

AAAS

19th Alaskan Science Conference

Whitehorse, Yukon Territory

26-30 August 1968

Special meetings and field trips: 26-27 August.

General session, "Science and the North": 28 August.

Technical sessions, 29-30 August:

Biological Sciences
Human Resources
Physical Sciences
Earth Sciences
Natural Resources

For presentation of papers and information, contact: 19th Alaskan Science Conference, P.O. Box 968, Whitehorse, Yukon, Canada.

NEW PLASTIC SCINTILLATORS

from Pilot

Pilot M: solvent-bondable for complex configurations requiring high mechanical strength.

Pilot F: excellent characteristics at minimal cost. Ideal for large volume applications.

Write for new catalog of plastic scintillators, light pipes and accessories.

■ Prospectus on request!

The "Zeitschrift" für Morphologie und Ökologie der Tiere" was established in 1924 by P. Buchner and P. Schulze.

At that time, one of the most attractive prospects for the then young science of ecology seemed to lie in the exploration of the manifold relationships between animal form and environment. Since then, ecology has experienced an almost explosive period of growth such as to warrant a reorganization of the journal. Further probings into the relationships between organism and environment have recently focussed on physiological rather than morphological adaptations; the convergence of genetics and ecology has opened up the vast field of population genetics; the trend

toward more rigorous treatment of biological phenomena has introduced mathematical ideas and encouraged the application of quantitative models; and finally, the concept of productivity has added a dynamic note to the hitherto static tone of synecology. The combination with morphology no longer seems to reflect the true spirit of the science of ecology. In consequence, the old journal will be split into two; the "Zeitschrift für Morphologie der Tiere" and "Oecologia," the latter being devoted to all aspects of modern ecology, with particular stress on physiological and experimental ecology, population ecology, organic production and mathematical models.

Control your temper with a Lauda Circulator

Need to temper glassware
or other laboratory equipment?

Let a Lauda Circulator do it.

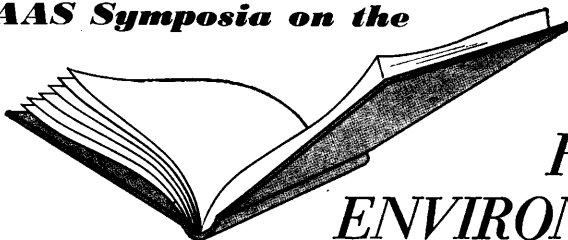

A variety of different models
(K-2 shown here) circulate water, oil
or other liquids at constant, electronically-
controlled temperatures up to 300° C.,
or as low as -120° C. Each features
stainless-steel construction of all com-
ponents in contact with both liquid,
manual drainage and flow valves,
and automatic excess load
protection for pump.

Our new 36-page catalog
gives you all the details. Just write:

POSITIONS WANTED

Ecologist, Ph.D.; 32. Seven years' teaching, pub-
lications, consulting, grants. Research program—
Wetlands. Research or research-teaching desired.
Box 204, **SCIENCE**. 5/31; 6/7, 14

Microbiologist, Ph.D.; 9 years. Experience in
radiation biology, microbial biochemistry, and
molecular biology. Publications. Active grant.
Seeks teaching and research position. Box 196,
SCIENCE. 5/31

Physicist, mathematical, Ph.D. Seeks teaching/
research position with opportunity to pursue own
research interests. Box 197, **SCIENCE**. 5/31

Pharmacy B.S., M.S.: Chief Pharmacist 450-bed
hospital; university instructor; prefers hospital or
academic appointment. **WOODWARD PERSON-
NEL BUREAU**, 185 North Wabash, Chicago
60601. X

Senior Biochemical Pharmacologist, Ph.D. Eleven
years' postdoctoral experience in drug enzymol-
ogy, biochemical pharmacology, toxicology, bio-
chemistry, site and mode of action of drugs and
toxic agents in C.N.S., and so forth. Industrial,
governmental, university and supervisory experi-
ence. Seeks mutually rewarding position in re-
search or research/administration. Box 191, **SCI-
ENCE**. X

Recent Graduate S. B. in Life Science from large
eastern technical institution with experience in
vitamin metabolism, developmental biology, and
mycotoxin research; publication; currently em-
ployed overseas; wishes job with opportunity for
graduate studies; U.S. citizen; reply via air mail:
P.O. Box 1419, GPO, Bangkok, Thailand. 5/31

Summer teaching desired: **Vertebrate Zoologist,**
Ph.D. Phi Beta Kappa. Sixteen years' experience.
Seeks position in biology, field zoology, conser-
vation, vertebrate natural history, or ornithology.
Available 1 June to 1 September. Midwest pre-
ferred. Box 181, **SCIENCE**. X

Virologist, assistant professor at a university, ma-
jor interests research in medical virology and
oncogenic viruses. Many publications. Seeks a
change in academic position. Box 198, **SCIENCE**.
5/31

Zoologist, Ph.D. General zoology, taxonomy, zoo-
geography, aquatic biology, ecology, morphology,
etc. Experienced, research, teaching, administra-
tion. Publications, active research program. De-
sires to relocate. Box 199, **SCIENCE**. 5/31; 6/7

POSITIONS OPEN

BIostatistician

(Epidemiological Statistician)

An exceptional opportunity to head, as Associate Director, a section providing statistical support to our Research and Development Division.

Functions will include major responsibility for the design of clinical and preclinical studies and the development of methods for large population evaluations of drugs and specialty nutritional products.

Activities will be integrated with existing computer facilities and the activities of an experienced staff of scientifically trained information analysts.

M.D., Ph.D., or D.Sc. and 3 to 5 years' experience with medically oriented studies required.

Please send resume, including salary history, to:

Manager, Executive Employment

Mead Johnson & Company

Evansville, Indiana 47721

An Equal Opportunity Employer

CHEMIST/RESEARCH ASSISTANT—VA Medical Research Lipid Laboratory. Bachelor's or Master's Degree required. \$7,200 to \$9,600 depending on education and experience. Liberal employee benefits; paid vacation and sick leave; retirement, low-cost life and health insurance and periodic pay advancements. Apply to: Personnel Officer, **VETERANS ADMINISTRATION HOSPITAL**, 10701 East Blvd., Cleveland, Ohio 44106.

MICROBIOLOGIST M.S.

Research and Development Department of rapidly expanding pharmaceutical company has an immediate opening for a microbiologist. Experience desired, but not necessary. Excellent starting salary and fringe benefits which include profit sharing. Plant and offices located on the San Francisco peninsula. Send résumé in confidence to **Howard R. Meador, BARNES-HIND PHARMACEUTICALS, INC.**, 895 Kifer Road, Sunnyvale, California 94086.

PHARMACEUTICAL CHEMIST Ph.d.

SALARY TO \$18,000

Due to an expansion of the Research Division, a major Pharmaceutical Company, seeks experienced Chemist to complement the Research Staff.

Send resume in confidence, with salary history to:

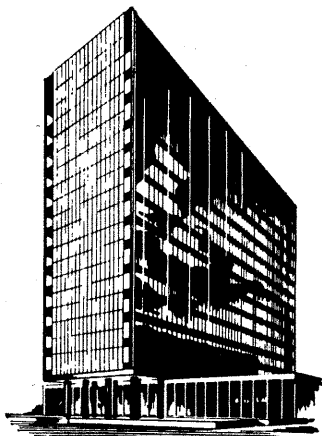

Kingsley-Quinn Ltd.

Pharmaceutical Division
55 West 42nd St., New York, N.Y. 10036

Preparator of Vertebrate Material. Includes collecting and curatorial duties for museum used for research and teaching. Salary in vicinity of \$7,000 for trained man. Write: **W. W. Coward, Department of Zoology, University of British Columbia, Vancouver 8, B.C., Canada.**

Pharmacokinetics

Currently an outstanding opportunity exists for a junior professional in our Department of Clinical Pharmacology.

The ideal candidate will be a recent B.S. or M.S. graduate with a strong background in biopharmaceutics, physical chemistry, and analytical techniques. Knowledge of computer systems desirable. Will participate in an extensive Research Program concerned with the evaluation of the physiological disposition of drugs.

This attractive position is located in our Nutley, New Jersey, Research Complex. Outstanding growth potential along with excellent fringe benefits complement this opportunity.

Please write in confidence to:

Mr. R. H. Stevenson, Personnel Administrator—Research S531

HOFFMANN-LA ROCHE INC.

Nutley, New Jersey 07110

An Equal Opportunity Employer M/F

PHARMACOLOGIC RESEARCH

ASSISTANT DIRECTOR OF PHARMACOLOGY

Expanding and financially well-structured research oriented pharmaceutical company requires an Assistant Director of Pharmacology for cardiovascular research.

Corporate research objectives are directed toward development of a broad base of ethical pharmaceutical products, with primary attention in the area of central nervous system and cardiovascular drugs. This position provides an excellent opportunity for immediate personal contribution to attain these objectives and for continued professional recognition and development. It requires a person with the Ph.D. in Pharmacology and industrial research experience with specialization in cardiovascular work. Compensation is above the norm and will be related to experience. Location is a delightful setting in Eastern New York State.

Reply in confidence with your resume and an indication of your present salary.

Box 218, SCIENCE

POSITIONS OPEN

ASSISTANT TO DIRECTOR of large university-based, interdisciplinary Public Health Service-supported research and training program in basic biology. The principal concerns of the program relate to environmental health and complex natural systems. Some graduate work in one of the natural sciences required. Salary approximately \$10,000; possible faculty appointment; opportunity to publish, and to carry on independent activities. Submit résumé. **Box 187, SCIENCE.**

BIOPHYSICIST—To assist a physiatrist, head of a department of PM&R, also cooperating with the University of Pa. Medical School, in a medical research program. Duties include active assistance in medical research projects and in development of new medical instrumentation. Starting salary \$10,623 or higher based on qualifications. Exceptional fringe benefits. Located in large federal government hospital near Hershey, Pa., 1½ hours from Phila. by turnpike. Non-discriminatory employer. Contact **Personnel Office, VA Hospital, Lebanon, Pa. 17042.**

CLINICAL MICROBIOLOGIST

To supervise and expand routine and develop research microbiology laboratory in well-equipped expanding 475-bed teaching hospital. Large internship residency program with full-time chiefs in medicine, pediatrics, surgery and ambulatory services. Active school of Medical Technology with university affiliation. Five full-time pathologists, a hematologist and clinical chemist. Incumbent will have opportunity to design new microbiology section. Good facilities, pleasant working conditions and liberal benefits. M.S. or experienced B.S. considered. Salary open. Contact:

Recent AAAS Symposium Volumes

#87. Formulation of Research Policies

1967. 218 pages. Editors: Lawrence W. Bass and Bruce S. Old. Collected papers from a Gordon Research Conference held in Santa Barbara, California, in 1966. Goals, accomplishments—and weaknesses—of past and present science policies of nations, government agencies, individual industries, and international organizations are given expert and candid appraisal in this work—the record of an exciting conference.

Price: \$7.75. AAAS Member's Cash Price: \$6.75.

#86. Ground Level Climatology

1967. 408 pages. Editor: Robert H. Shaw. Relation of climate to the distribution and abundance of plants and animals; the effects of weather modification on physical processes within the microclimate; and the effects of moisture, temperature, and energy balance on physiological functions.

Price: \$12.50. AAAS Member's Cash Price: \$10.50

#85. Agriculture and the Quality of Our Environment

1967. 480 pages. Editor: N. C. Brady. Damage resulting from air pollutants; extent and consequences to agriculture of salt buildup in soils and water; dangers from radionuclide contamination of soil, water, and air. Extent of pesticide buildup in soil and water and of means to minimize potential hazards from pesticide use; siltation of reservoirs and streams and their nutrient enrichment; disposal of animal wastes.

Price: \$13.50. AAAS Member's Cash Price: \$11.50.

#84. Molecular Mechanisms of Temperature Adaptation

1967. 398 pages. Editor: C. Ladd Prosser. A collection of papers on the general physiology of temperature adaptation in cold-blooded animals, plants, and microorganisms.

Price: \$12.50. AAAS Member's Cash Price: \$10.50.

#83. Estuaries

1967. 776 pages. Editor: George H. Lauff. The first comprehensive collection of scientific papers covering the comparatively new field of estuarine research.

Price: \$27.00. AAAS Member's Cash Price: \$24.00.

#82. Civil Defense

1966. 154 pages, paper. Editor: Henry Eyring. Scientists report their findings on problems related to modern warfare and passive civil defense systems.

Price: \$4.00. AAAS Member's Cash Price: \$3.50.

#81. Environmental Variables in Oral Disease

1966. 328 pages. Editors: S. J. Kreshover and F. J. McClure. Contents: Geographical and clinical considerations; the oral environment—nutrition and dental caries; experimental considerations in oral soft lesions; prenatally occurring influences.

Price: \$8.75. AAAS Member's Cash Price: \$7.75.

#80. Air Conservation

1965. 348 pages. "The result of a 2-year study by the AAAS Air Conservation Commission, all aspects—sociological, technical, political and biological—of air pollution are considered concisely." (*Chemical Processing for Operating Management*, May 1966)

Price: \$8.00. AAAS Member's Cash Price: \$7.00.

#79. Science in Japan

1965. 496 pages. Editor: Arthur H. Livermore. A broad and detailed review of recent scientific and technological developments in Japan.

Price: \$13.00. AAAS Member's Cash Price: \$11.00.

#78. Man, Culture, and Animals

1965. 304 pages. Editors: Anthony Leeds and Andrew P. Vayda. "This volume contains articles pertaining to the relationship between man and animals in different parts of the world, covering the influence of domesticated and non-domesticated animals on a variety of cultures." (*Biological Abstracts*, 1 February 1966)

Price: \$8.00. AAAS Member's Cash Price: \$7.00.

#77. Food Quality

1965. 306 pages. Editors: George W. Irving, Jr., and Sam R. Hoover. "It is an excellent, well-edited review of the agronomical production and processing problems of the basic commodities, fruits and vegetables, cereals, dairy products, poultry and eggs, and meat products." (*Cereal Science Today*, November 1965)

Price: \$8.50. AAAS Member's Cash Price: \$7.50.

#76. Agricultural Sciences for the Developing Nations

1964. 230 pages. Editor: Albert H. Moseman. "The book . . . is especially useful because of the author's combined experience with the situations and problems of agriculture in the less developed countries. . . . This book will be a valuable reference for many years." (*BioScience*, March 1966)

Price: \$6.75. AAAS Member's Cash Price: \$6.00.

#75. Mechanisms of Hard Tissue Destruction

1963. 776 pages, 430 illustrations. Editor: R. F. Sognnaes. "Scientists in the fields of dentistry, medicine, and zoology presented a multidisciplinary symposium in 1962, dealing with varied but cognate topics such as coral reefs, dental caries, deer antlers, osteoclastic diseases, bone metabolism, chelation. It is a refreshingly well-planned, well-edited, and interesting symposium." (*Journal of the American Medical Association*, July 1964)

Price: \$13.00. AAAS Member's Cash Price: \$11.00.

#72. Spermatozoan Motility

1962. 322 pages, 113 illustrations. Editor: David W. Bishop.

Price: \$7.50. AAAS Member's Cash Price: \$6.50.

#67. Oceanography

1961; 4th printing, 1966. 665 pages, 146 illustrations. Editor: Mary Sears.

Price: \$14.75. AAAS Member's Cash Price: \$12.50.

The only option
you can't put on the
AO Microstar
Microscope
is quality.

It's already there.

You'll find it in the pacesetting, infinity-corrected optics of the AO Microstar® Microscope. You'll find it in the Auto-focus stop that makes perfect focus a matter of touching the fine adjustment. And in the objective nosepiece that floats. So if accidental contact is made with the slide during focusing, you can't damage either the slide or the objective lens.

Now, add one or all the options available and the AO Microstar Microscope will take on new and different roles. Add your choice of mechanical stages, so you can face either the front or back of the Microstar Microscope, and use either your right or left hand. Add the Dual Viewing Attachment. It allows two people to view the same specimen at the same time. Add the AO Viewing Screen. It displays the specimen on a 6" screen. The AO Microstar Microscope offers a wide variety of photographic attachments for color or black and white, 35mm or Polaroid* photomicrographs.

Ask your AO Sales Representative for a demonstration of the AO Microstar Microscope, or write for more details.
