## Personnel Placement

### POSITIONS WANTED

Biochemical Pharmacologist, Ph.D. Experienced laboratory automation, computer control methods. Desire R&D in automated lab systems. Prefer Rocky Mountain states. Box 412, SCIENCE. 12/29

**Biochemist-Molecular Biologist,** Ph.D., desires teaching, administrative, or clinical position. Box 437, SCIENCE. X

**Biologist,** Ph.D., 26, 1-year postdoc in laser biology and tissue culture, seeks teaching/research position at major East or West Coast university; will teach genetics, embryology, or evolution; ten publications; department must be willing to finance initiation of laser biology research program. Box 438, SCIENCE. 12/6

Business Administrator, medical college, business and government experience. Minimum \$15,000, Box 436, SCIENCE. X

Cell Biologist, Geneticist. Electron microscopy. Research in developmental processes in inverte-brates. Ph.D. April 1969. Publications. Thirty years old, married. Box 380, SCIENCE. 12/20

Medical Entomologist, Ph.D., 1964, with over 8 years' experience in tropics, desires a position with research opportunities. Publications on mosquito ecology, biology, control and genetics and transmission of disease agents with arthropods. Box 439, SCIENCE. X

Microbiologist, 43, M.S. + 60, desires to justify education and support large family. Experienced ? mycology, virology, biochemistry, electron microscopy, teaching, ditch-digging. Also con-siderable experience fighting city hall, Publica-tions, congenial but honest. Box 440, SCIENCE, X

Microbiologist, D.V.M., M.S. Will complete re-quirements for Ph.D. by January 1969, Publica-tions. Seeking research position in United States or Canada. Box 421, SCIENCE. 11/29

Microbiologist-Biochemist: Ph.D. 1966, 32. Two years' postdoctoral research on microbial exoen-zymes, antibiotics. Eleven publications. One year of teaching experience. Desires research/teaching or research appointment. Available June 1969, Box 423, SCIENCE. 11/29

Microbiology Ph.D. 1968; Chemistry M.S.; ASCP; Director-Instructor 450-bed hospital; seeks clini-cal or teaching appointment. Woodward Personnel Bureau, 185 North Wabash, Chicago 60601.

Parasitologist Sc.D. Nutritional/physiobiochemical interest. Desires teaching/research or industrial position. Box 441, SCIENCE. X

Pharmacologist, Ph.D., Postdoctorate. Strong chemical background. Desires industrial position. Publications, patent. Box 442, SCIENCE. X

Pharmacologist, Ph.D.; 8 years of varied experi-ence. Desires supervisory or administrative posi-tion. Box 432, SCIENCE. 12/6

Physiologist, Ph.D., 28, married. Two years postdoctoral neurobiology research. Some experi-ence teaching. Desires teaching position at reputable, preferably smaller, college, North-east/Northwest. Box 443, SCIENCE. X

### POSITIONS OPEN

Senior Faculty Position, Environmental Biology. Applications are invited for the position of Pro-fessor or Associate Professor of Environmental Biology. Applicants may be considered for de-partment chairmanship and should have exten-sive research and teaching experience in some phase of ecology. Salary is open and negotiable. Address inquiries to: D. M. Gillespie Department of Environmental Biology 203 North Biology Bldg. University of Utah Salt Lake City, Utah 84112

**29 NOVEMBER 1968** 

## **COMPARATIVE** PATHOLOGIST

Laboratory Animals Midwestern drug firm needs an additional doctorate-level person competent in anatomical and clinical pathology as related to preclinical drug safety studies. Job includes design, supervision of performance, evaluation of all data generated, and written report of such a study. Graduate level training in pharmacology is highly desirable. Box 445, SCIENCE

## TOXICOLOGIST

Midwestern drug firm needs a doctorate-level person trained in pharmacology and biostatistics to assist in the design, performance, and reporting of preclinical drug safety studies.

**Box 444, SCIENCE** 

can save you time, money, and a lot of grief. With a Hardco Automatic Watering System, lab animals always have a supply of fresh, filtered water. There are no bottles to refill, wash or replace. Personnel are free to do

other things. Heart of the Hardco System is a leak-proof dispenser that can be easily activated by a small animal. A dispenser is installed in each cage and is connected to the water source by a network of special plastic piping.

Hardco designs and installs systems for all species of lab animals ... for both planned and existing facilities. Our catalog goes into the details. Write for it today.

### Hardco Scientific

The Fieldstone Corporation Hardco Scientific Division 6811 Grace Avenue Cincinnati, Ohio 45227

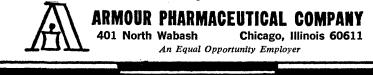

# **Clinical Research Associate**

Expansion and acceleration of our R&D program has created an outstanding opportunity for a Ph.D. experienced in NDA-oriented clinical studies of new therapeutic agents. FUNCTIONS: The position, reporting to the Director of Clinical Investigation, entails all activities relating to clinical trials, including development of experimental designs and preparation of protocols, liaison with investigators, monitoring, as well as collection and coalation of data, and supervision of data analyses. The clinical studies, which encompass a broad therapeutic spectrum, include toxicity, pharmacodynamics, dose-response, absorption, fate, and excretion.

QUALIFICATIONS: The candidate, whose Doctorate may be in the Biological or Chemical disciplines, must be conversant with Federal regulations relating to new-drug trials, and have at least 3 years' direct experience with a recognized U.S. ethical pharmaceutical manufacturer in conducting such studies.

Compensation is open, and includes excellent fringe benefits. Your curriculum vitae will be treated in strictest confidence. Send to:

William A. Schuh, Manager Industrial Relations

### NUCLEAR ENGINEER

#### Salary range \$16,946 to \$22,031

. . . to work as a faculty member at the Naval School, Civil Engineer Corps Officers, Port Hueneme, California, a postgraduate level school sponsored by the Naval Facilities Engineering Command instructing in "Nuclear Defense Construction Engineering" (Fallout Shelter Analysis).

Approximately three-fourths of the time would be spent with the Office of Civil Defense in Washington. D.C., where he would assist in developing new techniques, policies, and procedures for the Technical Directorate, Advanced degree plus experience desired. Send résumé to Naval School, Civil Engineer Corps Office (C44), Port Hueneme, California 93041. This position is in the Career Federal Service, an Equal Opportunity Employer.

#### UNIVERSITY OF WESTERN ONTARIO DEPARTMENT OF GEOGRAPHY LONDON, CANADA

DEPARIMENT OF GEOGRAPHY LONDON, CANADA A well-established DEPARTMENT OF GEOG-RAPHY AT THIS MEDIUM-SIZED UNIVER-SITY (ENROLLMENT 10,000) IN SOUTHERN ONTARIO REQUIRES, for 1 July 1969, a Geog-rapher with a strong mathematics background and experience in the computer applications of quantitative techniques in the Social Sciences to assist in undergraduate and graduate teaching in these areas and to develop a research program in his own field of specialization. The depart-ment is particularly interested in applicants with specialization in urban geography, economic geog-raphy, resource development studies and trans-portation, but applicants with other specializa-tions will be given every consideration. An ap-portation, but applicants with other specializa-tions will be given every considerations. The sport professor level, and the salary will depend upon experience and qualifications. The salary scales are, however, competitive with other universities in Ontario. The present salary floors are: Assistant Professor, \$95,000; Associate Profes-sor, \$11,500; Full Professor, \$15,000. Applications who have not yet completed the Ph.D. degree will be considered for appointment with the rank of Assistant Professor. Applications, together with a for specing for mytom references can be ob-tained, should be submitted before 1 December 1968 to: Dr. Victor W. Sim tained, s 1968 to:

Dr. Victor W. Sim Department of Geography University of Western Ontario London, Canada

#### Ph.D. **MICROBIOLOGIST**

Scientific interest in research aspects of medical microbiology. This position is in our Life Sys-tems Divison and entails coordinating research programs and supervising laboratory technicians and medical technologists.

HAZLETON LABORATORIES, specializing in the life and environmental sciences, is located in the suburban area of Washington, D.C. If you have 0 to 3 years of medically oriented research experience, please send résumé to Mr. Michael J. Mackett experience Mackert.

> HAZLETON LABORATORIES, INC. A subsidiary of TRW Inc.

FALLS CHURCH, VIRGINIA 22046

An Equal Opportunity Employer

**CALCENTION LADURALUKIES** — or of the nation's significant R & D resources in Science, located in the heart of Philadelphia, and convenient to ideal urban or suburban living with exceptional deatures. As a not-for-profit research institute. FIRL serves both government and in-dustry with a staff long recognized for its achievements in many fields. The Materials Science and Engineering Department at FIRL—devoted to the ad-vancement of the science of materials, and its application to technology, has career staff positions for Solid State Physicists (M.S. or Ph.D.) to lead research activities and to contribute to the basic understanding of magnetic materials and their appli-cation to memory media including new digital concepts, tape and disc recording, optical processing and magnetorestrictive sensors. Experience in magnetism is desired. A career staff position is also available for a materials preparation and formula-tion. Experience with ceramic and/or magnetic materials desired. The Department's interests include Solid State Physics, Metals, Ceramic and Bio-Materials Research—spanning the total spectrum from basic research to applied tech-nology. Our staff, consisting of mate-rials-oriented professionals with di-verse specialities, approaches prob-lems from an interdisciplinary view-point. Interested applicants should stard

ELECTRON MICROSCOPE TECHNICIAN for medical research program. Preparation of bio-logical specimens (fixing, embedding); ultra-thin sectioning; maintenance of Siemens electron mi-croscope; photography related to project. College background preferred in the biological sciences. Previous experience as electron microscope tech-nician required. Send complete résumé including salary range to: Director of Personnel, University of Pennsylvania, 3451 Walnut St., Philadelphia, Pa. 19101. An equal opportunity employer.

An equal opportunity employer.

#### GRADUATE STUDY

Applications for Advanced Studies in a diversi-fied, creative biochemistry program, including clinical biochemistry, leading to a Ph.D., are now being considered for September 1969. Tuition free. Predoctoral fellowships are available, also postdoctoral fellowships in clinical biochemistry. Chairman, Admissions Committee, Biochemistry Department, State University of New York at Buffalo, Buffalo, N.Y. 14214.

**FELLOWSHIPS** for individuals (M.D., Ph.D. or equivalent) seeking clinical or research training in metabolism including diabetes, endocrinology, hypertension, renal function, steroid biochemistry. U.S. citizen or declaration of intent filed. Stipend \$6,000-\$10,000 partly tax exempt plus dependency allowance. Apply Dr. Richard Bailey, University of Oregon Medical School, Portland, Oregon.

### HEBREW UNIVERSITY OF JERUSALEM FACULTY OF SCIENCE POSTDOCTORAL FELLOWSHIPS

Applications are invited for postdoctoral Fel-lowships, tenable in one of the following insti-tutes of the Faculty of Science: Mathematics, Physics, Chemistry, Biology, Earth Sciences. Preliminary inquiries for the academic year 1969-70 should reach us by 1 December 1968, addressed to Mrs. N. Lifshitz at the Faculty of Science giving details of the specialized field of interest. Further information will then be sup-plied.

plied.

PRE- and POSTDOCTORAL FELLOWSHIPS: EXPERIMENTAL PATHOLOGY. Emphasis on cellular, ultrastructural, biochemical and bio-physical investigation of disease, including liver diseases, chemical, and viral carcinogenesis, human oncogenesis, drug-induced diseases and endocrinopathics. Predoctoral training leads to Ph.D. in Experimental Pathology. Write Dr. Hugh A. Edmondson, Department of Pathology. University of Southern California, School of Medicine, Los Angeles, California 90033.

RADIATION BIOPHYSICS FELLOWSHIPS. Applications are invited for a M.S. degree pro-gram in Radiation Biophysics. Specialities em-phasized are medical radiation physics, radiological health, and radiobiology. There are active re-search programs in these fields in excellent physi-cal facilities of a large medical center complex. Contact Dr. Billy G. Dunavant, University of Florida, College of Medicine, Radiology Depart-ment, Gainesville, Florida 32601.

RADIATION HEALTH FELLOWSHIPS: Begin-ning September 1969. Degree programs leading to M.S. (Hyg.), Sc.D., Ph.D. Background in physics, engineering, biology, chemistry, or medi-cine required. Active research program in large health center complex. Specialties available in radiation medicine, radiobiology, radiation chem-istry, cytogenetcs, health physics, radiation ecology and radiological engineering and physics. Full uuition and fees, tax-free stipend of \$3000 to \$4800 per year. Citizens only. Dr. Joseph A. Wat-son, Radiation Health Division, Graduate School of Public Health, University of Pittsburgh, Pitts-burgh, Pa. 15213.
