

pointed to the staff. It is also proposed to include here gymnasium, squash courts, club rooms and locker rooms for the faculty and student body connected with the Institute of Human Relations and the medical group. Dr. Winternitz stated that a further need which is being considered is that of a dormitory to be erected on property already owned by the university for the use of students connected with the Human Welfare Group.

In speaking of developments since the Institute of Human Relations was established a year ago, Dr. Winternitz stated that great progress had been made in the selection of personnel for strengthening already well-organized units affiliated with the institute. The institute, he said, will serve as a dynamo and assembling plant for those university organizations concerned from the view-point of research, teaching or treatment with problems of human well-being. The effectiveness of the institute therefore depends upon the strength of the associated units and the program during the past year has been designed for the development of these associated interests.

Construction of the Institute Building, for which \$2,000,000 was given by the Rockefeller Foundation and the General Education Board, is now well under way. It is expected that the building will be ready for use at the opening of the next academic year. It will house the department of psychiatry and mental hygiene, the graduate divisions of psychology and of the social sciences, and the child development work under Dr. Arnold Gesell.

TRIBUTE TO THE WORK OF MR. C. DAVIES SHERBORN

THE following communication has been sent to the directors of the British Museum of Natural History, London:

At the seven hundred and forty-second meeting of the Biological Society of Washington on January 11, 1930, the following resolution was passed expressing the society's appreciation of the long-continued bibliographical work of C. Davies Sherborn.

WHEREAS, Charles Davies Sherborn, through his bibliographical researches, has made contributions of such outstanding importance in the field of zoology; and,

WHEREAS, He has by continued and painstaking endeavor placed in the hands of his fellow-workers in the "Index Animalium" an instrument of great usefulness; and,

WHEREAS, He has made other notable contributions such as a "Bibliography of the Foraminifera" and an "Index to the Genera and Species of the Foraminifera" and a "Catalogue of British Fossil Vertebrata," and other similar works; therefore, be it

Resolved, That the Biological Society of Washington extends to Charles Davies Sherborn its appreciation and recognition of the service he has rendered to his fellow-workers in science.

The members of the Biological Society of Washington desire you to convey to Mr. Sherborn their most cordial

greetings for his health and prosperity and wish to assure him of their continued interest in and appreciation of the value to science of the bibliographical work on which he is engaged.

A. WETMORE,
President
