

Personnel Placement

POSITIONS WANTED

Allied Health Programs—M.S.; registered in microbiology and others; 25 years of lab experience with 6 years of administration in large university. Seeks teaching and administration in allied health related fields in community or senior college. Box 168, SCIENCE. 5/17

Biochemist-Physiologist, Ph.D., 41; protein synthesis, connective tissue, endocrinology; numerous publications, grants. Senior position. Box 186, SCIENCE. X

Biologist with extensive knowledge of other sciences and reading knowledge of several languages desires employment with publisher, processing and amending manuscripts. Call 934-7833, reverse charges, or write to Rt. 2, Box 133, Cochran, Ga. 31014. X

Biologist, B.S. Six years' university histology-histochemistry laboratory experience. Prefers research position in microbiology or histology. Box 192, SCIENCE. X

Blood Plasma Proteins; 25 years' manufacturing experience in separation, freeze-drying, compounding, sterile filtration and filling. Production and administration know-how. Desires position in same or related field. Will consider research or development work. Box 172, SCIENCE. 5/17

Business Administrator, medical college, business and government experience. Minimum \$15,000. Box 202, SCIENCE. X

Cell Biologist, Physiologist, Ph.D. Extensive teaching experience in histology and embryology. Publications. Active basic research program in electron microscopy. Desires senior academic teaching-research position. Box 193, SCIENCE. X

Cybernetics Expert. College professor in computers and electronics seeks challenging position for summer applying cybernetics to teaching devices or techniques. Box 188, SCIENCE. X

Cytology-Cytogenetics, Ph.D. 1968. Seeks teaching and research position for September. Gary J. Wilfret, Horticulture Department, University of Hawaii, Honolulu. X

Graduate Student in Chemistry, with editorial experience and knowledge of Fortran IV, seeks position during July and August. Box 175, SCIENCE. 5/17

Microbiologist, M.S., seeks independent, professional appointment by 1 September. Academic, industry, or hospitals. Extensive background in virology and tissue culture, immunology and serology, bacteriology. Research, production or diagnostic. Will relocate. Box 201, SCIENCE. X

Microbiology Ph.D. 1968; clinical bacteriology, cancer research experience; prefers hospital or academic opportunity. Woodward Personnel Bureau, 185 North Wabash, Chicago 60601. X

Science Writer—Background: ocean sciences, geology, biology, fisheries. Seeks university, industry, or magazine post. Box 189, SCIENCE. X

Senior Research Biochemical Pharmacologist, Ph.D. Eleven years' postdoctoral experience in drug enzymology, biochemical pharmacology, toxicology, biochemistry, site and mode of action of drugs and toxic agents in C.N.S., etc. Industrial, governmental, university and supervisory experience. Seeks mutually rewarding position in research or research administration. Box 191, SCIENCE. X

Summer teaching desired: Vertebrate Zoologist, Ph.D. Phi Beta Kappa. Sixteen years' experience. Seeks position in biology, field zoology, conservation, vertebrate natural history, or ornithology. Available 1 June to 1 September. Midwest preferred. Box 181, SCIENCE. 5/24, 31

Veterinarian, 2 years' training plus 4 years of experience, laboratory animal pathology and toxicological pathology. Desires teaching and/or research. Box 190, SCIENCE. X

17 MAY 1968

washing machine

Exclusive top-located water inlet . . . back siphoning is impossible.

Widest range of cycling speeds. Operates with water input from 1½ to 12 liters/min. Fast or slow cycles without extra attachments.

Increased tubing diameter permits faster cycling, complete draining. Slow cycling for soaking and washing—fast cycling for rinsing.

Rinser repeats automatically.

The NEW Nalgene® Unitary Pipet Washer-Rinser

Radically new design eliminates all pipet washing-rinsing problems. Molded in one piece of rigid, unbreakable linear polyethylene, no seams or welds. Use in the sink, connected directly to drainline. Size D for pipets up to 14" long, size E for pipets up to 24". Another new product from Nalge . . . the innovator in plastic labware. Specify Nalgene Labware from your lab supply dealer. Ask for our 1968 Catalog or write Nalgene Labware Division, Dept. 2717, Rochester, N. Y. 14602.

NALGE
RITTER PFAUDLER CORPORATION

This is a Classified Ad

The program is company secure and company funded. Electro-Optical Systems and its parent company, the Xerox Corporation, have already made important strides forward in the development of new systems for medical diagnosis. The need now is for highly-qualified personnel to fill important managerial and leadership positions within this on-going program... a program which has real meaning for the future of the medical sciences.

Management-Senior Scientist. Manage and direct a product development biochemistry team. Extensive experience required in pharmaceutical or chemical product development. Prefer multidisciplinary strengths in chemistry or biochemistry, chemical engineering, and instrumentation.

Quality Assurance Manager, Biochemist or Chemist. Requires extensive experience in pharmaceutical and chemical product development. Must be familiar with cost effectiveness and predictive reliability models.

Quality Assurance Reliability Chemist. Entails development of analytical procedures. Desire several years industrial analytical laboratory experience.

Project Leaders-Ph.D Biochemists. Recent doctoral graduates and experienced Ph.D Biochemists are needed to probe and resolve analytical problems.

Experience in preparing and processing labile biochemicals is desirable.

Instrumentation, Electrical Engineers. Desire design background with optical and digital systems. Information processing and control systems experience preferred.

Instrumentation Engineers-Mechanical. Requires highly creative individuals to design high-speed, small mechanisms, and electromechanical machinery. Involves advanced concepts analysis and studies. Will also test, evaluate, and improve existing machine designs.

A variety of other positions are currently available in the fields of chemical engineering, biochemistry, microbiology, radiology, electronic, mechanical and systems engineering and data processing. Send your resume or request for further information to David C. Phillips. Better yet. Call him personally. collect. 213-351-2987.

POSITIONS OPEN

ANIMAL PHYSIOLOGY UNIVERSITY OF SASKATCHEWAN

Applications are invited for a position in animal physiology. We prefer someone with an interest in comparative physiology. Appointments will be at the rank of assistant professor (\$9,200-\$12,200) or associate professor (\$12,800-\$16,300) depending on qualifications. Applicants must have the Ph.D. and will be expected to teach and to develop a research program. Please send curriculum vitae, publications list and name of three referees to **Dr. J. M. Naylor, Department of Biology, University of Saskatchewan, Saskatoon, Saskatchewan, Canada.**

ASSISTANT TO DIRECTOR of large university-based, interdisciplinary Public Health Service-supported research and training program in basic biology. The principal concerns of the program relate to environmental health and complex natural systems. Some graduate work in one of the natural sciences required. Salary approximately \$10,000; possible faculty appointment; opportunity to publish, and to carry on independent activities. Submit résumé. **Box 187, SCIENCE.**

ASSISTANT DIRECTOR CLINICAL LABORATORY

We are seeking a mature, professional clinical chemist with 5 to 10 years' experience and a background of increasing responsibility including supervision and administration for newly created position. The successful candidate will assume the directorship within 2 years. The laboratory is a branch of a national organization of unchallenged professional and ethical reputation. Salary open. Liberal fringe benefits. Northeast section of the United States. Send detailed résumé, including salary history to N. D. Lee, Ph.D. All replies held confidential and will be acknowledged.

LA JOLLA CONFERENCES ON DEVELOPMENTAL BIOLOGY

The Institute for Studies in Developmental Biology announces its first conference of a series to be known as "La Jolla Conferences on Developmental Biology." This series has been made possible by a grant from the National Science Foundation. The conference will be held in La Jolla on June 28 and 29, 1968 and the topic will be "Development of Neurological Specificity." The program has been arranged by Dr. Stephen W. Kuffler (Harvard Medical School), Dr. Edwin S. Lennox (The Salk Institute for Biological Studies), and Dr. Herbert Stern (University of California, San Diego). The discussants include:

Professors D. Baylor, S. Benzer, S. Brenner, E. Furshpan, R. M. Gaze, E. Hibbard, M. Jacobson, E. R. Kandel, S. W. Kuffler, R. Levi-Montalcini, E. S. Lennox, J. Nicholls, D. Potter, R. Sidman, and R. Sperry.

The conference is being restricted in size to a total of 50 people in order to make possible an informal exchange of ideas. Individuals who wish to attend as guests may apply to Dr. Herbert Stern, Department of Biology, University of California, San Diego, P. O. Box 109, La Jolla, Calif. 92037. Requests received later than May 31st will not be considered. Those accepted will be notified by June 8th. Travel and living costs for guests will not be provided from Conference funds.

Control your temper with a Lauda Circulator

Need to temper glassware
or other laboratory equipment?

Let a Lauda Circulator do it.

A variety of different models
(K-2 shown here) circulate water, oil
or other liquids at constant, electronically-
controlled temperatures up to 300° C.,
or as low as -120° C. Each features
stainless-steel construction of all com-
ponents in contact with bath liquid,
manual drainage and flow valves,
and automatic excess load
protection for pump.

Our new 36-page catalog
gives you all the details. Just write:

The reliables: Kimble's new disposable plastic pipets.

Reliable because they are accurate—calibrated to the same volumetric tolerances as standard pipets, yet priced for single-use economy.

Reliable because they are clean, sterile and plugged—ready-to-use individually wrapped, and in pouches of 10.

Reliable because of distinct graduation on crystal clear polystyrene, color-coded for rapid size identification.

The reliables... from the reliable source, Kimble Products, through your reliable laboratory supply dealer.
