SHANDON GIVES YOU THE EDGE FOR MICROTOME KNIVES

The Shandon-Elliott Autosharp III Microtome Knife Sharpener hones all knives in common use to super quality edges with reproducible bevel angles—automatically and in a fraction of the time taken by hand. With Autosharp III, very little heat is generated, the least possible metal removed and the blades are not subjected to mechanical shock or strain. The **Microsharp Lapping Plate** accessory produces the sharpest edge obtainable by mechanical means, and in just 5-15 minutes. For more reasons why Autosharp III gives you the edge, contact Shandon Southern Instruments, Inc., 515 Broad St., Sewickley, Pa. 15143 (Pittsburgh District).
