### PROTECT PATENTS, CONTROL PROJECT PROGRESS

Permanently-bound Laboratory Notebooks keep results of R&D work in a form that provides proper proof of patent claims.

Consecutively-numbered pages, ruled for data tabulation or neat sketches, allow proper entry and witnessing of development work.

Notebooks are available with detachable duplicate pages which permit research managers to monitor all phases of a project.

Available immediately — \$4.00 each; quantity discounts.

Send free sample pages and price list.

### SPORES - FERNS MICROSCOPIC ILLUSIONS ANALYZED

Vol. I C. S. HIRES

An inspiring, valuable book for nature lovers, artists and scientists in many fields...

Living ferns beautifully illustrated, cell structure, development—spore to maturity. Unique, 3-dimensional studies. Models, line drawings and photomicrographs clarify spore structure, with wall arrangements organized.

New approaches to microscopic illusions. Simple, accurate terms.

572 pages, 1150 illustrations, 14 in color.

Price—\$22.50, send for folder to:

Washington, D.C. 20005

## POSITIONS WANTED

**Biophysical Chemist**, Ph.D. September 1968, physical chemistry major, microbiology, biochemistry minors. Physical chemistry of nucleic acids. Strong biological interest. Permanent academic or industrial position. Box 131, **SCIENCE**. X

**Chemist**. Desires work on isolation, identification and synthesis of synthetic or natural products. Ph.D. and 2 years' experience. Box 132, **SCIENCE**. X

**Ph.D. Research Entomologist**, 42. Experienced teacher. Desires return to teaching (zoology, biology). Prefer coastal location, West or overseas. Box 133, **SCIENCE**. 4/19

**Developmental Geneticist-Electron Microscopist**, Ph.D. 1966, woman. Teaching and research experience, publications. Desires teaching-research positions in South. Box 134, **SCIENCE**. X

**Electron Microscopist-Developmental Biologist**, Ph.D., 1964, woman. Teaching and research experience, publications. Desires teaching and/or research position. Box 135, **SCIENCE**. X

**Geneticist-Molecular Biologist**, Ph.D., experienced; numerous publications; department head. Desires senior academic position. Box 136, **SCIENCE**. X

**Marine Biologist**, vertebrate, Ph.D. Seeks senior research and teaching position. Publications and experience. Box 137, **SCIENCE**. X

**Microbiologist**. Experienced, water pollution, teaching. Publications. Seeks teaching/research position, Washington-Baltimore area. Box 138, **SCIENCE**. X

**Microbiologist**, Ph.D. Experience in research in microbial metabolism, in teaching medical microbiology and some in clinical microbiology. Prefer N.E. area. Box 139, **SCIENCE**. X

**Parasitologist**, Ph.D., 40. Tropical biology, immunology. Seeks teaching-research, biology department or medical school. June or earlier. Publications. Box 140, **SCIENCE**. X

**Pathologist-Electron Microscopist**, M.D., Ph.D. Teaching, research and service experience. Publications ultrastructure cardiac diseases. Foreigner seeks position in United States or Canada. Box 141, **SCIENCE**. X

**Scientific Programming**, physical or social science, by Ph.D. Part/fulltime. Box 142, **SCIENCE**. X

12 APRIL 1968

## POSITIONS WANTED

**Biophysicist-Physiologist**, M.D., Ph.D., seeks senior academic or other research position. Twelve years' broad experience in basic and applied research at top government and academic institutions. Publications on tracer kinetics, mathematical models, computer applications, endocrinology. Medical and bioengineering teaching experience. Box 125, **SCIENCE**. 4/12

**Business Administrator**, medical college, business and government experience. Minimum \$15,000. Box 128, **SCIENCE**. X

**Pharmacology** Ph.D. 1968; physiology minor; drug changes in motor activity research; seeks research appointment. Woodward Personnel Bureau, 185 North Wabash, Chicago 60601. X

**A Senior University Professor** seeking teaching/research position from 1 June. Several publications in experimental optics, molecular spectroscopy, meson physics. Long experience in teaching and organization of physics curricula. Box 379, R.D. 1, Reading, Pa. X

**Veterinary Pathologist**, experienced in toxicological pathology. Academic and industrial background. Near board eligible. Box 143, **SCIENCE**. X

**Zoologist-Ph.D.**, endocrinology-biochemistry; some publications, 7 years' industrial research, 5 years' experience in developing and teaching courses in endocrinology, cell physiology, and introductory biology. Also experienced in advising advanced undergraduates in research and paper presentation. Interested in teaching position, Fall, 1968. Box 144, **SCIENCE**. 4/19, 26; 5/3

## POSITIONS OPEN

### ASSOCIATE EDITOR

We are seeking editors in the areas of biochemistry, biology, chemistry, and molecular biology. Qualifications are: competence in field and demonstrated editorial experience. Chicago location. Please forward résumé and salary requirement to

Box 130, **SCIENCE**

### BIOCHEMIST M.S.

or Organic Chemist M.S. to work on metabolism of drugs, pesticides, and other chemicals in animals and man. Experience preferred. Must be research oriented and team worker. Full radioisotope facilities. Send complete resume in confidence to **Director, Institute of Experimental Pathology & Toxicology, Albany Medical College, 47 New Scotland Avenue, Albany, New York 12208.**

### RADIATION BIOLOGY AND CELLULAR KINETIC RESEARCH GROUP

Staff positions open in renal physiology, cancer biology, immunology, and biochemistry. Scientists with significant postdoctoral experience are invited to submit curricula vitae to **Dr. Samuel W. Leshner, Director, Division Radiation Biology, Department of Radiology, Allegheny General Hospital, 320 E. North Avenue, Pittsburgh, Pa. 15212.**

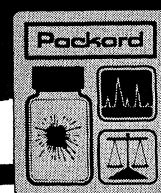

(a) **Pharmacologist** direct new dept behavioral & CNS research; \$19,000; drug mfr; E. (b) **Bacteriologist** lab supv 180-bed hosp; \$15,000; Fla. (c) **Genetics Assoc Prof** teach, research; large univ; 9 mo \$11,000; MidW. (d) **Reproduction Physiology Assoc Prof**; mainly research; \$14,000; state univ; C. (e) **Cell Biologist Asst Prof** 9 mo \$12,000; devel grad biology program; state col; S. (f) **Biochemist** coordinate tests & research of state public health labs; \$16,000; SW. (g) **Microbiologist** test soil for new antibiotic producing fungi; \$10,000 up; S. **Woodward Pers. Bureau**, 185 N. Wabash, Chicago 60601.

S.U.N.Y. at Buffalo requires a **Physical Sciences Librarian** with a background in chemistry, physics or engineering; M.L.S. degree; and 2 to 5 years' administrative experience. Salary \$15,000+. State paid TIAA-CREF, Blue Cross-Blue Shield. Major Medical and Tuition remission plan. Send résumés to Mark Silvestri, Assistant to the Director for Personnel, Room 307 Lockwood Library. S.U.N.Y. at Buffalo, N.Y.

# This is a Classified Ad

The program is company secure and company funded. Electro-Optical Systems and its parent company, the Xerox Corporation, have already made important strides forward in the development of new systems for medical diagnosis. The need now is for highly-qualified personnel to fill important managerial and leadership positions within this on-going program... a program which has real meaning for the future of the medical sciences.

**Management-Senior Scientist.** Manage and direct a product development biochemistry team. Extensive experience required in pharmaceutical or chemical product development. Prefer multidisciplinary strengths in chemistry or biochemistry, chemical engineering, and instrumentation.

**Quality Assurance Manager, Biochemist or Chemist.** Requires extensive experience in pharmaceutical and chemical product development. Must be familiar with cost effectiveness and predictive reliability models.

**Quality Assurance Reliability Chemist.** Entails development of analytical procedures. Desire several years industrial analytical laboratory experience.

**Project Leaders-Ph.D Biochemists.** Recent doctoral graduates and experienced Ph.D Biochemists are needed to probe and resolve analytical problems. Experience in preparing and processing labile biochemicals is desirable.

**Instrumentation, Electrical Engineers.** Desire design background with optical and digital systems. Information processing and control systems experience preferred.

**Instrumentation Engineers-Mechanical.** Requires highly creative individuals to design high-speed, small mechanisms, and electromechanical machinery; involves advanced concepts analysis and studies. Will also test, evaluate, and improve existing machine designs.

A variety of other positions are currently available in the fields of chemical engineering, biochemistry, microbiology, radiology, electronic, mechanical and systems engineering and data processing. Send your resume or request for further information to David C. Phillips. Better yet. Call him personally... collect. 213-351-2987.

## POSITIONS OPEN

### ELECTRON MICROSCOPY TECHNICIAN

Wanted, experienced technician to perform processing, sectioning, staining procedures for studies in cellular immunology in a dynamic research program. Salary determined by experience. Liberal fringe benefits. Apply to: Mrs. Jean Born, Personnel Office, University of California, San Francisco Medical Center, San Francisco, California 94122.

### CHAIRMAN

#### DEPARTMENT OF FOOD SCIENCE ONTARIO AGRICULTURAL COLLEGE UNIVERSITY OF GUELPH GUELPH, CANADA

Applications are invited for the position of Professor and Chairman, Department of Food Science, Ontario Agricultural College, University of Guelph.

Preference will be given to an applicant holding a Ph.D. degree in Food Science or closely related fields with experience in university, industrial, or other food science programs.

The appointee will be responsible for the organization and administration of the instruction and research programs of the department. Duties will include the implementation of a new undergraduate curriculum leading to a B.Sc. degree, the organization of graduate studies and research related to food science, the planning for and expansion of physical facilities, and the establishment of liaison with government and industrial agencies. Students will be accepted into the degree program in September 1968.

Application should be made to **Dean N. R. Richards** with curriculum vitae which should include a review of professional experience, list of published papers, and names of three referees attached.

The salary will be commensurate with duties and responsibilities, and fully competitive with similar positions elsewhere.

### GENETICIST

One Ph.D. with competence in molecular genetics and cytogenetics. Duties will include the establishment and development of an undergraduate genetics course for biology majors. Research opportunity and graduate teaching. Write and include résumé to: Chairman, Department of Biology, Villanova University, Villanova, Pa. 19085.

**PROTEIN OR ENZYME CHEMIST.** Ph.D. or M.D. with experience. To work on isolation and structure of brain proteins. Full-time research position at hospital-affiliated Research Institute in New York City.

Salary: Dependent on qualifications. Includes fringe benefits and increments. Send detailed curriculum vitae and references to:

**Box 109, SCIENCE**

### VETERINARY PATHOLOGIST

Hazleton Laboratories, a subsidiary of TRW Inc. and a rapidly expanding company specializing in the life and environmental sciences, needs Veterinary Pathologists with DVM and Ph.D. degrees. Applicants still completing board eligibility requirements will also be considered. Positions involve gross and microscopic evaluation of tissues from a variety of laboratory animals; design of experiments; consultation with other staff members regarding research in general and inhalation toxicology, reproduction-teratology, and method development. Opportunity for publications and scientific meetings attendance. Good facilities including automated clinical chemistry and electron microscopy labs. Salary commensurate with experience and education. Please send resume to:

**Vice President for Personnel**  
**HAZLETON LABORATORIES, INC.**  
P.O. Box 30  
Falls Church, Virginia 22046  
(Metropolitan Washington, D.C.)  
An Equal Opportunity Employer

## Research Bacteriologist

An opening has developed on our staff for a bacteriologist with an interest in the chemotherapy of bacterial infections. The candidate should have a doctorate with training and/or experience in pathogenic bacteriology or bacterial chemotherapy.

Explore more fully Merck's reputation for research excellence: a product of highly competent scientists with ideas and the latitude and facilities to investigate. Inquiries may be addressed to:

Mr. G. C. Wolf,  
Scientific Employment

**Merck & Co., Inc.**  
Rahway, New Jersey 07065

An Equal Opportunity Employer M/R

## SR. BIOCHEMIST Ph.D.

Expanding research is the lifeline to continued growth.

It is with this in mind that we are initiating a research program oriented to study the role of nucleic acid metabolism in inflammation and immune diseases.

If you are a Ph.D. in Biochemistry with 1 to 3 years' experience with an interest in this research area, we would like to explore our opportunity with you.

This position combined with NATIONAL'S excellent salary and benefits program makes for a truly outstanding career in research. Send your letter with curriculum vitae in strict confidence. We will be at the Federation Meetings. Can we speak with you there?

J. D. DIETRICH

**THE NATIONAL  
DRUG COMPANY**  
Division of Richardson-Merrell Inc.

4663 STENTON AVE.

Philadelphia, Pa. 19144

An Equal Opportunity Employer

## PHARMACOLOGISTS Ph.D.'s

Salary to \$20,000

A major Pharmaceutical Company seeks individuals with experience in the varied specialties of Pharmacologic research to complement the scientific staff of an expanding research division.

Submit resume and salary requirements in confidence to our  
Executive Recruiting Consultant:

**KINGSLEY-QUINN LTD.**  
Pharmaceutical Division  
55 W. 42nd St. New York, N.Y. 10036

## Clinical Pharmacologist

Large pharmaceutical research institute requires M.D. with Ph.D. or research background to design, initiate, monitor and evaluate initial trials of investigational new compounds by outstanding clinicians in major centers. Travel involved.

### SALARY OPEN. EXCELLENT COMPANY BENEFITS

The Sterling-Winthrop Research Institute is the research division of Sterling Drug Inc., one of the world's largest producers of medicinal agents. The Institute employs about 600 people and is engaged in a very active research program. The Institute is located near Albany, on a plateau overlooking the Hudson River Valley, in the heart of the New York State vacation land.

Write qualifications to Mr. C. E. Alford, Director of Personnel

**STERLING-WINTHROP RESEARCH INSTITUTE**  
RENSSELAER NEW YORK, 12144

An Equal Opportunity Employer

## PHARMACOLOGISTS

We are looking for two bright, young Ph.D.'s to become a part of a challenging and rewarding research program in our psycho-neuropharmacology section. The position of *Psychopharmacologist* awaits the person with special training in this area. He will be responsible for the identification, pharmacological evaluation, and development of psychoactive drugs.

The position of *Neuropharmacologist* requires specialized training in pharmacology or physiology. Training will have included bioelectronic experimentation. He will be responsible for the application of electroneurophysiological techniques to the investigation of the mechanism of action of drugs on the central nervous system.

For detailed information, please reply in confidence to:

**Manager, Executive Employment**  
**Mead Johnson & Company**  
Evansville, Indiana 47721

An Equal Opportunity Employer

A growing research effort has occasioned  
two key openings in our Pharmacology Department.

## SENIOR SCIENTISTS (PHARMACOLOGY)

### BIOCHEMICAL PHARMACOLOGIST

Responsible for conducting studies in inflammation and drug metabolism.

Involves, under the direction of the head of the Pharmacology Department, acquiring knowledge, designing, supervising and conducting experiments as well as analyzing and reporting results of investigations.

Required: Ph.D. 0-5 years related experience.

### SENIOR SCIENTIST

Responsible for, under the direction of a Senior Staff member, performing a variety of animal pharmacological experiments.

Requires scientific maturity, insight and initiative as well as the ability to lead others toward the successful completion of important assignments.

M.S. Pharmacology. 0-3 years experience, or a B.S. with a proven record of accomplishment.

If you qualify, seek challenges, a progressive work environment and compensation commensurate with your contribution, submit your resume in confidence to:

Mr. E. J. Kiel

**ARMOUR PHARMACEUTICAL COMPANY**

P.O. Box 511

Kankakee, Illinois 60901

An Equal Opportunity Employer

## POSITIONS OPEN

### Assisted Circulation Research Program

Full-time openings for Senior Clinical Investigators  
in several areas including

Cardiovascular Physiology—Internal Medicine—Surgery

Established, expanding interdisciplinary research team engaged in development and evaluation of mechanical and biological methods to assist the failing heart. New patient study area with advanced instrumentation to be completed in June. Well-equipped animal laboratory. Long-term National Heart Institute support; 600-bed hospital affiliated with medical school. Hospital staff appointment, academic rank, and salary dependent on background. Demonstrated research and clinical competence essential.

For detailed information, please contact

Adrian Kantrowitz, M.D.  
Maimonides Medical Center  
Brooklyn, New York 11219

### CLINICAL CHEMIST

With strong background in micro analytical chemistry. To develop clinical chemistry methodology. M.S., Ph.D. or equivalent. Real interest in instrumentation and desire to do bench work required. Starting salary dependent on qualifications. Apply: J. E. Pippert, Head, Dept. of Biochemistry,

**GILFORD  
INSTRUMENT LABORATORIES,  
INC.**

**Oberlin, Ohio 44074**

*Equal Opportunity Employer, M.F.*

### RUTGERS MEDICAL SCHOOL

Research Assistant for biochemical studies of the brain. Recent graduate training (or experience equivalent to M.S.) required. Reply: Department of Pharmacology, Medical School, Rutgers, The State University, New Brunswick, N.J. 08903.

An equal opportunity employer.

### Research Assistant in Immunology

Large university medical school in New York City. Varied work: intact animal, tissue culture and biochemical. M.S. preferred. Graduate courses available.

Box 129, SCIENCE

Position available which involves Teaching and Research. Teaching is at the undergraduate (dental) and graduate levels. Appointment and salary commensurate with training and experience. Further details provided upon request. Please contact Dr. J. C. Wilt, Department of Medical Microbiology, University of Manitoba, Medical College, 770 Bannatyne Ave., Winnipeg 3, Man. Canada.

### ZOOLOGIST-PARASITOLOGIST

Career position open in supervising commercial production of educational microscope slides for parasitology, vertebrate embryology, and anatomy in well-equipped laboratory in northeastern United States. Advanced degree and supervisory experience desirable. Detailed job description furnished on receipt of résumé.

Box 104, SCIENCE

## POSITIONS OPEN

### GRADUATE STUDY

Department of Dermatology, Tufts University School of Medicine. Postdoctoral fellowship available 1 July. Previous training in electron microscopy and/or biochemistry desirable. Salary up to \$11,000 per annum. Send curriculum vitae and two letters of reference to Dr. Milton R. Okun, Dermatology Laboratory, Boston City Hospital, 818 Harrison Avenue, Boston, Mass. 02118.

### RADIOLOGICAL HEALTH TRAINEESHIPS

Graduate program leading to M.S. degree. Financial support includes full tuition, fees, tax-free stipend from \$3,000 to \$4,800 per year, depending on background, and a dependency allowance of \$500 per year per dependent. For further information, write to Dr. H. Cember, Technological Institute, Northwestern University, Evanston, Illinois 60201.

### THE UNIVERSITY OF CALGARY GRADUATE ASSISTANTSHIPS IN ALL AREAS OF CHEMISTRY INCLUDING BIOCHEMISTRY

Stipends available to Graduate Teaching Assistants studying for the M.Sc. and Ph.D. degrees: Up to \$4600 per annum plus travel grant and remission of fees.

Research Assistantships are also available for students registered in graduate programmes.

Applications from recent graduates and students expecting to graduate in 1968 should be directed to:

Chairman of the Graduate Admissions Committee  
Department of Chemistry  
The University  
Calgary, Alberta, Canada

### Hebrew University—Hadassah Medical School Institute of Microbiology

Applications are invited for a postdoctoral fellowship in Applied Microbiology to work with Professor R. I. Mateles, Visiting Professor of Applied Microbiology. The fellowship, beginning in the summer or fall of 1968 is for 1 year with the possibility of renewal, and the annual stipend, according to qualifications, will be approximately 11000 IL. Send curriculum vitae and the names of two references to Chairman, Institute of Microbiology, P.O. Box 1172, Jerusalem, Israel.

### Predoctoral Assistantships and Traineeships in Physiology

Excellent opportunities for graduate students leading to the Ph.D. Ample stipends and free tuition. Training and research in endocrinology, gastrointestinal, water and electrolyte metabolism, cardiovascular, sensory physiology, energy metabolism and bioengineering. Write for details, to Head, Department of Physiology, University of Illinois at the Medical Center, P.O. Box 6998, Chicago, Illinois 60680.

# WHAT COUNTS IN NUCLEAR HARDWARE

*Sometimes it pays to  
return to the basics. Here  
are some fundamental  
guidelines you may find  
helpful in selecting what's  
right for your work.*

In liquid scintillation counting, it's cooling that counts. It provides the most stable environment for your samples. Our cooled systems let you specify the performance you need for your type of samples: Mark I® Liquid Scintillation Computer with programmable cooling and Unilux® II Cooled Bench-Top Systems.

In gamma counting, it's low, constant background that counts. Together with positive, gentle sample handling. Our Series 4200 Automatic Systems protect your samples from background. And assure you of faultless sample handling with foolproof simplicity. Single or dual channel, 2-inch or 3-inch detector crystal, CPM or DPM, lister or gamma computer. You specify the readout. We'll deliver it—reliably.

In paper radiochromatography, it's fast, quantitative data that counts. Our Actigraph® III Systems automatically speed up the strip between radioactive peaks and automatically print out the counts in the peak. You specify: With digital integrator, with DISC® Integrator, or with analog readout only. Thin-layer-plate scanning, too.

In planchet systems, it's simplicity that counts. Our planchet systems are simple and easy to use—virtually never break down. Systems for 1¼-inch or 2-inch planchets. For standard or low-background counting.

In your work, it's your samples that count. Let us give you more viewpoints on the hardware to count them with. Talk to your Nuclear-Chicago sales engineer or write directly to us.

8-230

*We try to work to a point of view: yours.*
