

MOUNTING
CLARITE^{*}
MEDIA *REG. U.S. PAT OFF

For Covering Histological Sections on Slides

These superior media are inert, high-melting, water-white synthetic resins having many advantages over Canada balsam and gum damar. Clarites have proper refractive indices and adhesion to glass, and will neither become acid nor discolor with age. Clarites are pure, uniform, perfectly transparent, and will not cause stains to fade with age because they are absolutely neutral and remain so.

Send for booklet "Neville Clarite Mounting Media"

Clarite and Clarite "X" Resins are available in lumps or ready-to-use solutions.

LaMotte Outfit for Control of Chlorine in Swimming Pool Water in Private Pools

This inexpensive outfit was developed for private pools with tests that can be easily, quickly and accurately made. It is equipped with two chlorine standards representing the high and low chlorine concentrations (0.2 and 0.5 p.p.m. chlorine) recommended for swimming pool water sterilization; necessary reagents, glassware, and full instructions; packed in a special case ready for use. Price \$5.00 f.o.b. our laboratory.

Also available, a similar LaMotte Outfit for control of pH in Swimming Pool Water. Price \$5.00. And a special set combining the pH and chlorine tests in one case. Price \$8.50 f.o.b. our laboratory.
