## Right & left thinking the psychology of consciousness

ROBERT E. ORNSTEIN

"Ornstein makes clear the necessity of a complementary interaction of the two modes of consciousness if man is to realize his highest potential...well-organized and well-written, with excellent examples...to all of us bound by our present conceptions it says powerfully: there are more things in heaven and earth than are dreamt of in your psychology."

#### THEMATIC ORIGINS OF SCIENTIFIC THOUGHT

Kepler to Einstein  
 Gerald Holton

Using case studies of the growth of ideas of Kepler, Newton, Einstein, Bohr, and others, this volume shows that the traditional view of how the scientific mind works must be changed. Highlights of the study are Mr. Holton's introduction of the new conception of the thematic content of science and his in-depth examination of the origins of relativity theory. \$10.00

Circle No. 122 on Readers' Service Card

#### THE VARIATION AND ADAPTIVE EXPRESSION OF ANTIBODIES

George P. Smith

George P. Smith presents a new and simplifying approach to the origin of the diversity of antibodies. The author traces the evolution of antibodies by computer analysis of their amino acid sequences and matches his results against the expectations of the various theories of diversity. He also deals with the clonal specialization of cells to produce a single antibody and the somatic joining of antibody half-genes. \$12.00

Circle No. 123 on Readers' Service Card

#### THE TWO-DIMENSIONAL ISING MODEL

Barry McCoy and Tai Tsun Wu

Much of our theoretical understanding of phase transitions is based on the two-dimensional Ising model. The authors clearly show that new techniques have been developed resulting in considerable simplification of the model. They discuss not only spin-correlation functions of the model but also a quantitative study of the influence of impurities on phase transitions. \$25.00

## POSITIONS WANTED

**Ph.D. (Anal.) Chemistry 1971**, seeks postdoctoral job in clinical, medicinal, biochemistry, forensic. Previous experience in trace metals. Instruments UV, V, IR, AA, GC, TLC, and so forth. Training in radioisotope separations. Ten publications. Box 468, SCIENCE. X

**Biochemist, Ph.D. 1970**, postdoctoral experience. Specializations: carbohydrate, glycoprotein, bacterial cell membrane, lipopolysaccharide, biosynthesis and characterization. Strong background in organic chemistry. Seeks teaching or research position in university, industry, or clinical laboratory. Box 469, SCIENCE. X

**Biochemist; Ph.D. Member FASEB**. Excellent teaching credentials in undergraduate and medical schools at professorial level. Prefer teaching and/or research position at student-oriented, 4-year institution, or medical school. Research interests in lipid metabolism, atherosclerosis in primates, inborn errors of metabolism, biochemistry of viruses and clinical biochemistry. Extensive instrumentation experience. Many publications, honors and grants. Curriculum vitae and references supplied upon request. Available immediately. Box 470, SCIENCE. 10/5

**Biochemist/Developmental Biologist Ph.D. 1972**. Research experience in cell culture and hormone action. Strong background in molecular biology and enzyme chemistry. One year of postdoctoral experience. Publication. Seeks research/or teaching position. Box 471, SCIENCE. X

**Electron Microscopist, 35, B.Sc. geology and chemistry, married, 6 years' experience** in most phases of electron microscopy including autoradiography. Twenty-four publications. Special interest in geochemistry and in trace element and multi-trace element effects on agricultural products. Résumé on request. Box 472, SCIENCE. X

**Electron Microscopist, Ph.D. Molecular biology oriented**. Desires permanent position in teaching/research. Box 473, SCIENCE. X

**Medical Cytogeneticist/Cell Biologist, Ph.D. Female**. Three years of postdoctoral research and clinical experience in cytogenetics and tissue culture. Desires research position, available immediately. Box 474, SCIENCE. X

**Medical Editor, senior level**. Experienced in all aspects of editing, rewriting, printing. Full-time or free-lance. Box 465, SCIENCE. 9/28

**Neuroanatomist-Neurophysiologist, Ph.D., 25 years' experience** in anatomical-physiological-behavioral research, numerous publications, experienced teacher and administrator. Seeks academic position college or university, present research position being phased out. Write Leo Massopust, 5864 Eldon Drive, Cleveland, Ohio 44130. 10/5

**Nutritionist/Biochemist Ph.D.** seeks academic or industrial research position. Postdoctoral experience in United States and Europe. Experienced in protein and nucleic acid fractionation, synthesis, and regulation; enzymology, hormone research, and cell culture. Box 475, SCIENCE. X

**Physical and Colloid Chemist, Ph.D. 1947**, research experience in biomedical fields (many papers) wants research and/or teaching position. Box 476, SCIENCE. X

**Physicist Ph.D.** Postdoctoral and subsequent experience in biophysics. Magnetic resonance spectroscopist. Research emphasis water structure and properties. Seeking teaching/research position in Rocky Mountain Region. Box 477, SCIENCE. X

**Postdoctoral Position Wanted**. Young, eager scientist wishes postdoctoral position in clinical microbiology and/or immunology. Strong background in microbiology and immunology. Tissue culture experience, research experience. Box 478, SCIENCE. X

**Translator: Professional multilevel approach**; corresponding rate schedules. Most scientific, technical fields from Asian, Germanic, Romance, Slavic languages. Dale Cunningham, Drawer 1027, Camden, New Jersey 08101. 9/28

## POSITIONS WANTED

**Veterinarian, Ph.D.** training in parasitology, gnotobiology, and laboratory animal medicine; 2 years of pharmaceutical experience in parasitology and 1 year in laboratory animals. Seeks position in laboratory animal medicine, research or teaching. Box 479, SCIENCE. X

## POSITIONS OPEN

### AIR POLLUTION SCIENTIST

El Paso Natural Gas Company, one of the country's largest and most progressive transmission companies, is seeking a scientifically trained person to evaluate ambient air quality in the vicinity of Company operations and new projects. Responsible for design and operation of meteorological networks, ambient measurement programs and computer methods of data analysis.

Must have M.S. degree in Meteorology or related technical discipline; 3 to 5 years' experience; knowledge of micrometeorology, air quality measurement techniques, instrumentation and computer prediction techniques. Are not seeking a forecasting meteorologist.

Excellent salary; benefits comparable with the best; geographical climate healthiest in the country; and the total cost of living is among the lowest in the nation. If qualified send résumé to:

**N. D. Lassiter, Employment Coordinator**  
El Paso Natural Gas Company  
P. O. Box 1492, El Paso, Texas 79978  
An Equal Opportunity Employer M/F

**TWO FACULTY OPENINGS, Texas Tech, September 1974.** One **ANALYTICAL or BIOANALYTICAL CHEMIST** with research interest in methods and instrumentation. Rank open, but full professor preferred. One **BIOCHEMIST**, with research interest in nucleic acid-protein biosynthesis and/or biomembranes preferred. Rank open. Ample research space and range of equipment available. Excellence in teaching on undergraduate and graduate level and development of vigorous, significant research are being sought. Send résumé and names of three references to **H. J. Shine, Chairman, Department of Chemistry, Texas Tech University, Lubbock, Texas 79409.** An affirmative-action employer.

### FOOD AND DRUG ADMINISTRATION SEEKS CONTRACTOR FOR INFORMATION SYSTEM

FDA has a requirement for *Analysis, Pilot Operation, and Evaluation of a Drug Use Trends Analysis Information System*. Development of this system will enable FDA to estimate, prospectively, expected drug consumption, to correlate this with actual use, and to evaluate extent of use.

Complete details of scope of project and terms and conditions are contained in the Request for Proposal (Package No. 641-4-118). Direct inquiries, in writing, to **Mr. James L. Burge, CA-270, FDA, 5600 Fishers Lane, Rockville, Md. 20852.**

## POSITIONS OPEN

### ANATOMIST, Ph.D.

With postdoctoral training wanted to work on retinal degenerations beginning around January 1974. Must have expertise with the electron microscope and, if possible, experience with tissue culture and histochemical techniques. Rank and salary will be based on previous performance. Curriculum vitae and three supporting letters should be submitted to: **Eliot L. Berson, M.D., Department of Ophthalmology, Harvard Medical School, Massachusetts Eye & Ear Infirmary, 243 Charles St., Boston, Mass. 02114.**

### ASSISTANT PROFESSOR

Position available in the Department of Internal Medicine, University of Michigan Medical School. Candidates should have completed training in Internal Medicine and Endocrinology and Metabolism, with interest and ability as clinician and in teaching. Research background in calcium metabolism highly desirable. Code #1000J. Send résumé to **Box 480, SCIENCE.** A Nondiscriminatory Affirmative Action Employer.

### ASSOCIATE PROFESSOR

Position for joint appointment available in the Departments of Neurology and Pediatrics at the University of Michigan Medical School. Candidate must have M.D. degree and postdoctoral training in both Clinical Neurology and Pediatrics. Preferably certified in Pediatrics and in Neurology with special competence in Child Neurology. Must have experience as Pediatric Neurologist. Send résumé to **Box 481, SCIENCE.** A Nondiscriminatory Affirmative Action Employer.

### POSITION IN BIOCHEMISTRY

A postdoctoral or junior faculty position is open for a person with a doctorate in Biochemistry with specialization in neurochemistry to participate in collaborative research on nutritional and drug effects on monoamine metabolism, neuroendocrine function, and behavior. Send curriculum vitae and list of references to **Box 445, SCIENCE.**

**BIOMEDICAL INVESTIGATOR:** Division of Cardiac and Thoracic Surgery seeks Ph.D. Physiologist, Bioengineer, Biophysicist, or other biomedical scientist to direct research program in myocardial blood flow and metabolism. Applications, including résumé and references, should be addressed to **Dr. Joe R. Utley, Chief Cardiac Surgery, Division of Cardiac Thoracic Surgery, University of Kentucky Medical Center, Lexington, Kentucky 40506.**

### CELL BIOLOGIST: INSTRUCTIONAL DEVELOPMENT

Immediate staff opening as part of National team developing instructional resources in cell biology. Requires experience in teaching cell biology to medical students. Reply to: **Mr. E. B. Wright, W. Alton Jones Cell Science Center, P.O. Box 631, Lake Placid, New York 12946.**

# CHIEF BIO-STATISTICIAN

Chief Bio-Statistician needed to direct a staff of professional statisticians in the design and analysis of laboratory and clinical experiments for the development of new therapeutic agents. Opportunity to collaborate in all phases of research of new drugs.

Requirements for this position include broad experience in bio-medical related statistics. Doctorate degree preferred.

Send résumé to: **BOB MOBERG**

**MERRELL NATIONAL LABORATORIES**  
110 East Amity Road, Cincinnati, Ohio 45215

An Equal Opportunity Employer M/F

**Merrell**

# Director

## Research & Development

## Agricultural Products

We are seeking an individual to assume the overall responsibility for the research and development of our agricultural products. The successful candidate will have the experience necessary to provide the leadership and administrative guidance that this challenging position requires. Responsibilities will include the research and development of new products as well as the expansion of existing programs.

Qualifications should include a Ph.D. in Plant Pathology plus a broad background in research and development relating to studies of a wide variety of crops.

An internationally known Fortune 500 company, a leader in the scientific research field, provides excellent benefits and salary commensurate with experience. Please send a detailed résumé including salary history to: Box #12, Suite 1601, 527 Madison Ave., New York, N.Y. 10022.

An Equal Opportunity Employer

Public Service  
Canada

Fonction publique

### THIS COMPETITION IS OPEN TO BOTH MEN AND WOMEN

### RESEARCH SCIENTIST—Head, Plant Pathology

### Salary to \$28,184

Harrow Research Station  
Canada Department of Agriculture  
Harrow, Ontario

The Canada Department of Agriculture requires an experienced research scientist to lead the Plant Pathology Section, consisting of six pathologists and one nematologist, at the Harrow Research Station.

**Duties:** The successful candidate will: conduct research on important diseases, primarily fungal, of field and greenhouse vegetables, with emphasis on soil-borne pathogens; provide leadership in research on diseases involving fungal, viral, bacterial and nematode pathogens of other crops including tree fruits, corn, wheat, soybeans and field beans.

**Qualifications:** Doctorate degree or an equivalent combination of training and experience in a discipline appropriate to the duties; demonstrated ability to conduct independent research and provide dynamic, effective leadership.

Knowledge of the English language is essential for this position.

To ensure consideration, forward "Application for Employment" (Form PSC 367-401) or detailed résumés, including a list of publications and references, before 11 October 1973 to:

**Sciences and Technology Program**  
Public Service Commission of Canada  
Place de Ville  
Ottawa, Ontario K1A 0M7

Please quote reference number 73-100-73 in all correspondence.

Appointments as a result of this competition are subject to the provisions of the Public Employment Act.

### POSITIONS OPEN

#### CELL BIOLOGIST

Applications are invited for a full-time position as a cell biologist with the American Red Cross Blood Research Laboratory, Bethesda, Maryland. The unit is well equipped for cell culture and physiology. The level of appointment and salary depend on qualifications and experience. E.O.E. Please send current curriculum vitae to:

Mrs. Kaye Boesel  
Office of Personnel  
American National Red Cross  
Washington, D.C. 20008

**CHEMISTRY LIBRARIAN:** New position available to coordinate the development of chemistry collections and to provide full reference/orientation programs to students and faculty. Responsible for Chemistry Library operations. Minimum qualifications: B. S. (Chemistry), M.L.S., and 2 to 3 years of academic science library experience. Reading knowledge of French or German necessary. Beginning salary \$11,290 to \$13,125 depending on qualifications. Excellent benefits. Apply to Mrs. Diane Parker, Chairperson, Search Committee, Science & Engineering Library, SUNY at Buffalo, Buffalo, New York 14214. An equal opportunity employer.

#### ENTOMOLOGIST

Recent Ph.D. to conduct field and laboratory research into the ecology and biology of economic soil arthropods. Applicant must have training in ecology, entomology, and biometrics and proven ability to conduct independent research. Competitive salary. Submit a curriculum vitae, three letters of recommendation, and reprints, by 15 October, to Chairman, Department of Entomology, University of Missouri, Columbia, Mo. 65201.

The University of Missouri is an equal opportunity employer

### POSITIONS OPEN

#### CHINA SPECIALIST

Committee on Scholarly Communication with the People's Republic of China, National Academy of Sciences, 2101 Constitution Ave., Washington, D.C. 20418. Excellent position for China specialist interested in exchanges in sciences and humanities. Writing and administrative skills essential; language ability important, some travel. Salary open. An Equal Opportunity Employer.

#### TANZANIA NATIONAL PARK SERENGETI RESEARCH INSTITUTE

Applications are invited from qualified candidates for the post of **DEPUTY DIRECTOR** with the Serengeti Research Institute. Preference will be given to a candidate with a good advanced degree (preferably a Ph.D.) in the field of terrestrial ecology and considerable research experience in that field. Experience and interest in the ecology of African game mammals will be an advantage.

Duties will include:

1. Assisting the Director in the day to day running and administration of the Institute.
2. Acting as Director when the latter is away.
3. Carrying out his own research project within the general framework of the Institute's research priorities as approved by its Scientific Council and the Board of Trustees of Tanzania National Parks.

Salary according to qualifications and experience within the range of T. Shs. 34,000/= x 1,500 to T. Shs. 38,500/= per annum.

Applications in triplicate and typed which should include a full curriculum vitae and names of three referees qualified to give a realistic assessment of the candidate, and to reach the undersigned not later than 30 September 1973.

The Chairman  
Board of Trustees  
Tanzania National Parks  
c/o Director  
Serengeti Research Institute  
P.O. Seronera  
Via Arusha  
Tanzania, East Africa.

### POSITIONS OPEN

Memorial University of Newfoundland. Applications are invited for a faculty position now open in **ELECTRON MICROSCOPY**. Responsibilities include daily supervision of the EM Unit, independent and collaborative research, limited teaching. Rank and salary negotiable. Interested persons send curriculum vitae and three references to Dr. P. B. Gahan, Faculty of Medicine, Memorial University of Newfoundland, St. John's, Newfoundland, Canada.

#### ENVIRONMENTAL SCIENTIST

El Paso Natural Gas Company, one of the country's largest and most progressive transmission companies, is seeking a highly qualified scientist to evaluate environmental impact of Company operations and new projects. Must formulate procedures for ecological protection. Function as company expert.

Must have M.S. or Ph.D. degree in a plant or biological science, and 3 to 5 years of experience. Some travel and fieldwork.

Excellent salary; benefits comparable with the best; geographical climate healthiest in the country, and the total cost of living is among the lowest in the nation. Send résumé to:

N. D. Lassiter, Employment Coordinator  
El Paso Natural Gas Company  
P.O. Box 1492, El Paso, Texas 79978

An Equal Opportunity Employer M/F

#### DEPARTMENT OF BIOLOGY UNIVERSITY OF ROCHESTER

Junior or senior faculty positions to begin January or September 1974. Areas to be considered include: (i) plant cell and molecular biology, (ii) molecular biology with expertise in biochemistry and genetics, and (iii) animal cell and developmental biology. Applicants should have a strong commitment to research and to undergraduate and graduate education. Interested persons may send a curriculum vitae and a brief statement of current research interests, and have three letters of recommendation sent to Dr. Paul R. Gross, Chairman, Department of Biology, University of Rochester, Rochester, New York 14627. The University of Rochester is an Equal Opportunity Employer and subscribes to the Affirmative Action Program.

## POSTDOCTORAL RESEARCH

The National Research Council announces the Research Associateship Programs for 1974. The programs provide scientists and engineers opportunities for postdoctoral research on problems in the fields of CHEMISTRY—SPACE SCIENCES — PHYSICS — ATMOSPHERIC & EARTH SCIENCES — ENGINEERING — LIFE SCIENCES — and MATHEMATICS.

Appointments are made on a competitive basis, and are tenable in selected federal research laboratories at more than 80 locations.

Appointments are open to recent recipients of the doctorate and in some cases to senior investigators. Some are open to non-U.S. citizens also.

Approximately 250 awards will be made in 1974. Stipends (subject to income tax) will range from \$13,000 upward. Grants will be provided for family relocation and for professional travel during tenure.

Applications must be postmarked by 15 January 1974. Awards will be announced in April.

Information on specific research opportunities and application materials are available from:

Associateship Office JH606-S

**National Research  
Council**

2101 Constitution Avenue, N.W.  
Washington, D.C. 20418

### POSITIONS OPEN

## Endocrinology

If you have a B.S. or M.S. degree in biochemistry, cell biology, and/or endocrinology, with one or more years of experience in tissue culture, you may wish to explore this opportunity.

The successful candidate will become involved in (i) culturing tissues of the reproductive system; (ii) studying in vitro and in vivo effects of luteinizing hormone releasing factor and its analogs; (iii) studying hormone receptors of the uterus, ovary, oviduct, hypothalamus, and pituitary; and (iv) investigating the role of uterine and oviduct proteins and other factors involved in early embryogenesis.

This assignment is located in our modern research laboratories in Ann Arbor, Michigan. Attractive compensation-benefits package. Please send your complete resume, in confidence, to: D. J. Garber, Personnel Manager, PARKE, DAVIS & COMPANY, 2800 Plymouth Road, Ann Arbor, Michigan 48106.

An Equal Opportunity Employer M/F

## PARKE-DAVIS

### FACULTY POSITION

Position available in the Department of Microbiology, University of Michigan Medical School. Microbiologist to conduct research and to participate in teaching. Must have Ph.D. and 1 year of postdoctoral training or equivalents. Desirable research areas include mechanisms of pathogenesis, microbial determinants of disease, antibiotic resistance, host-parasite relations, and microbial interactions. Rank dependent on qualifications and experience. Include reprints of most significant publications with resume and have two or three letters of evaluation sent independently. Box 482, SCIENCE. A Nondiscriminatory Affirmative Action Employer.

### PHYSIOLOGIST

Ph.D., to assist in instructing dental and nursing students in physiology and to develop an independent research program. Rank and salary dependent on qualifications. Specialty other than endocrinology. Competency in Pharmacology desirable. Available January 1974 or later. Send curriculum vitae and statement of professional interests to: Dr. Ralph A. Meyer, Jr., Department of Basic Sciences, School of Dentistry, Marquette University, 604 N. 16th Street, Milwaukee, Wisconsin 53233.

**POSTDOCTORAL FELLOW**, available immediately for studies of Chromatin Transcription during mammalian cell cycle. Send resume to:

T. W. Borun  
Fels Research Institute  
Temple University Medical School  
3420 N. Broad Street  
Philadelphia, Pa. 19140

**POSTDOCTORAL POSITION** available immediately. Collaborative investigation of mechanisms of enzymatic catalysis. Applicant should have experience in one of the following fields: fluorescence transfer, chemical modification of proteins, isotope effects, or enzyme kinetics. Prof. Harvey F. Fisher, Veterans Administration Hospital, 4801 Linwood Blvd., Kansas City, Missouri 64128.

An Equal Opportunity Employer

### ZOOLOGIST

Professor and Chairman of active Department of Zoology wanted by 1 February 1974, or earlier. Candidate should have Ph.D. or equivalent, and will be expected to teach and administer approximately 30 faculty. Candidate will also be expected to carry out research in his own field.

Salary level will depend on experience and qualifications. Applications with curriculum vitae and the names of three references should be forwarded by 15 December 1973 to:

Professor K. Ronald, Dean  
College of Biological Science  
University of Guelph  
Guelph, Ontario, Canada N1G 2W1

### POSITIONS OPEN

## PROVOST FOURTH COLLEGE UNIVERSITY OF CALIFORNIA SAN DIEGO

Applications are invited for the position of Provost of the Fourth College at UCSD. The College is scheduled to open in September 1974. The Provost is the academic and administrative head of the undergraduate college. Qualifications for the position include:

- 1) Ph.D. or equivalent
- 2) Research and teaching experience that would qualify the applicant for a tenured position on the faculty of UCSD
- 3) Administrative experience, preferably at a university
- 4) Demonstrated leadership in program development for undergraduate education

Salary dependent on qualifications. Letter of application with complete resume should be submitted to:

Dr. M. H. Green, Chairman—Search Committee  
Room 7, Building 507  
University of California, San Diego  
La Jolla, California 92037  
An Equal Opportunity Employer

**SENIOR IMMUNOCHEMIST**, Ph.D. or equivalent with RIA experience and knowledge of organic chemistry to be responsible for the development and optimization of radioimmunoassay tests for peptide and hapten antigens. Must be able to characterize the specificity and cross-activity of antisera. This opening is a bench position. Please send resume to Gordon R. McPherson, Personnel Manager, Technical Staffs Division, Corning Glass Works, Corning, New York 14830.

An Equal Opportunity Employer

**Terrestrial Ecologists**, Specialists in entomology or invertebrate and vertebrate ecology sought by established environmental consulting firm for intensive field surveys and report writing. B.S. or higher degree required. Send resume and names of three references to Dr. Thomas W. Philbin, Vice President, Environmental Analysts Incorporated, 224 Seventh Street, Garden City, New York 11530.

An Equal Opportunity Employer

### VIROLOGIST

Postdoctoral position immediately available to study vertical transmission of animal viruses. Applicants considered with biological, immunological or biochemical background. Send resume and letters of reference to: Dr. Thomas F. Roth, Department of Biological Sciences, University of Maryland, Baltimore County, Catonsville, Maryland 21228, or call (301)-455-2254.

### ASSISTANTSHIPS

#### GRADUATE RESEARCH ASSISTANTSHIPS

Opportunity to pursue Ph.D. programs in cardiovascular or renal pathophysiology. Requirements: D.V.M. degree or M.S. in pathology or physiology with interest in, or aptitude for, experimental pathology. Stipend. Contact Dr. R. S. Jaenke, Department of Pathology, Colorado State University, Fort Collins, Colo. 80521; 303-491-8507.

An Equal Opportunity Employer

### COURSES

#### ELECTRON MICROSCOPY

C. W. Post Center of Long Island University will offer a full semester intensive yet unhurried course (fall, repeated spring and summer) in the theory and practice of electron microscopy. The course is designed to provide competency in this rapidly expanding field. No prerequisites. For further information call Dr. S. H. Vernick, 516-299-2481, or write Department of Biology, C. W. Post Center, Greenvale, N.Y. 11548.

The Sargent-Welch technical sales representative gets his paycheck from us—but he earns it by working for you. He's a technical man who can answer your questions and help you with your lab problems. When he takes an order from you, he follows through to see that your delivery requirements are met and he checks back to see that everything's running smoothly.

The Sargent-Welch representative knows about the 43,000 items carried in our catalogs—and he can tell you about all the latest laboratory instruments and equipment, too new to be in the catalog. Tell him what your needs are—he's dedicated to doing a job for you. *He'll be there when you need him.*

# Automatically corrects for specimen density, light intensity and film reciprocity to give you a quality photomicrograph for each exposure.

## AO EXPOSTAR<sup>TM</sup> SHUTTER CONTROL

assures unprecedented excellence in photomicrography. Eliminates test exposures, wasted film and the element of chance.

AO EXPOSTAR automatically integrates light intensity and film reciprocity with time to produce a quality photomicrograph with any type camera back fitted on the AO Series 10 or 20 MICROSTAR® microscope. Even if light is interrupted or changed during exposure, EXPOSTAR will detect and correct for proper exposure . . . automatically with transmitted or incident illumination.

It accommodates ASA film speeds ranging from 8 to 6400 and film sizes of 35mm., 3¼" x 4¼", and 4" x 5". Ask your AO dealer or representative for a demonstration on this outstanding achievement in ease and reliability for error-free photography through the microscope.
