

CIVIL DEFENSE

The place of civil defense in the total picture of war and peace is one of the most important and controversial problems confronting the American public today. A major question at issue is whether an extensive shelter building program will diminish or increase the possibility of a catastrophic nuclear war. But the question cannot be discussed intelligently without knowledge of a number of facts that only the scientific community can provide. At the Berkeley meeting of AAAS in 1965, scientists who had studied problems relating to modern warfare and passive civil defense systems reported their findings. This book provides scientists and the public with a clearer picture of what is known about the possibility and feasibility of establishing an effective civil defense system against the weapons of modern warfare.

Personnel Placement

POSITIONS WANTED

Archeology Ph.D., Poona, India, seeks teaching position in America; M.A. in ancient history. Thesis: "Pleistocene Stratigraphy and Prehistoric Archeology of the Central Narmada Basin." Now teaching in Poona University. Young, personable. For further particulars contact James Rogers, 27 Allen Street, Hudson Falls, N.Y. 21839. Phone 518-747-3381.

Aquatic Biologist, Sc.D., research and teaching experience in water pollution control, interested in biological indicators of pollution, taxonomy of water insects; 20 publications. Seeks research and/or teaching position. Box 89, SCIENCE.

Biochemist, Ph.D., with 10 years of industrial research experience in food and nutrition desires academic opportunity for teaching and research. Box 90, SCIENCE.

Biochemist, 37, Ph.D. Analytical and clinical chemistry experience. Desires academic administration or teaching/research appointment. Prefers Rocky Mountains location. Box 91, SCIENCE.

Biochemist, Ph.D. 1968. Microbiology minor. Experienced in protein, enzyme and lipid chemistry. Desires teaching or hospital laboratory position. Available September 1969. No geographical preference. Publications. Box 92, SCIENCE.

Developmental Biologist, Ph.D. May 1969. Research in insect hormonal control mechanisms; immunochemistry, radioisotope techniques. Seeks research/teaching position. Box 93, SCIENCE.

POSITIONS WANTED

Entomologist/Parasitologist, Ph.D., 20 years' experience directing research, training, control programs desires U.S. or Canadian university, appointment as Professor or Head, Zoology/Biology, Public Health. Box 94, SCIENCE.

Microbiologist-Immunologist, Ph.D. Six years full-time research, 5 years teaching/research, publications, grants. Desires academic/research position permitting suburban-country living. Box 87, SCIENCE. 2/28

Microbiologist-Biochemist Ph.D. Six years of industrial experience in biochemistry and fermentation. Desires position in industry or academic area. Box 95, SCIENCE. X

Microbiologist (medical) Ph.D. 1964; mycology, immunology; pharmaceutical experience, seeks position, hopefully with teaching or research opportunity. Box 96, SCIENCE. X

Ph.D. Transmission and Scanning Microscopist, biological materials. Background, zoology, histology, embryology. Publications. Active basic research program. Desires senior academic teaching/research position. Box 97, SCIENCE. X

Ph.D. research experience in plant anatomy, morphology and paleobotany. Seeks teaching/research position in United States or Canada. Box 99, SCIENCE. X

Psychologist, Ph.D. Successful teaching and advising, undergraduate through M.D. and Ph.D. Collaboration with psychiatrists and analysts. Research on infant, adult, and animal sleep; on perception, "cognitive style"; community, educational, E-S interaction. June 1970. Box 98, SCIENCE. X

Science Editor-Writer, B.A., 31, medical school background, heavy publications experience, distinguished references, versatile. Seeks job with drug or other company, university, foundation, or publishing. Box 78, SCIENCE.

CLINICAL RESEARCH PHYSICIAN

Our Biomedical Research Dept. has a new position in developing programs of clinical investigation. The incumbent will initiate and supervise clinical trials of new drugs. Experience in clinical research and internal medicine preferred but will consider interested person.

Our new modern laboratories are in a suburban location offering excellent living conditions and schools.

To Investigate This Opportunity, Please Send Curriculum Vitae And Salary Requirements, In Confidence To:
