

Chairperson-Elect

Richard S. Greenfield, National Science Foundation
John H. Steele, Woods Hole Oceanographic Institution

Member-at-Large of the Section Committee

Chris Mooers, Naval Postgraduate School

Allan R. Robinson, Harvard University

Members of the Electorate Nominating Committee

Rana A. Fine, University of Miami

Tzvi Gal-Chen, University of Oklahoma

A. F. Spilhaus, Jr., American Geophysical Union

Don Walsh, International Maritime, Inc., San Pedro, California

Section X—Societal Impacts of Science and Engineering

Council Delegate

Rosemary Chalk, AAAS

Amory B. Lovins, Rocky Mountain Institute

Chairperson-Elect

Rachellé D. Hollander, National Science Foundation

Albert H. Teich, AAAS

Member-at-Large of the Section Committee

Glenn Paulson, Clean Sites, Inc., Alexandria, Virginia

Christopher Wright, Washington Resources, Inc.

Members of the Electorate Nominating Committee

Richard N. L. Andrews, University of North Carolina, Chapel Hill

Dennis Chamot, AFL-CIO

Peter R. Jutro, U.S. Environmental Protection Agency

Gretchen Schabtach Kolsrud, Office of Technology Assessment

Denise Weiner Memorial Fund Established

To assist foreign graduate students to participate in AAAS meetings, the Association has established a fund in memory of Denise Weiner, a staff member of the Office of International Science from 1978 until her death in the fall of 1985.

As coordinator of the AAAS Consortium of Affiliates for International Programs, Weiner was the driving force behind its many achievements. She also served as coeditor, with Archana

Sharma of the University of Calcutta, of the *Newsletter* of the Continuing Committee on the Role of Scientific and Engineering Societies in Development. Her impact on these and a wide variety of other AAAS international programs will be felt for many years to come. Her contributions to better relations between AAAS and foreign scientific and engineering communities included arranging for foreign graduate students to attend

AAAS annual meetings and R&D colloquiums.

The Denise Weiner Memorial has been established to further the work in which she believed. Contributions to the fund, made payable to AAAS, and notated "Denise Weiner Memorial," should be sent to Department 1043 at the AAAS address.

Pacific/Arctic Divisions Reminder

The Pacific and Arctic Divisions of the AAAS will meet jointly at the University of British Columbia, 8 to 13 June 1986. The meeting will occur during Expo86, a world's fair celebrating Vancouver's centennial.

Among the meeting symposia are those on the Consequences of Disarmament; Cultural Pluralism and Health Care on the Pacific Rim; Long-Term Management of High-Level Radioactive Nuclear Waste; Recent Advances in the Ecology of Arctic Fishes; and Integrating Remote Sensing Information into Resource Management.

Geoffrey G. E. Scudder, president of the Pacific Division and professor of zoology, University of British Columbia, will present the presidential lecture, "Canada's Galápagos: The Queen Charlotte Islands." Other public lectures will be on "Flying Machines: Natural and Otherwise," "Flora of British Columbia," "History of Canadian-Alaskan Boundary Survey," and "It's Time We Made Evolution Respectable!"

A number of field trips will be available, including those to Hell's Gate, Victoria, and the Lower Fraser Valley.

For further information contact the Pacific Division AAAS, California Academy of Sciences, Golden Gate Park, San Francisco, California 94118 (telephone: 415-752-1554), or the Arctic Division AAAS, Geophysical Institute, University of Alaska, Fairbanks, Alaska 99701 (telephone: 907-474-7371).

Problems with Promotional Mailings

If you recently received a promotional mailing from the Association, please accept our apologies.

The Membership Office does its best to screen current members from the mailing lists we use, but the computer merge/purge process is not perfect. Any slight variation in a member's name or address will result in the computer failing to identify the duplication. This spring we appear to have had more problems than usual with this process.

We are investigating the problems and will make every effort to ensure that they do not happen again. If you received one of our mailings, please return it to the AAAS Membership Office with a recent label from *Science*. We will place your name on an additional suppression file, so that you will not get future direct mail promotions. Thank you for your understanding.
