Utah Division of Kennecott Copper. The Hughes "employee counseling program" advertises that it is available for family, legal, financial, emotional, drug, and alcohol problems for employees and members of their families. Kennecott has a community-oriented program called "Insight," which is really a kind of return to the best elements of old-style paternalism. The director, Otto Jones, can be reached by any employee, family member, or friend by dialing I-N-S-I-G-H-T. Jones will make an appointment to see a troubled caller anywhere at any time. He has dealt with an endless variety of problems, ranging from racial conflicts to LSD overdose, and the program has created a considerable amount of goodwill toward the company within the community, most of whose members have some connection with Kennecott.

Despite obvious successes, companies are still very reluctant to get involved with such programs. The fear that an organized and visible program will be construed by the public as evidence of massive alcoholism within the company cannot be overestimated. The fear is bolstered by ignorance: since full-blown alcoholism can take decades to develop, its overt manifestation on the job is rare.

So far, only big companies have programs, but Godwin of NIAAA already has visions of small companies banding together to set up a centralized counseling and referral service. Meanwhile, the NCA is encountering enthusiastic responses among the top management officials it has been meeting with at seminars in major cities throughout the country. As more and more problem drinkers learn, or are forced, to seek help before their addiction has become uncontrollable, even the medical profession may come around to diagnosing and treating America's number-one drug addiction for what it is.

-CONSTANCE HOLDEN

Erratum: In the report "Ragweed hay fever; Genetic control and linkage to HL-A haplotypes" by B. B. Levine et al. [178, 1201 (1972)], in line 4 of the abstract "HL-A associated IgE antibody re-sponsiveness was antigen specific and extended also to IgE antibody production," should read, "HL-A associated IgE antibody responsiveness was antigen specific and extended also to IgG antibody production."

Erratum: Figure 3 of the report "Ultraviolet reflection of a male butterfly: Interference color caused by thin-layer elaboration of wing scales" by H. Ghiradella *et al.* [178, 1214 (1972)] was printed upside down. The figure was printed correctly on the cover. This was not done, as has been sug-gested, out of respect for the antipodal position of the third author, T. Eisner, who is currently in Australia.—ED. Australia.-ED.

Personnel Placement

POSITION WANTED: 40¢ per word, mini-mum charge \$10. Use of Box Number Counts as 10 additional words. Payment in advance is required. These rates apply to individuals only. Personnel agencies and companies take display rate for all adver-ticing

companies take display rate for all adver-tising. POSITIONS OPEN: \$110 per inch. No charge for Box Number. Rates net. No agency commission allowed for ads under 4 inches. No cash discount. Ads over 1 inch will be billed to the nearest half inch. Payment in advance is required except where satis-factory credit has been established. COPY for ads must reach SCIENCE 4 weeks before issue date (Friday of every week). Send copy for Personnel Placement adver-tising to:

SCIENCE, Room 211 1515 Massachusetts Ave., N Washington, D.C. 20005 NW

Replies to blind ads should be addressed as follows:

Box (give number) SCIENCE 1515 Massachusetts Ave., NW Washington, D.C. 20005

## POSITIONS WANTED

Aquacultural Research Assistant/Technician; B.S. biology, experience with effluent and upwelling systems, some graduate credits in field. Write Elliott Zucker, RFD Lakeshore Drive, Mohegan Lake, N.Y. 10547.

Biochemist, Ph.D., 1971. Regulation of gene expression, transcription mechanisms, DNA orga-nization. Publications, strong oral-written com-munication skills. Seeks academic, industrial, governmental, private position. Expanding inter-ests in drug metabolism, tissue culture, carcino-genesis. Box 28, SCIENCE X

Biochemist-Chemist (Physiology), M.S., Ph.D. Broad research interest and experience. College teaching, industry, hospital clinical chemistry, cancer. Desires academic, research institute, or industry. Publications. East. Box 29, SCIENCE.

Biologist returning to the United States. NIH postdoctorate and private research experience. Diverse interests and broad training in ecology, physiology, vertebrate zoology. Box 460, SCI-ENCE. X

Dedicated, Excellent, University-Level Biology Teacher. Ph.D. (genetics), postdoctoral training, 15 years of professional experience. Special in-terest innovative teaching, curriculum planning, Desires senior position in undergraduate-oriented department. 2266 Lake Circle, Jackson, Mississippi 20211 39211.

Biophysicist, Ph.D., with postdoctoral experience, interdisciplinary background, major experience in virus structure, ribosome conformations, laser light scattering spectroscopy, and analytical ultra-centrifugation; also experience with transfer RNA and enzymes. Seeks work in environmental or other socially related problem. Box 33, SCIENCE.

Electron Probe Analysis, Electron Microscopy, Histochemistry, experienced electron probe opera-tor and microscopist, Ph.D., desires position in reasearch and teaching at medical center, university, or research institution. Publications, grants, consultations. Box 34, SCIENCE. 2/2 al cen iblications, 2/2

Endocrinologist-Reproductive Physiologist: Ph.D., Endocrinologist-Reproductive Physiologist; Ph.D., finished postdoctoral training and now an instruc-tor desires teaching/research position in Depart-ment of Physiology. Research on female repro-duction employing gonadotropin radioimmuno-assays, organ culture, and experimental surgery. Teaching experience in histology, physiology, and reproductive physiology. Numerous publications. Box 35, SCIENCE. X

Immuno/Cell Biologist, Ph.D., 40. On European leave. Wishes research and/or teaching position in English- or German-speaking country. Numer-ous publications. References. Box 36, SCIENCE.

### POSITIONS WANTED

Research Development/Administration, Ph.D. Major university. Extensive experience in de-veloping faculty research potential, Multidisci-plinary, interdisciplinary programs. Wide experi-ence with federal, state, private, and industrial sponsors; grants-contracts. Good speaker. Unique knowledge of university operations. Desires more challenging position. Box 37, SCIENCE. X

Virologist, Ph.D., 15 years of research experience (cancer, infectious diseases), administration, teach-ing. Seeks supervisory position with a group, preferably industry or civil service. Box 38, SCIENCE. X

#### POSITIONS OPEN

#### AQUATIC ECOLOGIST

AQUATIC ECOLOGIST An assistant professorship in aquatic plant ecology is open for September 1973. Duties in-clude teaching an introductory course in biology or botany, and a graduate level course in aquatic ecology. The appointee is expected to organize an active graduate research program in ecology of fresh water plants. An interest in physiological ecology is desirable. Send a complete résumé, including courses taken, publications, references and research interests, to **PROFESSOR GOVIND-JEE**, **DEPARTMENT OF BOTANY**, **289** MOR-RILL HALL, UNIVERSITY OF ILLINOIS, URBANA, ILLINOIS 61801. An equal opportunity, afirmative action employer.

An equal opportunity, affirmative action employer.

# ASSISTANT PROFESSOR POSITION AVAILABLE

AVAILABLE in the Department of Pharmacology, University of Michigan Medical School, for 1 July 1973. Position deals with biochemical pharmacology or drug metabolism. Candidate must have Ph.D. in pharmacology and/or M.D. Should have inde-pendent research experience and must be able to teach students in several areas of classical pharmacology. Code #6001. Send résumé to Box 30, SCIENCE. A Nondiscriminatory Affirmative Action Employer.

ASSISTANT PROFESSOR OF PSYCHOLOGY ASSISTANT PROFESSOR OF PSYCHOLOGY New position. Beginning September 1973. Salary competitive. Interested in Ph.D. with strong re-search and teaching interests. Prefer someone who expects to be great. Area of specialty not partic-ularly important but a scientific orientation is. Contact: B. G. Tate, Chairman, Department of Psychology, University of Mississippi, University, Mississippi 38677. We are an equal opportunity employer.

# THE DEPARTMENT OF BIOLOGICAL SCIENCES THE UNIVERSITY OF ILLINOIS AT CHICAGO CIRCLE

ILLINOIS AT CHICAGO CIRCLE ILLINOIS AT CHICAGO CIRCLE Invites applications for faculty positions in Ecol-ogy, Genetics, Microbiology, Vascular Plant Mor-phology, Vertebrate Morphology, and Vertebrate or Neural Physiology. The appointees will be ex-pected to participate in undergraduate and grad-uate teaching and research. These positions are available commencing September 1973. The department also invites applications from individuals with research interests in Develop-ment, Protozoology, Vertebrate Biology or Com-puter Assisted Instruction for faculty positions in the Introductory Biology program. The appointees will be expected to participate in graduate teaching and research. These positions are availa-ble commencing September 1973. Submit cur-riculum vitae and three letters of recommenda-tion to: Dr. Elmer B. Hadlev

Dr. Elmer B. Hadley Department of Biological Sciences University of Illinois at Chicago Circle Post Office Box 4348, Chicago, Illinois 60680

Faculty opening in biochemistry, nucleic acid biosynthesis, 2 to 3 years of postdoctoral experience, assistant professor. Department of Chemistry, University of Montana, Missoula, Montana 59801. An Equal Opportunity Employer

## PRINCETON UNIVERSITY

**PRINCETON UNIVERSITY** Applications or nominations are invited for one faculty appointment in **geochemistry** (organic, inorganic, or isotopic) and one in **paleobiology** (paleontology or paleoecology, with research speciality in any plant or invertebrate animal group). Candidates available in September 1973 or September 1974 will be considered. One ap-pointment may go to a senior scientist. Any candidate should have Ph.D. or equivalent by starting date.

Starting date. Younger scientists should include a curriculum vitae and names of suggested referees. Send ap-plications and nominations to: Professor Sheldon Judson, Chairman, Department of Geological and Geophysical Sciences, Princeton University, Princeton, New Jersey 08540, U.S.A. An Equal Opportunity Employer
