

from the American Society of Plant Physiologists. The \$1000 prize was awarded for his research on the photosynthesis of green plants.

Recent Deaths

Franz David Bielschowsky, 63; director of the tumor biology research unit, Cancer Society of New Zealand; 21 April.

Earle Ruskin Bryant, 86; retired head of the biology department at Muskingum College, Ohio; 17 August.

Three senior members of the staff of Los Alamos Scientific Laboratory died 15 August in a mountain climbing accident in southern Colorado. They were **Robert B. Day**, 42, physicist; **Herbert Ungnade**, 54, and **Frank Pretzel**, 44, physical chemists.

Martin B. Dworkis, 46; president of Manhattan Community College; 20 August.

Alvin C. Graves, 55; director of atomic testing at Los Alamos Scientific Laboratory; 29 July.

Ethel Harvey, 79; investigator in the department of biology at Princeton University until 1959; 2 September.

William J. Krefeld, 73; professor emeritus of civil engineering at Columbia; 4 August.

John H. Mueller, 70; former chairman of the sociology department at Indiana University; 31 August.

Hermann Staudinger, 84; retired professor at Freiburg University, Germany, and winner of the Nobel Prize in chemistry in 1953 for his research on the organization of molecules of synthetics, which became the basis for synthesis of many materials; 9 September.

Mortimer Taube, 54; chairman of the board and founder of Documentation, Inc., and a former deputy chief of the technical information service of the Atomic Energy Commission; 3 September.

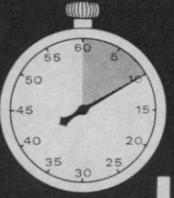

Charles A. Weigel, 77; retired senior entomologist at the U.S. Department of Agriculture.

Erratum. In the abstract of the report "Absence of Martian radiation belts and implications thereof" by J. A. Van Allen, L. A. Frank, S. M. Krimigis, and H. K. Hills (10 Sept., p. 1228), the first sentence of the abstract should have begun "A system of sensitive particle detectors on Mariner IV showed the presence of electrons of energy (E_e) greater than 40 kiloelectron volts . . ."

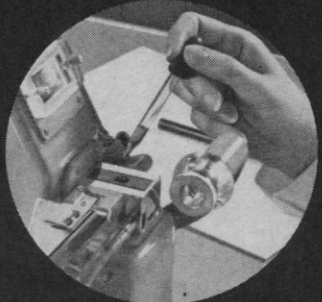

Erratum: In the report "Base specificity in the interaction of polynucleotides with antibiotic drugs" by D. C. Ward, E. Reich, and I. H. Goldberg (10 Sept., p. 1259), the second sentence of the abstract should start "Chromomycin, mithramycin, and olivomycin form complexes with DNA, preferably . . ."

REFRACTOMETRY

WITH TOP ACCURACY READINGS IN SECONDS

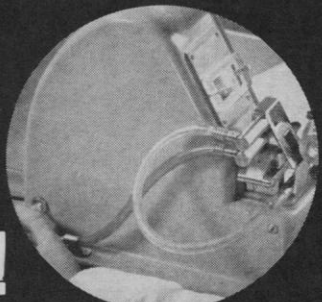

10 SECONDS

LOAD!

2 SECONDS

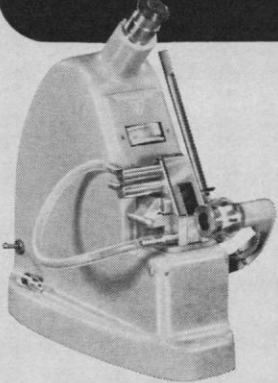

LIGHT!

8 SECONDS

LOOK!

A TOTAL OF 20 SECONDS
...at a fraction of a cent per test

Test any product within an extended range of ND 1.30 to ND 1.71 easily, speedily, accurately with the Abbe 3-L Refractometer. *Loading is quick* . . . horizontal prisms are right-up-front and unobstructed . . . permit easy wipe-off to prevent contamination. *Lighting is quick* . . . a conveniently placed push button illuminates the scales. *Looking is quick* . . . and sure. Read refractive index instantly to .0005 (with reliable estimates to .0001). Dissolved solids can be read to .2% (estimates to .1%). Solids scale reads 0% to 85%. Either transmitted or reflected illumination can be used. You can make a complete test in just 20 seconds! Instrument costs are less than 29¢ a day!

Bausch & Lomb offers you the most complete line of refractometers available . . . the Abbe 3-L, the High Range Abbe 3-L, the Precision, the Butyro, the Industrial, Hand, Juice and Dipping models. To get complete data on range and application, write for Catalog D-202.

POSITIONS WANTED

Biochemist: Organic Ph.D. experienced in metabolism. Married, 45, seeks academic position with tenure. Societies, papers, support. Box 245, SCIENCE. X

Pharmacologist Ph.D. seeks academic research and/or teaching position. Box 243, SCIENCE. 9/24

Ph.D. with grants and contracts experience desires employment in this area in academic institution. Box 244, SCIENCE. 9/24

POSITIONS OPEN

BIOCHEMIST- PHYSIOLOGIST

Expanding R&D activities require a Ph.D. in biochemistry with training in physiology to aid in planning, conducting, and evaluating research investigations in blood clotting mechanisms as well as various aspects of cardiovascular disease. Please send résumé to Cyrus M. Greenberg, Ph.D., Director of Scientific Employment,

SMITH KLINE & FRENCH LABORATORIES, 1592 Spring Garden Street, Philadelphia, Pa 19101.

An Equal Opportunity Employer

CELL BIOLOGIST

Experimental Morphologist, Ph.D. or equivalent, to participate in active research program in E.M., histochemistry, cell fractionation, radioautography, hospital-affiliated research institute, New York.

Box 246, SCIENCE

PLANT PATHOLOGISTS

California Department of Agriculture

Work includes laboratory and field diagnosis and disease control. Salary: \$7,080 to \$10,440, depending on qualifications and experience. Excellent benefits and advancement opportunities. Ph.D. or M.S. required. Air mail résumé to George Alstatt, 1220 N Street, Sacramento, California 95814.

POSITIONS OPEN

CHEMIST (M.S. Degree)

Excellent opportunity for capable individual interested in developing industrial hygiene program and quantitative instrumentation techniques in the modern progressive public health laboratory, Milwaukee City Health Department.

Salary, \$6,429-\$7,663. Liberal fringe benefits include Social Security and city annuity retirement, sick and annual leave, paid hospital, medical plan, and group life insurance. Excellent opportunity for advancement.

Application to: E. R. Krumbiegel, M.D., Commissioner of Health, Municipal Bldg.—Room 112, 841 N. Broadway, Milwaukee, Wisconsin 53202

(a) Ph.D. Pharmacology (CNS) Southeast pharmaceutical house. (b) Ph.D. Biochemist (enzymology) Central drug firm. (c) Ph.D. Physiologist (cardiovascular), research institute, East. (d) M.S./Ph.D. Biochemist, clinical chief, Southwest. (e) Head Bacteriologist, eastern medical center. (f) Ph.D. Immunologist, host defense mechanism research, East. (g) B.S. Chemist, hospital experience, East. (h) B.S. Biologist, animal test program, Central. Write Science Service, The Medical Bureau, 900 North Michigan Avenue, Chicago, Illinois 60611.

SENIOR RESEARCH SCIENTIST (Endocrine Physiology)

Applications are invited for the post of Senior Research Scientist (Ph.D. or M.D.). Training and/or experience in endocrine physiology; some knowledge of biological or immunological assay of hormones desirable. Starting salary: \$11,240 per annum with annual increments. Liberal benefits include hospitalization and pension plan of the New York State Department of Mental Hygiene.

Apply to the Director of the Neuroendocrine Research Unit, Willowbrook State School, 2760 Victory Boulevard, Staten Island, New York City, New York, 10314.

POSITIONS OPEN

Chief, Bureau of Research in Higher and Professional Education. Opening in New York State Education Department in Albany for educational research worker to direct the department's research projects and studies in higher and professional education. Applicants for this position should have a doctoral degree and appropriate and extensive experience in higher education research which involved independent responsibilities for difficult and complex projects. Salary range \$13,170 to \$15,625 with appointment possible above the minimum salary level. Excellent noncontributory retirement plan, professional development leave programs, health insurance and other fringe benefits. Send detailed résumé to:

**Bureau of Personnel
State Education Department
Albany, New York 12224**

CLINICAL CHEMISTRY SUPERVISOR

Hazleton Laboratories, a rapidly expanding company located in suburban Washington, D.C., requires a Clinical Chemistry Supervisor with a B.S. or M.S. degree and a minimum of 3 years of supervisory experience. Position entails developing new methods, automating laboratory procedures, coordinating laboratory efforts with other departments, interpreting clinical data derived from laboratory animal experiments, supervising research personnel and programs. Excellent employee benefit program including educational assistance and profit sharing. Please write:

**Hall A. Acuff
Assistant Personnel Manager
Hazleton Laboratories, Inc.
P.O. Box 30
Falls Church, Virginia
An equal opportunity employer**

ENVIRONMENTAL PHYSIOLOGIST

Challenging research position in environmental physiology and human engineering as related to the improvement of naval textiles, clothing, and life support systems. B.S. minimum with experience in human physiology or animal physiology as related to humans required. Salary to \$8,650 commensurate with experience and education. This position is in the competitive career federal civil service. Submit résumé to **Administrative Division, U.S. Naval Supply Research and Development Facility, U.S. Naval Supply Center, Bayonne, New Jersey.** 10/1,8,15

Lea & Febiger, Publishers in medicine and the biological sciences, is looking for a personable college graduate, age 23 to 35, with knowledge of medical or biological sciences to fill college editorial position. Territory available is east of Rocky Mountains, and exact states are open for discussion. Liberal travel allowance and generous fringe benefits. Position includes securing manuscripts and teacher contacts. Write full particulars, including salary expected, to **F. C. Lea, Jr., 600 South Washington Square, Philadelphia, Pennsylvania 19106.**

Ph.D. CLINICAL BIOCHEMIST

450-bed acute general hospital medical center. Supervision of clinical chemistry department, research and development, and teaching medical technologists. Salary open. Will pay enough to attract a top notch clinical biochemist.

**Sharp Hospital
7901 Frost Street
San Diego, California 92123**

Senior Microbiologist, Ph.D., to investigate applications of microbial genetics to problems of culture development in industrial fermentations. Requires strong background in microbial genetics, biochemistry, and microbial physiology. A wide variety of fermentation systems under study offers diverse and challenging problems susceptible to genetic approaches.

Please send résumé to **Dr. R. C. Pittenger, Antibiotic Fermentation Development Department, Eli Lilly and Company, Indianapolis, Indiana.** 10/1

VIROLOGISTS

Opportunities in Virus Research, Biohazard Research and Biological Product Development created by research expansion. Experienced in virological techniques involving animal viruses, including tissue culture and embryonated egg methods and whole animal techniques. B.S., M.S. and/or Ph.D. in Virology, Medical Microbiology, or other related fields, additional training in virology desirable. Please send complete résumé in confidence to:

**Industrial Relations Department
Pitman-Moore Division
The Dow Chemical Company
P.O. Box 1656
Indianapolis, Indiana 46206
An equal opportunity employer**

POSITIONS OPEN

Microbiologist; 350-bed general hospital in Milwaukee, Wisconsin, with a large departmentalized laboratory has an opportunity for an experienced clinical microbiologist. The present staff of 3 full-time pathologists and 63 staff employees (46 technical) is presently undergoing expansion to include a fourth pathologist and key personnel in the technical areas. The hospital and laboratory have well-developed plans for expansion.

Responsibilities will include active participation in the daily work, supervision of staff (present three full-time and two part-time staff members), development of procedures, participation in investigational studies, teaching of medical technology students (School of Medicine Technology is affiliated with two colleges) and so forth. Candidates should have an advanced degree and experience in clinical microbiology. Experience in seroimmunology would be desirable but not required.

First inquiry should contain résumé and reference as well as salary expected. Submit reply to **Dr. Norbert Enzer, Director, Department of Pathology and Clinical Pathology, Mount Sinai Hospital, Milwaukee, Wisconsin.**

PHARMACO-TOXICOLOGIST

Ph.D. or experienced M.S. in preclinical medical sciences to assist in preparing preclinical and clinical evaluation protocols, in pharmacological and toxicological evaluations of metabolic and pathological data, and in review and preparation of such data for I.N.D. and N.D.A. submission to the F.D.A. on chemicals, cosmetics and drugs.

FELLOWSHIPS

POSTDOCTORAL RESEARCH FELLOWSHIPS AT THE WEIZMANN INSTITUTE OF SCIENCE REHOVOTH, ISRAEL

Academic Year 1966-67

A number of postdoctoral fellowships (junior and senior level) are available to candidates from all countries for research in the natural sciences. They are normally of 12 months' duration.

Facilities are available for research in:

Applied Mathematics	Experimental Biology
Biochemistry	Genetics
Biodynamics	Isotope Research
Biological Ultrastructure	Nuclear Physics
Biophysics	Organic Chemistry
Cell Biology	Photochemistry and
Chemical Immunology	Spectroscopy
Chemical Physics	Plant Genetics
Electronics	Polymer Research
	X-Ray Crystallography

Information and application forms may be obtained from the **Academic Secretary, Weizmann Institute of Science, Rehovoth, Israel.**

Applications will be accepted until 1 December 1965. Announcement of awards will be made in February 1966.

Recent AAAS Symposium Volumes

#78. Man, Culture, and Animals: The Role of Animals in Human Ecological Adjustments

August 1965. 304 pages. 10 illustrations. Indexes. Edited by: Anthony Leeds and Andrew P. Vayda. Case studies of the relationships among human populations, the animals they use for food or food-getting, the plants significant for maintaining both animals and men, and the sociocultural usages by which plants, animals, and men are linked in eco-systems. Price: \$8.00. AAAS Member's Cash Price: \$7.00.

#77. Food Quality—Effects of Production Practices and Processing

March 1965. 306 pages. References. Index. Edited by: George W. Irving, Jr., and Sam R. Hoover. This volume covers an important and, in recent years, rapidly developing field of science: the production, protection, and processing of foodstuffs of high nutritional and esthetic value. To meet the vital needs of growing populations, the achievement of maximum efficiency in each of the areas, both here and abroad, becomes ever more imperative. Price: \$8.50. AAAS Member's Cash Price: \$7.50.

#76. Agricultural Sciences for Developing Nations

1964. 230 pages. References. Index. Edited by: Albert H. Moseman. Characteristics of agricultural systems in emerging nations—Research to devise and adapt innovations—Education and development of human resources—Establishing indigenous institutions to serve advancing agriculture. Price: \$6.75. AAAS Member's Cash Price: \$6.00.

#75. Mechanisms of Hard Tissue Destruction

1963. 776 pages. 430 illustrations. Edited by: Reidar F. Sognnaes. Symposium by 49 outstanding co-authors on destruction of mineralized structures by organisms and by physical and chemical agents, ranging from rock boring to bone resorption and tooth decay. Price: \$13.00. AAAS Member's Cash Price: \$11.00.

#74. Aridity and Man

1963. 2nd printing, 1965. 604 pages. 98 illustrations. Edited by: Carle Hodge and Peter C. Duisberg. "Best collection of background material . . . well balanced and highly readable . . . probably the broadest and most nearly complete treatment of arid lands yet published." *Journal of Forestry*, May 1964. Price: \$12.00. AAAS Member's Cash Price: \$10.00.

British Agents: Bailey Bros. & Swinfen, Ltd., Warner House, 48 Upper Thames Street, London, E.C.4

#73. Land and Water Use

With special reference to the Mountain and Plains Regions. 1963. 364 pages. 8 illustrations. Edited by: Wynne Thorne. "Lively symposium . . . three main divisions: The Resource Setting, Criteria and Policies, and The Role of Government . . . deserves continuing reference as a provocative contribution to the urgent problems of western resource disposition and management." *Journal of Forestry*, November 1963.

Price: \$8.00. AAAS Member's Cash Price: \$7.00.

#72. Spermatozoan Motility

1962. 322 pages. 113 illustrations. Edited by: David W. Bishop. "This book is an excellent assemblage of recent findings and reports of new data relative to the perplexing problem of sperm motility and includes the opinions and ideas of cytologists, biophysicists, biochemists and physiologists." *Journal of Animal Sciences*, March 1963. Price: \$7.50. AAAS Member's Cash Price: \$6.50.

#71. Great Lakes Basin

1962. 320 pages. 92 illustrations. Edited by: Howard J. Pincus. ". . . Difficulty . . . in attempting to do justice to all the topics covered in a book as rich as this one in content, interpretation, and discussion. . . . Highly recommended to scientist and layman alike." *Transactions, American Geophysical Union*, December 1963. Price: \$7.50. AAAS Member's Cash Price: \$6.50.

#70. Fundamentals of Keratinization

1962. 202 pages. 136 illustrations. Edited by: E. O. Butcher and R. F. Sognnaes. "This book . . . makes fascinating reading for all clinicians and research workers interested in keratinising tissues." *Brit. Dental J.*, 1/15/63. Price: \$6.50. AAAS Member's Cash Price: \$5.75.

#67. Oceanography

1961. 2nd printing, 1962. 665 pages. 146 illustrations. Edited by: Mary Sears. "I know of no other volume that so well defines oceanography, its purpose, opportunities and requirements."—*Science*, 9 June 1961. Price: \$14.75. AAAS Member's Cash Price: \$12.50.

#66. Germ Plasm Resources

1961. 394 pages. 59 illustrations. Edited by: Ralph E. Hodgson. "This book will be of interest to nonplant and animal breeders, for the rather general treatment of various topics . . . allows for rapid perusal."—*Bulletin of the Entomological Society of America*, September 1961. Price: \$9.75. AAAS Member's Cash Price: \$8.50.

**This famous AO Rotary
Microtome makes
the difference...in
the AO CRYO-CUT!**

Any freezing microtome will provide frozen sections. But the AO CRYO-CUT will give you sections that are uniformly precise and cut as thin as you like for the most exacting and most reliable microscopic examinations.

☐ The reason for this big difference in performance is the full-size AO Spencer Rotary Microtome. No other cryostat has it!

This world-famous Rotary Microtome has proved its unsurpassed sectioning capabilities over the past 60 years in countless hospitals and laboratories throughout the world. It makes the difference...the big difference...in the AO CRYO-CUT.

☐ There are many exclusive convenience features as well. The deep recessed cabinet allows plenty of leg and foot room...you can work from a normal, comfortable sitting position. Feed, cutting and temperature controls are *all external* and within easy reach. A swing-away knife guard provides an extra margin of safety. And the AO CRYO-CUT was the first freezing microtome to offer a convenient anti-roll guide that assures flat, uncurled sections. Use the coupon below to get the full AO CRYO-CUT story.
