

About this business of laboratory supports with UNISTRUT® metal framing

**LABORATORIES**  
with UNISTRUT metal framing

Experiments, set-ups, benches, mechanical and electrical equipment, walls, floors, ceilings—all can be supported with UNISTRUT metal framing. Saves time three ways: designing, during construction, and after. The lab is always a living, flexible, area to work in. It never becomes obsolete. Easy maintenance, too. This means lower cost from start to finish. Get the

details in new 40 page catalog—contains typical installations photos, details and parts. Write your local UNISTRUT Service Center, or UNISTRUT Corporation.

### New AAAS Symposium Volumes

#### FORMULATION OF RESEARCH POLICIES September 1967

Editors: Lawrence W. Bass and Bruce S. Old  
218 pp., tables, illus., 6 x 9, cloth. \$7.75.  
AAAS members' cash orders: \$6.75.

A collection of papers, presented at the Gordon Research Conference held in Santa Barbara, California, in 1966, analyzing and describing past and present science policies at national, international, and corporate levels.

#### MOLECULAR MECHANISMS OF TEMPERATURE ADAPTATION July 1967

Editor: C. Ladd Prosser  
398 pp., 41 tables, 127 illus., bibliogr., index, 6 x 9, cloth. \$12.50.  
AAAS members' cash orders: \$10.50.  
Papers by 24 contributors to the general physiology of genetic and environmentally induced temperature adaptation in cold-blooded animals, plants, and microorganisms.

#### ESTUARIES January 1967

Editor: George E. Lauff  
776 pp., 85 tables, 525 illus., bibliogr., index, 7 3/4 x 10 1/2, cloth. \$27.00.  
AAAS members' cash orders: \$24.00.  
Definitive volume on estuarine research: physical factors, geomorphology, sedimentation, microbiota, nutrients, biological productivity, ecology, physiology and evolution, fisheries, human influences, and pollution.

AAAS • 1515 Mass. Ave., NW • Washington, D.C. 20005

### SECTION HEAD (FOOD CONTAMINANTS)— FOOD DIVISION

#### RESEARCH SCIENTISTS

(A) UP TO \$19,700

#### Food and Drug Directorate

To supervise and direct a research program concerned with the analysis and biochemical properties of trace contaminants of biological and metallic origin that are potentially hazardous to man. Present studies include the characterization and analysis of fungal toxins, insect metabolites and naturally occurring carcinogens.

#### Department of National Health and Welfare

### PROTEIN CHEMIST— PHARMACOLOGY DIVISION

(B) UP TO \$16,900

#### OTTAWA

To conduct research on the structure, activity and relationships of protein hormones and to participate in research programs involving endocrinology and bioassay techniques.

For position A preference will be given to an experienced scientist of proven ability and leadership. For position B while preference will be given those with experience in structural analysis of proteins, consideration will be given to more recent graduates with specialization in protein chemistry.

Résumés or requests for additional information should be submitted to the BIO-PHYSICAL SCIENCES PROGRAM, PUBLIC SERVICE COMMISSION, OTTAWA 4, CANADA, quoting reference 68-100.

# Personnel Placement

## POSITIONS WANTED

**Biochemist:** Ph.D. 1961 desires research position in medicine particularly brain metabolism, physiologically active amines, hormones, or drugs. Strong background in radioisotopes and organic chemistry. Box 292, SCIENCE. 8/16

**Microbiology/Parasitology** Ph.D.; enzymes, lipids research; completing postdoctorate vaccine development; seeks research appointment. Woodward Personnel Bureau, 185 North Wabash, Chicago 60601.

## POSITIONS OPEN

(a) **Physiologist/Pharmacologist** Dean; small specialty college & teach; \$16,000; MidW. (b) **Hosp Pharmacist** small hosp Pacific island; \$12,000. (c) **Vinyl Chemist** develop & direct programs; \$18,000 FEE PD; leading mfg firm; MidW. (d) **Entomologist-Parasitologist** teach & research; state college; open; S. (e) **Biochemist** exp enzyme studies & drug metabolism; \$21,000; chemical mfr; E. (f) **Parasitologist** develop antitrichomonal screening program; supv; \$16,000 FEE PD; drug mfr; E. (g) **Med Writer** exp; \$9-13,000; drug research firm; E. **WOODWARD PERS BUREAU**, 185 N. Wabash, Chicago 60601. X

## ACADEMIC PATHOLOGIST

Position involves chiefly teaching and research, with limited service responsibility. Opportunities for independent or collaborative investigation. Rank according to qualifications. Attractive salary and fringe benefits. Contact **Doctor Joseph A. Sisson, Chairman, Department of Pathology, Creighton University School of Pathology, Creighton University School of Medicine, 2500 California Street, Omaha, Nebraska 68131.**

## POSITIONS OPEN

### MICROBIOLOGY OPENINGS

All fees company paid. Nationwide **Group Leader** (pharmaceuticals), to \$16,200; **Senior Medical Scientist** (bacterial infections), to \$15,000; **Senior Bacteriologist** (food research), to \$15,000; **Research Bacteriologist** (stream pollution/atmospheric studies), to \$14,500; **Sterility Assurance Supervisors**, to \$13,500; **Quality Control**, \$8,000-14,400; **Section Head, Microbiology**, Open. Only a partial listing—many other industrial openings. Contact in confidence: **P. Anderson, Longberry Employment Service, Inc.**; Sixth Floor, Niles Bank Bldg.; Niles, Ohio 44446, (216) 652-5871.

### NON-RUMINANT NUTRITIONIST—ASSISTANT PROFESSOR

The Department of Animal Science, Ontario Agricultural College, University of Guelph, Guelph, Ontario, Canada, requires a faculty member for teaching and basic research in *non-ruminant nutrition*, particularly swine. Modern chemical and animal laboratories will be available for various avenues of investigation with initial priority of investigation being in the area of minerals and vitamins.

Candidates must have a Ph.D. or the equivalent with major emphasis in nutrition and biochemistry. Salary will be commensurate with educational qualifications and experience.

### RUMINANT NUTRITIONIST—ASSISTANT PROFESSOR

The Department of Animal Science, Ontario Agricultural College, University of Guelph, Guelph, Ontario, Canada, requires a faculty member for teaching and basic research in *ruminant nutrition*. Modern chemical and animal laboratories will be available for various avenues of investigation.

Candidates must have a Ph.D. or the equivalent with major emphasis in nutrition and biochemistry. Salary will be commensurate with educational qualifications and experience.

Persons interested in either position are invited to send curriculum vitae, grade transcripts, lists of publications and references, special qualifications and interests to:

**Dr. J. C. Rennie**  
Chairman of Department

## BIOLOGICAL EDITOR

In the highly professional atmosphere of our internationally respected pharmaceutical firm, a Biological Editor works closely with research personnel. It's a responsible position that calls for an M.S. in biology. It also calls for 1-2 years of experience writing toxicological and medical case reports. Plus the ability to prepare and edit summaries of New Drug Applications. We offer a metropolitan New Jersey location that gives easy access to New York City

... and an excellent benefits package that includes profit sharing. Please write to:

Administrator of Research Employment

**SCHERING Corporation**

60 Orange St.  
Bloomfield, N.J. 07003

An Equal Opportunity Employer

## Biostatistician

Geigy has an opportunity for a skilled biostatistician to join our Pharmaceutical Division.

As a member of a group actively engaged in Drug Research emphasizing clinical investigation your responsibilities will include:

- ... Design of Experiments
- ... Analysis of biological & medical data
- ... Preparation of technical reports, presenting statistical analysis.

**LOCATION:** We are located in beautiful, suburban Westchester County just 40 minutes from New York City.

If interested please send qualifications and salary requirements to: Personnel Director, Geigy Chemical Corporation, Saw Mill River Road, Ardsley, New York 10502

An Equal Opportunity Employer (M/F)

**Geigy**

## REPRODUCTIVE TOXICOLOGY

A new opening exists on our research staff for a scientist to plan and supervise reproductive and teratological studies on medicinal compounds. Responsibilities include correlation of results and preparation of reports on all phases of these investigations as well as devising new procedures and experimental approaches. Duties also include supervision of junior professional and technical personnel. The preferred candidate will have a degree in Physiology, Embryology or Zoology with a specialized knowledge of reproductive physiology, anatomy and genetics. Preference will be given to experienced candidates.

In return for outstanding qualifications, we offer excellent opportunities for personal and professional growth, highest salaries and complete company-paid benefits including relocation expenses. Modern laboratories in Suburban Philadelphia near Valley Forge provide ideal working conditions.

Please submit your résumé in confidence to Dr. R. W. Kinney, Director of Scientific Employment.

**SMITH KLINE & FRENCH**  
LABORATORIES

1584 Spring Garden Street  
Philadelphia, Pa. 19101

An Equal Opportunity Employer  
Member of Plans for Progress
