### POSITIONS OPEN

#### UNIVERSITY OF MIAMI DEPARTMENT OF BIOCHEMISTRY

Applications are invited from B.S., M.S. (or equivalent) in Chemistry, Biochemistry (or related science) for a Research Assistant in Microbial Biochemistry. Applicants should have experience in some of the following techniques: spectroscopy (u.v., i.r., mass); gas chromatography, enzymology; organic syntheses; radio isotopes, continuous cultivation of micro-organisms. An interest in the use of instruments and automatic equipment is required. Apply with full details of career and the names of three references to Dr. D. W. Ribbons, Department of Biochemistry, University of Miami Medical School, P.O. Box 875, Biscayne Annex, Miami, Florida 33152.

#### BIOMEDICAL RESEARCH

We are looking for a person with some background in statistics and some research experience in the biological sciences who would be interested in a career in the medical research area. Responsibilities would include the management of data analysis and the writing of reports for several ongoing collaborative clinical trials. A Ph.D. would be preferred (though M.S. plus experience would be considered). A good scientific background and the ability to write a sound report are the main prerequisites; we will teach you what you need to know about biostatistics and biomedical research. Contact: Dr. Nelson H. Slack, Department of Biostatistics, Roswell Park Memorial Institute, 666 Elm Street, Buffalo, New York 14203.

A position as a **Radiobiologist** for the Division of Radiation Therapy is open at John Sealy Hospital, University of Texas Medical Branch, Galveston, Texas. This division is brand new with a fairly well-equipped radiobiology laboratory. This position will require a Ph.D. in Biophysics or in Physical Chemistry. Work will be centered around radiobiology research and teaching on our campus. The position will hold academic rank and full-time faculty membership. Approximately two-thirds of the work will be research and one-third will be teaching. The work will be mainly experimental in connection with cancer research applied to Radiation Therapy. Salary will be \$15,000-20,000 per year, depending upon experience.

## POSITIONS OPEN

# Information Scientist

Expansion in our Research Records Office creates an outstanding opportunity for someone familiar with the operation of a pharmaceutical research organization.

Ideally you will have a BS degree in one of the biological sciences. A good facility with scientific German is mandatory. Previous experience in a pharmacology department would be to your advantage, although not essential.

Principal duties would include classifying, indexing, disseminating, and retrieving scientific research data generated by Roche Research centers here and abroad.

Roche offers a complete fringe benefit package coupled with outstanding working conditions. To learn more concerning this unique opportunity please write in confidence to:

Richard H. Stevenson,  
Personnel Administrator, S 628

**HOFFMANN-LA ROCHE INC.**

Nutley, New Jersey 07110

An Equal Opportunity Employer M/F

**BACTERIOLOGY SUPERVISOR:** Preferably with a Master's Degree and 3 years' experience in diagnostic bacteriology. Challenging position available for qualified person in a 600-bed teaching and research hospital. New air-conditioned laboratory opened in June, 1968. Excellent salaries and fringe benefits. Lovely University town located on the shores of Lake Champlain. The hospital, an important referral center, serves as a teaching center for the University of Vermont Schools of Medicine, Medical Technology and Nursing.

Contact: Personnel Department, Medical Center Hospital of Vermont, Burlington, Vermont, 05401.

**WANTED—ELECTRON MICROSCOPIST** to participate in a research project relating to heart muscle disease. Salary open. Call or write Dr. Carl S. Alexander, Veterans Administration Hospital, Minneapolis, Minn. 55417. Area Code 612, Phone Number 712-7512, Ext. 383.

Program of Interdisciplinary research into the activity patterns of children in the free range needs a **Life Scientist** as a member of the team. Recruit would work in Children's Research Center, a division of the Graduate College of the University of Illinois, and would be expected to work without supervision. Ph.D. preferred, however, candidates for the Ph.D. will be considered. Write: **M. J. Ellis, Assistant Director, Motor Performance Laboratory, Children's Research Center, Champaign, Illinois 61820.**

## PROJECT DIRECTOR RODENT FERTILITY CONTROL PROGRAM

New York State has a new multi-million dollar Rodent Control Program. Part of this new program involves further laboratory evaluation of anti-fertility agents, a pilot study under controlled field conditions to evaluate the laboratory results, and a full scale field study to determine the results and effect of anti-fertility agents. The director of this project must have a bachelor's degree in biology and five years of professional research experience in biology; or a master's degree and four years of such experience; or a doctorate in medicine or biology and three years of such experience. Salary range \$17,370-20,500. Send complete résumé to: EHS Recruitment, OPA/N.Y.S. Dept. of Health, Albany, N.Y. 12208.

## POSITIONS OPEN

**Biochemist, Ph.D.** Canadian Dental Faculty invites applications for a position, the principle duty of which would be to assist in the teaching of biochemistry and applied pharmacology to dental students. The appointment is open on July 1st, 1968, at the Associate Professor level with a yearly salary between \$13,000 and \$17,500. Adequate research facilities in an established laboratory are available. A dental degree is not necessary. Inquiries should be addressed to: **Professor K. A. McMurchy, Head, Basic Science Department, Faculty of Dentistry, University of Alberta, Edmonton, Alberta, CANADA.**

## EXPERIENCED MARINE SCIENTISTS ARE NEEDED

Leading coastal and estuarine oceanographic research institution seeks capable marine scientists with several years experience in ichthyology or marine fisheries biology, physical, chemical or physical oceanography, marine microbiology, marine pollution biology or environmental health work and marine ecology to fill newly established positions. Needed are established doctoral-level scientists qualified to assume responsibility for operating research and graduate teaching departments. Strong local support assures continuation of active research and teaching programs.

If interested, please reply with appropriate resumes to Box 245, SCIENCE.

## MARINE SCIENTISTS

Active center for research and education in Marine Science seeks scientists qualified at doctoral and magisterial levels to fill newly created research and graduate teaching positions. Areas of special interest are marsh ecology, shellfish biology, marine microbiology, productivity of coastal and estuarine waters, marine parasitology, pollution biology, sanitary engineering and coastal engineering. Location, mid-Atlantic state near large centers of population. Salaries and fringe benefits competitive. Address letters and résumés to: Box 229, SCIENCE.

## ACADEMIC PATHOLOGIST

Position involves chiefly teaching and research, with limited service responsibility. Opportunities for independent or collaborative investigation. Rank according to qualifications. Attractive salary and fringe benefits. Contact **Doctor Joseph A. Sisson, Chairman, Department of Pathology, Creighton University School of Pathology, Creighton University School of Medicine, 2500 California Street, Omaha, Nebraska 68131.**

## PLASTICS PRODUCTION MANAGER

A New York area firm specializing in plastic reproductions of fossil osteological material is seeking a production manager. The ideal candidate would have experience and competence in plastic production methods as well as the ability with an open and active mind to approach specialized quality control problems inherent in the large-scale reproduction of complex shapes and surfaces. Intelligence and enthusiasm, especially if coupled with a degree in mechanical or industrial engineering, could be substitutes for experience. Salary open. All replies held in strictest confidence. Please submit résumé to:

Box 228, SCIENCE
