

—Messrs. Macmillan & Co. will publish early next month, in their Adventure Series, "The Buccaneers and Marooners of America" (edited and illustrated by Howard Pyle), being an account of the famous adventures and daring deeds of certain notorious freebooters of the Spanish Main. Mr. Gladstone's new book, entitled "Landmarks of Homeric Study," will be issued immediately by the same firm. The author says in a recent letter, "Please to bear in mind that this little work was planned for America. The form of it seemed to me more suited for an American public."

—Among the new books of C. W. Bardeen, Syracuse, N.Y., is "Home Exercise for Health and Cure." This is a translation of a German work by D. G. R. Schreber, M.D., which is said to have sold in Germany to the extent of 140,000 copies. The purpose of the book is to furnish a cheap, easily understood, and practicable system of physical exercise.

—Those interested in chemical analysis will find much to interest them in "Electro-Chemical Analysis," by Edgar F. Smith, just published by P. Blakiston, Son, & Co. The author is professor of analytical chemistry at the University of Pennsylvania. These electro-chemical methods of quantitative analysis are in the main

new, and are constantly being used to a greater and greater extent. Professor Smith has done a service in giving chemists this book, which is rendered the more valuable by a profuse but not obtrusive amount of reference to the literature.

—Those having classes in solid geometry should send to Macmillan & Co. for a copy of Hayward's "Elements of Solid Geometry." The author, who is a fellow of the Royal Society, and is senior mathematical master in Harrow, has produced a compact text-book which departs from the Euclid so beloved in England, and is likely to find many users on this side.

—The forthcoming visit of the Count of Paris to this country will no doubt excite great public interest, and *The Illustrated American* has endeavored to cater to this by a lengthy article, profusely illustrated with portraits and scenes with particular reference to the distinguished visitor's career in our civil war. Those who do not know *The Illustrated American* should buy copies for a few weeks, and they are sure to find matters of interest. The recent series of illustrations of French artists and writers at their work were of special value.

—Among the fall announcements of Messrs. Macmillan & Co. we note the following as of interest to our readers: "Wild Beasts

PRACTICAL ELECTRICAL NOTES AND DEFINITIONS.

For the use of engineering students and practical men by W. P. MAYCOCK, together with Rules and Regulations to be observed in Electrical Installation Work, with diagrams. 130 pages, 32mo, cloth, 60 cts. E. & F. N. SPON, 12 Cortlandt St., New York.

READY SEPT. 20.

RACES AND PEOPLES.

By DANIEL G. BRINTON, M.D.

This book is a review of the whole domain of ethnography, with particular attention to the white or European race, the Aryan peoples, their origin and distribution. The latest opinions of the leading European scholars have been consulted, but the work is largely the result of independent research, and does not follow any especial school of ethnographers.

Price, postpaid, \$1.50.

Physical Geography.

In addition to the series of Political Geographies published by the American Book Company, their list includes the following standard and popular text-books on Physical Geography:

APPLETONS' PHYSICAL GEOGRAPHY.

Large 4to

\$1 60

Prepared by a corps of scientific experts with richly-illustrated engravings, diagrams, and maps in color, and including a separate chapter on the geological history and the physical features of the United States.

CORNELL'S PHYSICAL GEOGRAPHY.

Large 4to

\$1 12

Revised edition, with such alterations and additions as were found necessary to bring the work in all respects up to date.

ECLECTIC PHYSICAL GEOGRAPHY.

12mo

\$1 00

By RUSSELL HINMAN. A new work in a new and convenient form. All irrelevant matter is omitted and the pages devoted exclusively to Physical Geography clearly treated in the light of recent investigations. The numerous charts, cuts, and diagrams are drawn with accuracy, fully illustrating the text.

GUYOT'S PHYSICAL GEOGRAPHY.

Large 4to

\$1.60

By ARNOLD GUYOT. Revised, with new plates and newly-engraved maps. A standard work by one of the ablest of modern geographers. All parts of the subject are presented in their true relations and in their proper subordination.

MONTIETH'S NEW PHYSICAL GEOGRAPHY.

4to

\$1 00

A new and comprehensive work, embracing the results of recent research in this field, including Physiography, Hydrography, Meteorology, Terrestrial Magnetism, and Vulcanology. The topical arrangement of subjects adapts the work for use in grammar grades as well as for high and normal schools.

Any of the above books will be mailed, postpaid, on receipt of price. Full price-list of books on all subjects for all grades will be sent on application.

AMERICAN BOOK COMPANY,
NEW YORK -: CINCINNATI -: CHICAGO

"SHOULD MAKE PART OF THE COURSE OF STUDY OF EVERY AMERICAN STUDENT."—James D. Dana.
NEW EDITION OF AN "EPOCH-MAKING BOOK."

EARTH AND MAN.

Lectures on Comparative Physical Geography in its Relation to the History of Mankind.
By ARNOLD GUYOT. New Edition. 12mo. Maps and Charts. \$1.75.

Few works have met with such distinguished approval and such universal favor as Dr. Guyot's "Earth and Man." This popularity it has retained for so many years as to necessitate renewal of the plates, thus giving opportunity for revision and the addition of new maps and appendices, bringing in the most recent scientific data. It is believed that the present revised edition of this famous work will arouse new interest among its many readers, while it will extend its field of usefulness still more largely.

"One of the most useful and suggestive works ever published."—The Nation.
