

Why choose between
high output voltage or
high output current
potentiostats?

Wenking offers both
in the same instrument.

"Versatile" is the only way to describe the new Wenking Potentiostats. Both the new High Power Model (HP-72, 200W output) and Standard Model (ST-72, 75W output) provide the flexibility of higher output voltage (at medium current) or higher output current (at medium voltage) simply by adjusting a multi-pin connector at the back of the instrument.

Additional new Wenking instruments include three economical PCA-72 Potential Control Amplifiers featuring 3 superimposing inputs and grounded output. The PCA's can be used in combination with auxiliary equipment for the most advanced potential control techniques. There are also new laboratory models, "fast rise" and high voltage models, scan generators, double pulse control generators, a current/voltage integrator and a precision voltmeter.

For literature on these versatile new Wenkings, just write: Wenking Division, Brinkmann Instruments, Cantiague Rd., Westbury, N.Y. 11590. In Canada, write: Brinkmann Instruments (Canada) Ltd., 50 Galaxy Blvd., Rexdale (Toronto), Ont.

Potentiostats**

SCIENCE IN THE NEWSPAPER

The newspaper is
the science journal
for most citizens.

While television commands the largest audience, the newspaper—in breadth and quantity—gives the most substantial public exposure of scientific research and development. Through it, readers learn of new developments in science, current trends, form their attitudes, often make their opinions felt.

This unique publication offers several perspectives on how newspapers carry on the public communication of science. Science writers, communications researchers, and others give their perceptions

on the changing nature and problems of science in the newspaper: a reporter's reaction to the end of the space romance...covering the science beat...a newspaper's potential for science education...an analysis of reporting errors...a surprisingly kind view of the science coverage of the *National Enquirer*...and more.

"It is now a fact of newspaper responsibility that science is far more than an intellectual exercise to be interpreted for a tiny faction of specialized readers," writes a science journalist in this issue. How newspapers fulfill that function, how well they're doing it, the problems between science and its press, and current and future directions for science reporting is the theme of this special 32-page issue.

Single complimentary copies of *Science in the Newspaper* are now available.

ENERGY AND THE FUTURE

A new and authoritative AAAS book takes a long range look at energy. The broad scope and balanced perspective make it a valuable resource for anyone wishing to explore the scientific and technological bases of the energy dilemma. Presently in use as a text in more than thirty universities and colleges.

"At last book on energy that gives a comprehensive overview of emerging energy technologies. It reads like a What's What in Energy Research."

POSITIONS WANTED

Aquatic Biologist/Population Ecologist. Ph.D. 1971. Experience in research, teaching, and water pollution. Publications and reports. Seeks teaching-research position in college, university, or industry. Box 348, **SCIENCE**. X

Biochemist, female, Ph.D., 1972. Thesis research in amino acid sequencing. Postdoctoral experience in coagulation research and neurochemistry with emphasis on glycoproteins, lipid chemistry. Desires research position in California. Box 349, **SCIENCE**. X

Clinical Microbiologist, Board Certified. Postdoctoral training and 5 years' experience in 300-bed hospital seeks directorship of diagnostic microbiology laboratory and/or academic position. Box 310, **SCIENCE**. 7/19

Immunologist. Ph.D. Microbiology, 1965; 8½ years of active research in tumor immunology, tissue culture, cancer biology. Publications. Some teaching experience. Seeks permanent position. Box 341, **SCIENCE**. 7/19

Microbiology Dissertations planning, preparing. English, French, German, Italian, Latin knowledge. Long experience as research librarian. Publications. Dr. Mora, "Rebecca" 413, 10920 Connecticut Ave., Kensington, Md. 20795. Tel. (301) 933-5784. X

Neurochemist/Immunologist (Ph.D. 1970, McGill, Montreal, DNA enzymology). Woman. Publications. Three years postdoctorate in axonal protein transport, membranes, affinity chromatography, radioimmunoassay. Teaching experience. Vivien Brévar, Neurochemie, M.P.I. Psychiatrie, Kraepelinstr. 2, Munich 40, Germany. X

Established **Protein Chemist-Endocrinologist.** Ph.D. 1951. Broad experience in research, administration, and teaching. Seeks academic appointment with opportunity for strong research program with teaching responsibility. Box 350, **SCIENCE**. 7/19, 26

POSITIONS OPEN

ASSISTANT PROFESSOR. Ph.D. in the field of analytical-environmental chemistry. Duties include teaching, research, and collaboration with other faculty involved with environmental problems. Successful candidate will play a major role in the development of an environmental chemistry program. Send résumé, names of three references, and a critique of research interests and plans to: **Chairman, Search Committee, Department of Chemistry, College of Environmental Science and Forestry, Syracuse, New York 13210.** Position available 1 January 1975.

An Equal Opportunity/Affirmative Action Employer

POSITIONS OPEN

ASSISTANT PROFESSOR OF ENTOMOLOGY

Assistant Professor with postdoctoral experience in insect physiology, effective 1 April 1975. Undergraduate and graduate teaching, development and direction of a research program in insect physiology and application of some aspects of this field to agricultural or forest entomology. Maximum starting salary \$14,043. Send curriculum vitae and names of three referees by 31 October 1974 to: **Dr. George E. Ball, Chairman, Department of Entomology, 260 Agriculture Building, University of Alberta, Edmonton, Alberta, T6G 2E3, Canada.**

ASSISTANT PROFESSOR OF PHARMACOLOGY

Position open to individual with training in lipid chemistry and particularly peroxidation and the role of peroxides in tissue metabolism. Teaching experience with medical students and graduate students desirable. Teaching duties to include medical and graduate school lectures and assistance with medical laboratory teaching. Salary to \$16,000. *Equal Opportunity Employer.* Write **Dr. S. P. Bessman, Chairman, Department of Pharmacology, University of Southern California, 2025 Zonal Avenue, Los Angeles, California 90033.**

ASSISTANT PROFESSOR OF WILDLAND RECREATION

To teach graduate and undergraduate courses and conduct research in the wildland recreation field. Teaching and field experience highly desirable. Ph.D. with at least one degree in a natural resource management area such as wildlife, forestry, range, or recreation mandatory. Contact **Grant A. Harris, Department of Forestry and Range Management, Washington State University, Pullman, Wash. 99163.** Search closes 15 August 1974.

Washington State University Is an Equal Opportunity/Affirmative Action Employer

BIOLOGY DEPARTMENT

1) Team-taught General Biology course for nonmajors. Experience in lecturing large groups of students and team-teaching approach preferred. Field orientation desirable.
2) Team-taught General Biology and Microbiology for nonmajors. Other duties commensurate with training and experience.
Two temporary positions for 1 year (1974-1975). Instructor or Assistant Professor level for each position. Salaries commensurate with training and experience. Applications, curriculum vitae, and letters of reference to **Dr. Henry H. Vallowe, Biology Department, Indiana University of Pennsylvania, Indiana, Pa. 15701,** by 1 August 1974.

Indiana University of Pennsylvania is committed to Affirmative Action to assure equal opportunity for all persons regardless of race, color, religion, national origin, ancestry, or sex.

CENTER FOR POPULATION RESEARCH

The National Institutes of Health now has positions available in Bethesda, Maryland. Position for epidemiologist preferably with medical background for work in research contracts program concerned with the evaluation of various methods of contraception. Must have research experience. \$17,497 to \$31,519.

Position available for scientist for administration of contracts in contraceptive development. Area of responsibility requires familiarity with drug delivery systems, pharmacokinetics, drugs bioavailability and material-tissue interactions. Background in reproductive biology (as well as in general pharmacology) is desirable. \$17,497 to \$26,878.

Forward résumé or Federal Application Form (SF-171) to: **Mrs. Donna H. Thiele, Personnel Office, Building 31, Room 2A-25, National Institute of Child Health and Human Development, National Institutes of Health, Public Health Service, Bethesda, Maryland 20014.**

DIRECTOR

The Jackson Laboratory invites applications for the position of Director of the Laboratory, which will become open on 1 October 1975. Qualified applicants are invited to submit a curriculum vitae and summary of experience to one of the following:

Dr. James D. Ebert, Chairman, Search Committee, Marine Biological Laboratory, Woods Hole, Massachusetts 02543
Dr. James F. Crow, Member, Search Committee, Department of Medical Genetics, University of Wisconsin, Madison, Wisconsin 53706
Dr. Douglas L. Coleman, Secretary, Search Committee, The Jackson Laboratory, Bar Harbor, Maine 04609

An equal opportunity employer

A European company manufacturing penicillin is looking for an experienced

fermentation microbiologist

with industrial background on penicillin, for its modern plant.

Applications, which will be sent unopened to our client, giving details of age, qualifications and experience, will be treated in strict confidence and should be addressed to:

COMPTON ADVERTISING, INC.,

New York, N.Y. 10022

Please mark the envelope "Microbiologist".

DEPARTMENT OF KINESIOLOGY Simon Fraser University

Academic - Physician

An appointment of a physician with a well-developed research interest in any aspect of human physiology, bioengineering, prosthetics or human factors is offered in the Department of Kinesiology. The appointee will be required to work in an interdisciplinary environment with biochemists, engineers, work physiologists, or biomechanics faculty in a department which has growing graduate and undergraduate degree programs.

Although the University itself does not have a medical faculty, the appointee will be encouraged to maintain and develop his clinical interests with the Faculty of Medicine at a nearby university and local hospitals. For suitably qualified applicants the possibility exists of a joint appointment with the Computing Science Department. The appointment will be made at either the assistant or associate professor level, depending upon qualifications. Salary negotiable.

Applications, together with three references, to

Dr. E. W. Banister

Department of Kinesiology

POSITIONS OPEN

THE UNIVERSITY OF WEST FLORIDA FACULTY OF BIOLOGY

A two-thirds appointment for a microbiologist with abilities to teach general and applied microbiology during the fall and winter quarters of each year. The position will hold first preference for summer employment. In addition to counseling students, the candidate will be expected to coordinate the medical technology program and carry out a viable research program. Rank and salary are negotiable. Send applications and curriculum vitae to **Dr. John P. Riehm, Chairman of the Search Committee, Faculty of Biology, The University of West Florida, Pensacola, Fla. 32504.**

An Equal Opportunity/Affirmative Action Employer

BIOMEDICAL PROFESSOR OF BIOCHEMISTRY

M.D.-Ph.D. or M.D. with research and clinical experience. Teaching experience in medical school or with medical students essential. Professor at \$30,000 to \$40,000; Assistant Professor at \$20,000 to \$30,000 per annum depending on experience and qualifications. Send curriculum vitae to: **Center for Biomedical Education, The City College, Convent Avenue and 138th Street, New York, New York 10031.** *An Equal Opportunity and Affirmative Action Employer.*

CHAIRMAN, DEPARTMENT OF FAMILY PRACTICE

The University of Oklahoma College of Medicine, Tulsa, a new clinical branch of the University of Oklahoma College of Medicine for predoctoral and postdoctoral programs, is seeking an outstanding academic physician to direct the Department of Family Practice and to assist the college in developing new programs of health care delivery for the State of Oklahoma. Interested parties should send a curriculum vitae and three references to the **Office of the Dean, University of Oklahoma College of Medicine, Tulsa, 3233 East 31 Street, Tulsa, Oklahoma 74105.**

The University of Oklahoma is an equal opportunity employer

CHAIRMAN, DEPARTMENT OF OBSTETRICS-GYNECOLOGY

The University of Oklahoma College of Medicine, Tulsa, a new clinical branch of the University of Oklahoma College of Medicine for predoctoral and postdoctoral programs, is seeking an outstanding academic physician to direct the Department of Obstetrics-Gynecology and to assist the College in developing new programs of health care delivery for the State of Oklahoma. Interested parties should send a curriculum vitae and three references to the **Office of the Dean, University of Oklahoma College of Medicine, Tulsa, 3233 East 31 Street, Tulsa, Oklahoma 74105.** *The University of Oklahoma is an equal opportunity employer.*

CHEMISTRY

THE UNIVERSITY OF TEXAS AT SAN ANTONIO seeks applicants in all areas of chemistry including geochemistry, georganic, bioorganic, biophysical, and geophysical chemistry. Demonstrated interest and expertise in both teaching and research are required. Rank and salary dependent upon qualifications. Positions are available 1 September 1975. *Equal opportunity/affirmative action.* Reply to: **Director, Division of Earth and Physical Sciences, University of Texas at San Antonio, San Antonio, Texas 78285.**

EARTH SCIENCE—QUATERNARY

Applications are invited for a permanent position (subject to availability of funds) effective 1 July 1975, at Scarborough College in the University of Toronto. Duties—undergraduate instruction in introductory earth science and advanced (graduate) teaching and research in quaternary geology or physical geography. Applicants must have a completed Ph.D. and postdoctoral experience is preferred. Salary and rank commensurate with experience. Closing date for applications is 1 January 1975 or when filled.

Send application, including a complete curriculum vitae and the names of three referees, to **Dr. J. C. Ritchie, Chairman of the Search Committee, Scarborough College, University of Toronto, 1265 Military Trail, West Hill, Ontario, Canada.**

THREE FACULTY POSITIONS

Three faculty positions available immediately. One Associate Professor (\$15,400 to \$17,000), two Assistant Professors (\$12,000 to \$15,000), depending upon experience and qualifications. Research-oriented persons qualified to teach in one or more of the following areas will be considered: Embryology, Plant Ecology, Biostatistics, Introductory Biology. Ph.D. required. Send résumé and names of three references to: **Dr. H. Enesco, Chairman, Department of Biological Sciences, Sir George Williams University, Montreal, P.Q. H3G 1M8, Canada.**

POSITIONS OPEN

ELECTRON MICROSCOPIST and MOLECULAR BOTANIST positions available. First position with demonstrated research experience in area of cryptogamic ultrastructure, to teach fine structure of plant cells and at introductory botany level. Assist in training graduate students in botany and related plant departments. Carry on active research program. Salary and rank commensurate with experience. Second position at Assistant Professor level. Teach in area of molecular botany and introductory botany level. Guide graduate students in dissertation studies. Research interest in plant nucleic acid and/or protein metabolism. Curriculum vitae, bibliography, and reference letters to: **Head, Botany Department, University of Massachusetts, Amherst, Mass. 01002.** *The University Is an Equal Opportunity/Affirmative Action Employer.*

DEAN

Dean of the School of Mathematics and Science, Montclair State College. A college of 7000 undergraduates and 4600 graduate students, located ½ hour from New York City. Applicant should have a terminal degree in one of the following: biological or physical sciences or mathematics. Proven scholarship and administrative experience; concern for students and the quality of teaching. Starting salary no higher than midpoint of the range \$21,876 to \$29,534. Position open after 1 February 1975. Send applications and supporting documents to:

**Dr. Philip S. Cohen
Search Committee, Russ Hall
Montclair State College
Upper Montclair, N.J. 07043**

Montclair State College is an equal opportunity/affirmative action institution.

The Philadelphia Regional Office of the U.S. Environmental Protection Agency is seeking a **FACULTY MEMBER** with a background in Physics, Electrical and Mechanical, Civil or Chemical Engineering for an intergovernmental personnel act assignment starting after the spring session for 1 year. The assignment will be to develop the noise program of the region. Salary and benefits are negotiable with the institution concerned. For further information, contact the **Personnel Office, Environmental Protection Agency, Sixth and Walnut Streets, Philadelphia, Pa. 19106.**

An Equal Opportunity Employer

DEPARTMENT OF GEOLOGICAL SCIENCES COLUMBIA UNIVERSITY Faculty Position

The Department of Geological Sciences (formerly Geology) in Columbia University has an opening for a faculty member with responsibility for teaching mineralogy at the undergraduate and graduate levels. Preference will be given to candidates with research interests in petrology (metamorphic and/or igneous) who would conduct energetic programs closely related to the studies in petrology, structural geology, stratigraphy, and tectonophysics currently being undertaken at Lamont-Doherty Geological Observatory. This position was previously advertised as an opening for a mineralogist.

The appointment is most likely to be made at the Assistant Professor level. The position need not be filled until the fall of 1975, but if a well-qualified candidate is found, an appointment will be made for the fall of 1974. Interested scientists should send their curriculum vitae and the names of at least three referees to:

**Professor Ian W. D. Dalziel, Chairman
Department of Geological Sciences
Columbia University in the City of New York
New York, New York 10027**

Columbia University is an equal opportunity employer.

HEAD, DEPARTMENT OF ENGINEERING

Purdue University Calumet Campus solicits applications for the position of Head of the Engineering Department starting with academic year 1975-76. Duties comprise minimal classroom teaching and emphasis on administering a growing engineering curriculum including graduate studies. Applicants with Ph.D. should possess thorough grounding in some specialty of mechanical engineering with demonstrated administrative ability and initiative. Send résumé to **Dr. A. L. Kaye, Chairman, Engineering Search Committee, Purdue University Calumet Campus, Hammond, Indiana 46323.** *Purdue Calumet Is an Equal Opportunity and Affirmative Action Employer.*

INSTRUCTOR

Position available in the Department of Ophthalmology, University of Michigan Medical School. Must be Board certified or eligible with special training in fluorescein angiography, medical ophthalmology, and ocular genetics. Must be capable of running a fluorescein angiography laboratory, have experience in the teaching of medical students and residents, and must make a long-term commitment to academic ophthalmology. Send résumé to **Box 351, SCIENCE.** *A Nondiscriminatory Affirmative Action Employer.*

POSITIONS OPEN

JUNIOR FACULTY POSITION

To participate in studies planned on aerosol behavior in the lung. Background in respiratory physiology and particle behavior or fluid dynamics important. To begin the fall of 1974. Please send résumé and references to: **Dr. Robert Frank, Department of Environmental Health, University Washington School of Public Health, Seattle, Wash. 98195.** *An equal opportunity employer.*

MARINE CHEMIST

To conduct laboratory separation and analysis of marine organic natural products in Seward, Alaska.

Qualification: M.S. in natural science or B.S. plus research experience in organic natural products analysis.

Send curriculum vitae, and two letters of reference, to **Dr. R. A. Nevé, Institute of Marine Science, University of Alaska, Seward, Alaska 99664.**

Equal Opportunity/Affirmative Action Employer

MOLECULAR BIOLOGIST-BIOCHEMIST

Postdoctoral position (Ph.D.). Research in nucleic acids and protein synthesis in invertebrates. Send curriculum vitae to

**Dr. M. Agosin
Department of Zoology
University of Georgia
Athens, Georgia 30602**

OPERATIONS RESEARCH

Candidates should have a Ph.D. in operations research or a related field and experience in applying operations research methodology in health. Faculty position and salary commensurate with ability and experience. *Equal opportunity employer.* Send detailed résumé to **Dr. R. Forthofer, University of Texas, School of Public Health, P.O. Box 20186, Houston, Texas 77025.**

PATHOLOGY FACULTY WANTED

For School of Medicine in development. Inquiries to: **Sylvanus W. Nye, M.D., Chairman, Department of Pathology, School of Medicine, East Carolina University, Greenville, North Carolina 27834.** *An equal opportunity/affirmative action employer.*

PHARMACOLOGY FACULTY OPENINGS

Two faculty openings in the Department of Pharmacology and Toxicology at the University of Mississippi Medical Center. Both at the assistant or associate professor level. M.D. or Ph.D. required for either. Applicants for position one should have active research interests in areas of psychopharmacology or peripheral neuropharmacology. Applicants for position two must have active research interests in general toxicology or environmental toxicology. Both positions require teaching of medical and graduate students. Send curriculum vitae and names of three references to **Dr. W. O. Berndt, Chairman, Department of Pharmacology and Toxicology, University of Mississippi Medical Center, Jackson, Miss. 39216.**

An Equal Opportunity Employer, Male/Female

Ph.D.

The University of Washington is seeking a qualified Ph.D. for a position to be held jointly between the Applied Physics Laboratory and the Department of Oceanography. The position will involve some teaching. The candidate must have a Ph.D. in oceanography or a related degree and have demonstrated capability in the field of theoretical studies of space and time scales of oceanic structure. The candidate must be interested in carrying out a theoretical research program in conjunction with several interconnected experimental programs. Applicants should contact **Dr. Terry Ewart (206-543-1327),** or send curriculum vitae and bibliography to the **Applied Physics Laboratory, 1013 N.E. 40 Street, Seattle, Washington 98195.**

The University of Washington is an equal opportunity-affirmative action employer and will welcome applications from members of minority groups and women.

POSTDOCTORAL POSITION

Available immediately for Biochemist or Microbiologist to work on membrane permeability and the mechanism of action of colicins. Salary \$8000. Send curriculum vitae and references to

**Dr. Joan Lusk
Department of Chemistry
Brown University
Providence, Rhode Island 02912**

An Equal Employment Opportunity/Affirmative Action Employer

POSITIONS OPEN

POSTDOCTORAL ASSOCIATE

Two positions are now available for biochemical analysis of coagulant activity found in the surface coat of cultured cells. Techniques will include incorporation of radiolabeled precursors, binding of radiolabeled substrates, and isolation and characterization of material with biological activity. Please send curriculum vitae and the names of two references to: **F. A. Pitlick, Ph.D., Department of Internal Medicine, Yale School of Medicine, 333 Cedar Street, New Haven, Conn. 06510.**

An equal opportunity employer. Yale welcomes women & minority group applicants.

POSTDOCTORAL POSITION

September 1974. Investigation of biochemical mechanism of action of metal-containing antitumor agents. Research ranges from biochemical pharmacology to inorganic biochemistry. Background in enzymology desirable. \$8000 per year. Send curriculum vitae and one letter of reference to: **D. Petering, Department of Chemistry, University of Wisconsin-Milwaukee, Milwaukee, Wisconsin 53201.**

UWM is an Equal Opportunity/Affirmative Action Employer

POSTDOCTORAL RESEARCH ASSOCIATE ORGANIC CHEMISTRY

Applicant holding Ph.D. with training in natural product isolation will be considered. Research emphasis will involve isolation and identification of metabolites from potato tubers which have been subjected to injury and disease. Applicant must be familiar with IR, NMR, and mass spectral methods of analysis.

Make application to:

**Dr. Richard J. Spangler
University of Idaho
Department of Chemistry
Moscow, Idaho 83843**

The University of Idaho is an Affirmative Action/Equal Opportunity Employer. All qualified applicants will be considered without regard to race, color, national origin, sex, or religion.

PROFESSOR OF BIOMETRY OR BIOSTATISTICS

Applicants are invited to apply for a new senior faculty position in the Statistical Science Division, Department of Computer Science, starting in September 1975. Applicants should have an outstanding record of research, training, and collaboration in the Health and Statistical Sciences. Responsibilities include teaching, developing curriculum for undergraduate and graduate courses in Biometry and Statistical Science for specialists and nonspecialists, and active participation in the collaborative activities within the Statistical Laboratory. *Applications from women and minority candidates will be especially welcome.* Please send curriculum vitae to: **Professor Marvin Zelen, Chairman, Search Committee, Statistical Laboratory, State University of New York at Buffalo, 4230 Ridge Lea Road, Amherst, New York 14226.**

Applications are invited for a position involving **DEVELOPMENT OF RADIOIMMUNOASSAYS** in support of a broadly based program in drug and hormone research. Applicants should have experience in radiolabeling and purification of radiolabeled substances and in the coupling of materials to carriers for enhancement of immunogenicity. Successful applicant will also become the corporate radiochemical officer. Candidates with Masters or Ph.D. degrees will be considered. Send résumés to:

**Peter D. Cullen
Senior Personnel Representative
ELI LILLY AND COMPANY
240 East McCarty Street
Indianapolis, Indiana 46206
ELI LILLY AND COMPANY**

An Equal Opportunity Employer

RESEARCH ASSOCIATE

At West Virginia University Medical Center, located in beautiful mountainous resort area 70 miles south of Pittsburgh, Pennsylvania. Will conduct research under a National Cancer Institute grant. Research involves the isolation and identification of human tumor-associated lung carcinoma antigens. Ph.D. required and background in column chromatography, polyacrylamide gel electrophoresis and chemical fractionation of cellular antigens. Send résumé to: **Dr. Robert W. Veltri, Director, Otolaryngology Research, West Virginia University Medical Center, Morgantown, West Virginia 26506.** *An Equal Opportunity/Affirmative Action Employer.*

POSITIONS OPEN

UT-AEC COMPARATIVE ANIMAL RESEARCH LABORATORY TWO FULL-TIME RESEARCH STAFF POSITIONS OFFERED

Plant Genetics: Studies on mutagenesis via radiations and chemicals at cellular (cell and tissue culture) and organismal (seeds, tubers, cuttings, and so forth) level including development of germ plasm of economic plants. Individuals with Ph.D. in genetics are invited to apply.

Gastrointestinal Physiology (Mammalian): Studies on transport of heavy metals across gastrointestinal epithelium. Individuals with Ph.D. and research experience in gastrointestinal physiology are invited to apply.

Qualified candidates should submit applications to: **Dr. H. E. Walburg, Director, UT-AEC Comparative Animal Research Laboratory, 1299 Bethel Valley Road, Oak Ridge, Tennessee 37830.** *An Affirmative Action/Equal Opportunity Employer*

Applications are invited for **TWO SENIOR (PH.D.) BIOLOGIST OR CELL PHYSIOLOGIST POSITIONS** involving research on the establishment of mammalian cells in culture and the study of factors affecting their growth and rate of synthesis and release of biologically-active macromolecules. Send résumé to:

**Peter D. Cullen
Senior Personnel Representative
ELI LILLY AND COMPANY
240 East McCarty Street
Indianapolis, Indiana 46206
ELI LILLY AND COMPANY**
An Equal Opportunity Employer

SENIOR PSYCHOLOGIST

Applications are invited for a permanent position at the rank of full professor, effective 1 July 1975, in any area (nonclinical) of psychology at Scarborough College in the University of Toronto. Duties—undergraduate and graduate instruction in psychology and the development of an active research program. Applicants must have a Ph.D. or equivalent, about 10 years of academic or equivalent experience, and an established reputation in scholarship. Salary negotiable. Appointment is effective 1 July 1975. Closing date for applications is 1 January 1975 or when position is filled. Send applications, including a complete curriculum vitae and the names of three referees, to: **Dr. J. C. Ritchie, Chairman, Division of Life Sciences, Scarborough College, University of Toronto, 1265 Military Trail, West Hill, Ontario.**

FELLOWSHIPS

POSTDOCTORAL FELLOW

Cardiovascular Pharmacology

We currently have an excellent opportunity for an individual to collaborate with established senior research investigators in the area of hypertension.

Requirements include recent training (Ph.D.) in pharmacology or physiology with experience in the autonomic area. (Publications are encouraged.) We offer an excellent salary plus an outstanding benefits package. Qualified applicants should forward a curriculum vitae to **J. E. Allen, Squibb Institute for Medical Research, P.O. Box 4000, Princeton, N.J. 08540.**

An Equal Opportunity Employer M/F

POSTDOCTORAL FELLOWSHIPS AVAILABLE IN GENERAL AREAS INVOLVING ALCOHOL

The Johnson Research Foundation invites applications for two postdoctoral fellowships to begin in the fall of 1974. Applicants must hold a Ph.D. or M.D. degree, in physics, chemistry, biology, biochemistry, pharmacology, physiology, or medicine.

A stipend of \$10,000 plus dependency allowance accompanies an award.

Inquiries should include a résumé (curriculum vitae, transcript of graduate or medical education, and three letters of recommendation) and should be sent to:

Dr. Ronald G. Thurman, Johnson Research Foundation, Department of Biophysics and Physical Biochemistry, University of Pennsylvania School of Medicine, Philadelphia, Pa. 19174.

POSTDOCTORAL RESEARCH FELLOWSHIP Molecular Biology and Immunology of the Coagulation System

Investigative training for Ph.D. or M.D. in Basic Research Institute. To participate in research programs devoted to the molecular immunology of the coagulation system, and the interface of the coagulation system with other molecular and cellular systems.

**Dr. Thomas S. Edgington
Department of Molecular Immunology
Scripps Clinic and Research Foundation
La Jolla, California 92037**

FELLOWSHIPS

POSTDOCTORAL RESEARCH FELLOWSHIPS IN BIOLOGICAL PSYCHOLOGY

Recent Ph.D.'s in psychology or related biological sciences are invited to apply for anticipated 1- to 2-year postdoctoral fellowships in one of four areas: (1) psychopharmacology (animal); (2) biological rhythms and sleep; (3) psychophysiology and biofeedback; or (4) human neuropsychology. Please send curriculum vitae and the names of three references to **Dr. Oscar A. Parsons, Department of Psychiatry and Behavioral Sciences, University of Oklahoma Health Sciences Center, P.O. Box 26901, Oklahoma City, Oklahoma 73190.**

An Equal Opportunity Employer

THE AUSTRALIAN NATIONAL UNIVERSITY is inviting applications for appointment as **Fellow/Senior Fellow** in the Department of Environmental Biology, Research School of Biological Sciences. The Department has an active program of research in plant and animal ecology and related areas of plant physiology. Applicants should be capable of establishing a strong research program in an aspect of community or population ecology. Present interests in these subjects include:

1) Effects of environmental factors on the structure and function of communities and of whole ecosystems.

2) First-order interactions between species within an ecosystem; for example, competition between species dependent on similar physical or biotic resources, interactions between herbivore and plant, and between predator and prey.

3) Higher order effects in which the interactions between species are mediated by the activity of other biotic factors in the system.

The position is tenured and provides an excellent opportunity for an established scientist to develop a long-term research program, without undergraduate teaching responsibilities, but with the opportunity to train graduate students. The Department has excellent facilities and support for both laboratory and field work, plus a strong team of technical supporting staff. Tenure is for 5 years in the first instance with possibility of extension to retiring age.

Salaries: Senior Fellow \$A14,308 to \$A16,462 per annum; Fellow \$A10,432 to \$A14,288 per annum. Reasonable travel expenses and assistance with housing is available. Further information from the **Acting Academic Registrar, P.O. Box 4, Canberra, ACT, 2600, Australia.**

THE AUSTRALIAN NATIONAL UNIVERSITY is inviting applications for appointment as **Research Fellow** in the Department of Biochemistry, John Curtin School of Medical Research. The successful applicant will work within a group headed by Dr. J. F. Morrison in continuing a research program on the mechanism of action of multifunctional allosteric enzymes. Preference will be given to applicants who have had postdoctoral experience in the field of enzymology and who also are familiar with modern techniques of enzyme kinetics. Tenure as Research Fellow is normally for 3 years in the first instance with possibility of extension to a maximum of 5 years. Salary: \$A8,698 to \$A11,901 per annum. Reasonable travel expenses and assistance with housing is available. Further information from the **Acting Academic Registrar, P.O. Box 4, Canberra, ACT, 2600, Australia.** Applications close: 16 August 1974.

FELLOWSHIP

Neurophysiologist wanted for research on narcotic action. Begin immediately. Send curriculum vitae and name and phone number of three references to:

**Dr. W. R. Klemm
Department of Biology
Texas A&M University
College Station, Texas 77843**

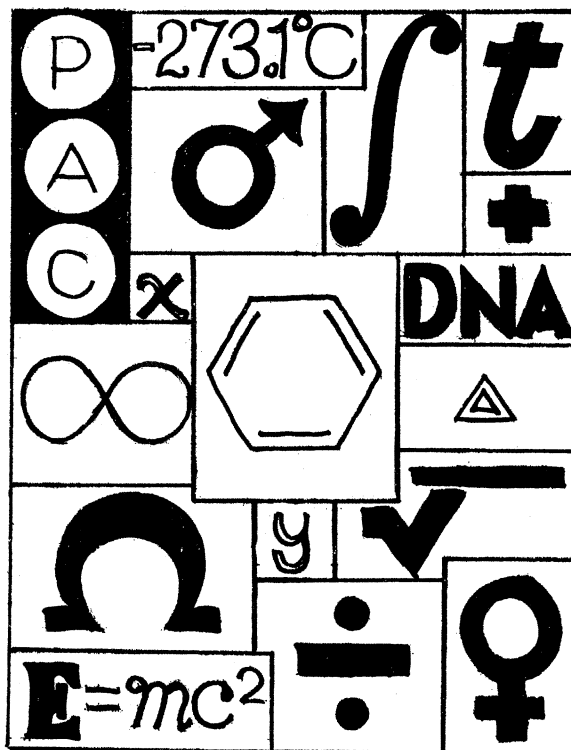

MARKET PLACE

WORLD OPEN UNIVERSITY

If you have at least 3 years of regular college, you can complete your B.S., M.S. or Ph.D. by studying at home by mail. Send only \$1 for our catalog including courses in biophysics, chemistry, physics, mathematics and environmental science to **WOU, P.O. Box 6321, Orange, Calif. 92667.**

1974

AAAS~WESTINGHOUSE
SCIENCE WRITING AWARDS
FOR
NEWSPAPERS & MAGAZINE
SCIENCE WRITING

To encourage and recognize outstanding writing on sciences (except medical) and their engineering and technological applications (excluding medicine) in newspapers and general circulation magazines.

Three awards of \$1000 each for science writing in newspapers with daily circulation of more than 100,000, in newspapers with circulation of less than 100,000, and in general circulation magazines.

Each entrant in a newspaper award competition and each entrant in the magazine award may submit three entries.

An entry for a newspaper competition may be any of the following: a single story; a series of articles; or a group of three unrelated stories, articles, editorials, or columns published during the contest period. A magazine entry may be a single story or series published during the contest period.

Contest Year: 1 October 1973 through 30 October 1974. All entries must be postmarked on or before midnight, 15 November 1974.

For entry blanks and detailed rules, contact Grayce A. Finger, American Association for the Advancement of Science, 1515 Massachusetts Avenue, NW, Room 306, Washington, D.C. 20005. Or call 202-467-4483.
