24 SEPTEMBER 1971

Erector-set flexibility comes to the laboratory

...with Solv-Seal™ Glass Joints

Solv-Seal Joints are leakproof under pressure, because an interference fit between Teflon™ and glass is the primary seal. They can't freeze... don't require cleaning. There's no grease needed; the O-rings provide a positive secondary seal. Teflon is chemically inert and non-contaminating.

Solv-Seal Joints disconnect in seconds. They're available in seven I.D.'s from 2 mm to 50 mm. For complete details on the unique patented Solv-Seal Joint, write to Fischer & Porter Co., 8010 County Line Road, Warminster, Pa. 18974.

## POSITIONS WANTED

**Clinical Microbiologist, M.S.,** over 16 years of hospital and teaching experience, last 12 years as laboratory supervisor. Mature woman. Interested in clinical or related fields. Box 336, SCIENCE X

**Electron Microscope Technician, B.S.;** extensive training with 6 years' experience in biological and medical sciences; publications; any location considered. Box 335, SCIENCE X

**Immunologist, Ph.D.,** 42, married, four plus years of postdoctoral training experimental, clinical immunology. Seeks research position; will consider science writing, teaching. United States, Australia, Canada. Post Office Box 11546, St. Louis, Missouri 63105. X

**Mechanical Engineer, Ph.D.,** will do accurate literature reviews, abstracting, technical editing, and other literary services. Box 337, SCIENCE X

**Microbiologist, Ph.D.** Strong background in biochemistry, 8 years of diverse pharmaceutical research experience including chemotherapy, enzymology, and immunology. Desires academic position. Box 334, SCIENCE X

**Physiologist, Neurophysiologist, D.Sc., Ph.D.,** 29, several years of research experience in neurophysiology and electroencephalography. Seeks research/academic appointment. Box 338, SCIENCE X

**Physiologist, Reproductive Ph.D.,** 27. Seeks teaching research position in general or reproductive physiology or endocrinology. Box 339, SCIENCE. X

**Scientific Publications Manager** seeks challenging position. Research background; 10 years of publishing experience, United States and abroad; college text author. Interested in all media. Box 330, SCIENCE. 9/24

**Three Biological Scientists,** forming a biological research-development-production team, seek employment with a progressive, reputable company. Experience and background in the veterinary and human health field encompasses disciplines including: tissue culture and virology, interferon, bacteriology (aerobic and anaerobic), vaccine development and production, fermentation, chemotherapy, diagnostics, immunology, pathogenesis, animal testing, federal licensing, and managerial administration. Box 340, SCIENCE X

**Writer, Editor** seeks position or assignment in Chicago area. Experience primarily in social sciences; intelligent interest in earth science. Box 341, SCIENCE. 10/1

## POSITIONS OPEN

### AMINO ACID METABOLISM

Ph.D. in nutritional biochemistry or physiology with strong background in amino acid metabolism and experimental experience using animals in nutritional studies.

McGaw Laboratories, a Division of American Hospital Supply Corporation, is a producer of intravenous solutions and acknowledged leader in the new and exciting parenteral nutritional field. Send résumés to:

MCGAW LABORATORIES  
1015 Grandview Avenue  
Glendale, Calif. 91201  
*An Equal Opportunity Employer*

### ENDOCRINOLOGISTS

### BIOCHEMISTS

Ph.D.'s

### CLINICAL CHEMISTS

Inter Science Institute a leader in the area of radioimmunoassays of steroids and peptides is seeking qualified individuals with advanced degrees to head various departmental sections. Applicants should present evidence of substantial achievement both in experience and publications in the field of radioimmunoassays. Candidates will be expected to initiate, develop and supervise new radioimmunoassay approaches in procedures and tests. Recent graduates with or without postdoctoral training will be considered in areas of **pituitary peptides, thyroid and calcium regulating hormones.** The positions offer excellent salaries and institutional benefits in an academically oriented environment. Submit in confidence, complete and detailed résumé to: Darrell M. Mayes, Director of Research.

Inter Science Institute  
2000 Cotner Avenue  
Los Angeles, California 90025

*An Equal Opportunity Employer*

### The University of Western Ontario Faculty of Medicine Chairman of the Department of the History of Medicine and Science

The Faculty of Medicine is seeking a Chairman for the Department of the History of Medicine and Science. The appointee should have a major interest in the history of biological sciences and/or medicine. Duties include administration of the Department, direction of undergraduate programs in History of Medicine and of Science, and development of a graduate and research program. The effective date of appointment would be on or about July 1, 1972. Applications, including curriculum vitae, list of publications, and three references, to be forwarded by November 30, 1971 to:

Dr. D. Bocking, Dean,  
Faculty of Medicine,  
The University of  
Western Ontario,  
London 72, Ontario,  
Canada.

## POSITIONS OPEN

### THE UNIVERSITY OF ALBERTA CHAIR IN BIOMEDICAL ENGINEERING

Applications are invited for appointment to the endowed chair in Biomedical Engineering at The University of Alberta, within the Faculties of Medicine and Engineering.

Biomedical Engineering is an active, interdisciplinary area of study at The University of Alberta. Candidates for this new chair should have an outstanding research record, and experience in cooperating with faculty members in schools of Engineering and Medicine. The position is a senior one and carries an appropriate salary.

Applicants should submit a curriculum vitae, including the names of three referees, to:

Mr. Brian H. Macdonald  
Assistant to the President  
The University of Alberta  
Edmonton, Alberta  
Canada

Applications should be received by the end of October 1971.

**Ph.D. Immunologist** with considerable postdoctoral experience and interest in theoretical concepts of immune phenomena with particular reference to oncology, required to join newly formed immunology section of hospital research group. Applicant must be capable of directing postdoctoral fellowship program. Salary negotiable dependent upon qualifications. Please reply with curriculum vitae to J. P. Concannon, M.D., Allegheny General Hospital, 320 East North Avenue, Pittsburgh, Pennsylvania 15212

### RESEARCH PSYCHOLOGIST

Ph.D. with experience in animal behavior. Specific duties involve planning, conducting, and reporting of research projects in the area of alcoholism and drug dependence. Please send résumé to Dr. H. Begleiter, Department of Psychiatry, Downstate Medical Center, State University of New York, Box 1203, 450 Clarkson Avenue, Brooklyn, New York 11203.

### UNIVERSITY OF CAPE TOWN/PROVINCIAL ADMINISTRATION OF THE CAPE OF GOOD HOPE

#### SENIOR TECHNICIAN IN HISTOLOGY

Applications are invited for a new post of Senior Technician in Histology in the Department of Physiology and Medical Biochemistry. The duties will include the use and maintenance of an electron microscope and the applicant should have had considerable experience in this field as well as in general histological techniques.

The salary scale is R4650 × 150 to 4800 × 300 to 5100 per annum, initial placing depending on experience and qualifications.

#### PHYSIOLOGY TECHNICIAN

Applications are invited for a new post of technician in the Department of Physiology and Medical Biochemistry. The newly appointed technician will be responsible, along with other members of the technical staff, for teaching and research laboratories, including a medical physics laboratory.

The salary scale is R3000 × 150 to 4200 × 150 to 4650 per annum, initial placing depending on experience and qualifications.

Applicants for both these positions should state age, qualifications, and experience and should give the names and addresses of two referees whom the University may consult, and should indicate the date at which they could commence duty. Applications should reach the Registrar, University of Cape Town, Private Bag, Rondebosch, C.P., South Africa, as soon as possible.

### TOXICOLOGIST OR PHARMACOLOGIST

Independent contract research laboratory has available immediately a research position to supervise toxicity studies on laboratory animals including dogs, monkeys, rats and rabbits. Graduate degree (Ph.D. or M.S.) preferable, however, individual with experience in toxicology will be considered. Salary commensurate with experience. Send a detailed resume with references to Dr. E. I. Goldenthal, Director of Safety Evaluation, International Research and Development Corporation, Mattawan, Michigan 49071. An equal opportunity employer.

## Du Pont Offers Technical Sales Opportunities with the Automatic Clinical Analyzer

Dupont is expanding its marketing program for the Automatic Clinical Analyzer (aca) and has immediate openings for qualified individuals in several geographical areas.

Effective communication of the aca's advanced integrated system of clinical analysis requires a professional individual with advanced training in clinical chemistry, and thorough knowledge of all phases of a clinical laboratory.

A doctorate degree and 1 year of clinical laboratory experience, or a BS degree in medical technology (ASCP certified) and 5 years of experience in a clinical laboratory are required. Additionally, 3 to 5 years of sales experience is preferred.

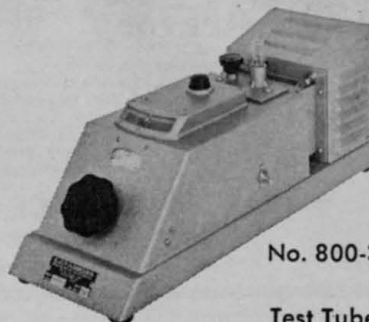

Growth potential of the product permits consideration of candidates who presently have significant laboratory for marketing responsibilities.

Send resume and salary requirements in confidence to: Dr. R. G. Nadeau, aca Marketing Manager, Instrument Products Division, DuPont Company, Wilmington, Delaware 19898.

An Equal Opportunity  
Employer M/F

## Teach light properties this modern laser way... for less than \$250!

With Bausch & Lomb's low cost helium-neon gas Laser and Laser Experiment Kit you will teach optical principles most effectively. Furthermore, you'll find your students cooperating most energetically.

Operation of the Laser is uncomplicated and dependable for classroom use. Just plug it in and it begins to lase. Power is .1mw, multi-mode, producing a monochromatic beam at 6328 Angstroms. It's about the size of a shoebox and weighs approximately three pounds.

The Experiment Kit contains all necessary components to conduct impressive demonstrations. There are set-ups for 13 experiments from reflection to a Michelson Interferometer. Even for making and reconstructing holograms. A comprehensive manual and treatise on laser theory and practice are included.

Just write for our catalog 41-2325 and you will have all the facts on this contemporary teaching tool.

## POSITIONS OPEN

### DIRECTOR DRUG SAFETY ASSESSMENT

We have an immediate opening for an experienced Toxicologist to assume leadership of our Drug Safety Assessment Department. This position will report to the Medical Director of our Research Laboratories. Candidates should have DVM or Ph.D. in Toxicology or Pathology, with appropriate experience. Salary commensurate with qualifications. Our well-equipped research facilities are located in the lovely Princeton, New Jersey area. Please send resume in full confidence to: Personnel Manager.

#### CARTER-WALLACE, Inc.

Cranbury, New Jersey 08512

An equal opportunity employer m/f

## MICROBIOLOGIST

Expanding program in our microbiology section has created an opening for recent Ph.D. or experienced M.S. with broad interest relating to chemical specialty industry. Position is of a research nature and entails non-routine laboratory investigation.

Excellent professional environment and facilities for scientific investigation and personal growth. Progressive benefit package, including outstanding profit-sharing plans. Direct inquiries to John F. Buege, S. C. JOHNSON & SON, INC., 1525 Howe Street, Racine, Wisconsin 53403.

**Johnson WAX**

An Equal Employment Opportunity

**BIOCHEMISTS**—Ph.D. and M.S. with 2 to 3 years of experience in TLC, GLC and other biochemical techniques to work in steroid and bile acid metabolism. **BIOLOGIST**—M.S. with 3 years of experience or B.S. with 5 years of experience in vitro work for studies in isolation of cellular components and assaying of enzymatic reactions. **EXPERIMENTAL PATHOLOGIST**—Ph.D. with knowledge of histopathology for carcinogenesis studies. New York City non-profit research organization. Applicants should send résumé to **Box 343, SCIENCE**.

#### CELL BIOLOGY/BIOCHEMISTRY

Recent Ph.D. for a postdoctoral position in tissue culture laboratory. Prefer someone with interest in biochemistry of the cell surface. Send résumé to **Dr. George Melnykovich, U.S.V.A. Hospital, Kansas City, Missouri 64128**.

#### DIRECTOR OF DRUG DEVELOPMENT RESEARCH

Division of American Hospital Supply Corporation, manufacturer of drugs, nutrition, surgical and blood preservation products. **WE SEEK TO EXPAND OUR DRUG AND CHEMICAL PRODUCT LINES.** You will direct the search for new product opportunities in the medical field and create new areas of research activity to serve clinical needs. Reports to the Vice President of R & D. Requires Ph.D. in chemical or biological science plus approximately 5 to 10 years' experience in drug product development. Prefer Biochemist, Physiologist or Pharmacologist, experimentally innovative, with strong background in drug development, including toxicology and pharmacology. Primary fields of product interest: nutrition, blood preservation and hemodynamics (shock physiology). Inquiries invited. **Director of Personnel, McGAW LABORATORIES, 1015 Grandview Avenue, Glendale, California 91201**

An Equal Opportunity Employer

#### ZOOLOGISTS

Applications are invited from established Zoologists with demonstrated experience in administration. The person employed will be expected to give first priority to administration. Our department has a faculty of 25 and a graduate student enrollment of 90, 35 of whom are doctoral students. Supply vitae and three references to **Professor William Lewis, Chairman, Search Committee, Department of Zoology, Southern Illinois University, Carbondale, Illinois 62901**.

## POSITIONS OPEN

## MEDICAL MICROBIOLOGIST

Excellent opportunity for an innovative scientist to become a major contributor to a new and expanding diagnostics program. This clinically oriented microbiologist will conduct research and development of diagnostic products for medical office practice and clinical laboratories.

If you have a Ph.D. or equivalent in Microbiology, with significant training/experience in medical bacteriology, we invite your application. Clinical laboratory experience, and knowledge of diagnostic procedures will be helpful. Prefer American Board of Microbiology certification.

Position located in our modern suburban laboratory west of Philadelphia. Excellent salary and relocation benefits.

Francis J. Beston

Director of Scientific Employment

**SMITH KLINE & FRENCH  
LABORATORIES**

1574 Spring Garden St.

Philadelphia, Pa. 19101

An Equal Opportunity Employer

#### TECHNOLOGIST

#### FOR ELECTRON MICROSCOPY

Technologist for electron microscopy laboratory in Philadelphia doing basic work on protein synthesis. Must have experience and training in electron microscopy of tissues \$10,000 and up depending on qualifications. Call 215-222-0536 between 2 and 5 p.m.

## GRADUATE STUDY

#### POSTDOCTORAL TRAINEESHIPS IN CLINICAL CHEMISTRY

are available 1 July 1972 to recent Ph.D. biochemists and chemists in a program designed to train clinical chemists for positions in research-oriented hospitals. The appointments are for 2 years, with a stipend of \$6000 to \$7000 per annum (depending upon postdoctoral experience), plus a dependency allowance. Apply before 31 December 1971, to **A. Kaplan, Ph.D., Biochemistry Department, University of Washington, Seattle, Wash. 98195**.

## The Market Place

BOOKS • SERVICES • SUPPLIES • EQUIPMENT

We are interested in purchasing good used analytical laboratory equipment, that is, double beam spectrophotometer, G.C.I.R., and so forth. Please contact

**Reliable Chemical Co.**  
P.O. Box 1099

Maryland Heights, Missouri 63043

Applications invited for two qualified individuals, preferably at postdoctoral level, to establish and develop Departments of Immunology and/or Cancer Virology/Carcinogenesis. Applicants expected to initiate and participate in strong R & D programs in areas of interest and competence and collaborate in multidisciplinary research. Responses will be kept confidential. Letters of response with curriculum vitae, salary requirements, and references should be sent to:

**Director, Public Health Sciences Div.  
Gulf South Research Institute  
Box 26500, New Orleans, La. 70126**

Equal Opportunity Employer

**Ph.D. Biochemistry-Pharmacology.** Due to expansion we are seeking a Ph.D. to carry out research programs in the biochemical pharmacology area. Responsibilities include participation in multidisciplinary research, methods development, and individual exploratory research. We are a large pharmaceutical company located in Montreal offering a full program of employee benefits and excellent research facilities. Please send in confidence complete curriculum vitae including salary expected to: **Personnel Department, AYERST LABORATORIES, P.O. Box 6115, Montreal, Que., Canada.**

#### ICN NUCLEIC ACID RESEARCH INSTITUTE Ph.D. PHARMACOLOGIST

Fast-growing, dynamic firm desires person with 0 to 3 years experience to participate in drug evaluation. Emphasis on basic research in the development and use of animal models of disease states. Excellent opportunity for advancement and to aid in developing Department of Pharmacology. Send curriculum vitae and salary requirement to **Mrs. Rae Taylor, ICN Nucleic Acid Research Institute, 2727 Campus Dr., Irvine, California 92664**.

**POSTDOCTORAL FELLOW** candidate should have a strong background in analytical biochemistry, MS, GLC, etc. Candidate will participate in research involving steroid hormones and other compounds in problems relating to mental health. Ample opportunity to develop own interests. Send résumé and names of three references to:

**Box 342, SCIENCE**

## Its name is the same as its function: MULTIPHOT

First we'll tell you what Nikon Multiphot won't do. It won't shiver, shake, sag, tremble, wobble, or quake. Massive dual uprights and H-shaped dovetail guide rail see to that.

What the Nikon Multiphot will do is enable you to make superb larger-than-natural size photomicrographs quickly and easily, using a wide variety of interchangeable accessories. The magnification range is approximately 1/3x to 50x. It is also designed to be used with a microscope for photomicrography. The large diascope illuminator accommodates specimens up to 120mm in diameter and includes rack and pinion elevation of the stage. A built-in diaphragm provides a continuously variable field.

For 4x5 photography the Multiphot is fitted with a large bellows and a mirror reflex housing which shows you exactly how the picture will look. The housing rotates to orient the image correctly on the film. An interlocking cable release prevents opening the shutter when the mirror is not in the correct position for photography. You can work with conventional cut film and plates, Polaroid cut film, roll film and film packs and 120 roll film with the large bellows. A narrow bellows for 35mm photography is also available.

A new series of high-resolution Macro-Nikkor objective lenses is available in 19mm, 35mm, 65mm and 120mm focal lengths. Each lens is furnished with a corrected matching condenser lens which fits into the diascope illuminator. Accessories for the Multiphot include a sensitive spot meter and an automatic exposure control system.

For more information on the Nikon Multiphot, write to: Instrument Division, Nikon, Inc., Subsidiary of Ehrenreich Photo-Optical Industries, Inc., Garden City, New York, 11530. Or phone (516)248-5200. (In Canada: Anglophoto Ltd., Ont.)

Photographic Stand**

Does S/P give you more for your money than anyone, anyplace?

## Do birds fly?

The only thing a distributor really has to sell is service. That's *his* product. So the next time you order laboratory supplies or equipment, check his product as closely as you do the manufacturer's. In our case, you'll find S/P has more laboratory-trained representatives than anyone. Over 300 of them in 17 distribution centers throughout the U.S.A. More servicemen than anyone. 150 including manufacturer-trained technical specialists for sophisticated systems. More warehouse space than anyone. 13,553,000 cubic feet. More in-stock items than anyone. An inventory of 129,000 items in all (More than Marshall Field or Sears carry). Worth \$28,000,000 with every item in our national stock available to every customer through our computer program. More delivery capabilities than anyone. Every major carrier and our fleet of 43 S/P trucks. More backup people than anyone. 1,580. The more you think about it, the more you'll realize that S/P products give you more for your money than anyone else's. Just as sure as birds fly.

To take advantage of our More-For-Your-Money Service, call your S/P Representative or write Scientific Products, Division of American Hospital Supply Corporation, 1430 Waukegan Road, McGaw Park, Illinois 60085. S/P...a single source for laboratory equipment, supplies and scientific instruments.
