

New 2 Kg optical projection balance ...0.1g accuracy, fast, rugged

New Torbal PL-12 top loader (2000g capacity, tare to capacity plus 325g, 0.1g accuracy) provides optical projection readout... fast, easy-to-read, foolproof weighing.

Easy reading of optical projection with high-quality optics, coated first-surface mirrors, high illumination.

Easy-to-operate internal weight handling to achieve weighing by substitution with 100 gram increments to 1 kilogram.

Long-lasting accuracy—rugged, thanks to superior friction-free torsion-band weighing

mechanism; no knife edges to dull or chip.

Fast weighing—with no friction to overcome or to build up over the life of the balance, dash pot can be adjusted to attain rest point immediately without undue oscillation.

As is typical in Torbal optical balances, minor changes in level do not change the zero point. Long-lasting accuracy of the Torsion construction has been proved by continuous weighings (over 1,750,000 operations) 24 hours a day for 6 months. Also available in an explosion proof model.

THE TORSION BALANCE CO. Dept. S Main Office and Factory: Clifton, N.J.; Sales Offices: Birmingham, Ala.; Chicago, Ill.; San Mateo, Cal.; Pittsburgh, Pa.; Plants and Offices in Montreal, Quebec; London, England and Waterford, Ireland

Circle No. 80 on Readers' Service Card

concentrate and desalt small solution volumes

- DESALT DENSITY GRADIENT FRACTIONS
- USE FOR EQUILIBRATION DIALYSIS

With Amicon's BMC Micro-Ultrafiltration System and DIAFLO® membranes, you can concentrate macromolecular solutes to as little as 0.1 ml or rapidly dialyze samples as small as 0.3 ml. Instant switching between the two modes. Typically, 99 per cent of salt can be removed from a 2 ml sample in 15 minutes.

The compact unit includes an 8 ml cell, magnetically stirred, and a 100 ml reservoir for solvent or extra process solution.

Send for catalog data, application information and prices.

24 JULY 1970

We decided to eliminate some limitations of Metallurgical Microscopes.

Now there's the Wild M50

Unprecedented versatility for investigating surface structures in incident light.

The stability to assure vibration-free observation even in photomicrography.

Combine these M50 features with 1. The world's finest optics and mechanical precision.

2. A complete range of accessories for photomicrography, projection, and discussion.

3. Fingertip switching from darkfield to brightfield. 4. Polarizing feature. 5. Inverted construction for all size specimens.

You'll conclude that in Metallurgical Microscopes, there's the Wild M50.

Write or call for Booklet M50.

peak
performance

IN
DENSITY
GRADIENT
SCANNING

The ISCO Model 640 density gradient fractionator produces a continuous absorbance profile as the gradient is fractionated into a built in collector. All automatically. The results... perfect quantitative peaks.

It resolves zones undetectable by other methods. And it plots their exact location. Measuring the area under each peak precisely determines the mass of material in each zone.

All standard ultracentrifuge tubes fit the ISCO universal flow cell for absorbance scanning at 254 or 280 m μ . A selection of ten flow rates and twelve fraction sizes optimizes performance with different tubes and applications.

For more information on this and other ISCO equipment, write for our 1970 catalog.

The CHAMP'S profile

Bausch & Lomb's StereoZoom 7 Microscope

- Greatest range of 100% USABLE magnification, from 2.5X through 280X.
- Infinitely variable zoom and accessory lenses let you select the power best for you and your work.
- Large field of view, optimum for visual scanning.
- All the working distance you need for widely diversified applications.
- Convenient photomicrography with integral and interchangeable cameras.
- Highest eyepoint eyepieces, comfortable for eyeglass wearers.
- Power pods interchangeable with any models from 1959 to 1970, and 180° reversible.

That's the world's Champ. Bausch & Lomb's StereoZoom 7 Microscope.

There's a new catalog that tells all about The Champ. Write today for No. 31-15 and our free demonstration plan.

StereoZoom, Reg. T.M. Bausch & Lomb.
