Ph.D., Director of Scientific Employment.**

**SMITH KLINE &
FRENCH LABORATORIES**

1542 Spring Garden Street
Philadelphia, Pa. 19101

An Equal Opportunity Employer

RESEARCH OPPORTUNITIES

Ph.D. Food Chemists, Food Engineers, Food Technologists, and Food Microbiologists, with leadership ability for research positions in Winter Haven, Florida; Weslaco, Texas; or Raleigh, North Carolina. Entrance salary: \$11,306 to \$15,106 based on qualifications. Full U.S. Civil Service coverage. No written test. U.S. citizenship required. An Equal Opportunity Employer.

Write: **Dr. C. H. Fisher, Director, USDA, ARS, Southern Regional Research Laboratory, A-1, P.O. Box 19687, New Orleans, La. 70119**

VETERINARIAN

with post doctoral training in Internal Medicine or experimental surgery to join with active veterinary research and service program at a large Northeastern medical school. Academic and service appointment.

Box 544, SCIENCE

An equal opportunity employer

BIOCHEMIST, Ph.D.

Experienced biochemist for Medical Research laboratories engaged in protein chemistry including enzymology. Purification procedures and molecular biology. Excellent opportunity for biochemist with Medical Orientation to develop techniques for medical applications. Publications and grant applications encouraged. Submit resumes to

Box 533, SCIENCE

DEMONSTRATOR

Individual with interest in and experience with instruments such as scintillation counters, spectrophotometers, ultracentrifuges and amino acid analyzers to take responsibility for the instruments, instruct students in their use, operate them for others. Send resume to **Dr. A. E. Schaefer, Department of Chemistry, State University of New York at Albany, Albany, New York 12203.**

FELLOWSHIPS

BIOPHYSICS TRAINING PROGRAM FELLOWSHIPS

Applications are invited from candidates with graduate degrees in physical, biological or medical sciences. This U.S.P.H. supported program is essentially a postdoctoral one, emphasizing research training in a specific area. Current studies include problems in radiobiology, neutron activation and dosimetry, biological data processing and medical engineering. Training stipends for Ph.D.'s are \$6000-\$7000 with dependent allowances. Inquire: **Dr. G. L. Brownell, Physics Research Laboratory, Massachusetts General Hospital, Boston, Massachusetts 02114.**

Recent AAAS Symposium Volumes

#84. Molecular Mechanisms of Temperature Adaptation
1967. 398 pages. Editor: C. Ladd Prosser. A collection of papers on the general physiology of temperature adaptation in cold-blooded animals, plants, and micro-organisms.

Price: \$12.50. AAAS Member's Cash Price: \$10.50.

#83. Estuaries

1967. 776 pages. Editor: George H. Lauff. The first comprehensive collection of scientific papers covering the comparatively new field of estuarine research.

Price: \$27.00. AAAS Member's Cash Price: \$24.00.

#82. Civil Defense

1966. 154 pages, paper. Editor: Henry Eyring. Scientists report their findings on problems related to modern warfare and passive civil defense systems.

Price: \$4.00. AAAS Member's Cash Price: \$3.50.

#81. Environmental Variables in Oral Disease

1966. 328 pages. Editors: S. J. Kreshover and F. J. McClure. Contents: Geographical and clinical considerations; the oral environment—nutrition and dental caries; experimental considerations in oral soft lesions; prenatally occurring influences.

Price: \$8.75. AAAS Member's Cash Price: \$7.75.

#80. Air Conservation

1965. 348 pages. "The result of a 2-year study by the AAAS Air Conservation Commission, all aspects—sociological, technical, political and biological—of air pollution are considered concisely." (*Chemical Processing for Operating Management*, May 1966)

Price: \$8.00. AAAS Member's Cash Price: \$7.00.

#79. Science in Japan

1965. 496 pages. Editor: Arthur H. Livermore. A broad and detailed review of recent scientific and technological developments in Japan.

Price: \$13.00. AAAS Member's Cash Price: \$11.00.

#78. Man, Culture, and Animals

1965. 304 pages. Editors: Anthony Leeds and Andrew P. Vayda. "This volume contains articles pertaining to the relationship between man and animals in different parts of the world, covering the influence of domesticated and non-domesticated animals on a variety of cultures." (*Biological Abstracts*, 1 February 1966)

Price: \$8.00. AAAS Member's Cash Price: \$7.00.

#77. Food Quality

1965. 306 pages. Editors: George W. Irving, Jr., and Sam R. Hoover. "It is an excellent, well-edited review of the agronomical production and processing problems of the basic commodities, fruits and vegetables, cereals, dairy products, poultry and eggs, and meat products." (*Cereal Science Today*, November 1965)

Price: \$8.50. AAAS Member's Cash Price: \$7.50.

#76. Agricultural Sciences for the Developing Nations
1964. 230 pages. Editor: Albert H. Moseman. "The book . . . is especially useful because of the author's combined experience with the situations and problems of agriculture in the less developed countries. . . . This book will be a valuable reference for many years." (*BioScience*, March 1966)

Price: \$6.75. AAAS Member's Cash Price: \$6.00.

#75. Mechanisms of Hard Tissue Destruction

1963. 776 pages, 430 illustrations. Editor: R. F. Sognnaes. "Scientists in the fields of dentistry, medicine, and zoology presented a multidisciplinary symposium in 1962, dealing with varied but cognate topics such as coral reefs, dental caries, deer antlers, osteoclastic diseases, bone metabolism, chelation. It is a refreshingly well-planned, well-edited, and interesting symposium." (*Journal of the American Medical Association*, July 1964)

Price: \$13.00. AAAS Member's Cash Price: \$11.00.

#74. Aridity and Man

1963; 2nd printing, 1965. 604 pages, 98 illustrations. Editors: Carle Hodge and Peter C. Duisberg. "Best collection of background material . . . well balanced and highly readable . . . probably the broadest and most nearly complete treatment of arid lands yet published." (*Journal of Forestry*, May 1964)

Price: \$12.00. AAAS Member's Cash Price: \$10.00.

#72. Spermatozoan Motility

1962. 322 pages, 113 illustrations. Editor: David W. Bishop. "This book is an excellent assemblage of recent findings and reports of new data relative to the perplexing problem of sperm motility and includes the opinions and ideas of cytologists, biophysicists, biochemists and physiologists." (*Journal of Animal Sciences*, March 1963)

Price: \$7.50. AAAS Member's Cash Price: \$6.50.

#70. Fundamentals of Keratinization

1962. 202 pages, 136 illustrations. Editors: E. O. Butcher and R. F. Sognnaes. "This book . . . makes fascinating reading for all clinicians and research workers interested in keratinising tissues" (*British Dental Journal*, 15 January 1963)

Price: \$6.50. AAAS Member's Cash Price: \$5.75.

#67. Oceanography

1961; 4th printing, 1966. 665 pages, 146 illustrations. Editor: Mary Sears. "*Oceanography* is a milestone in oceanographic advance, a worthy publication to come out of the first international congress of its kind." (*Geographical Review*, Vol. 52, No. 3)

Price: \$14.75. AAAS Member's Cash Price: \$12.50.

British Agents: Bailey Bros. & Swinfen, Ltd., Warner House 48 Upper Thames Street, London, E.C.4

WHEN YOU SPECIFY AN EXTERNAL STANDARD FOR LIQUID SCINTILLATION COUNTING, SPECIFY THE BEST—BA133.

Here are the facts. When you specify Geometry-Optimized™ barium-133 external standardization, available only in Nuclear-Chicago liquid scintillation systems, you really have two unique benefits going for you: First, an external standard that inherently makes determination of counting efficiency for quenched samples highly accurate. Second, an exclusive positioning technique that ensures reproducibility of sample-to-standard geometry—sample after sample. Here's how this powerful combination works:

THE Ba133 SPECTRUM ITSELF

A low-energy gamma emitter, Ba133 has a Compton spectrum end-point that *closely* compares to the beta emitters most commonly used in liquid scintillation counting. So its spectral shift, as a function of quenching, more closely approximates the shift of a C14 or H3 beta spectrum than would the spectrum of a higher-energy standard (such as Cs137 or Ra226, alone or with another isotope).

Let's look at two multichannel analyzer plots obtained from one channel of one of our liquid scintillation systems. Plot A shows the Ba133 spectrum and an unquenched C14 sample spectrum (system is calibrated for C14 counting). Plot B shows the Ba133 spectrum and the spectrum for a highly quenched C14 sample (system is calibrated for H3 counting). Note that, in *both* plots, the Ba133 spectrum closely follows the sample beta spectrum.

THE BENEFITS OF Ba133

As the multichannel analyzer plots show, the spectral shifts of Ba133 and the sample isotope are similar from unquenched to highly quenched samples. This means that a given set of channels ratio quench correction curves derived from the Ba133 standard will cover a much *wider* range

of sample quenching than curves derived from a higher energy standard.

Further, the close similarity of the Ba133 spectrum to that of the sample beta permits using the sample-counting channels to count the external standard. Any system variables (small gain drifts, etc.) affect the external standard and sample equally. The external standard channels ratio, therefore, will more closely approximate the sample channels ratio than if a higher energy external standard had been used. This also allows *all* system channels to be available for sample counting.

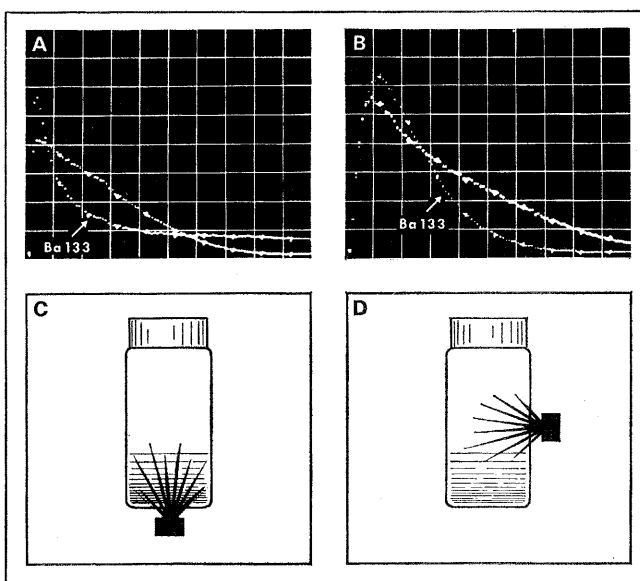

GEOMETRY-OPTIMIZED POSITIONING

Ba133 sounds good so far. But, like any external standard, it has to be placed exactly where it belongs—centered *directly* and *precisely* beneath the sample. That's what our exclusive Geometry-Optimized (G-O) external standard system is designed to do. G-O positioning is shown in Diagram C. When the Ba133 external standard is so placed, the external standard ratio is significantly less affected by sample-volume variations than if the standard were placed at the side of the sample vial or elsewhere.

And note in Diagram D, how side-positioning of the external standard would be more volume-dependent. Not so with G-O positioning. And the G-O system "sees" the same spot—no matter *how* the vial is rotated. Result: inaccuracies caused by variations in vial-wall thickness are minimized.

Remember that Ba133 external standard with G-O positioning is available only in our liquid scintillation systems. For more information about them—and their exclusive "computer with a memory" that makes Ba133 even more useful—call your local Nuclear-Chicago sales engineer. Or write to us.
