

Sixth Edition—Now Ready

# American Men of Science

## A BIOGRAPHICAL DIRECTORY

EDITED BY J. McKEEN CATTELL AND JACQUES CATTELL

The first edition of this BIOGRAPHICAL DIRECTORY OF AMERICAN MEN OF SCIENCE was published in 1906, the second edition in 1910, the third edition in 1921, the fourth edition in 1927 and the fifth in 1933. The present edition contains the records of about 28,000 living men of science, as compared with about 4,000 in the first edition. No single book of reference can cover the whole of North America and all lines of activity; it therefore becomes necessary to prepare special works. This volume, devoted to the men of science, sets standards in its treatment of a group on which the material prosperity and intellectual leadership of the country depend.

The book contains viii + 1608 pages. It has been edited with great care and is believed to be as complete and accurate as any work of the character. It is well printed by The Science Press Printing Company; the high standards of the typography and binding of the book are representative of its contents.

*Price: Twelve Dollars, net, postage paid*

## ISIS

*Review of the History and Philosophy  
of Science and of the History of  
Learning and Culture,  
edited by*

**GEORGE SARTON, D.Sc.**

HARVARD LIBRARY 185, Cambridge, Mass.

*Isis* may be obtained from any Bookseller at the price of 6 dollars per volume illustrated. Members of the *History of Science Society* receive each year at least one volume of about 600 pp. free of charge. Annual dues, 5 dollars. Corresponding Secretary, Dr. Henry R. Viets, 8 The Fenway, Boston, Mass.

*Isis* is the foremost journal on the history of science published in the world to-day. It contains articles, reviews, notes, queries, and elaborate critical bibliographies of the history and philosophy of science. Vols. 28 and 29 will be published in 1938.

Writers of books and papers on the history of science are asked to send a copy as promptly as possible to the Editor of *Isis* in order that they may be registered in the Critical bibliography. This is the best way of obtaining for their work its certain incorporation into the literature of the subject.

*Isis* may be examined in any good reference library all over the world.

LINDE NEON  
LINDE ARGON  
LINDE HELIUM  
LINDE KRYPTON  
LINDE XENON  
AND MIXTURES

*highest purity...  
for all purposes*

Linde Rare Gases and Linde Rare Gas Mixtures are available for the study of electrical discharges, for use in rectifying and stroboscopic devices, and in inert atmospheres where heat conduction must be reduced. Additionally, the facilities of Linde laboratories are available for the preparation of special mixtures for experimental uses. Write any Linde office for folder and full information about Linde Rare Gases.

The word "Linde" used herein is a registered trade-mark.
