

Call Sigma for

## R N A RIBONUCLEIC ACID

Whether you require Maximum Purity or just a ton of Commercial Grade, you probably can't find a better source than Sigma. Whatever type or grade you need, Sigma probably has it!

**For Example:**

If you like RNA prepared per Crestfield, specify  
Type XI—1 gm—\$50.00  
100 mg— 10.00

OR

If you are studying Soluble-  
RNA (sRNA) per Holley,  
specify: Type III (yeast)  
1 gm—\$60.00  
100 mg— 10.80

OR

You may be interested in:  
RNA-Core, per Hillmoe  
1 gm—\$20.00  
100 mg— 4.00

Then if you like to work with the more exotic types, you might want to use our

Type XX, from E-Coli. We prepared it ourselves, but we don't know much about it yet.  
10 mg—"only" \$125.00

Now, if you would like to go into "business," (or if you are already in business) here is the RNA bargain of the year:

RNA, Commercial,—5 Kilos at \$15.00/Kilo  
F.O.B. St. Louis  
100 Kilos—Much Less

For

## RNase RIBONUCLEASE

Here are the World's most complete stocks!

Type X-A Probably the most Homogeneous RNase-A available. Offered as a Solution to avoid possible destruction in lyophilizing. About 0.5% concentration in Phosphate Buffer—

1 gm—\$125.00  
10 gm— 3.00

Type XI-A Prepared by lyophilizing the X-A type. Contains about 3-mole-% Phosphate Buffer—  
1 gm—\$134.00 10 gm—\$3.34

Type XII-A Prepared by desalting and lyophilizing Type X-A. Contains about 0.1 mole-% Buffer—  
1 gm—\$148.00 10 gm—\$4.00

If you don't mind (or if you want) a bit of RNase-B and the other fractions, try:

Type I-A, 5x Crystallized.

1 gm—\$50.00 100 mg—\$7.00

Type II-A—Chromatographed to increase Fraction "A" of Hirs.

1 gm—\$50.00 100 mg—\$7.00

Type III-A—Chromatographed to about 90-95% Fraction "A".

1 gm—\$89.00 100 mg—\$15.90

If you want Fraction "B" of Hirs, Specify:

Type III-B—Approx. 90-95% Fraction "B".

1 gm—\$85.00 100 mg—\$14.00

Type XII-B—95-100% "B"

1 gm—\$130.00 100 mg—\$19.00

For some of the more unusual Derivatives, we offer, subject to the usual problems with new items:

S-Peptide-RNase

1-Carboxymethyl-Histidine-RNase

S-Protein-RNase

S-Carboxymethylated-RNase

Ref: 1) Crestfield, et al., JBC, 238, 622 & 2413, (63).

2) Vithayathil & Richards, JBC, 236, 1386, (61).

**Simple, compact new McLeod Gage  
with adjustable closed end**

A high precision instrument. Permits multiple ranges with unique adjustable closed end: 0-1 mm in .01 mm; 0-0.1 mm in .001 mm; 0-0.01 mm in .0001 mm.

New simplified design with micrometer adjustment of meniscus. Closed end easily removed for quick cleaning of gage. Many other stand-out features and low price are made possible through design simplifications. And it's only two and one half pencils tall. Model G-1400 (without mercury) \$52.50.

For additional information, write for our new catalog today.

**RGI INCORPORATED**  
BOX 732, VINELAND, NEW JERSEY

## AT ANY PRICE

### ...the most useful Spectropolarimeter money can buy

The Durrum-Jasco\* Model ORD/UV-5 combines the most useful set of measurement capabilities ever presented in an Automatic Spectropolarimeter. With standard equipment, a single instrument can display precise recordings of:

- Optical Rotatory Dispersion from 1850 to 7000 Å
- Optical rotation kinetics
- Optical density or percent transmittance from 1800 to 7000 Å
- Specific or observed rotation

These additional standard features confirm the validity of your ORD recordings:

- Continuous slit-width recording
- Continuous photomultiplier voltage recording
- Wavelength scale expansion for analysis of structural detail

Breadth of the Model ORD/UV-5's capabilities is matched only by the simplicity and convenience of its operation. And although you would expect to pay much more, the price is only \$22,950.

For further information, write to Durrum Instrument Corporation, 925 East Meadow Drive, Palo Alto, California 94303. Or phone (415) 321-6302.

## ROYSON PLANIMETER

**QUICKLY INTEGRATES A VARIABLE  
THAT HAS ALREADY BEEN RECORDED**

- Made for any chart width including narrow, pneu-  
matic control system charts. ■ Supplied for linear  
or square root charts; can be changed from one to  
the other. ■ Accurate within 1% or better; main-  
tains accuracy even on short sections. ■ Speed  
of chart-feed is controlled by a foot rheostat.
- Unit is simple to operate, portable  
and works from 110 volt AC.

Send a sample of your chart for quotation and  
additional data, or call us for complete details.

#### POSITIONS WANTED

**Clinical Chemist, Ph.D.**, with considerable ex-  
perience in diagnostic analysis, research, and  
teaching. Seeks challenge in building up library  
of clinical chemistry. Box 539, SCIENCE. 11/13

**Ph.D. Electron Microscopist** with zoology-anatomy  
background. Experienced teacher. Publications.  
Seeks challenging academic position with op-  
portunities for both research and teaching. Box  
532, SCIENCE. 11/6

6 NOVEMBER 1964

#### POSITIONS WANTED

(a) **Microbiology, Ph.D.**, biochemistry minor;  
pharmaceutical research-development experience;  
desires industrial research appointment. (b) **Crop  
Breeding, Ph.D.**, genetics minor; seeks research  
opportunity. Write Woodward Medical Personnel  
Bureau, 185 North Wabash, Chicago 60601 X

(a) **Ph.D. Genetics**; experience and preference in  
aerospace waste management, radiation and psy-  
chological genetics; desires research/teaching.  
(b) **Ph.D. Biochemist**; radiation, protein, cellular  
chemistry training; prefers teaching/research,  
California location. (c) **Ph.D. Microbiologist**; im-  
munology training; teaching, research experi-  
ence; wishes graduate school appointment.  
(Please write for information regarding these and  
other scientists, senior and junior.) Science De-  
partment, The Medical Bureau, Inc., 900 North  
Michigan Avenue, Chicago, Illinois 60611 X

Completing **Ph.D. Zoology**, January 1965; 8  
years of teaching. Comparative anatomy, embry-  
ology, and general zoology. Research experience.  
Interest in reproductive physiology and embry-  
ology. Seeks postdoctoral or teaching. Box 534,  
SCIENCE. 11/6

**Physical Biochemist**; Ph.D. 1951. Publications.  
Enzymes: isolation, characterization, kinetics.  
Proteins: thermodynamics, ion-interaction, se-  
quence conformation. Polypeptides: structure-  
activity relationships. Steroids: chromatography,  
identification. Associate professor level: Univer-  
sity, institute. Box 535, SCIENCE. 11/6

**Physiologist, Ph.D.** Also microbiology training.  
Desires academic position for teaching/research.  
Box 536, SCIENCE. X

**Research Director, Ph.D.**, seeks new challenge  
with or without teaching. Background in clinical  
chemistry, analytical methodology, vitamins, me-  
tabolism and drugs. Box 538, SCIENCE. 11/13

#### POSITIONS OPEN

**EDITOR:** scientific and technical reports, articles,  
and (occasionally) books. Planning, editing, and  
re-writing in close collaboration with authors.  
Male or female, age 25 to 35; must be college  
graduate eligible for top-secret security clear-  
ance, familiar with and determined to maintain  
high editorial standards. Starting salary up to  
\$12,000, depending upon experience. Employer is  
a nonprofit institute in the Washington, D.C.,  
area, sponsored by 12 leading universities and  
engaged in classified studies bearing on defense  
and national security. Box 525, SCIENCE.

#### VETERINARY PATHOLOGIST

**HAZLETON LABORATORIES**, a leading inde-  
pendent company specializing in the Life Sciences,  
needs a Veterinary Pathologist (DVM-M.S. or  
Ph.D.) with 0 to 3 years' experience. Position  
involves examination and evaluation of histology  
slides from a variety of research animals. Oppor-  
tunity for inexperienced individual to qualify for  
Boards. Some research coordination including  
experiment design and evaluation. Opportunity for  
scientific meetings attendance and publications.  
Liberal employee benefit program including profit  
sharing. Salary commensurate with experience  
and education. Please send résumé to:

Hall A. Acuff  
Assistant Personnel  
Manager  
Hazleton Laboratories,  
Inc.  
P.O. Box 30  
Falls Church, Virginia  
(Suburban Washington,  
D.C.)

An Equal Opportunity Employer

## POSITIONS OPEN

**ANALYTICAL OR PHYSICAL CHEMIST** to head central steroid analytical laboratory which will apply mainly new methods such as gas chromatography, labeled reagents, automated paper chromatogram scanning and other procedures which may be developed in the associated research units of Drs. Bush, Layne, McNiven & Tait. All analyses will be concerned with medical or biological research problems and there will be opportunity for FULL participation in these programs. Salary appropriate to senior appointment. An equal opportunity employer. Apply to: **Mrs. Jacobsen, Placement Secretary, Worcester Foundation for Experimental Biology, Shrewsbury, Mass.**

**BIOCHEMIST** . . . outstanding manufacturer of proprietary drugs, and health & beauty aids offers challenging position leading a group of scientists in basic and applied research in wide range of areas such as analgesics, skin and oral cavity. PhD in biochemistry with several years experience and interest in the field of pharmaceutically oriented biochemistry required. Environment consists of excellent working conditions, most modern laboratory facilities and outstanding fringe benefit program. Send resume and salary required to **Personnel Dept. Bristol-Myers Products Division, 225 Long Avenue, Hillside, New Jersey.** An Equal Opportunity Employer

### BIOFORM DIVISION INTERNATIONAL MINERALS & CHEMICAL CORPORATION WASCO, CALIFORNIA

#### HEAD, ENTOMOLOGY LABORATORIES

Ph.D. Entomologist with background in insect pathology. To conduct and evaluate basic research in the expanding field of biological insecticides, including direction of insect rearing and testing laboratories. Modern, well-equipped facilities, major company benefits.

Apply Personnel Office, Bioform Division, International Minerals & Chemical Corporation, Wasco, California.

An equal opportunity employer

### PHYSICISTS/ENGINEERS MEDICAL ELECTRONICS SPECIALISTS

Must be experienced in Research or Development work in medical electronics or related fields. Projects include physiology of the ear and heart, utilizing telemetering and magnetic devices.

• 3 YEAR CONTRACTS •

Local interviews will be arranged  
with Israeli representative.

WRITE OR CALL:

**Mrs. L. Manoff, Director (212) PL 2-0600**  
**COMMITTEE ON MANPOWER OPPORTUNITIES**  
**IN ISRAEL**  
515 Park Ave., N.Y.C. 22, N.Y.

### UNIVERSITY OF QUEENSLAND AUSTRALIA

The University invites applications for the following positions for which applications close on the dates shown. The salary ranges are:

Senior Lecturer £A2720 to £A3250  
Lecturer £A1900 to £A2615

The commencing salary for Lecturer will be determined according to qualifications and experience.

#### SENIOR LECTURER IN AGRICULTURE (HORTICULTURE)

Applicants should possess a suitable university degree. Knowledge of fundamental as well as practical aspects of horticulture is essential. Ability to instruct students and to carry on a research program is required. Horticultural experience in the tropics is desirable but is not a requisite (27 November).

#### LECTURER IN AGRICULTURE (BIOMETRICS)

Applicants should possess a suitable university degree. A knowledge of biometrics and its application to research in agricultural science is essential. Experience in the application of biometrics to agriculture is desirable (20 November).

The University provides F.S.S.U. type superannuation, housing assistance, study leave, and travel grants.

Additional information and application forms will be supplied upon request to the Registrar, University of Queensland, Brisbane, Australia.

## POSITIONS OPEN

**BIO-PHYSICIST or PHYSIOLOGIST.** M.S. or Ph.D. degree with good experimental background for research involving physical stress, particularly vibration and impact effects. Several years of applicable experience with some technical management required. Programs combine analytical and experimental studies. Salary open. Send complete resume with references to **David Bennett, Technology Incorporated, 3090 Richfield Center, Dayton, Ohio 45430.** An equal opportunity employer.

**HISTOLOGY.** Individual with chemistry experience to head histology group of a research laboratory. Some histology background desirable but extensive experience unnecessary since training in specialized techniques will be acquired on job. Individual must work with and supervise technicians. Histology group provides service on a production basis to other divisions of the research laboratory. Salary commensurate with background, range up to \$9000. The organization is an equal opportunity employer. Box 537, SCIENCE. X

### MICROBIOLOGIST

General hospital (325 beds) in midwestern city with a large departmentalized laboratory has an opportunity for an experienced clinical microbiologist. The present staff of three full-time pathologists and 63 staff employees (46 technical) is presently undergoing expansion to include a fourth pathologist and key personnel in the technical areas. The hospital and laboratory have well-developed plans for expansion.

Responsibilities will include active participation in the daily work, supervision of staff (presently three and students), development of procedures, participation in investigational studies, teaching of medical technology students (School of Medical Technology is affiliated with two colleges), and so forth.

Candidate should have an advanced degree and experience in clinical microbiology. Experience in seroimmunology would be desirable but not required.

First inquiry should contain complete résumé and references, as well as salary expected. Submit reply to Box 520, SCIENCE. X

1. **Sr. Research Pharmacologist** (Ph.D. or M.D.) and **Sr. Research Biochemist** (Ph.D.). At least 5 years experience required. Basic research in mode of action of cardiovascular drugs. Good Salary. Academic Appointment.

2. **Biochemist** (Ph.D.). Recent Grad. for interesting and varied research in established programs. Good Salary.

Send Resumes to: **Dr. Samuel Bellet, Director-Division of Cardiology, Philadelphia General Hospital, 34th Street & Curie Avenue, Phila., Pa.**

## FELLOWSHIPS

**PREDOCTORAL FELLOWSHIPS IN PHYSIOLOGY OR IN PHARMACOLOGY.** Graduate training leading to the Ph.D. with special orientation in comparative, cardiovascular, temperature regulation, bio-medical instrumentation and neurophysiology, or in neuro- and psycho-pharmacology and in biochemical approaches to cancer chemotherapy. Emphasis upon preparation for academic careers combining teaching and research. Attractive stipends with tuition and dependency allowance available to qualified undergraduates in engineering, biology, chemistry, mathematics or physics. A maximum of four new students accepted by each department every year, maintaining a low student-advisor ratio. Detailed information from: **DEPARTMENT OF PHYSIOLOGY or DEPARTMENT OF PHARMACOLOGY, LOYOLA UNIVERSITY, CHICAGO, ILLINOIS, 60612.**

### UNIVERSITY OF MELBOURNE SENIOR RESEARCH FELLOWSHIP

The University of Melbourne invites applications for a Senior Research Fellowship tenable for 12 months from 1 March 1965. The fellowship is intended for a senior member of academic staff who may be on sabbatical leave. The salary will be in the range of £A2700 to £A3250 and an allowance will be made for transport to and from Melbourne. Applications should be lodged with the Office of the Dean of Graduate Studies, University of Melbourne, Parkville, N.2, Victoria, Australia, by 31 January 1965.

Conditions for the fellowship may be obtained from the Vice-Consul, Australian Consulate-General, 636 Fifth Avenue, New York, N.Y. 10020, U.S.A., or from R. D. Pyke, Secretary for Graduate Studies. X

**Postdoctoral Fellowships in Immunology** are available for July 1965 at Seton Hall College of Medicine, Jersey City, New Jersey. Areas of investigation encompass aspects of the antigenicity of synthetic polypeptides, isolation of active units from antigens and antibodies, mechanism of antibody formation and antigen-antibody interactions. Stipends about \$7000 per year, partially tax exempt. U.S. citizen. Little teaching. Write to: **Dr. Paul Maurer, Program Director.** X

## **NOW! A Viewing Screen...and the new AO Microstar has it!**

The AO Viewing Screen answers the long-felt need for a convenient and practical method of slide demonstration. It's designed exclusively for use with the new AO Microstar® Microscope and can be mounted quickly and easily on the trinocular body. You'll find it ideal for small group discussions, consultations and countless teaching situations in the classroom or laboratory. The six inch screen covers the same field of view as the 10X Wide Field Eyepiece. Magnification is 7.5X. The superior optical performance provided by the new Microstar's infinity-corrected optical system delivers a bright, crisp screen image that is flat and in focus over the entire screen area.

This unique AO Viewing Screen is just one example of the wonderful versatility and performance that has been designed into the remarkable AO Microstar. Its infinity-corrected optics, revolutionary focusing concept and unitized construction are the most significant basic improvements in microscope design made in this century. Learn how they make possible dramatic new breakthroughs in optical and mechanical performance. Ask your AO Sales Representative to demonstrate the new Microstar and Viewing Screen, or write for 24-page brochure.
