POSITIONS WANTED

Administrator, Ph.D., Microbiology. Vast experience in biological manufacturing plant management, organization, government regulatory liaison. Seeking position as Director of Manufacturing, Plant Manager, or equivalent position demanding effective leadership. Box 285, SCIENCE. X

Electron Microscopist, Ph.D. (1970), research, teaching, publications, desires position in medical school, industry, or university. Box 286, SCIENCE. X

Geneticist, Ph.D., 14 years of total teaching experience. Desires to help build a relevant, creative undergraduate biology major at an academically excellent institution. Box 287, SCIENCE. 8/13, 27

Medical Chemist, Ph.D., 1969. Postdoctoral experience and publications. Extensive background in cancer research, drug design, organic synthesis, and spectroscopy. Interdiscipline in biochemical pharmacology. Desires academic or industrial position. Box 288, SCIENCE. X

Plant Biochemist, Ph.D. 1967. Research experience in metabolism, protein chemistry, and associated instrumentation. Research interests: Biochemical basis of metabolic changes during environmental stress. Seeking research position in industry or university. Box 289, SCIENCE. 8/6

Trained Scientist, Ph.D., will do accurate abstracting, manuscript editing, other literary services—biomedical and allied sciences including environmental health. Post Office Box 11546, Clayton, Missouri 63105. 7/30; 8/6

POSITIONS OPEN

GESELLSCHAFT FÜR MOLEKULARBIOLOGISCHE FORSCHUNG STÖCKHEIM/BRAUNSCHWEIG, W. GERMANY

HEAD OF LABORATORIES OF MICROBIOLOGY

Applicants are invited for the position of Head of the Laboratories of Microbiology beginning January 1972. Candidates should be able to perform new techniques in the field of selection and phage resistance of commercially relevant microorganisms. In order to cooperate efficiently with other laboratories of the institute, a good knowledge of chemistry and biochemistry of microorganisms is advantageous.

Application deadline is 3 weeks after appearance of this notice.

Detailed applications and a list of publications to **Dr. F. Wagner, Gesellschaft für Molekularbiologische Forschung mbH, Stöckheim bei Braunschweig, West Germany.**

POSITIONS OPEN

ANATOMIST required to teach Oral Histology to Dental and Dental Hygiene students. Ph.D. and dental degree preferred but not required. Research facilities available. Rank and salary negotiable. Position open 1 September 1971. Apply to **Professor K. A. McMurchy, Oral Biology Department, Faculty of Dentistry, University of Alberta, Edmonton, Alberta, Canada.**

BIOPHYSICIST-BIOPHYSICAL CHEMIST

Large midwestern university seeks individual with background in structure/conformation studies of proteins/polypeptides. Appointment at the postdoctoral level for a minimum of 1 year open from September 1971. Experience in x-ray, electron microscopy, spectroscopy, or macromolecular techniques helpful. Excellent facilities in department heavily involved in interdisciplinary research.

Box 291, SCIENCE

DIRECTOR DIVISION OF NUCLEAR MEDICINE EDMONTON, ALBERTA (CANADA) Position available September 1971

Applications are invited for the position of Director, Division of Nuclear Medicine of the Dr. W. W. Cross Cancer Institute. Applicants must be eligible for a comprehensive license from the Atomic Energy Control Board of Canada.

The Dr. W. W. Cross Cancer Institute serves a population of one million persons in the northern half of the Province of Alberta.

An exceptionally well-equipped facility, providing a full range of isotope procedures is available.

Opportunities for research are excellent; the clinical and basic research activities of the Dr. W. W. Cross Cancer Institute are coordinated with the University of Alberta; and the Director will hold an appointment in the University of Alberta.

Please direct enquiries to:

Medical Director
Dr. W. W. Cross Cancer Institute
11560 University Avenue
EDMONTON 61, ALBERTA, CANADA

GENETICIST

Biology Department beginning February 1972; 2½-year replacement, possibly longer. Recent Ph.D. with primary commitment to excellent, innovative teaching of undergraduates. Teaching area: genetics, evolution, and research. Faculty research expected. Well-equipped laboratories, close cooperation among science faculty. Liberal arts college, endeavors to develop scholarship, social concern, and self-awareness. **Robert D. Wright, Department of Biology, University of Redlands, Redlands, Calif. 92373.**

MASSEY UNIVERSITY Palmerston North, New Zealand PROFESSOR OF VETERINARY PUBLIC HEALTH AND MEAT HYGIENE

Applications are invited for a newly established Chair in Veterinary Public Health and Meat Hygiene which is a Chair within the Department of Animal Health of the Faculty of Veterinary Science.

As a major world exporter of meat and meat products New Zealand has a vital national interest in promoting both teaching and research in Meat Hygiene and associated disciplines. Massey University expects to play an increasing role in this field. There is already a Faculty of Food Science and Biotechnology within the University and there is considerable opportunity for cooperative studies.

It is anticipated that there will be a broad approach to the teaching of Meat Hygiene giving emphasis to the conditions of production on the farm as well as to high standards of transportation, slaughtering and processing as the basis for marketing a highly acceptable end product. It is also expected that attention will be given to the close relationships between human and animal health. However, there will be considerable freedom for the appointee to develop his discipline in an appropriate manner.

Required qualifications are a registrable veterinary degree with appropriate postgraduate qualification and experience.

A salary in the range of \$NZ9,783 to \$NZ12,500 would be paid. (\$NZ100 equals £46.53 sterling; US\$112)

Further details of the position and of the University, together with general conditions of appointment, may be obtained from the Secretary-General, Association of Commonwealth Universities (Apts), 36 Gordon Square, London WC1H 0PF, or from the Registrar of the University. Applications close on 30 November 1971.

POSITIONS OPEN

PHARMACOLOGIST

— Ph.D. —

SK&F's Pharmaceutical Development staff seeks a person who will provide non-bench scientific support in the development of new drug compounds. Responsibilities involve close association with Clinical Investigation and other members of interdisciplinary development teams, protocol design, preparation of INDs and NDAs, interpreting and summarizing clinical data and providing scientific and literature support.

A Ph.D. in Pharmacology or Biochemistry, including experience with animal data/drug testing, is required. Applicants should be well organized, able to write clearly and concisely, and be able to work effectively within an inter-disciplinary group. Knowledge of regulatory affairs will be an asset. Excellent salary and benefits, including liberal relocation allowances. Publications encouraged.

An Equal Opportunity Employer

PATHOLOGIST

Department of Pathology, Medical School, Inter-mountain Area, has opening for **Pathologist** experienced in electron microscopy. For further information send curriculum vitae to

Box 292, SCIENCE

PHYSIOLOGIST (ENDOCRINOLOGIST)

Applications are invited for the position of **ASSISTANT PROFESSOR OF PHYSIOLOGY**, with a special interest in **ENDOCRINOLOGY**. This appointment could commence as early as 1 November 1971. The applicant will be expected to participate in the undergraduate and graduate teaching programme of the department and to develop a strong research programme in endocrinology. Applications containing curriculum vitae and the names of three persons who can provide letters of reference should be sent to the **Head, Department of Physiology, Queen's University, Kingston, Ontario, Canada.**

RESEARCH DIRECTOR, VOLUNTARY HEALTH ORGANIZATION—to administer program of grants for basic and clinical research. M.D. or Ph.D. with experience in conduct of research and demonstrated competence in research administration. Please send curriculum vitae, indicating salary required, to **Gabriel Stickle, Executive Director of Medical Programs, The National Foundation, Box 2000, White Plains, N.Y. 10602.**

RESEARCH BIOLOGIST

B.S. or M.S. with laboratory experience with animal virology using tissue cultures. To perform research on viruses associated with cancer. Training or experience in microbial genetics, or analytical ultracentrifugation helpful. Salary negotiable. Permanent position. Send résumé to **Trinity University, Betty Thorman Cancer Research Laboratory, 715 Stadium Drive, San Antonio, Texas 78212.**

Does S/P give you more for your money than anyone, anyplace?

Does God make little green apples?

You might just expect to pay the same price for the same laboratory product from any distributor, right? Wrong! The only thing a distributor really has to sell is *service*. That's why S/P gives you more for your money than anyone else. More laboratory-trained representatives than anyone else. Over 300 of them working out of 17 strategically located distribution centers. More servicemen than anyone else. 150 to be exact, including manufacturer-trained technical specialists. More warehouse space than anyone else. 13,553,000 cubic feet or about 4 Madison Square Gardens. More items in stock than anyone else. 129,000. An inventory worth \$28,000,000. And our computer system makes our entire national stock available to every customer. More delivery service than anyone else. All major carriers and our own fleet of 43 S/P trucks. And more backup people than anyone else. 1,580. Our prices are competitive. But, if you can get a better price from anyone else, better look into service. You'll find S/P gives you more for your money. Just as sure as God makes little green apples.

To take advantage of our More-For-Your-Money Service, call your S/P Representative or write Scientific Products, Division of American Hospital Supply Corporation, 1430 Waukegan Road, McGaw Park, Illinois 60085. S/P...a single source for laboratory equipment, supplies and scientific instruments.
