

Ordering Books

Books reviewed or listed in *Science* usually may be ordered through local booksellers, but in many cases it is more efficient to order them directly from their publishers. Below are listed ordering (not necessarily editorial) addresses for some of the publishers recently represented in *Science*. Many publishers listed in *Science* with U.S. addresses have their editorial offices or special distribution arrangements in other countries; for full information the publishers should be contacted directly. Books noted in the Book Review section are not available from *Science* or the AAAS.
