PARR HYDROGENATION APPARATUS

For catalytic reduction, condensation and other reactions with hydrogen at pressures up to 5 atm. (60 psig.) in 250 or 500 ml. glass bottles. Also available in a larger unit with interchangeable 1 and 2 liter bottles.

Write or phone (309) 762-7716 for the latest issue of Spec. 3900 describing the recently improved models of this widely used hydrogenator.

PARR INSTRUMENT COMPANY

New, Simplified Cryogenic Liquefier Only \$95.00

For demonstrating the principle of gas cooling and liquefaction by adiabatic and Joule-Thomson expansion.

Converts gaseous Argon, Nitrogen or Air to liquid in 1 to 2 minutes, using adiabatic cooling and Joule-Thomson principle. High pressure gas from a cylinder passes through special coiled heat exchanger where it expands and cools on passing through an expansion orifice. The cooled gas then passes to the atmosphere through the heat exchanger. The apparatus cools the gas progressively until gas is condensed upon final expansion at the orifice, and drops into a small glass Dewar flask. No external work is done in operation.

Comes with interesting paperback book, "Near Zero," which discusses the fundamentals of cryogenics showing how cold increases atomic order and why low temperatures enable more precise measurements. Additional copies, \$1.25 each.

The Matheson Cryogenic Liquefier is \$95.00 complete, plus shipping. Order direct from The Matheson Co., Inc., P.O. Box 85N East Rutherford, N. J. Write for Engineering Report and price list.

SCIENCE IN JAPAN

496 pp., illus., bibliog., index, \$13.00
AAAS Members' Cash Orders \$11.00

This volume provides a unique opportunity for American scientists to get both a broad and a detailed picture of recent scientific and technological developments in Japan. Leading Japanese scientists discuss the organization of research in their country and review fundamental research in mathematics, biology, chemistry, physics, sociology, and psychology as well as applied research in agriculture and other fields.

AIR CONSERVATION

Report of the AAAS Air Conservation
Commission

348 pp., illus., bibliog., index, \$8.00
AAAS Members' Cash Orders \$7.00

Part One, Air Conservation and Public Policy, assembles the facts and identifies alternatives. Part Two, Summary of the Facts, is a concise report on the state of scientific knowledge in the field of air conservation. Part Three, Background Reports, the larger part of the book, consists of seven chapters of interest to scientists and specialists in other disciplines.

refrigerated circulators

We offer refrigerated baths and circulators for lower operating temperatures (to -125°C), better control accuracies (to $\pm 0.02^{\circ}\text{C}$), and higher cooling capacities than any other manufacturer. Also, a complete line of less sophisticated table model units for routine tempering or heat-removal applications.

DUPONT PLASTIC LIGHT GUIDE KIT

Experiment with amazing new plastic fiber optic light guides. 1001 uses for mfrs., experimenters, hobbyists. Use for exciting new projects and products. Guides transmit light same as wire conducts electricity. Use to illuminate remote areas, multiple locations from single source, confine light to small areas, conduct sensing and control systems. Incl. 2 guides, source, lens, dyes, connectors. \$10 ppd. Order No. 70,855W. Edmund Scientific Co., Barrington, New Jersey 08007.

3" ASTRONOMICAL TELESCOPE

See the stars, moon, phases of Venus, planets close up. 60 to 180 power. Aluminumized and overcoated 3" diameter f/10 primary mirror ventilated cell. Equatorial mount with locks on both axes. Equipped with 60X eyepiece and mounted Barlow lens. 3X finder telescope, hardwood tripod. Included FREE: "STAR CHART"; 272-page "HANDBOOK OF HEAVENS"; "HOW TO USE YOUR TELESCOPE" book. \$29.95 ppd. Order No. 85,050W. Edmund Scientific Co., Barrington, New Jersey 08007.

NEW POPULAR SCIENCE FUN CHEST

Here are Edmund's 9 top selling science tops and curiosities in one fascinating low-cost package. Hours of fun. Bargains galore. Perfect gift item. Incl.: Radiometer; Bobbing Bird; Mercury Puzzle; Ceramic Magnets; Burning Glass; Magnetic Dog & Spinning Ball; Diffraction Grating; Pick-Up Ring; Booklet, "Astronomy and You." \$5.50 ppd. Order stock No. 70,787W. Edmund Scientific Co., Barrington, New Jersey 08007.

NEW TRANSPARENT CRYSTAL MODELS

Set of 15 Basic Symmetries with Built-in Crystallographic axes. For lab study, exhibition, demonstration. Colored threads built into each precision-made hollow plastic model show position of all axes. Easily marked with china pencil. Cube measures $1\frac{3}{4}$ "—14 others (see at left) in proportion. Packed in poly bags separately in compartmental wooden case. \$64.00 ppd. Order #70,821W. Edmund Scientific Co., Barrington, New Jersey 08007.

WOODEN SOLID PUZZLES

Here's a fascinating assortment of 12 different puzzles to provide hours of pleasure and stimulate ability to think and reason. Animals and geometric forms. Take them apart and reassemble them. Lots of fun for the whole family—young and old. Will test skill, patience and ability to solve problems. Order yours now. \$3.00 ppd. Order Stock No. 70,205W. Edmund Scientific Company, Barrington, New Jersey 08007.

NEW THERMOELECTRIC COOLING SYSTEM

Complete, solid state unit. Amazingly versatile. Excellent for experimental uses in industry, universities, research lab! Silent, motionless. Simple to operate. No moving parts to wear out. No fluid leakage. At 80°F . ambient temp., unit pumps up to 35 BTU/hr., yet keeps transfer bar at 25°F .—can be cooled to 13°F . Save thousands of dollars in producing prototypes, mock-ups, models. Ideal as spot cooler in instruments, electronic and other industrial equipment. Wt. 8 lbs. Full inst. \$62. Ppd. Order #70,818W. Edmund Scientific Co., Barrington, New Jersey 08007.

SCIENCE TREASURE CHESTS

Hundreds of thrilling experiments plus a Ten Lens Kit to make telescopes, microscopes, etc. Incl.: extra powerful magnets, polarizing filters, compass, one-way mirror film, diffraction grating, many other items. \$5.50 ppd. Order Stock No. 70,342W. Deluxe Chest: Above plus crystal growing kit, electric motor, molecular set, and lots more. \$10.50 ppd. Order Stock No. 70,343W. Edmund Scientific Co., Barrington, New Jersey 08007.

GIANT FREE CATALOG

Completely new 1967 edition—148 pages. Bargains galore! New categories, items, illustrations. 1,000's of buys for industry—Optics, Science, Math. On-the-job helps, quality control aids. Optics for research labs, design engineers, experimenters. Instruments for checking, measuring, to speed work, improve quality, cut costs. Hard-to-get war surplus bargains. Write for Catalog-W. BIOMETRICIAN

Canadian Wildlife Service Ottawa — Canada

The Canadian Wildlife Service needs a Biometrician or Mathematical Statistician, preferably with the degree of Ph.D. or equivalent, to undertake research and provide consultant services.

Applicants should have the ability to develop statistical theory and techniques related to wildlife ecology and population dynamics.

In addition to providing consultative services to research biologists stationed across Canada this officer will provide support in his specialty to a biometrics section in the conduct of human response surveys and aerial and other surveys of wildlife species.

Salary will be commensurate with training and experience. Appointment can be made up to \$14,900 per annum.

Further details and application forms are available from the **CIVIL SERVICE COMMISSION, OTTAWA 4, CANADA**

PLEASE QUOTE REFERENCE 66-140-14

Personnel Placement

POSITIONS WANTED

(a) **Microbiology Ph.D.**; biochemistry minor; exceptional cancer research, tissue culture experience; prefers research or academic appointment.
(b) **Biochemistry Ph.D.**; microbiology minor; head hospital section with university teaching; desires clinical or academic opportunity, Write Woodward Medical Personnel Bureau, 185 North Wabash, Chicago 60601.

Medical Translator (German/English) accepts freelance assignments. Prompt service. Reasonable rates. Please write: 68-43 Groton Street, Forest Hills, N.Y. 11375. X

Neuroanatomist in excellent academic position would consider offers from universities in Northern United States. To his credit some widely known papers as well as experience in teaching theories of cerebral functions and in directing an interdisciplinary research group. Box 253, SCIENCE.

POSITIONS OPEN

Assistantships in University of Wisconsin Science Writing Program available in February, June and September. Assistants pursue higher degree in scientific field of their choice while receiving training and experience in scientific communications fields. \$3,084 on annual basis. Applicant must be acceptable to major department. Apply by letter, stating qualifications and enclosing transcript, to: James A. Larsen, Science Editor, University-Industry Research Program, 116 North Charter Street, Madison, Wisconsin 53706.

POSITIONS OPEN

BIOCHEMIST—Experienced Biochemist for 400 bed general hospital on Chicago's north side. Salary commensurate with ability and qualifications. To direct modern automated chemistry laboratory, including an active Radioisotope Unit. Write: **Lucito G. Gamboa, M.D., Director of Laboratories, Edgewater Hospital, 5700 N. Ashland Avenue, Chicago, Illinois 60626.**

CELLULAR & MOLECULAR BIOLOGY

Predoctoral stipends including payment of tuition are available in the Graduate School of the University of Florida for study toward the Ph.D. degree in Cellular and Molecular Biology under a University-wide program involving the colleges of Arts and Sciences, Agriculture, and Medicine. Minimum requirements: B average last two undergraduate years and GRE average of 600 or better. For information write to: Co-ordinating Chairman for Cellular and Molecular Biology, c/o Department of Anatomy, College of Medicine, University of Florida, Gainesville, Florida 32601.

DIRECTOR OF CLINICAL BIOCHEMISTRY

Biochemist with Ph.D. degree preferably with some knowledge of the functions of clinical biochemistry to supervise laboratory with 17 technicians, carry out quality control and see that all data are reported accurately and promptly. Salary commensurate with academic rank. University affiliated institution. Please apply to: **J. V. Klavins, M.D., Pathologist-in-Chief, The Brooklyn-Cumberland Medical Center, 121 DeKalb Avenue, Brooklyn, New York.**

Faculty positions, Ph.D., assistant professor. Genetics, histology (with experience in electron microscopy). To teach undergraduate course and develop graduate work in rapidly expanding department in new buildings. Apply to **Head, Department of Zoology, University of Western Ontario, London, Ontario.**

POSITIONS OPEN

INFORMATION CHEMIST

Abbott Laboratories needs an Information Scientist, particularly in the field of chemistry.

- To prepare chemical literature surveys. Develop and implement chemical thesaurus for machine-based indexing systems and program chemical searches.
- To evaluate, abstract, and index scientific literature.

In this position you will have the opportunity to participate in further improvement and expansion of science information activities. M.S. or B.S. in chemistry. Experience in information sciences desirable. Salary based on qualifications and experience.

Our location is north of Chicago, on Lake Michigan shore near attractive residential areas. Contact:

GRADUATE ASSISTANTSHIPS IN BIOLOGY

—Outstanding students from a wide variety of scientific backgrounds are accepted into the Ph.D. program. Training programs are available in microbiology, molecular biology, plant physiology, physical chemical biology, developmental biology, genetics, aquatic biology and vertebrate zoology, among others. Stipends range from \$3,200 to \$4,000 per calendar year with waiver of tuition. For information write Dr. C. A. Privitera, Biology Dept., State Univ. of N.Y., Buffalo, N.Y. 14214.

MICROBIOLOGIST, Ph.D.

Major manufacturer of high quality pharmaceuticals and biologics seeks top calibre person for highly responsible position.

Requires 2-4 years experience in biological production and product development including virology and tissue culture.

Responsibilities will include direction of several technicians and coordination of activities of biological production with other senior scientists.

This opening offers an exceptional opportunity for further growth and advancement in an important national company with a reputation for excellence.

Salary commensurate with education, experience and ability. Company paid relocation to large, metropolitan Mid-western city.

Send detailed resume of background and salary requirements in strict confidence.

Box 255, Science

POSITIONS OPEN

MANUFACTURERS REPRESENTATIVES — We are looking for dynamic representatives experienced in dealing with architects and calling on hospital, biomedical and general laboratory field. We have full line of environmental rooms and are expanding products to include incubators, baths, humidity and thermal test facilities applicable to above markets. Most territories available. Write: Relialab Products, Tenney Engineering, Inc., 1090 Springfield Road, Union, New Jersey 07083.

Medical School of Pahlavi University, Shiraz, Iran is accepting applications for the positions of Associate Professor and Assistant Professor of Physiology. Appointments starting from January, 1967 or thereafter. Applicants are requested to send a résumé of their educational background and work experience to the Dean of Medical School (Pahlavi University, Shiraz, Iran).

Applications are invited for two positions in Department of Zoology, Teaching and Research, Ph.D. required. Fields of specialization desired: EXPERIMENTAL EMBRYOLOGY AND ELECTRON MICROSCOPY. Salary and rank commensurate with experience. Send resume to: Chairman, Department of Zoology, University of Arkansas, Fayetteville, Arkansas 72701

Pathologist, M.D. or Ph.D., experienced in electron microscopy, to fill a full-time challenging research position on team investigating aspects of atherogenesis. Salary \$15,000 plus guaranteed yearly increments, liberal fringe benefits. Send résumé to Dr. Sanford C. Spraragen, Chief, Radioisotope Service, 800 Poly Pl., Brooklyn, N.Y. 11209. Tel. 212-Te 6-6600, Ext. 271.

Position Open: **Electron Microscope Technologist** with minimum of two years experience in fixation, embedding and sectioning of animal and/or human tissue. Position is in a newly created electron microscope laboratory in southwestern Federal hospital. Salary range \$5331 to \$7696 depending on education background (minimum of B.Sc. Degree) and practical electron microscopic experience. Write or telephone: Major George D. Lundberg, M. D., Chief, Pathology Service, William Beaumont General Hospital, El Paso, Texas (Area Code 915-568-6690).

RESEARCH

Position open for research minded individual trained in biochemistry or related field to collaborate in immuno-chemistry and related biochemical research. Progressive hospital associated with Northwestern University. Excellent salary commensurate with experience and training. Academic appointment possible. Apply **Box 254, SCIENCE**.

POSITIONS OPEN

SENIOR PATHOLOGIST

The completion of a 9,000 sq. ft. addition to our Pathology and Surgery Laboratory makes it possible to expand our research activities. We now seek a Pathologist D.V.M., Ph.D., preferably board certified to be responsible for pathological evaluation of tissues from animals on toxicological experiments. Duties will also entail the administration and supervision of pathology and histology function. If interested please write Professional Employment Supervisor, Ethicon, Inc., A Johnson & Johnson Company, Route 22, Somerville, N. J. An Equal Opportunity Employer.

Temporal bone histology technician. Competitive salary. Challenging position. Must be thoroughly experienced. Send a resume to: **Dr. Ernest Peterson, University of Miami, School of Medicine, 1475 N.W. 12th Avenue, Miami, Florida.**

IN THE SERVICE OF SCIENCE

The Answer is the Ultrarac[®]!!!

The NEW ULTRORAC is the smallest fraction collector with a 200 standard test-tube capacity.

Having rugged precision it is as dependable as the world-famous RadiRac. Remove a ten-tube rack, it continues working — put it in the cold, it continues working — treat it roughly, it continues working — preset the run to end at 50 fractions and it stops at your command.

We guarantee it for 3 years too.

- ✓ Designed to Save Space
- ✓ Designed for Coldroom use
- ✓ Designed for Standard test tubes
- ✓ Compact, removable electronic unit for remote control
- ✓ For time, drop and volumetric capabilities
- ✓ Stainless steel column-support rods — polypropylene racks
- ✓ Provision for event marking
- ✓ Power outlet for flow pump

COLEMAN MODEL 101 UV SPECTROPHOTOMETER

Range down to 220 $m\mu$ • Bandpass approx. 10 $m\mu$ • Line operated

9095-F10.

Thomas

modified to provide increased stability for continuous monitoring; adjustable output for use with a recorder; and connections for digital readout or printout

SPECTROPHOTOMETER, Coleman Model 101-002, UV range 220 to 375 $m\mu$. Single beam, diffraction grating type, a.c. line operated, with fixed bandpass of approximately 10 $m\mu$. With deuterium lamp and power supply housed separately. Usable in ultraviolet range down to 220 $m\mu$. Dimensions: 16 inches long \times 11 inches deep \times 6½ inches high. Simplicity of operation makes this instrument suitable for routine general analysis and for educational use.

Wide Range Phototube. Single tube, with detectors of antimony-cesium and silver-cesium, covers range 220 to 900 $m\mu$.

Energy Recording. Terminal jack is provided with output adjustable 0 to 200 mv for use with a recorder.

Linear Wavelength Control. Drum scale 200 to 970 $m\mu$ in 1.8 mm spaced divisions corresponding to 5 $m\mu$.

Meter Scale. Mirrored 5½-inch scale, graduated 0 to 110% transmittance and -0.04 to 2.0 absorbance.

Performance Specifications

Bandpass. Approximately 10 $m\mu$ throughout range.

Photometric Accuracy. Transmittance $\pm 0.5\%$; absorbance ± 0.006 at 0.4.

Photometric Reproducibility. Transmittance 0.2%.

Wavelength Accuracy. Better than $\pm 2.5 m\mu$ throughout range.

Slits. Fixed; entrance 0.3 mm wide; exit 1.2 mm wide.

Stray Light. Less than 0.5% T at 340 $m\mu$.

Cell Path. Light path 5, 10 or 20 mm; 4-place Holder.

9095-F10. UV Spectrophotometer, Thomas modified Coleman 101-002, range 220 to 375 $m\mu$, as described. Complete with deuterium lamp and power supply, 4-place cell holder, set of 2 fused silica cells with covers, etc. For 115 volts, 60 cye. a.c. **1,475.00**

NOTE—Model 101 is also available with tungsten lamp and power supply for use in the range 340 to 900 $m\mu$.
Information on request.

DIGITAL CONVERTER, Thomas. Prints absorbance, transmittance or concentration 4-digit readings on tape with 4-digit sample identification numbers in adjacent column. Operates from output of various Thomas Readouts.

Detailed bulletins sent upon request.
