## **Transcripts of Discussion Focusing on the Use of Animals in Research Offered**

A new transcript entitled *Effects of Regulation on the Use of Animals in Biomedical Research* is now available through the AAAS Office of Communications. The transcript is from the fourth Media Roundtable held at the National Press Club in Washington, D.C., in July 1986. The panel participants included Barbara Hansen, vice chancellor for graduate studies and research at the University of Maryland; Franklin Loew, dean, Tufts University School of Vet-

erinary Medicine; Charles McCarthy, director, Office for Protection from Research Risks, National Institutes of Health; Dennis Stark, director, Laboratory Animal Research Center and Alternative Research Program, The Rockefeller University; and Richard Crawford, chief staff veterinarian for zoo and exhibition animals, U.S. Department of Agriculture. Gary Ellis, project director, Office of Technology Assessment, moderated the discussion.

This Media Roundtable was the last held as part of the Media Outreach Program which was cosponsored by the AAAS, Scientists' Institute for Public Information, and the Association of American Universities, under a grant from the Andrew W. Mellon Foundation.

Copies of the transcript can be obtained by writing to Carol L. Rogers, Office of Communications, at the AAAS address.

## **Nomination of AAAS Fellows Invited**

The AAAS Executive Office invites groups of three Fellows to nominate AAAS members for election as Fellows, provided that in each instance at least one of the three sponsors is not affiliated with the institution of the nominee. In order to be considered for election in 1988, nominations must be received no lat-

er than 12 June 1987. Nomination forms should be requested from the Executive Office at the AAAS address.

A Fellow is defined as "a Member whose efforts on behalf of the advancement of science or its applications are scientifically or socially distinguished." Examples or areas in which nominees may have made significant contributions are research; teaching; technology; services to professional societies; administration in academe, industry, government, and other institutions; and communicating and interpreting science to the public.

Following their election, new Fellows will receive certificates, and a list of their names will be published in the Proceedings Issue of *Science*.

A *Directory of AAAS Fellows* (1985) is available from the AAAS Product Sales Office at the AAAS address. The price to members is \$9.55 prepaid.

## **SWARM to Meet in Austin**

The Southwestern and Rocky Mountain (SWARM) Division of AAAS will hold its 63rd annual meeting in Austin, Texas, 31 March to 4 April 1987. This will be the first time the Division has met in Austin.

Along with the scientific symposia, papers, poster sessions, and student papers, the meeting

will include the annual John Wesley Powell Memorial Lecture, a past-president's dinner, and a banquet featuring the presidential address and presentation of SWARM awards.

Formed in 1920, the Southwestern and Rocky Mountain Division is composed of AAAS members in Arizona, Colorado, Kansas, Nebraska, New Mexico, Oklahoma, Texas, Wyoming, Montana east of the Continental Divide, and Sonora and Chihuahua, Mexico.

Headquarters for the meeting will be the Sheraton Crest Hotel in downtown Austin.

For further information, including registration information, contact M. Michelle Balcomb, SWARM, Colorado Mountain College, 3000 County Road 114, Glenwood Springs, Colorado 81601.

## **1987 Calendar of Scientific Meetings Available**

*The 1987 Calendar of Scientific Meetings and Events*, prepared by the Office of Communications, is available to AAAS members free, upon request. The *Calendar* includes listings for some 300 scientific meetings.

Contact the Office of Communications for a copy of the *1987 Calendar*.
