

This is a Classified Ad

The program is company secure and company funded. Electro-Optical Systems and its parent company, the Xerox Corporation, have already made important strides forward in the development of new systems for medical diagnosis. The need now is for highly-qualified personnel to fill important managerial and leadership positions within this ongoing program... a program which has real meaning for the future of the medical sciences.

Management-Senior Scientist. Manage and direct a product development biochemistry team. Extensive experience required in pharmaceutical or chemical product development. Prefer multi-disciplined strengths in chemistry or biochemistry, chemical engineering, and instrumentation.

Quality Assurance Manager, Biochemist or Chemist. Requires extensive experience in pharmaceutical and chemical product development. Must be familiar with cost effectiveness and predictive reliability models.

Quality Assurance Reliability Chemist. Entails development of analytical procedures. Desire several years industrial analytical laboratory experience.

Project Leaders-Ph.D Biochemists. Recent doctoral graduates and experienced Ph.D Biochemists are needed to probe and resolve analytical problems. Experience in preparing and processing labile biochemicals is desirable.

Instrumentation, Electrical Engineers. Desire design background with optical and digital systems. Information processing and control systems experience preferred.

Instrumentation Engineers-Mechanical. Requires highly creative individuals to design high-speed, small mechanisms, and electromechanical machinery; involves advanced concepts analysis and studies. Will also test, evaluate, and improve existing machine designs.

A variety of other positions are currently available in the fields of chemical engineering, biochemistry, microbiology, radiology, electronic, mechanical and systems engineering and data processing. Send your resume or request for further information to David C. Phillips. Better yet. Call him personally... collect. 213-351-2987.

POSITIONS WANTED

Astrophysicist, Ph.D. 1966, seeks research/teaching position. Box 157, **SCIENCE**. X

Bacteriologist, Ph.D. 1964. Four years as hospital microbiologist. Publications. Academic and/or clinical. Prefers Southwest. Dr. Dorothy Branson, 3514 N. Murray, Milwaukee, Wisconsin 53211. X

Biochemist, Ph.D. 1955. Academic and industrial research experience. Strong background in nucleic acid metabolism. Desires teaching or research position at university or research institute in United States or Canada. Box 164, **SCIENCE**. X

Biochemist, Desires academic position in liberal arts college. New England or eastern Canada. Ph.D. Twelve years' teaching experience. Box 165, **SCIENCE**. X

Ph.D. in Biophysics, experience in radiation research, synthesis and structure of nucleic acids; 16 publications; seeks research position possibly some teaching in N.Y.C. or surrounding area. Box 147, **SCIENCE**. 4/26; 5/3; 10

Business Administrator, life-science research and college financial management, building, personnel, accounting. Box 158, **SCIENCE**. X

Cytologist Ph.D. Extensive experience in cytogenetic research and tissue culture. Publications. Teaching experience. Seeking university teaching/research appointment. Box 153, **SCIENCE**. X

Medical Microbiologist, Ph.D. Research and teaching. Dr. R. G. Tischer, Drawer MB, State College, Mississippi 39762. 5/3, 10, 17

Microbiologist, Ph.D. 37. Registered. Extensive experience in diagnostic bacteriology and mycology and teaching. Seeking position in academic and/or director of clinical microbiology laboratory. Box 154, **SCIENCE**. 5/3

Microbiologist, Ph.D., 39. Extensive experience, publications, government, industry, bench and supervisor, seeks responsible position with growth potential research/teaching/administration. Box 155, **SCIENCE**. X

Vertebrate Physiological Ecologist, Ph.D. Two year postdoctorate. Publications. Desires teaching-research position. Box 150, **SCIENCE**. 4/26

POSITIONS WANTED

Physiology Ph.D.; bacteriology minor; respiratory and atmospheric research; seeks industrial or academic research appointment. Woodward Personnel Bureau, 185 North Wabash, Chicago 60601. X

Physiologist, Ph.D. 38; 7 years' teaching experience in large medical school (undergraduate, medical, dental, graduate students). Major research: respiration. Seeks administrative position. Box 159, **SCIENCE**. X

Physiologist, Ph.D. Desires teaching/research/administrative position in physiology, pharmacology or biology. Publications. Teaching experience. Box 156, **SCIENCE**. X

Science Administrator of federal program desires chairmanship of basic science department or its potential. Physiologist, Ph.D., teaching and research experience, scientific publications. Box 160, **SCIENCE**. X

Zoologist—Ph.D., endocrinology-biochemistry; some publications, 7 years' industrial research, 5 years' experience in developing and teaching courses in endocrinology, cell physiology, and introductory biology. Also experienced in advising advanced undergraduates in research and paper presentation. Interested in teaching position, Fall, 1968. Box 144, **SCIENCE**. X

POSITIONS OPEN

(a) **Prof Environmental Biology** develop Ph.D. program; teach and research; state univ. new science bldg; 9 mo \$11,000 up; MidW. (b) **Asst/Assoc Prof Zoology**; teach cell biology, develop programs; 9 mo \$9-12,000; state univ; S. (c) **Protein Chemist** pituitary hormone research 800-bed hosp, univ affil; \$11,000 up; Calif. (d) **Microbiologist** study soil for new antibiotic fungi; \$10,000 up S. (e) **Sr. Neuropharmacologist** estb program CNS effects; \$15,000; drug mfr; E. **WOODWARD PERS. BUREAU**, 185 N. Wabash, Chicago 60601.

POSITIONS OPEN

The Department of Biology, D'Youville College, Buffalo, New York 14201, requires a faculty member to augment its teaching program in botany and microbiology.

Box 161, **SCIENCE**

Ph.D. to Teach Botany at western private medium-sized university. Good fringe benefits and opportunity for some research. Address:

Box 162, **SCIENCE**

Chemist, B.S. or M.S. experience in medical laboratory preferred but not essential. Large modern laboratory in medical center near Atlantic Coast. Engaged in special chemistry analysis and method development. Research opportunity available. Salary commensurate with education and analysis. Send complete resume to **Director of Laboratories, Norfolk General Hospital, Norfolk, Virginia 23507**.

The Regional Medical Program for Western New York seeks the services of an Epidemiologist. The position to be negotiated will be a conjoined appointment with the Department of Preventive Medicine of the State University of New York at Buffalo. Further details may be obtained from the office of the **Regional Medical Program for Western New York, 2211 Main Street, Buffalo, New York 14214**.

Merck

RESEARCH LIBRARIAN

To coordinate the acquisition, organization and cataloging of three (3) chemistry/life sciences libraries (about 20,000 volumes, 1200 periodicals). Requires at least 3 years experience as a technical librarian and an MLS from an accredited school. An undergraduate degree in chemistry or biochemistry would be desirable.

TRANSLATOR

To translate primarily scientific German/French into English. Requires native born facility in German/French. In addition, a degree in chemistry and competence in other languages such as Russian, Italian and Japanese would be desirable.

EDITORIAL ASSISTANT

To edit, abstract and translate veterinary copy. Coordinate scientific data for submission to F&DA. Assist in preparation of various research publications. Requires a degree, intensive editing experience, a systematic mind and genuine concern for accuracy.

Merck, a leader in the pharmaceutical industry, offers liberal salary and benefits in a highly professional environment. For prompt and confidential consideration, please forward curriculum vitae to:

Mr. George C. Wolf, Professional Employment

Merck & Co. Inc.

Rahway, New Jersey 07065

An equal opportunity employer M/F

Steroid Biochemist

Opening for recent Ph.D., with or without postdoctoral experience, in endocrine biochemistry group studying steroidogenesis, steroid metabolism and hormone-target tissue interaction as a part of a broad endocrine research program.

The Sterling-Winthrop Research Institute is the research division of Sterling Drug, Inc., one of the world's largest producers of medicinal agents. Sterling Drugs manufactures professional, consumer and industrial products identified by more than a thousand brand names. The Institute employs over 600 people and is engaged in a very active pharmaceutical research program. It is near Albany, on a plateau overlooking the Hudson River Valley.

Salaries open. Excellent employee benefits include educational assistance at local colleges. Travel and moving expenses paid.

Send complete resume to C. E. Alford, Director of Personnel

STERLING-WINTHROP RESEARCH INSTITUTE

Rensselaer, New York
An Equal Opportunity Employer

Mathematician, Ph.D., in analysis, or topology, teaching at upper undergraduate and masters level, salary and rank dependent upon qualifications. Send résumé to **Haig H. Najarian, University of Maine in Portland, Portland, Maine.**

PHYSICIST, Ph.D., to teach undergraduate and graduate courses in physics in an expanding department. In order to carry on some research, one-third release time will be granted. Rank and salary depend upon education and experience. Send resume to **Clifford G. McCollum, Department of Science, University of Northern Iowa, Cedar Falls, Iowa 50613.**

Protein Chemist: Ph.D., preferably with postdoctoral experience, to participate in a program of purification and structural analysis of pituitary protein hormones. Salary dependent on experience.

Box 163, SCIENCE

Research Assistant in Immunology

Large university medical school in New York City. Varied work: intact animal, tissue culture and biochemical. M.S. preferred. Graduate courses available.

Box 129, SCIENCE

RESEARCH ASSOCIATE. Application invited for position for postdoctoral Physicist of Materials Scientist to work on Radiation Damage Effects in Ionic Materials using the Cornell 3 MeV Dynamitron Accelerator. Write: **Faculty Supervisor, Accelerator Facility, Bard Hall, Cornell University, Ithaca, New York 14850.**

Position available which involves **Teaching and Research.** Teaching is at the undergraduate (dental) and graduate levels. Appointment and salary commensurate with training and experience. Further details provided upon request. Please contact **Dr. J. C. Wilt, Department of Medical Microbiology, University of Manitoba, Medical College, 770 Bannatyne Ave., Winnipeg 3, Man. Canada.**

DEPARTMENT OF VETERINARY PHYSIOLOGY

Western College of Veterinary Medicine
University of Saskatchewan
Saskatoon, Sask., Canada

Applications are invited for the position of Assistant or Associate Professor of Veterinary Physiology. The Ph.D. or equivalent degree is required. The level of appointment will be within the following scales depending upon experience—

Assistant Professor \$ 8,700-11,700
Associate Professor \$12,200-15,500

In addition to undertaking original research in his field of interest, the successful applicant will participate in the presentation of the basic physiology course for veterinary students and will be encouraged to develop a postgraduate course. Excellent teaching and research facilities, capable of accommodating all species of animals, will be available in a new building to be completed by July 1968. Requests for further information or a formal application consisting of curriculum vitae and names of three referees should be submitted to Dr. R. H. Dunlop at the above address.

GRADUATE STUDY

DEPARTMENT OF CANCER RESEARCH,
University of Saskatchewan,
Saskatoon, Sask., Canada

Applications are invited for postdoctoral fellowships in the Saskatchewan Research Unit of the National Cancer Institute of Canada. Preference will be given to applicants with an interest in molecular biology or in enzymes of nucleic acid or carbohydrate metabolism. Stipend is \$6,000 per annum, tax free, plus a travel allowance. Applications should be addressed to **Dr. J. F. Morgan** at the above address.

PRE- AND POSTDOCTORAL TRAINEESHIPS in research methods in neoplastic endocrinology and skeletomuscular diseases, studies in connective tissue chemistry, cell fractionation, tissue culture, mechanism of action of hormones, metabolic bone disease. Candidates may have either M.D., or Ph.D., or have graduate student status. American citizenship required. Address applications to **Dr. V. P. Hollander, Director, Research Institute Hospital for Joint Diseases (an affiliate of the Mt. Sinai School of Medicine), 1919 Madison Ave., New York, N.Y. 10035**

MEDICAL COLLEGE OF GEORGIA: Graduate Study in the Basic Health Sciences. **FELLOWSHIPS, TRAINEESHIPS, AND ASSISTANT-SHIPS** for study leading to the Ph.D. in Biochemistry, Endocrinology, Microbiology, Anatomy, Physiology, and Pharmacology. Also study leading to the M.S. in each of the above and in Medical Illustration and Nursing. NSF, NDEA, NIH, and institutional fellowships and traineeships available for qualified students seeking the Ph.D. Dependency allowance and tuition remission available in most cases. For details of the doctoral program in each field write to: **E. J. Behal, Dean, School of Graduate Studies, Medical College of Georgia, 1459 Gwinnett Street, Augusta, Georgia 30902.**

SEVENTH INTERNATIONAL SHOCK-TUBE SYMPOSIUM

TORONTO, CANADA 23-25 JUNE 1969

A three-day symposium consisting of six sessions of invited and contributed papers is being planned and will be held on the main campus of the University of Toronto. These will deal with theoretical and experimental aspects of shock tube flows. A critical evaluation will be made of new facilities, driving techniques, performance, flow uniformity, basic physical and aerophysical data, instrumentation and diagnostics. The outlook for future research and development in the light of our present knowledge will be considered. Suggestions and enquiries are welcome. For further information, write to

Dr. I. I. Glass, Institute for Aerospace Studies, University of Toronto, Toronto, Canada.

RFD 4, Laconia, New Hampshire 03246

Your Fair Share Gift Works Many Wonders THE UNITED WAY

27 million families benefit by child care, family service, youth guidance, health programs, disaster relief and services for the Armed Forces from 31,000 United Way agencies.

The only cleaning equipment you ever need with Econo-Cage Disposable cages

They incinerate with a 1-2% residue. (They can also be pulped to 20% of original volume.) No expensive washing and sterilizing. No chance of residual contamination from infectious diseases, toxic chemicals or radioactive tracers. You use them and throw them away.

With E21 Econo-Cage Disposables, you can start each experiment with a new, unused cage—precision molded of clear, sturdy polystyrene. The cage meets NIH standards, housing up to eight mice in an 11½" x 7½" x 5" deep space and stands on its own without supports. Can be fitted with our E22, E28 or E29 lid, and E20 filter frame. It's the lowest-cost disposable cage available.

How much time and money can it save you? Your Econo-Cage distributor has the details and prices.

He can tell you about our permanent Econo-Cages, too. They're stronger and 20% heavier than competitive models. Take repeated sterilization cycles.

In the widest choice of sizes and materials—including polycarbonate, polypropylene and acrylonitrile. From the leading manufacturer of plastic cages. Our catalog has the full story, too. You can get a copy from us or from your Econo-Cage distributor.

NEW...
THOMAS CATALOG

A new, 1284-page edition of our general catalog, SCIENTIFIC APPARATUS AND REAGENTS selected especially for use in Chemical and Biological laboratories, is now being distributed.

Approximately 1000 new items are listed, with detailed factual descriptions, carefully indexed and cross-referenced. Included are recent developments both of our Company and of the makers of standard brands.

All items are carefully selected and continually inspected for quality and performance.

Stocks of all items listed are regularly maintained for immediate shipment.

Shipments are made directly from our Philadelphia headquarters, which offers unexcelled national rail and motor transport networks, an international airport, and a major seaport.

Copy sent upon request to laboratory and purchasing personnel.
