THE *Journal of Industrial Chemistry* reports that the International Chemical Conference last June decided to hold the next conference in Poland, at the invitation of Mr. Kowalski. At that time the situation in that country seemed fairly settled, but since then affairs have become disturbed, and the council of the union has decided that the next meeting can not be held in Warsaw. Dr. Parsons has extended an invitation from the American Chemical Society to hold the 1921 meeting in the United States, but European chemists are not in a position to make this move. Therefore the council has decided to hold the next meeting at Brussels, at the end of June. However, Mr. Paul Kestner, president of the Société de Chimie Industrielle, will attend the Canadian meeting of the British Chemical Society as the French delegate, and will return by way of the United States, where he will attend the meetings of the American chemical societies.
