Don't rely on gravity...set the dial and pump it accurately

The Beckman Solution Metering Pump delivers small amounts of almost any liquid more easily and precisely than ever before. This tiny pump is ideal for drug infusion studies, reaction rate studies, organic synthetic research, pilot plant operations, and similar applications in lab or plant.

It's never been so easy. Attach the hoses, adjust the flow, and plug in the power cord. That's all.

And so precise too. The pre-calibrated Duodial® gives you $\pm 2\%$ accuracy, with repeatability to better than $\pm 0.5\%$ of rated capacity—and it's readable to thousandths of milliliters per minute. Mechanically actuated valves insure leak-free performance. You can select from four ranges to fit your requirements—0.2, 0.5, 0.10, or 0.20 nl/min. All are resistant to highly corrosive solutions. Cleaning is quick and easy, too. Let your Beckman Sales Engineer tell you more about this compact solution to your metering problems. Or return the coupon today.
