

Personnel Placement

CONTROLLED ENVIRONMENT FACILITIES

The Biotron at the University of Wisconsin, Madison, Wisconsin, provides facilities for research with animals, human subjects and plants under controlled conditions of the physical environment.

Use of the facilities is available to qualified investigators from any research establishment as well as to investigators from the University of Wisconsin.

A nominal charge is made for the use of space and facilities. Services provided include: routine care of animals or plants; use of cages or containers; use of laboratories; use of simple instrumentation.

For details concerning facilities available and rates, call or write:

Director of the Biotron
University of Wisconsin
2115 Observatory Drive
Madison, Wisconsin 53706
(608) 262-4900

VISITING APPOINTMENTS

Applications are invited for nonrenewable, replacement appointments for up to 1 year. Special consideration will be given candidates who are prepared to teach in one or more of the following areas:

- biometry
- developmental morphology
- genetics
- introductory biology
- plant ecology
- population biology

Successful applicants should anticipate undergraduate teaching responsibilities in a well-equipped, modern biology department. Limited research facilities may be available. Appointments will commence 1 July 1972 or later and may be made at any rank. Salary commensurate with qualifications. Ph.D. required. University benefits. Applications together with a vita and the names of three referees should be sent by 31 May to:

Dr. D. B. Walden
Acting Chairman
Department of Plant
Sciences
The University of
Western Ontario
London 72, Canada

Research Biochemist

Conduct basic studies to establish mechanism of prostaglandin absorption from the gastrointestinal tract and/or other mucous membranes; must be capable of conceiving and executing programs related to basic mechanisms of drug absorption; should have an interest in drug delivery systems and be willing to work with animals. Ph.D. in Biochemistry and some immunology required; experience in drug absorption desirable.

Send complete résumé in confidence to M. F. Murray

An Equal Opportunity Employer

The University of Washington invites applications for the **Directorship** of its Friday Harbor Laboratories on San Juan Island about 70 miles from Seattle. The directorship involves also an academic appointment on a fractional time basis in an appropriate department. Equal opportunity for employment is provided through an Affirmative Action Program. It is anticipated that the appointment will be made by early fall. Applicants should submit a complete curriculum vitae and request that four letters of evaluation be sent to the **Chairman of the Selection Committee, Professor Donald S. Farner, Department of Zoology, University of Washington, Seattle, 98195.**

Parasitologist/Protozoologist

University research and teaching at both undergraduate and graduate levels. Applicant must have strong background and experience in molecular biology approach to medical parasitology. An equal opportunity employer.

extra-ordinary U-column gc

It takes more than an ordinary gas chromatograph to provide all of the performance, precision and versatility required to fill the needs of present day research. It takes an instrument like Packard's new Model 420 Becker Gas Chromatograph. A few of its outstanding features are: a total glass system from inlet through detector; complete analytical flexibility for widely varying analyses—the entire inlet-column-detector assembly can be removed as a unit; a unique pneumatically operated oven top, providing full 360° eye level access to column connections for fast, easy changing. Write for additional information—request Bulletin 1124A.
