

SAVANT'S Autogeldiver Innovation! New Autogel Block with Power Screen Wiper Improves Resolution and Reproducibility of Acrylamide Gel Fractions.

Magnified view shows
uniform distribution
of fragmented gel
particles.

Model AGW-18
AUTOGELDIVER

Now it is possible to extrude 20% gels with ease and obtain excellent results with soft gels where the gel particles previously had a tendency to clump up.

The new Autogel Bloc includes a motor driven blade which "wipes" the screen as the gel is extruded so that gel particles never clog the screen. The Autogel Block eliminates clogging, greatly reduces mixing of fractions.

Any lab with a Savant Autogeldiver can easily adapt the Model AGW-8 Autogel Block, which simply replaces the present acrylic block.

For Acrylamide Gel Fractionation, the improved AUTOGELDIVER is superior to any hand slicer and much less tedious. It will pay you to investigate this new, advanced model. Write for illustrated facts W-18.

Personnel Placement

POSITIONS WANTED

Cancer Research, M.D., Ph.D. Aim: Experimental approaches to cancer treatment directed toward clinical applications. Cancer research interests: chemotherapy, immunology, radiobiology, clinical uses of radioisotopes. Long-time cancer research, teaching and administrative experience. Numerous publications. References. Box 233, SCIENCE, 6/2, 16

Pharmacologist, Ph.D., 12 years' experience including animal research, clinical research, and regulatory compliance, and biomedical writing. Box 245, SCIENCE. X

Psychiatrist/Neuroscientist, experienced and published in psychiatry and neuropharmacology, age 35. Seeks research/academic position with maximal time available for research and related teaching. Box 246, SCIENCE. X

Ph.D. Psychology (1971); M.S. Neuroanatomy (1970); M.S. Neurophysiology (1969); postdoctoral fellow seeks teaching/research assistant professorship at rural college or university. Domestic or foreign. Age 30. Box 247, SCIENCE. X

POSITIONS OPEN

Applications are invited for a position at
ASSISTANT PROFESSOR
level in

VERTEBRATE PHYSIOLOGY

Duties include teaching human physiology, graduate courses and developing research in area of interest. Applicants should send curriculum vitae and names of three references to: **Dr. Kermit Ratzlaff, Department of Biological Sciences, Southern Illinois University, Edwardsville, Ill. 62025.**

BIOCHEMIST

Merck Sharp & Dohme Research Laboratories is currently seeking a capable individual with a Ph.D. in Biochemistry with 5 years of postdoctoral experience. Applicant must be conversant in the modern technologies of protein and polysaccharide biochemistry, with interest in preventive medicine applications. Applicant must also possess ability to work in a team effort in fields of vaccine and cancer research.

You can expect a salary commensurate with experience, a complete benefits program and an uncommon opportunity in a stimulating, professional atmosphere.

Please send summary of training and experience, date available and minimum salary expected to—

MR. HENRY J. HURST

**MERCK SHARP & DOHME
RESEARCH LABORATORIES**

West Point, Pa. 19486

(Suburban Philadelphia)

An Equal Opportunity Employer

POSITIONS OPEN

An appointment as

ASSISTANT PROFESSOR IN BIOLOGY

is available September 1973, for a Ph.D. with research background in aquatic ecology. Preference will be given to candidates with teaching competence in vertebrate physiology and graduate courses in protistan biology or parasitology. Not all correspondence can be answered. Send detailed vita to **Dr. William C. Banta, Department of Biology, The American University, Washington, D.C. 20016.**

FACULTY POSITION

Fall 1972. Virology or microbial genetics. Assistant professor. Strong background in biochemistry required. Electron microscopy experience desirable. Postdoctoral experience desirable. Send résumé, transcripts, and letters from three referees to **Chairman, Department of Microbiology and Biochemistry, Idaho State University, Pocatello, Idaho 83201. An equal opportunity employer.**

UNIVERSITY OF THE WITWATERSRAND JOHANNESBURG, SOUTH AFRICA DEPARTMENT OF BOTANY

A new Chair in Botany has been created in the field of Plant Ecology. Preference given to applicants who have research interests in the following aspects of Plant Ecology—ecodynamics, productivity studies, and systems models. The incumbent will be required to assist the head of the department with administration.

Salary R7500 × 300 to R9900 per annum depending upon qualifications and experience.

Write the **Registrar, University of the Witwatersrand, Jan Smuts Avenue, Johannesburg** no later than 7 July 1972 for further information.

NUTRITION-HUMAN AND SOCIAL ORIENTATION

Academic position at assistant professor level open for woman or man with doctorate or M.D. Applicant should have an interest in teaching and human nutrition improvement, and be able to develop needed courses and innovative research, as well as participate in team programs. Send complete résumé and letter of possible contributions to **Dr. H. A. Dymaza, Department of Food and Nutritional Science, University of Rhode Island, Kingston, R.I. 02881.**

PESTICIDE

**Residue and Metabolism
Chemist**

Excellent opportunity for experienced Chemist, preferably with background in herbicides. M.S. or Ph.D. degree required. Position in San Francisco Bay Area.

If interested, submit detailed résumé of experience and salary history to:

Box 248, SCIENCE

An equal opportunity employer

POSTDOCTORAL RESEARCH ASSOCIATE

Isolation and Characterization of viral proteins. Excellent facilities and stipend for 1 to 2 years.

Reply to: **Dr. William O. Salivar
Biology Department
Marquette University
Milwaukee, Wisconsin 53233**

VETERINARY PATHOLOGIST

Independent contract research laboratory has an immediate opening for a pathologist experienced in gross and microscopic pathology of dogs, primates and laboratory rodents. Specific experience in experimental and/or toxicologic pathology desirable. Salary commensurate with experience. An equal opportunity employer. Send detailed résumé to:

**Dr. Robert G. Geil
International Research & Development Corporation
Mattawan, Michigan 49071**

POSITIONS OPEN

POSITIONS OPEN

RESEARCH BIOLOGIST

Conduct basic studies dealing with the action of prostaglandins. Must be capable of conceiving and executing problems dealing with a variety of biological systems. Should be willing to work with IN VIVO systems. Ph.D. in one of the biological sciences with strong biochemistry or physiology background. Publications in prostaglandin research desirable.

VIROLOGIST

Ph.D. to conduct research in virology and to develop chemotherapeutic agents for human viral diseases.

Upjohn

Please send CV in confidence to Mr. M. F. Murray
THE UPJOHN COMPANY
 KALAMAZOO MICHIGAN 49001
 An Equal Opportunity Employer

PHARMACOLOGIST

(Manager, Project Coordination and Evaluation)

Responsible position with one of the nation's top 20 prescription drug manufacturers now available. You will be expected to provide critical evaluation and summarization of information relevant to drug development. In addition you will also be involved with potential product acquisitions as well as original company data.

To qualify you must have your Ph.D. in Pharmacology; 2 to 5 years of experience in data evaluation and summarization desired. Send curriculum vitae or letter of application to:

Mark O. Jacobson

MERRELL—NATIONAL LABS

 Cincinnati, Ohio 45215

An Equal Opportunity Employer M/F
 A Member of National Alliance of Businessmen

A FISHERY BIOLOGIST
 is required by
FOOD AND AGRICULTURE ORGANIZATION
 of the
UNITED NATIONS
 in
 Rome, Italy

IF YOU HAVE:

1. University degree in biology or other relevant subject field,
2. Very good knowledge of English and good knowledge of one of the other official languages of FAO (French, Spanish),
3. Three years experience in fisheries research and demonstrated ability in scientific documentation work, editing or participation in the preparation of abstracts from journals in the field of fisheries and marine science,

WE CAN OFFER YOU:

1. A fixed term assignment of 3 years, duty station Rome, Italy. Brief description of assignment follows:
 Under the general supervision of the Chief, Research Information Section, assists in developing and maintaining the Division computer orientated bibliographic activities in the field of aquatic sciences and fisheries.
2. An annual salary ranging from U.S. \$9,000 to U.S. \$12,000 net (TAX FREE), plus other allowances and liberal fringe benefits.

IF INTERESTED:

Please send curriculum vitae to:

Recruitment Section, FIDX
 FAO of the United Nations
 Viale delle Terme di Caracalla
 00100 Roma, Italy
 Quoting Reference: FI 11

ASSISTANTSHIPS

GRADUATE ASSISTANTSHIPS IN MICROBIOLOGY

Appointment leading to Ph.D., \$2400 to \$2800 plus remission of tuition for academic year. Variety of research projects. Positions available September 1972. For further information contact:

Dr. Arthur K. Saz
 Department of Microbiology
 Georgetown University Medical & Dental
 Schools
 Washington, D.C. 20007

SUMMER INSTITUTES

TWO DATA ANALYSIS TRAINING SESSIONS

- I. 8 to 12 AUGUST, QUALITATIVE DATA ANALYSIS
- II. 22 to 26 AUGUST, MULTIVARIATE DATA ANALYSIS

Principles and practice of data analysis, with emphasis on computer methods. For researchers, teachers, and students in the biological, behavioral, and social sciences. Intermediate through advanced topics; lectures, group study, and computer applications on IBM 1130 and 360/65. For information and application forms, write or call: **DATS, 5835 Kimbark Avenue, Chicago, Illinois 60637, (312) 753-3825.**

FELLOWSHIPS

THE UNIVERSITY OF MELBOURNE (AUSTRALIA) DYASON FELLOWSHIP

The inaugural appointment for the above Fellowship will be made in the field of environmental studies. Applicants should be actively working in any field of environmental studies interpreted in the widest sense.

The appointment will be made, in the first instance, for a period of 1 or 2 years, with the possibility of an extension. Salary will be \$A10,000 per annum.

Reasonable travel and removal expenses to and from Australia will be provided, and a limited amount of finance will be available to establish and maintain the needs of the successful applicant's research.

Applications should indicate in general terms the nature of the project on which the applicant proposes to work, and should include personal details, academic qualifications and experience, details of research and published works, and the names and addresses of three referees, and should be addressed to **The Registrar, University of Melbourne, Parkville, Victoria, 3052, Australia.** An outline of research work in the field of environmental studies at the University of Melbourne may be obtained from the Registrar. Applications close on 31 July, 1972.

POSTDOCTORAL FELLOWSHIP— IMMUNOCHEMISTRY

A position is available to start either 1 July 1972 or 1 July 1973. The successful applicant will participate in amino acid sequencing studies of various immunoglobulin molecules involving both automated and manual methodology. Considerable familiarity with the essentials of protein chemistry will be required. Interested applicants holding a doctoral degree are invited to send a curriculum vitae and a short summary of their research interests to:

Drs. J. Donald Capra and J. Michael Kehoe,
 Department of Microbiology, Mount Sinai Medical Center, 10 East 102 Street, New York, N.Y. 10029.

Does S/P give you more for your money than anyone, anyplace?

Do birds fly?

The only thing a distributor really has to sell is service. That's *his* product. So the next time you order laboratory supplies or equipment, check his product as closely as you do the manufacturer's. In our case, you'll find S/P has more laboratory-trained representatives than anyone. Over 300 of them in 17 distribution centers throughout the U.S.A. More servicemen than anyone. 150 including manufacturer-trained technical specialists for sophisticated systems. More warehouse space than anyone. 13,553,000 cubic feet. More in-stock items than anyone. An inventory of 129,000 items in all (More than Marshall Field or Sears carry). Worth \$28,000,000 with every item in our national stock available to every customer through our computer program. More delivery capabilities than anyone. Every major carrier and our fleet of 43 S/P trucks. More backup people than anyone. 1,580. The more you think about it, the more you'll realize that S/P products give you more for your money than anyone else's. Just as sure as birds fly.

To take advantage of our More-For-Your-Money Service, call your S/P Representative or write Scientific Products, Division of American Hospital Supply Corporation, 1430 Waukegan Road, McGaw Park, Illinois 60085. S/P... a single source for laboratory equipment, supplies and scientific instruments.
