

EXPERIMENTAL EMBRYOLOGY

by ROBERTS RUGH, Columbia University

Experimental Embryology is an exhaustive compilation of research data: It is the most up to date text in this dynamic but fragmentary field of research. For the anatomist, the embryologist and the zoologist, it provides a single reference source not otherwise available.

PLAN YOUR FUTURE in the field of NUCLEONICS

with
nuclear INSTRUMENT and
CHEMICAL CORPORATION

HERE is an excellent opportunity to establish yourself in the rapidly expanding field of atomic energy and radioisotope applications! This progressive company, a leader in the field of nuclear instrument and chemical development and manufacturing, is seeking experienced, high-caliber PHYSICS, ELECTRONICS and CHEMICAL personnel with BS, MS, or PhD degrees. Positions are permanent with real opportunities for rapid advancement.

Write immediately, giving qualifications, to:

PERSONNEL DIRECTOR

nuclear INSTRUMENT & CHEMICAL CORP.
237 West Erie Street • Chicago 10, Illinois

• Scaling Units for Every Type of Radiation Counting • Complete "Packaged" Counting Systems • Health Monitoring Instruments for Personnel Protection • Glass Wall, Mica Window, and Windowless Counters • Portable Count Rate Meters • Radioactive Chemicals • Complete Line of Accessories for the Nuclear Laboratory

nuclear "PRECISION INSTRUMENTATION FOR NUCLEAR MEASUREMENTS"
