# Welcome to Philadelphia

## and the 152nd Annual Meeting of the American Association for the Advancement of Science

It's a pleasure to welcome you most cordially to Philadelphia, which for more than two centuries has quietly enjoyed a primacy in education and the sciences, and especially the life sciences, that is not only a tradition but is also still a contemporary reality. Many of our country's great scientists lived in Philadelphia and left artifacts of their work in the form of institutions that still flourish today.

We are delighted, therefore, that the some 200 sessions of this 152nd National Meeting of the AAAS offer — among other wide-ranging scientific topics — a considerable number touching on health, the life sciences, and related disciplines and technologies.

Those attending are to be exposed to the microcosm and the macrocosm, and a great deal between the two, as participants move from the level of biological cellular reality through biomedical imaging to Halley's Comet — and even to space medicine and interstellar communication. Indeed, for those able to attend all the sessions, the intellectual voyage would trace a trajectory that embraces most of humanity's present urgent concerns, from farm policy to aging, from computer science to arms control, from population and resources to questions of scientific freedom and responsibility.

The Philadelphia Advisory Committee has arranged for you to visit Philadelphia's historical places and institutions, many of which mark the Nation's earliest ventures into science, philosophy, education, and the arts. We are especially pleased that the National Meeting will offer opportunities for thousands of young people from Philadelphia area high schools to participate in the AAAS Youth Symposium.

We extend our thanks to the members of the Philadelphia Advisory Committee, and to their hardworking subcommittees, who have taken great pains to supplement the excellence of the scientific agenda with amenities that we hope will make your visit to Philadelphia memorable, comfortable, and entertaining — and not without its lighter moments.

So on behalf of the City of Brotherly Love, we send you greetings and our warmest welcome.

Sheldon Hackney President University of Pennsylvania, and Co-chairman, Philadelphia Advisory Committee Henry Wendt President and CEO SmithKline Beckman Corporation, and Co-chairman, Philadelphia Advisory Committee

## **Meeting Information**

#### Locations

The 1986 Annual Meeting will be held in four downtown Philadelphia locations:

Franklin Plaza Hotel, 2 Franklin Plaza (at Race Street between 16 & 17th). This is the headquarters hotel for the Meeting, with these activities: midday and evening lectures; symposia; workshops; business meetings and social functions; registration, information, and ticket sales desks; resource center with areas for AAAS members, disabled registrants, and minority scientists; speakers' ready room; message center; employment information; AAAS headquarters office and newsroom; AAAS Science & Technology Exhibition.

Hershey Philadelphia Hotel, Broad Street at Locust. Symposia and workshops, contributed paper sessions (slide presentations), business meetings, social functions, AAAS office.

Holiday Inn-Center City, 1800 Market Street. Symposia, contributed paper sessions (both slide and poster presentations), business meetings, social functions, AAAS office.

The Free Library of Philadelphia, Logan Square (19th and Vine Streets). SB&F Science Film Festival (Tuesday through Friday, 27–30 May).

#### **Hotel Reservations**

The AAAS has reserved a block of hotel rooms at special reduced rates at each of the three meeting hotels. These special rates are guaranteed only when reservations are made through the Philadelphia Convention Bureau before 2 May 1986. Please complete the housing form in this issue. Room assignments will be delayed if any information is omitted from the form.

Do not be a "No Show"! If you have made a reservation and find that you cannot keep your commitment, please write to the Convention Bureau or call the hotel and cancel.

#### Meeting Registration

Advance Registration. Register in advance to save money; onsite registration fees will be 15–20% higher. Registration categories and fees are shown on the advance registration form in this issue. Registration fees may be charged to VISA or MasterCard.

In mid-April, advance registrants will receive a badge and registration receipt and a voucher for the registration packet. Present the voucher at the Advance Registrants' desk at the Franklin Plaza to receive program and abstracts books, program summary, and other materials. The registration area at the Franklin Plaza Hotel will be open during the following hours:

Sunday, 25 May	12 noon–6:00 p.m.
Monday through Thursday,	•
26–29 May	8:00 a.m6:00 p.m.
Friday, 30 May	

Registration Refunds. The AAAS will refund advance registration fees for all cancellations received by letter or telegram prior to 16 May 1986. No refunds will be made on cancellations received after that date. Refunds will be mailed from the AAAS offices in Washington after the Annual Meeting.

Tax Deductions for Educational Expenses. At press time, U.S. Treasury regulation \$1.162-5 was still effective. It allows an income tax deduction for educational expenses (registration fees, cost of travel, meals, and lodging) incurred to (i) maintain or improve skills required in one's employment or other trade or business or (ii) meet express requirements of an employer or a law imposed as a condition to retention of employment, job status, or rate of compensation. This is true even for education that leads to a degree. (Because of pending legislation, we advise you to check on the status of this regulation before claiming a tax deduction.)

#### Resource Center

Resources for Disabled Registrants. The AAAS, in cooperation with the Philadelphia Advisory Committee, is making every effort to make the Annual Meeting fully accessible to disabled individuals. In addition to accessible meeting rooms and hotel rooms which can accommodate wheelchairs, the following services will be provided through the Resource Center located in the Franklin Plaza Hotel: transportation to and from airports, train stations, and bus terminals; interpreters for the hearing-impaired at all plenary lectures and for other sessions on request; special tour and sightseeing information; audiotaped program highlights for the visually impaired; assistance in movement within and between hotels; and emergency repair for wheelchairs.

Persons needing special accommodations and services are strongly urged to so indicate on the registration and housing forms. Your early response will help us serve you better. For additional information contact Virginia Stern, AAAS Project on the Handicapped in Science, 1333 H Street, NW, Washington, DC 20005 (telephone, 202/326-6667).

Member Resources. AAAS members seeking general information about the Association's many activities or who have questions about their membership will find assistance in the Resource Center located in the Franklin Plaza.

Resources for Minority Scientists. Also located in the Resource Center at the Franklin Plaza, this area provides an opportunity for the exchange of information and printed materials pertinent to the participation of racial and ethnic minorities in the sciences and in the activities of the AAAS. Materials on education, employment, research, and organizations will be displayed.

#### Transportation

Ground Transportation: Airport to downtown. The airport high-speed rail line provides daily service downtown every half-hour from 6:00 a.m. to midnight. The line stops at 30th Street Station, Suburban Station (16th Street and JFK Boulevard, 4 blocks from the Franklin Plaza and 3 blocks from the Holiday Inn), and at Market East (10th and Market Street). Travel time is 23 minutes. The weekday peak rate is \$3.75 (before 9:30 a.m. and after 3:30 p.m.), at other times the rate is \$2.25. Cab fare is about \$15.

AAAS Shuttle Bus Service. Free shuttle buses for registrants will run between the three meeting hotels at regular intervals throughout the meeting. Registrants must display their registration badges when boarding. Shuttle bus schedules will be posted at the hotels.

Parking. The three meeting hotels charge the following parking rates (which may be subject to change):

Franklin Plaza: \$13/day for registered and unregistered

Hershey Philadelphia: \$9/day for registered and unregistered guests.

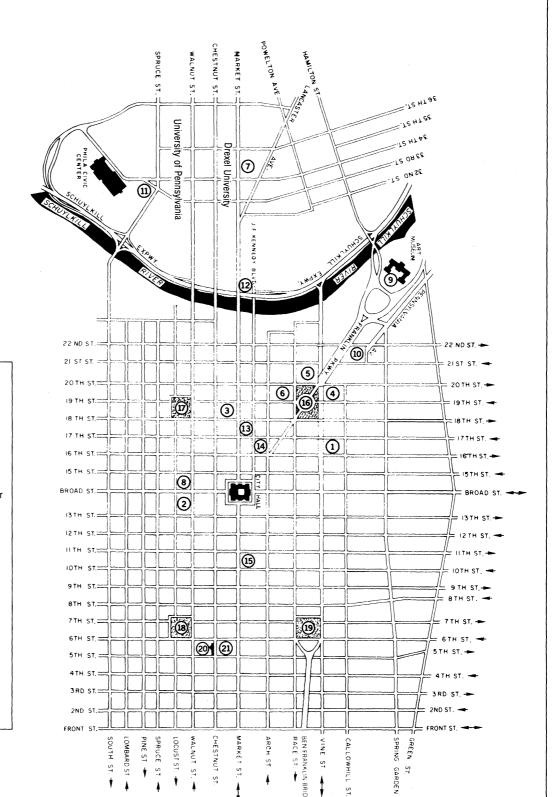

Holiday Inn—Center City: \$3/day for registered guests; rates for unregistered guests range from \$4 to \$10, depending on length of stay.

# Call for Symposium Proposals Chicago Meeting • 14–19 February 1987

AAAS members are invited to submit symposium proposals for the next Annual Meeting in Chicago, 14–19 February 1987. Please complete the form below, attach a "Synopsis of Objectives" (about 200 words), and send it to us **not later than 15 April 1986.** 

We are particularly interested in symposia dealing with the latest developments in science and technology, and the implications of these developments for society. Coordinated contributed paper sessions are also welcome; inquire for details with this submission.

All symposium proposals are subject to review. If the information submitted is inadequate for reviewing, the proposal will be returned. Endorsement (sponsorship) by a AAAS Section Committee expedites the review process. It is therefore in the interest of the proposer to send a *copy* of the proposal to the appropriate Section Secretary (see "AAAS News" section in *Science* for names) for endorsement at the

same time the original is sent to the AAAS Meetings Office.

Speakers should *not* be confirmed at this time; however, sufficient information about probable speakers and their topics should be provided to allow for evaluation of the proposal. Please note that AAAS does not pay honoraria to speakers.

#### **Some Deadlines**

**June:** You will be notified about acceptance, conditional acceptance, or nonacceptance of your proposal. Further information will be provided at that time.

July: Preliminary programs with confirmed speakers are due.

October: Final program copy, suitable for publication, is due.
