Personnel Placement

POSITIONS WANTED

M.S. Pharmacology background. Literature searching and abstracting. Desires same. Box 566, SCIENCE. 9/29; 10/6

(a) **MEDICAL BIOCHEMISTRY** Ph.D.; mental retardation research, general hospital experience; desires clinical biochemistry appointment. (b) **VIROLOGY, EPIDEMIOLOGY** Ph.D. 1967; pharmacy B.S.; seeks research opportunity. Write **WOODWARD PERSONNEL BUREAU**, 185 North Wabash, Chicago 60601. X

Biochemist, M.S., female, chemistry minor, broad research experience. Desires research position. Box 568, SCIENCE. X

Microbiologist. Ph.D., October 1967. Medical microbiology-immunology. Minor biochemistry. Clinical research or industrial job preferred. Salman H. Siddiqi, 612 Asp, Apt. #2, Norman, Oklahoma 73069. X

Pharmacologist-Toxicologist. Thirty-four, French M.D. with excellent training in applied research and clinical pharmacology looks for challenging position with direct responsibility in a French subsidiary of a pharmaceutical firm (fluent English). Write to **AUTRAN 15, Blvd. Saint-Germain, Paris, France**. X

Technical Research Assistant (degree), German educated, 7 years' experience in pharmacology, is looking for a position. Box 569, SCIENCE. X

POSITIONS OPEN

BACTERIOLOGIST: M.S. and 2 years' hospital experience to head department in modern hospital laboratory. \$8,000-\$10,000 to start. College town, 75 minutes from George Washington Bridge. Many benefits. Apply **Personnel Office, Horton Hospital, Middletown, N.Y. 10940**.

IMMUNOLOGIST —Ph.D.

New research opportunity for a Ph.D. in immunology with experience in isoimmunity or autoimmunity.

This position involves research associated with isoimmunity and enhanced antibody response.

ORTHO is located in an attractive suburban area of New Jersey near Princeton. If interested, please write including salary requirements to Mr. Richard Groben.

Technical Search Consultants
55 West 42nd Street
New York, N.Y.

ELECTROMICROSCOPIST TECHNICIAN, B.S. or M.S. or equivalent experience. Work with microorganisms and plant material. Salary \$644-\$783 month. **Personnel MB, UNIVERSITY OF CALIFORNIA, SAN DIEGO, P.O. Box 109, La Jolla, Calif. 92037.**

An Equal Opportunity Employer

Electron Microscope Technician—required at Roswell Park Memorial Institute, Biophysics Department. Physical or chemical background preferred. No previous biological experience required, but should be familiar with electron microscope operation. Work involves development of electron microscope equipment and high resolution studies on biological materials. Contact **Dr. D. F. Parsons, 886-2700, ext. 123.** Salary related to experience.

UNIVERSITY OF GUELPH ONTARIO AGRICULTURAL COLLEGE

Applications are invited for the position, now vacant, of Professor and Head, Department of Microbiology.

The appointee will be a qualified microbiologist, will have teaching experience; an established record in research; and demonstrated qualities of leadership in academic fields. Preference will be given to applicants with an interest in or knowledge of agriculture. The appointee will be responsible for the organization and administration of instruction and research programmes of the department.

The department offers undergraduate instruction leading to honours degrees in microbiology in both the Agricultural College and in the science programme of Wellington College. An intensive graduate and research programme is already established in the general areas of food, plant/animal and soil microbiology, microbial conversion of wastes, and microbial taxonomy. Interest in the less applied areas of microbial physiology and genetics is also well developed. There are presently 15 faculty members in the department.

Enquiries or applications, accompanied by a confidential resume, should be addressed to the **Dean, Ontario Agricultural College, University of Guelph, Guelph, Ontario, Canada.**

POSITIONS OPEN

EXPLORATORY ENTOMOLOGIST—State of Hawaii civil service position involving extensive travel in the United States and foreign countries to locate natural enemies of agricultural pests adaptable to biological control. Requires graduation from college with degree in entomology and 6 years' experience in insect pest research, of which 2 years shall have been in a supervisory capacity. \$8,508-\$11,388. Write **Dept. of Personnel Services, 825 Mililani Street, Honolulu, Hawaii 96813.**

**PHARMACOLOGY
BIOCHEMISTS**

Ph.D.—new position in metabolic pharmacology for a Ph.D. with interest in enzymology to study the effect of drugs on enzymes.

M.S.—this position also is in metabolic pharmacology and involves working with small laboratory animals to study drug metabolism.

VETERINARIAN

DVM—a newly created position for a veterinarian with experience in toxicology and pathology. This position will involve the design and evaluation of animal studies to determine the safety of new drugs.

Attendance at professional meetings and publications are encouraged. We are located in a suburban area of Somerset County near Princeton. Please send resume stating salary requirements to Mr. Richard Groben.

ORTHO

**PHARMACEUTICAL CORP.
ROUTE 202, RARITAN, N.J. 08869**

POSITIONS OPEN

RESEARCH COORDINATOR

Hazleton Laboratories' Toxicology Division requires a Research Coordinator with a Ph.D. in Pharmaceutical, Analytical, or Biochemistry plus 3-5 years' experience. Candidate should have extensive knowledge of biology, research methodology and FDA regulations. Duties include design, coordination, and evaluation of animal toxicological research programs; liaison with clients and regulatory agencies. Excellent employee benefits program including profit sharing. Please send resume to: **Hall A. Acuff, Assistant Personnel Manager, HAZLETON LABORATORIES, INC., P.O. Box 30, Falls Church, Virginia 22046 (Metropolitan Washington, D.C.)**

An Equal Opportunity Employer

RESEARCH OPPORTUNITIES

Ph.D. Food Chemists, Food Engineers, Food Technologists, and Food Microbiologists, with leadership ability for research positions in Winter Haven, Florida; Weslaco, Texas; or Raleigh, North Carolina. Entrance salary: \$11,306 to \$15,106 based on qualifications. Full U.S. Civil Service coverage. No written test. U.S. citizenship required. An Equal Opportunity Employer.

Write: **Dr. C. H. Fisher, Director, USDA, ARS, Southern Regional Research Laboratory, A-1, P.O. Box 19687, New Orleans, La. 70119**

Virologist, M.S. or Ph.D., to join research group on viral oncogenesis as a research associate. Some knowledge of electron microscopy desirable. Write to **Dr. A. M. Watrach, College of Veterinary Medicine, University of Illinois, Urbana, Illinois 61801.**

**MONASH UNIVERSITY
Victoria, Australia
PROFESSOR OF ZOOLOGY**

Applications are invited from suitably qualified candidates with a high competence in any fundamental field of animal biology for appointment to a Chair of Zoology. This post was previously advertised during the illness of the late Professor A. J. Marshall, Chairman of the Department of Zoology and Comparative Physiology, and is now re-advertised in the changed circumstances following his death. The appointee will initially become Chairman of the department.

The department at present comprises 14 academic members of staff, is housed in its own building, and embraces a variety of biological disciplines. The zoology and botany departments collaborate to offer a first-year course in general biology and a second-year course in cell biology; separate zoology courses are offered in second and later years; members of the zoology department are engaged in research and advanced teaching in classical zoology, comparative physiology, ecology, embryology, entomology, ethology and paleontology. While it is hoped that the new Chairman will continue to promote the development of the department along a broad front, the University would welcome specific proposals from applicants on this matter and on the extent to which the department might develop other branches of zoology and enter into a closer relationship with the other biological departments.

Salary: \$A10,400 p.a.; an increase of the order of \$A1,600 is expected. Superannuation on F.S.S.U. basis.

Information on application procedure, conditions of appointment, etc., is available from the Secretary-General, Association of Commonwealth Universities, Appointments Section, Marlborough House, Pall Mall, London, S.W.1., or the Academic Registrar, Monash University, Clayton, Victoria, Australia.

Applications close with the Academic Registrar on 31st October 1967.

Council reserves the right to make no appointment or to appoint by invitation at any stage.

**J. D. BUTCHART
Academic Registrar**

Developmental Biologist-Toxicologist

The Pathology Section of a large midwestern drug manufacturer is seeking an M.S. or experienced B.S. in Zoology, Anatomy, or Embryology. Duties will involve the design, implementation, interpretation and reporting of studies conducted to evaluate drug action on reproduction and fetal development in laboratory animal species. Formal training in mammalian anatomy, histology, and embryology is required. Please send complete resume including salary requirements to: **Box 571, SCIENCE. "An Equal Opportunity Employer."**

POSITIONS OPEN

**POSTDOCTORAL TRAINEESHIPS IN
CLINICAL CHEMISTRY**

are available July 1, 1968, at the **Biochemistry Department, University of Washington School of Medicine**. Ph.D. biochemists or chemists who wish to become clinical chemists in a research-oriented hospital are invited to apply before Dec. 31, 1967. The appointments are for two years, with a stipend of \$6,000 to \$7,000 per annum (depending upon postdoctoral experience), plus an allowance of \$500 per dependent. The stipends are partially tax-exempt in most cases. Address inquiries to: **Dr. Alex Kaplan, Associate Professor, Department of Biochemistry, and Director, Clinical Chemistry Laboratory, University Hospital, Seattle, Wash. 98105.**

FELLOWSHIPS

Fellowship in Biochemistry leading to M.S. in Biochemistry. Available Fall 1967. Includes tuition plus salary. Apply before October 15 to **Dr. Irving Innerfield, Chairman, Department of Biochemistry, Fairleigh Dickinson Univ. School of Dentistry and Graduate School, Teaneck, N.J. 07666.**

Postdoctoral Research Fellowships

at the Weizmann Institute of Science, Rehovoth, Israel

Academic Year 1968/69

A number of postdoctoral fellowships (junior and senior level) are available to candidates from all countries for research in the natural sciences. They are normally of 12 months' duration.

Facilities are available for research in:

Applied Mathematics	Chemistry
Biochemistry	Electronics
Biodynamics	Experimental Biology
Biological Ultrastructure	Genetics
Biophysics	Isotope Research
Cell Biology	Nuclear Physics
Chemical Immunology	Plant Genetics
Chemical Physics	Polymer Research

Information and application forms may be obtained from the Academic Secretary, **Weizmann Institute of Science, Rehovoth, Israel.**

Applications will be accepted until 15 November 1967.

Announcement of awards will be made in February 1968.

first automatic pH stat titrator with all-digital volume indicator and quick-change burets

With the superb craftsmanship that is synonymous with their country, Metrohm of Switzerland brings you the Combititrator-3D—an automatic titration apparatus of unparalleled quality and versatility. It features a pH meter, a controller, and a recording motor buret. The latter is offered with the first bayonet-mounted burets

for instantaneous exchange of all glassware components.

(SEE CIRCLED AREA IN PHOTO.)

The Combititrator-3D can be set up to perform virtually any common or unusual titration: automatic potentiometric with recording; automatic potentiometric to an endpoint; constant-potential with recording of reagent volume against time (pH stat titration); pH and mV measurements; acid/base, redox, precipitation, non-aqueous, or complex titrations.

The Combititrator offers high operating accuracy, eliminates errors resulting from manual procedures, and provides reproducible results. All the operator

has to do is prepare the sample solutions.

The most complete line of accessories is available including titration vessels with capacities ranging from micro to macro quantities, with and without thermostatic control.

Measuring accuracy is 0.01 pH or 10 mV; the chart recorder drive incorporates a 4-speed gearbox; and titrant volume can be read on an all-digital counter (if recording is not required).

For detailed information about all Metrohm automatic titrators write to:

PRICE vs PERFORMANCE IN A LIQUID SCINTILLATION SYSTEM USED TO BE GIVE-AND-TAKE—UNTIL UNILUX II.

Suppose you can't really use—or afford—one of those expensive, top-of-line liquid scintillation systems. That's no reason to settle for less than the performance you need. No reason to compromise your liquid scintillation counting with a stripped-down, "economy" system. But that is an excellent reason for taking a good, hard look at Nuclear-Chicago's Unilux™ II Liquid Scintillation Systems. They're priced at much less than the big "supersystems". Yet they deliver nearly equivalent performance. Plenty of performance now, even more later when you want it—that's Unilux II value. And here's proof:

STABLE, REPRODUCIBLE COUNTING

Unilux II Systems give you more reliable data than any comparably priced system. Here are just two good examples:

First, Unilux II Systems *cool* the samples for a stable, reproducible counting environment—sample after sample. And cooling also minimizes the unpredictable problems of ambient-temperature counting, such as chemiluminescence, UV-excited phosphorescence, and acid quenching.

Second, Unilux II Systems use integrated circuits, which give you further assurance of dependable data because they are more *stable* than standard electronic components, such as those used in other systems. And, because they require far fewer connecting points, you get a more reliably manufactured instrument.

MODULARITY

You can specify a Unilux II System with one, two, or three independent scalers and analyzer channels. *Upgrade* at any time you wish.

OPTIMUM PERFORMANCE FOR YOUR SAMPLES

Unilux II Systems let you *optimize* performance for your

kind of samples. You can select a system for high E^2/B counting, high efficiency counting, or standard counting. Tell us what your requirements are and we'll quote and deliver performance to meet them.

BARIUM-133 EXTERNAL STANDARDIZATION

Unilux II Systems are available with Ba133 external standardization. (Ba133 more closely approximates the sample beta spectrum than other external standards.) With our exclusive Geometry-Optimized™ (under-the-vial) positioning technique, this combination gives higher accuracy, with less dependence on variations in vial-wall thickness and sample volume, than *any other* external standard system.

FLEXIBILITY FOR THE FUTURE

All Unilux II Systems can be upgraded to automatic calculation and readout of net CPM and scaler ratios. And you can choose lister, electric typewriter, or Teletypewriter® readout. Unilux II Systems also have card-punch logic for easy interface to an off-line computer and can be used with our exclusive Curvfit software.

Here's another bonus: using our Chroma/Cell® flow cells, you can easily adapt a Unilux II for dynamic liquid radiochromatography. That's because it's equipped for fast, accurate printout of count only.

There's much more to every Unilux II, and it all comes in a space-saving, bench-top package. It's a package that'll give you more satisfying performance than any other intermediate-priced liquid scintillation system. Call your local Nuclear-Chicago sales engineer or write directly to us. Ask for complete details on Unilux II—the system that doesn't compromise your samples.
