HARVARD TEACHING APPARATUS

For Student Laboratories in

- PHYSIOLOGY
- BIOLOGY
- ZOOLOGY
- PSYCHOLOGY
- PHYSICAL EDUCATION

This Catalog features a complete range of apparatus for recording such phenomena as breathing patterns, pulse and fatigue in human subjects; heart and nerve-muscle contraction in laboratory animals. Includes modular recording systems for mechanical and electronic monitoring as well as traditional kymograph equipment.

All equipment is ruggedly constructed to withstand student use and is identical to that used in medical schools. The apparatus is listed individually and in convenient kit form. Versatility of equipment encourages student and teacher alike to plan and execute a wide variety of experiments and demonstrations.

YOU MEAN I CAN GET \$50,000 OF TIAA LIFE INSURANCE FOR LESS THAN \$100?

That's what an Assistant Professor asked us when he heard about TIAA's low life insurance costs.

It's true. At his age 30 the annual premium for a 20-Year Home Protection policy providing \$50,000 initial amount of insurance is \$159.00. The first-year dividend, based on our current dividend scale, is \$61.00, making a net payment of \$98.00. Dividends, of course, are not guaranteed.

The Home Protection plan is level premium Term insurance providing its largest amount of protection initially, reducing by schedule each year to recognize decreasing insurance needs. This is just one example of the many low-cost TIAA plans available. If you need more protection for your family, ask us to mail you a personal illustration with figures for a policy issued at your age. We'll also send the Life Insurance Guide describing other TIAA policies.

ELIGIBILITY

Eligibility to apply for this or other TIAA life insurance is limited to persons employed at the time of application by a college, university, private school, or other nonprofit educational or scientific institution that qualifies for TIAA eligibility.

PRIOR

MODEL 934 MICROMANIPULATOR

You can depend on the Sobotka organization to bring you selected scientific instruments of unsurpassed reliability and precision.

For example, this PRIOR Micromanipulator enjoys a world-wide reputation for super-sensitive positioning in all movements and directions, including angles. Model 934 has 5" diameter heavy base, rotatable 360° with locking device, and a tilting mechanism for the entire instrument as well as the transverse movement. All available for either right or left hand use.

IF YOUR DISCIPLINE IS CELL BIOLOGY, PHYSIOLOGY, BACTERIOLOGY, CRYSTALLOGRAPHY, PHYSICS, OR OTHER MEDICAL/RESEARCH FIELDS...YOU'LL FIND YOUR BEST CHOICE IN MICROMANIPULATORS IS DEFINITELY PRIOR.

The Universal Humidity Transducer

... still eludes us. For years we searched for a humidity transducer as versatile as the thermistor temperature transducer. No luck! So we've designed new "state-of-the-art" into instruments for all three classical humidity measurement methods:

wet bulb depression

heated dew point

refrigerated dew point

YSI's advanced thermistor technology is used to maximum advantage, helping in each of these methods to minimize the greatest source of error—the temperature sensing element and its readout.

Let us send you complete specifications. And should we succeed with the universal humidity transducer, we'll send data on that, too!
