less than \$180 per function...

HEATH Universal Digital Instrument

Now you only need one instrument, the Heath EU-805A, to perform all these functions: Frequency, Period, Time Interval, Events count, Ratio, Integrating DVM, and Voltage Integrator. Combining in one package a DC-12.5 MHz Multi-Purpose Counter/Timer with a 0.05% accuracy Digital Voltmeter, the new Heath/Malmstadt-Enke UDI offers you unmatched versatility at less than \$180 per function! An original modular design based on TTL IC's plug-in cards protects the instrument from obsolescence.

The UDI features convenient fast cycling on slow time bases, continuous summing function, memory, 0.1 s to 30 s display time, 6 digit readout plus over-range.

The identical high-sensitivity (10 mV) input comparators provide 1 M Ω impedance, complete range of trigger controls (including Automatic Mode), oscilloscope monitoring of triggering point and four levels of input attenuation. Input pulse resolution is better than 50 ns. Time bases range from 1 μ s to 10 s and short term stability is better than 5 in 10^9 . Accuracy ± 1 count.

DVM section has Automatic Polarity, $5 \times 10^9 \Omega$ input impedance on separate 1 V range (10 M Ω on the others), four ranges from 1 V to 1000 V, 10 μ V resolution, 0.1 s to 10 s integrating time and V-F output available at rear panel.

The UDI is obviously the instrument you need and it is obviously priced right: \$1250. Less DVM order EU-805D at \$940. DVM conversion pack costs \$340.

Many cards from the UDI may be used in the Heath/Malmstadt-Enke Analog Digital Designer EU-801A:

The ADD permits the design of various analog and digital circuits and instruments, by plugging-in logic cards into its power, binary and timing modules. Solderless connections are made with ordinary wire and components leads.

For full information send for the **FREE NEW Scientific Instrumentation Catalog. An abridged Manual is available for \$3.50.**

HEATH COMPANY, Dept. 580-02
Benton Harbor, Michigan 49022
In Canada, Daystrom Ltd.

- ☐ Please send Free New Scientific Instrumentation Catalog.
- ☐ Please send Manual EUA-800A, a special 250 pg. condensation of the manuals which accompany Heath Digital equipment ... \$3.50.

NOW...uniformly coat TLC plates regardless of plate thickness

Read how both models of Shandon Unoplan® Levellers coat even layers with certainty on every TLC plate. Or better, send for complete catalog on Thin Layer Chromatography and Thin Layer Electrophoresis to Shandon Scientific Company, Inc., 515 Broad Street, Sewickley, Pa. 15143 (Pittsburgh District).

Unoplan Model P brings plates into plane against guide rail lips by a few pumps of rubber bulb. After coating, air pressure is released and plates slide out end with thin, uncoated margin on each side for handling ease. \$150.

Unoplan Semi-Automatic Model SA has platform covered with aluminum sheet, and plates rest on two rubber strips. Swinging the lever closes hinged side and raises platform against lips of guide rails. Reversing the lever drops down hinged side allowing plates to be lifted out easily without damaging layers. \$230.

TLC Adjustable Spreader fits guide rails of either model. \$48.

Personnel Placement

RATE CHANGE Effective 1 Jan. 1969

POSITIONS WANTED: 40¢ per word, minimum charge \$10. Use of Box Number counts as 10 additional words. Payment in advance is required. These rates apply to individuals only. Personnel agencies and companies take display rate for all advertising.

POSITIONS OPEN. \$7 per column line, if publisher's type is used (12 lines = 1 inch). Minimum ad is 12 lines or \$84. All ads using larger than 6 point type will be billed as display ads at \$90 per inch. No charge for Box Number. Rates net. No agency commission allowed for ads under 4 inches. No cash discount. Ads over 1 inch will be billed to the nearest half inch. Payment in advance is required except where satisfactory credit has been established.

COPY for ads must reach **SCIENCE** 4 weeks before issue date (Friday of every week). Send copy for Personnel Placement advertising to:

SCIENCE, Room 211
1515 Massachusetts Ave., NW
Washington, D.C. 20005

Replies to blind ads should be addressed as follows:

BIOSTATISTICIAN

Creative individual with Ph.D. in Statistics or Biostatistics is desired to develop methodology for use in the design and analysis of biological experiments.

Duties will include consulting with research scientists and other statisticians in the planning of new experimental programs. Emphasis will be upon the application of new techniques, particularly multiple and sequential decision procedures.

Applicant must be able to relate to others in identifying and formulating problems and in implementing solutions. Ability to communicate verbally and in writing is essential. Experience in a pharmaceutical or biological environment is desirable.

The Syntex Biostatistics Department serves the entire Research Division in the areas of compound activity evaluation, pharmacology, toxicology, human and veterinary medicine, and drug formulation.

Syntex, an international pharmaceutical company, is located on the San Francisco Peninsula, adjacent to Stanford University.

Interested candidates are invited to send resumes in complete confidence to Robert P. Dilks, Employment Manager,

Chemists

A unique opportunity exists in our diagnostic research department to collaborate with an authority in Clinical Chemistry. Current openings include:

Senior Chemist

Will supervise operation of research laboratory devoted to the development of new procedures for clinical biochemistry. Prefer candidate with PhD and experience in clinical biochemistry from either a hospital, academic or industrial organization. Should be familiar with research techniques, modern analytical instrumentation and automated procedures.

Assistant Chemist

Under supervision will perform research in the development of new diagnostic biochemical procedures using advanced techniques. Prerequisites would include BS or MS in chemistry with experience in clinical chemistry and automated analysis.

Hoffmann La Roche affords a wide range of fringe benefits & atmosphere conducive to research. Our modern facilities are located just west of New York City in suburban Nutley, New Jersey. For additional information please write stating salary and experience to:

Mr. R. H. Stevenson,
Personnel Manager—Research.

HOFFMANN-LA ROCHE INC.

BIOCHEMISTS Ph.D.

Du Pont's rapidly expanding Instrument Products Division has several immediate openings for Biochemists. One area is concerned with methods development for Du Pont's Automatic Clinical Analyzer. Experience in enzymology is desirable. Clinical laboratory experience helpful. Another area is methods development using Du Pont's new Liquid Chromatography System. Analytical experience useful. Interest in instrumentation very desirable. Forward resume in confidence to: Jack G. Buckley, E. I. du Pont de Nemours & Company, Instrument Products Division, Wilmington, Delaware 19898. An Equal Opportunity Employer M/F.

UNIVERSITE DE SHERBROOKE
SHERBROOKE, CANADA

ELECTRON MICROSCOPY TECHNICIAN: Excellent opportunity in a new medical school with three electron microscopy units. Ability to speak French desirable but not essential. Submit résumé to Director of Personnel, Université de Sherbrooke, Sherbrooke, Québec, Canada.

POSITIONS OPEN

MEDICAL FACULTY ROTTERDAM

Department of Pathology

Applications are invited for the post of

SENIOR LECTURER

in the field of Tumorigenesis

The applicant should be medically qualified or a biologist, who, if necessary, after a training period in Holland or abroad, will be head of the tumor virology laboratory.

In this capacity he will take part in the work of a team in experimental pathology, which applies itself to problems of carcinogenesis, experimental tumor therapy and immunopathology.

The Medical Faculty Rotterdam is prepared to help the successful candidate with removal expenses and house mortgage. Salary will be in accordance with qualifications and experience.

Applications can be sent under number 362 to the Head of the Personnel Department, Medical Faculty Rotterdam, Wytemaweg 2a, Rotterdam, Netherlands.

Chairman, Biology Department on rapidly developing campus. Specialty not critical but must have broad biological experience, proven research capability, and desire to supervise departmental growth and development. Salary and rank open, many fringe benefits. Inquiries invited for additional biology staff positions. Contact **Dr. Allen Benton, Department of Biology, State University of New York, College at Fredonia, New York 14063.**

UNIVERSITY COLLEGE, GALWAY, IRELAND LECTURESHIP IN EXPERIMENTAL MEDICINE

Applications are invited for the above full-time Statutory post—latest date 1 May 1969. Candidates should have a higher degree and experience of research in hematology, neoplasia, or cell biology. The department has responsibility for teaching laboratory medicine and for some clinical haematology. Further information may be obtained from the Secretary of the College.

Experimental Pathologist-Immunologist to further establishment of a research unit to investigate cellular and/or humoral immunity as related to problems of transplant suppression, and mechanism of drug actions. Must have potential of recognized investigator. Ph.D. or M.D. with experience. Salary open. Apply to **Dr. Henry P. Schwarz, Philadelphia General Hospital, 34th Street and Civic Center Blvd., Philadelphia, Pa. 19104.** An equal opportunity employer.

UNIVERSITY OF NEW BRUNSWICK FREDERICTON, N.B., CANADA DEAN OF SCIENCE

To administer and direct the operation of the Faculty of Science consisting of the Department of Biology, Chemistry, Geology and Physics. *Applications close 15 April* and appointment effective 1 July 1969. Salary negotiable. Address applications to J. O. Dineen, Dean of Engineering.

ASSOCIATE DEAN OF GRADUATE STUDIES

To coordinate graduate study and research in the pure and applied sciences. Candidates should be a scientist with a strong research record and an interest in administration. *Applications close 15 April* and appointment effective 1 July 1969. Salary negotiable. Address applications to W. C. D. Pacey, Dean of Graduate Studies.

POSITIONS OPEN

GRADUATE STUDY

GRADUATE FELLOWSHIPS IN BIOCHEMISTRY

A limited number of positions leading to Ph.D. are available for academic year 1969-70. Varied department research programs include mammalian and microbial metabolism, enzymology, nucleic acid biochemistry and biochemical genetics. Annual stipend starts at \$2400 plus dependency allowance and tuition. Address further inquiries to: **Head, Department of Biochemistry, University of Maryland, School of Medicine, Baltimore, Maryland 21201**

TRAINEESHIPS IN ENDOCRINOLOGY

Positions available 1 July 1969 for Ph.D. and M.D. for 1 to 2 years. Program includes theory and laboratory practice of steroid and gonadotrophin research relating to obstetrics and gynecology. Stipends according to USPHS scale, plus dependency allowances. U.S. citizens or permanent residents preferred. Applications, including a résumé, should be sent to **Dr. John C. Ullery, Chairman, Department of Obstetrics and Gynecology, Ohio State University, 410 West 10th Avenue, Columbus, Ohio 43210.**
