

mate behavior revealed by the symposium was so pervasive as to pass almost unnoticed. No one, either among the participants or the audience, was sufficiently impressed to comment on such seeming incongruities as a psychiatrist and a zoologist discussing infant development, a linguist and a zoologist discussing communication in monkeys, or a mathematician and an anthropologist discussing the control of aggression. It would seem that, in studies of animals of this group at least, the old barriers to communication between members of various scientific disciplines are, if not dead, at least moribund.

Some of the funds for the symposium were provided by a grant (GB 2870) from the National Science Foundation. Results of the symposium will be published later this year by the University of Chicago Press, in a book entitled *Social Communication Among Primates*, Stuart A. Altmann, Ed.

## New from Matheson

# Deuterated Gases

**Deuterium Chloride (DCI)**

**Deuterium Fluoride (DF)**

**Deuterium Sulfide (D<sub>2</sub>S)**

**Minimum isotopic purity, 98.0%**

In 1960, we started producing Deuterium (D<sub>2</sub>) for our customers. Our work with heavy hydrogen has led us to introduce the 3 deuterium compounds listed above. All of these gases, as well as D<sub>2</sub>, are now in stock, for prompt shipment. Please mail coupon for informal price list.

**Possible Applications.** Deuterium Chloride, Deuterium Fluoride and Deuterium Sulfide are useful in the study of reaction mechanisms and in tracer and spectroscopic studies.

**Have You Any Ideas?** We will be interested in hearing about any additional uses that may occur to our readers. Our Research Department is especially interested in producing any gas where Deuterium is substituted for hydrogen. If you can use any deuterated gas other than those listed, please contact us, advising approximate quantity required. If it is at all possible, we will be glad to produce your special requirements.

**Unique Catalog.** If you have even the most remote thought of using any compressed gas in your laboratory, we hope you'll send for our new Gas Catalog No. 25. It is the only catalog of its kind, listing almost any gas that might be of laboratory use, gas mixtures, and the most complete selection of customer designed regulators, valves, flowmeters and other gas handling equipment. All available from 5 plants, across the country. It's free, so please mail the coupon.
