New "Expedition" Benefit Announced for AAAS Members

As a new benefit, AAAS members now have the opportunity to participate in Earthwatch Scientific Expeditions without paying the regular Earthwatch membership fee.

Earthwatch is a nonprofit organization that recruits volunteers to join researchers in field expeditions worldwide. Since 1971 Earthwatch has sent some 14,000 volunteers, ages 16 to 80, on 730 projects in 70 countries. Earthwatch sponsors scholars in every field of study. There are archeological excavations; surveys of plants, birds, or animals; underwater and environmental impact studies; as well as research in architectural history, public health, music, and dance. Each project is reviewed and selected from an extensive pool of proposals by a panel of scientists. The principal investigators in charge of these expeditions are among the leading scientists and researchers in their fields.

As a AAAS member, you may apply for an expedition without paying the regular Earthwatch membership fee. All expenses related to an Earthwatch expedition are fully tax-deductible, including air fare, and volunteer experience could take you to an exotic location on the other side of the world or a research site in this country. Should you decide to become a member of Earthwatch, and receive their quarterly magazine and many other benefits, you may do so at a reduced rate.

For more information, write to Marlene Zendell, Office of Communications and Membership, at the AAAS address; or write directly to Earthwatch, P.O. Box 403AAAS, Watertown, Massachusetts 02172.
