CARTER-WALLACE, Inc.

Cranbury

An Equal Opportunity Employer

POSITIONS OPEN

We are seeking several Chemists and/or Biochemists for career positions in our Research Laboratories. Candidates should have experience or interest in one of the following areas:

- Isolation and Characterization of microbial and plant products
- Drug metabolism
- Lipid Chemistry

ENVIRONMENTAL SCIENCE

Western Washington State College is founding a cluster college for the study of Environmental Science. To be Dean of the College we seek an innovative person with strong interdisciplinary interests who aspires to develop novel and challenging curricula. Address inquiries and professional résumés to:

Dr. Franklin Raney
Western Washington State College
Bellingham, Washington 98225

WESTERN COLLEGE OF VETERINARY MEDICINE

Requires

VETERINARY PATHOLOGIST at the assistant or associate professor level depending upon qualifications. Duties would include the teaching of avian medicine and pathology to undergraduate students and participation in a diagnostic necropsy service. There is good opportunity for Northern and Arctic research. New laboratory facilities. Address correspondence to: N. O. Nielson, Head of Veterinary Pathology, Western College of Veterinary Medicine, University of Saskatchewan, Saskatoon, Saskatchewan

MICROBIOLOGIST

Hyland Laboratories, a leader in the field of diagnostic and biological products, seeks a qualified individual to assume the responsibilities of Director of Microbiological Research.

This attractive, newly created position has become necessary due to our continuing growth and expansion. The successful candidate will have the opportunity to originate this new R&D activity, making recommendations to management on microbiologic R&D philosophy and direction.

Qualifications include Ph.D. in Microbiology with outstanding academic achievement. Five or more years of significant experience is required in one or more of the following: Medical-microbiology; virology; bacteriology; mycology; parasitology.

Hyland, a Division of Baxter Laboratories, Inc., offers an attractive salary and benefit schedule including stock purchase. More important, this position offers the opportunity to realize unusual professional growth and achievement.

Qualified individuals are invited to submit curriculum vitae for confidential review.

STUDY TRAINEESHIPS

Postdoctoral Traineeships in Journal Editing. Applications are invited for the second 8-month training program for executive editors of biomedical journals, to begin October 1969. Applicants must have a doctorate (Ph.D. or M.D.) in science and at least 3 years' research experience, including publication in scientific journals. No editorial experience is necessary. All aspects of journal editing and management will be taught through experience with editorial offices of five leading biomedical journals. Trainees will receive a stipend commensurate with their training, experience, and present status. Apply (enclosing a curriculum vitae) by 15 November to Dr. F. Peter Woodford, The Rockefeller University, New York 10021.

GRADUATE STUDY

NIH TRAINEESHIPS: CARDIOVASCULAR PHYSIOLOGY AND METABOLISM

open to M.D.'s with residency training, Ph.D.'s, or bioengineers oriented to physiology, to train for careers in clinical investigation or academic medicine. Work in experimental cardiology, metabolism and nutrition, renal-endocrine physiology, cardiopulmonary physiology or body composition laboratories, each under a senior investigator. Core curriculum in instruments, radioisotopes, computer methodology, and medical mathematics. Columbia University courses available when relevant; Hospital Center adjacent to campus.

CLINICAL CARDIOLOGY PROGRAM shares part of core curriculum and provides training in cardiography, coronary care, cardiac catheterization and medical aspects of cardiac surgery. Applicants must have completed 2 years of residency in internal medicine.

Citizenship or intention requisite; stipend commensurate with training.
