IMMUNE TOLERANCE: NATURAL AND ACQUIRED Proceedings of a Symposium held at Royaumont, June 1962 Edited by A. BUSSARD, Institut Pasteur, PARIS.

— ★ —

This volume contains the papers presented at the Symposium on "Acquired and Natural Tolerance towards Defined Antigens" held at Royaumont.

The first part deals with acquired tolerance both in the young and in the adult. The second part concerns natural tolerance: its establishment, maintenance and failure (autoimmunity).

The last part of the book is devoted to the study of the modern theories (instructionist and selectionist) of antibody synthesis and to the ways by which Immune Tolerance may influence our thinking in this field.

Important topics covered by the book are: dose and nature of antigens as factors in the induction of tolerance, tolerance in the thymectomized animal, inhibition of immune tolerance by the use of adjuvant, tolerance and persistence of antigen, tolerance towards chemical allergens, tolerance induced by physical or chemical means, suppression of induced tolerance, suppression of natural tolerance, etc. . . .

PHARMACOLOGISTS

*for new research
programs with*

I I T RESEARCH INSTITUTE

The increasing number of investigations in the Life Sciences Division has created select opportunities for pharmacologists at the Ph.D. level. Desired qualifications for these appointments are a background and/or experience in the effects of new drugs on physiological systems and on behavior response.

The advantages of a research career at IITRI are many, including the use of advanced facilities and equipment, opportunity to pursue investigations of personal interest, salaries in competition with industry and opportunities for personal and professional growth.

Your inquiries are invited. Please send complete résumé in confidence to Mr. George Zima. U. S. citizenship required.

SCIENCE
1515 Massachusetts Ave., NW
Washington, D.C. 20005

POSITIONS WANTED

Biochemist Ph.D., 1960; seeks academic position
in South or Southwest. Industrial research ex-
perience. Box 288, SCIENCE 1/31

Liaison-Information Scientist, reads Japanese,
Russian plus ten languages, Ph.D. (physics) next
spring, LL.B. M.I.E.E., 10 years' experience elec-
tronics, widely read in biology. Box 307,
SCIENCE. 2/14

Microbiologist (microbial genetics); Ph.D., 2
years of teaching-research experience in medical
school; 2 years research postdoctoral fellowship.
Seeks responsible position. Box 310, SCIENCE. X

Ph.D. Zoologist (botany, chemistry minors); em-
bryological, comparative physiology, molecular
biology interests; prefers teaching with research
emphasis. (b) **Ph.D. Biologist**, broad biological
training including radiation, biostatistics; teach-
ing, research experience and preference. (Please
write for information regarding these and other
scientists, senior and junior, in all fields.) Sci-
ence Division, The Medical Bureau, Inc.,
Burneice Larsno, Chairman, 900 North Michigan
Avenue, Chicago 11, Illinois. X

Zoologist, 12 years of teaching and some re-
search experience. Interested in relocating.
Available 1 September 1964. Box 303, SCIENCE.
2/7

POSITIONS WANTED

Microbiologist, Dr.P.H., Ph.D., age 34. Tissue
culture, virology especially tumor viruses, P.P.L.O.
metabolism, postdoctoral traineeship, publica-
tions. Desires academic post, with opportunity
to continue tumor virus research in Rocky
Mountain area. Box 308, SCIENCE. X

Ph.D., experience in research/teaching. Desires
research/teaching position in genetics and/or
botany. Box 286, SCIENCE. 1/31

Ph.D. Biochemist, Microbial sugar transport
mechanisms. Teaching, publications, grants. Seeks
research/teaching. Box 290, SCIENCE. 1/31

Ph.D. Vertebrate Zoology, Ecology. Experienced.
Publications. Grants. Prefer teaching/research.
Box 309, SCIENCE. X

POSITIONS OPEN

ANATOMIST

Electron microscopist or zoologist
to head electron microscopy, anat-
omy laboratory teaching hospital
southern California. University
affiliation.

Box 306, SCIENCE

BIOLOGY EDITOR

for Scientific Book Publisher

Ph.D. or other advanced training or ex-
perience. Duties will consist of develop-
ing ideas for advanced level monographs
and treatises, contacting potential au-
thors, maintaining close liaison with
important academic and industrial re-
search personnel. Should be willing to
travel and enjoy frequent personal asso-
ciation with members of the profession.

Box 305, SCIENCE

POSITIONS OPEN

The Department of Zoology, University of
British Columbia wishes to entertain applications
for both current and future faculty openings in
cell and developmental biology. Rank and salary
will be commensurate with academic experience.
Curriculum vitae should be sent to Dr. C. V.
Finnegan, Faculty Committee, Department of
Zoology, University of British Columbia, Van-
couver 8, Canada. 2/7; 14

RESEARCH VIROLOGISTS FOR EXPANDED PROGRAM

Ph.D. or M.D., recent graduates or with ex-
perience. Background and interests in viral
diseases, cancer, immunology, viral interference,
and cell biology. General microbiologists can
qualify. Graduate students expecting degrees in
near future will be considered. Interested persons
write to Mr. Robert O'Connor, Research Per-
sonnel, Merck & Co. Inc., West Point, Pa.
An equal opportunity employer.

SUMMER RESEARCH FOR TEACHERS:

Predocoral and postdoctoral teachers with
limited time or facilities for research during the
academic year are invited to apply to undertake
independent investigations in the laboratories of
scientists of stature in several areas of **Biology,
Biochemistry, Chemistry, Economics, Engineer-
ing, Physics, Psychology, and Sociology.**

Ten weeks, Summer 1964. Adequate stipends
under NSF grants. Application deadline 28 Feb-
ruary 1964. Write for "College Teacher Re-
search Participation Announcement and Applica-
tions" to C. C. Bowen, Room 12, Botany Hall,
Iowa State University, Ames, Iowa. X

**Traineeships for Graduate Work in Pharma-
cology.** A 4-year program of course work and
research training leading to the Ph.D. degree
is offered. Research opportunities include the
action of drugs on kidney, circulation, autonomic
ganglia, connective tissue, behavior, metabolism,
and ion transport. Annual stipend (U.S. citizens)
of \$2400 plus tuition, plus \$500 for each de-
pendent. Early application strongly advised for
entrance September 1964. Detailed information
on request. Write Department of Pharmacology,
School of Medicine State University of New
York at Buffalo, 15 The Circle, Buffalo, N.Y.

POSITIONS OPEN

SALES MANAGER

Scientific Instruments

VARIAN ASSOCIATES' Analytical Instrument Division is seeking candidates for the key position of Sales Manager for its Spectroscopy Products. Location will be at Varian's facilities in Palo Alto, California.

Basic responsibility is ensuring maximum penetration for division's line of high-quality laboratory instruments through the development and direction of a field sales organization and supporting applications engineering activities. Specific products include NMR and EPR spectrometer systems used in chemical analysis, biochemical and solid state physics research.

Desired qualifications include at least ten years experience in technical marketing of laboratory instruments, five of which should include supervisory responsibility, plus degree in Chemistry or Physics and broad understanding of theoretical and practical aspects of concerned products.

Qualified candidates are invited to send résumés in complete confidence to:

Mr. J. A. Kallgren
Employment Manager

VARIAN ASSOCIATES

611 Hansen Way Palo Alto, Calif.
An equal opportunity employer

Biologists: church related liberal arts college, with three on staff, will add two Ph.D.'s with duties including partial responsibility for general course and development of upper level course in physiology, ecology, botany or molecular biology depending on training and experience. Salary open. Dr. C. L. Baker, Southwestern College, Memphis 12, Tenn.

CHEMISTRY DEPARTMENT with active research activities and extensive facilities welcomes qualified applicants for teaching and research assistantships. \$2200-\$3000 and tuition in all divisions of chemistry—analytical, biochemical, inorganic, organic, and physical. For further information contact Henry Freiser, Head, Department of Chemistry, University of Arizona, Tucson. 2/14, 28; 3/14

CLINICAL IMMUNOLOGIST. Position in newly created department of clinical immunochemistry in departmentalized research and service laboratory in large general hospital. Applicant to have Ph.D. or equivalent and will be head of department. Opportunity for development of department of immunochemistry with major opportunities for research and pursuance of self-developed projects. Complete facilities available and supplementary facilities to be encompassed. Generous, open, salary. Write Robert C. Grauer, M.D., Director, Singer Research Laboratory, Allegheny General Hospital, Pittsburgh 12, Pa. 1/31; 2/7, 14

PHARMACOLOGIST— ASSISTANT TO RESEARCH DIRECTOR

Excellent opportunity for man with versatility and imagination who prefers a career in private industry. Duties consist in research work in pharmacology and to assist Research Director in a variety of duties connected with new drug development. Location in N. Y. City convenient to residential communities. Salary: \$9,000 to \$13,500 depending on qualifications, with fringe benefits. Please send full résumé, references, salary desired. Box 304, SCIENCE.

POSITIONS OPEN

CLINICAL MICROBIOLOGIST-IMMUNOLOGIST. Position, Ph.D. or equivalent, in departmentalized research and service laboratory in large general hospital. Minor supervisory duties in clinical immunology. Major opportunities for research. Complete facilities in all areas. Applicant will be head of expanding department encompassing associated disciplines. Position immediately available. Adequate, open salary and fringe benefits. Write Robert C. Grauer, M.D., Director, Singer Research Laboratory, Allegheny General Hospital, Pittsburgh 12, Pa. 1/31; 2/7, 14

DEPARTMENT HEAD—PHARMACEUTICAL R&D. Excellent opportunity for qualified individual with advanced degree in Pharmacy or Industrial Pharmacy plus five to ten years' experience in formulating pharmaceutical products. Should be familiar with all phases of pharmaceutical manufacture and have a strong background of pharmaceutical chemistry. Age 30 to 35. Send résumé to A. G. Worton, Warren-Teed Pharmaceuticals Inc., Subsidiary of Rohm & Haas Company, Columbus, Ohio.

(a) **Ph.D. Biochemist**, bacteriology training; advanced person, research-minded; West Coast institute; to \$12,000. (b) **Ph.D. Clinical Bacteriologist**; large midwestern hospital-affiliated clinic. (c) **Ph.D. Organic Synthesis Chemist**; eastern pharmaceutical house; to \$11,600. (d) **Analytical Chemist**, advanced degree; experienced in modern and fundamental techniques, midwestern research center. (e) **M.S./B.S. Bacteriologists**; clinical; Central hospital; to \$6000. *Faculty Appointments:* (f) **Ph.D. Embryology/Histology**, assistant professor, California liberal arts college; to \$8400. (g) **Ph.D. Physiologist**, cellular and comparative; zoology background; research interests; state university; West. (h) **Biologist, M.S./Ph.D.**, teaching, research; Midwest. (i) **Zoologist**, assistant professor, small suburban liberal arts college; research interests; Central; to \$8000. (j) **Microbiology Instructor**; M.S. minimum; midwestern junior college; to \$9000. (k) **Physical Science**, M.S. minimum; general chemistry; competitive salary; midwestern state college. Many other opportunities available for both Junior and Senior scientists. Please write to Science Division, The Medical Bureau, Inc., Burnice Larson, Chairman, 900 North Michigan Avenue, Chicago 11, Illinois. X

PHYSICAL CHEMIST, PH.D.

With background in photosynthesis, photochemistry, and/or biochemical mechanisms. To conduct basic research in energy transfer photobiological systems.

An excellent position with an expanding research company in new and completely equipped scientific facilities in suburban Boston.

This is an opportunity for professional growth in an environment where active participation in the scientific community and publication of results are encouraged. Attractive salary and benefits program. Please send resume to Personnel Director

TYCO LABORATORIES, INC.

Hickory Drive

Waltham, Massachusetts

An equal opportunity employer

PREDOCTORAL TRAINEESHIPS IN BIO-CHEMISTRY are available in a new and well-equipped department. Base stipend for first year trainees is \$2400 plus tuition and dependency allowance. Appointments are made on a 12-month basis and are renewable. Applicants must be U.S. citizens or must have applied for naturalization. For information and application forms, write: Chairman, Department of Biochemistry, Medical Center, University of Kentucky, Lexington.

FELLOWSHIPS

Fellowships. Postdoctoral fellowships available to individuals (Ph.D., M.D., or equivalent) seeking research training in general field of metabolism including diabetes, endocrinology, renal function, steroid biochemistry. Stipends \$5000 to \$6500, partly tax-exempt, and allowance for dependents. Apply to Dr. R. E. Bailey, Department of Medicine, University of Oregon Medical School, Portland, Oregon. 2/28; 3/27; 4/24

Oceanography and Meteorology. Graduate fellowships (including HEW and NASA) and 12-month research assistantships available at Texas A&M University. Stipends range from \$2000 to \$4000. Academic capability (biology, chemistry, engineering, geology, mathematics, meteorology or physics) and broad scientific interests required. For information and application forms contact Head, Department of Oceanography and Meteorology, Texas A&M University, College Station, Texas. X

FELLOWSHIPS

Graduate Fellowships in Biochemistry

Teaching and research appointments leading to Ph.D. available for academic year 1964-1965. Varied department research programs include mammalian and microbial metabolism and enzymology, nucleic acid biochemistry, neurochemistry. Excellent facilities in new building. Annual stipends start at \$2400, plus dependency allowance and tuition.

Address further inquiries to Head, Department of Biochemistry, University of Maryland, School of Medicine, Baltimore 1, Maryland. 2/7; 3/6, 13

Spectrum above shows excellent performance of Model 521 beyond 400 cm^{-1} in a scan of indene.

GET THE WIDEST CONTINUOUS SCANNING RANGE AVAILABLE WITH NEW MODEL 521 SPECTROPHOTOMETER

Stretch your analytical spectrum from fundamental to far infrared with Perkin-Elmer's new Model 521 Grating Infrared Spectrophotometer...the latest development in the field. The Model 521 gives a wider continuous scanning range than any other instru-

ment—2.5 to 40 μ ...4000 to 250 cm^{-1} . Spectra are recorded on convenient-sized chart paper without gaps or overlaps.

The new filter-grating monochromator—a Perkin-Elmer exclusive—has a short-path f4.5 optical system twice as fast as similar instruments. This unique development conserves energy and permits full-range analysis of extremely small samples in low concentrations.

The Model 521's low-frequency coverage gives important analytic information about the presence and nature of many organic bonds and structural groups: ethers, esters,

ketones, organic acids, carbon-halogen and out-of-plane aromatic carbon-hydrogen bonds, and many polyatomic inorganic anions. Metal-oxygen, metal-sulfur, sulfur-X and phosphorus-X absorptions also occur in the lower frequencies...well beyond the range of conventional KBr fore-prism instruments.

The Model 521 Interchange is available as a separate unit, and is compatible with Model 221 or 421 Spectrophotometers. For more information, write to Instrument Division, Perkin-Elmer Corporation, 910 Main Avenue, Norwalk, Connecticut.

NOW! A Viewing Screen...and the new AO Microstar has it!

The AO Viewing Screen answers the long-felt need for a convenient and practical method of slide demonstration. It's designed exclusively for use with the new AO Microstar® Microscope and can be mounted quickly and easily on the trinocular body. You'll find it ideal for small group discussions, consultations and countless teaching situations in the classroom or laboratory. The six inch screen covers the same field of view as the 10X Wide Field Eyepiece. Magnification is 7.5X. The superior optical performance provided by the new Microstar's infinity-corrected optical system delivers a bright, crisp screen image that is flat and in focus over the entire screen area.

This unique AO Viewing Screen is just one example of the wonderful versatility and performance that has been designed into the remarkable AO Microstar. Its infinity-corrected optics, revolutionary focusing concept and unitized construction are the most significant basic improvements in microscope design made in this century. Learn how they make possible dramatic new breakthroughs in optical and mechanical performance. Ask your AO Sales Representative to demonstrate the new Microstar and Viewing Screen, or write for 24-page brochure.
