

AAAS

SPEAKING OF SCIENCE

The first offering in a continuing series features 12 informal conversations with more than 20 of America's leading scientists. Among the subjects: The Mars Probe, Evolution and the Descent of Man, Advances in the Physical Sciences, Advances in Astronomy, Peace, and seven other timely and important subjects. The 12 recordings are on six cassettes (one complete 30-minute conversation on each side) for play-back on standard machines—packaged in a compact binder. Price: \$39.95.

AAAS SCIENCE BOOK LIST FOR CHILDREN (Third Edition)

A selected and annotated list of over 1500 science and mathematics books for children in elementary schools, and for children's collections in school, private and public libraries. Compiled by Hilary J. Deason. Price: \$8.95.

SCIENCE BOOKS—A QUARTERLY REVIEW

An invaluable aid to science education and library acquisition. The only publication devoted to the critical review of books in the sciences and mathematics at all educational levels—kindergarten through college—and for the nonspecialist adult reader. Published March, May, September and December. Price: \$10 per year.

PHYSIOLOGIST- TOXICOLOGIST

Excellent opportunity to join research staff of leading manufacturer in health care industry. You will be responsible for carrying out animal studies necessary to establish function and safety of new hospital products and for innovative contributions to their design. To qualify you must have a Ph.D. in physiology, toxicology, or pharmacology, some experience conducting pathological studies in animals and be capable of assuming full project responsibility. This position offers an attractive starting salary, excellent benefit package and professional working atmosphere at our health products research center in Barrington, Illinois. Please send resume in confidence including salary history to:

Mrs. J. Klappauf
THE KENDALL COMPANY
309 W. Jackson Blvd.
Chicago, Ill. 60606

An Equal
Opportunity
Employer M/F

SUPERVISING ENVIRONMENTAL MICROBIOLOGIST

Large public service agency seeks a mature, experienced Environmental Microbiologist to supervise research and control work of all activities in microbiology. The successful candidate will supervise varied, specialized, and very difficult microbiological examinations for detection and identification of microorganisms related to sewage treatment and disposal. Will initiate, direct and determine scope and character of tests, investigations and studies of the biological aspects of stream pollution, industrial waste disposal and sewage treatment processes. Will prepare research reports, progress reports, time reports, performance evaluations, expense accounts, and budget estimates for the microbiology section. Will direct work of subordinate Microbiologists and supervise training of subprofessional laboratory personnel and perform related technical, supervisory activities.

Candidates should possess a M.S. degree (Ph.D. preferable) in microbiology and five years professional experience including one year with supervisory responsibilities. Current starting salary is \$18,500. Salary review after six months, free medical and life insurance are among excellent benefits. This is a civil service position requiring competitive selection. Interested applicants are invited to submit detailed resumes to:

Employment Manager

Aquasol for:

**Reproducible LSC Counting of
High Molecular Weight and
Insoluble Compounds**

In Liquid scintillation counting of ^{14}C or ^3H labeled compounds such as inulin, dextran, and mannitol, inconsistent experimental results and decreased count rates have frequently occurred. Samples prepared using an Aquasol[®] technique¹ have been shown to be stable for six months or longer and have shown only an insignificant reduction in count rate during this period.

Personnel Placement

POSITIONS WANTED

Bioinorganic Chemist, Ph.D., 1971, bulky phosphine ligands in Ni and Ir complexes, presently, DNA base specificity of antitumor platinum compounds and Cu enzyme purification. Box 720, Boston, Mass. 02117. X

Biological Psychologist/Behavioral Geneticist, Ph.D., 1970, postdoctoral research, teaching experience (introductory psychology, comparative psychology, behavioral genetics), publications on CNS reactivity, seeks academic and/or research position. Robert A. Schreiber, Department of Biochemistry, MUSC, Charleston, S.C. 29401.

Biology Chairmanship or Professorship sought by creative Ph.D. (1962) with interests in genetics, embryology, behavior, molecular biology, biometrics. Broadly experienced teacher-researcher with many grants, publications, graduate students, seeks challenge in administration or innovative teaching. Box 333, SCIENCE. 7/6

Cell Biologist-Electron Microscopist, Ph.D. Five years of broad teaching experience, outstanding teacher, expects to continue research program involving undergraduate and graduate students, seeks position in department dedicated to quality instruction and faculty development, would consider chairmanship in a proper administrative atmosphere. Box 334, SCIENCE. X

Immunologist, Ph.D., postdoctoral experience immunochemistry; all aspects immunoassay: radiometric, electrophoretic, and so forth; several publications; research with industry, university; will relocate. Box 335, SCIENCE. X

Ph. D. Medical Microbiology/Immunology (1971), seeks clinical laboratory and/or research teaching position. Two years' postdoctoral immunology, 8 years' clinical laboratory (all areas), supervisory experience. Box 336, SCIENCE. X

Microbiologist, Ph.D. Broad administrative and scientific experience in all phases of pharmaceutical R&D, specializing in oral and topical antimicrobial drugs. Additional significant experience in biological quality control and in food microbiology. Desires position in industry, hospital, university or government. Box 337, SCIENCE. X

Microbiologist/Biochemist, Ph.D. 1953, teaching experience—general microbiology, microbial physiology, microbial genetics. Publications in *JACS*, *J. Biol. Chem.*, *J. Bacteriol.* Most recent 1972. Desires teaching position at small college or university or industrial position. Box 338, SCIENCE. X

Plant Physiologist-Biochemist, M.A. plus. Research experience: hormones, water relations. Teaching experience. Desires industrial/agronomic/academic position. Gordon Patterson, Apt. 307, 700 University Ave., SE, Minneapolis, Minn. 55414. X

Psychologist, Ph.D., 29, 4½ years' experience in applied clinical, human behavior measurement, and psychobiological research, clinically qualified, university cross-appointed. Eighteen papers. Salary and location open. Box 339, SCIENCE. X

Quantitative Experimental Psychologist, Ph.D. Three years of college teaching plus 4 years of research experience. Nineteen publications in human information processing and vision. Research or teaching and research position desired where minicomputer will be available for on-line experimental control. Frederick N. Dyer, Experimental Psychology Division, USAMRL, Fort Knox, Ky. 40121. X

POSITIONS OPEN

UNIVERSITY OF ALBERTA FACULTY OF DENTISTRY ANATOMIST/HISTOLOGIST

Applications are invited for a full-time position in Oral and Dental Histology. Candidates possessing Ph.D. and dental degrees will be given preference. Undergraduate and graduate teaching responsibilities, plus participation in establishing a new Ph.D. Oral Biology program. Salary and rank depend on qualifications and experience. Inquiries, with current curriculum vitae, to:

Wm. T. Harley, DDS, MSD
Staffing and Recruitment Committee
Faculty of Dentistry
University of Alberta
Edmonton, Alberta, Canada

POSITIONS OPEN

ASSISTANT PROFESSOR OF ANATOMY—Ph.D. with at least 2 years of postdoctoral teaching in Medical Gross Anatomy required. To teach undergraduate, medical school, and graduate levels; independent research encouraged. Available immediately but not later than 20 August 1973. Send curriculum vitae and statement of research interests before 10 July to: **Chairman, Search Committee, Anatomy Department, University of South Dakota, Vermillion, South Dakota 57069.**

Equal Opportunity Employer

FACULTY POSITIONS IN BIOCHEMISTRY

In accord with affirmative action and University policy, St. Louis University School of Medicine is inviting applications from well-qualified Ph.D.'s with postdoctoral training in the fields of membrane biochemistry, physical chemistry, lipid biochemistry or molecular biology. Initial appointment will be made at the rank of assistant or associate professor of biochemistry. An ongoing research program or research proposal is essential. Good salary and initial research support are available. The Department is responsible for teaching both medical and graduate students. Interested persons are asked to submit curriculum vitae to **Dr. Robert E. Olson, Chairman, Department of Biochemistry, St. Louis University School of Medicine, 1402 S. Grand Avenue, St. Louis, Missouri 63104.**

ASSISTANT PROFESSOR OF BIOLOGY

Ph.D., September 1973. To teach courses in general biology, animal physiology, and embryology. Active research involvement essential. Prefer person with good background in endocrinology. Send curriculum vitae and list of references to **Dr. Gilbert Sanchez, Biology Department, New Mexico Tech, Socorro, New Mexico 87801.**

POSTDOCTORAL CELL BIOLOGIST/ ELECTRON MICROSCOPIST

To investigate the effects of pollutants on the lungs: will involve morphometry and all aspects of tissue microscopy. Send résumé and three letters of recommendation to **Dr. E. S. Boatman, Department of Environmental Health, School of Public Health and Community Medicine, University of Washington, Seattle, Washington 98195.**

FACULTY POSITION: A senior level appointment for an experienced individual with an active research program in the field of animal virology. Specifically, an individual studying the biochemistry of RNA virus replication is sought. Teaching responsibilities include instruction at the graduate and undergraduate levels. Reply to **Chairman, Department of Microbiology, Health Sciences Center, State University of New York, Stony Brook, New York 11790.**

The Health Sciences Center is an equal opportunity employer and applications from members of minority groups or women are welcome.

An assistant professorship is open for a person with a doctorate in **FOOD SCIENCE** or related fields specializing in quantitative sensory evaluation. Teaching will involve the whole field of sensory quality and its evaluation. Original and cooperative research will emphasize wine and brandy quality. Capabilities in statistical techniques and computer processing of data, sensory panel management, and correlations of chemical data with sensory characteristics are essential. Letters of inquiry, applications with personal qualifications, and names of suggested references should be sent to: **Chairman, Department of Viticulture and Enology, University of California, Davis, Calif. 95616.**

The University of California is an equal opportunity employer.

MICROBIAL ULTRASTRUCTURE

For 1 July 1974. Ph.D. Postdoctoral training in molecular microbiology and electron microscopy with major interest in areas of viral structure/development and/or bacterial structure. Limited graduate teaching in virology/bacteriology and microbial ultrastructure. Send résumé to **Dr. K. Easterbrook, Department of Microbiology, Dalhousie University, Halifax, Nova Scotia, Canada.**

ORGANISMIC BIOLOGIST

Ph.D. Assistant Professor, fall 1973. Undergraduate and graduate teaching-research, liberal arts college of 5400 students. Send résumé to

Dr. Robert W. Boedig
Department of Biology
State University College
Fredonia, N.Y. 14063

An Equal Opportunity, Affirmative Action Employer.

POSITIONS OPEN

PHYSICISTS

Ph.D. Undergraduate teaching with interest in developing experimental solid-state or applied physics projects. Send complete résumé and three references to **Physics Department, Virginia Commonwealth University, 901 W. Franklin Street, Richmond, Va. 23220.**

An Equal Opportunity/Affirmative Action Employer.

McGILL UNIVERSITY FACULTY OF DENTISTRY

Requires a full-time **physiologist** with a dental background for the purpose of undergraduate and graduate teaching and research.

Position open September 1973. Please reply to

Dean E. R. Ambrose
Faculty of Dentistry
McGill University
P.O. Box 6070

Montreal 101, Quebec, Canada

All replies confidential.

GENERAL TERMS OF REFERENCE FOR POSITION OF POSTDOCTORAL FELLOW Department of Animal and Poultry Science University of Guelph Guelph, Ontario, Canada

RESEARCH DUTIES: To develop and help organize research dealing with endocrinology in support of existing dairy programs.

The incumbent should be a specialist in the discipline of endocrinology and have had previous experience with radioimmunoassays. Opportunities will be available for the candidate to make contributions to the areas of reproduction, lactation and nutrition.

SALARY: \$11,000 per year.

TERM OF APPOINTMENT: Two years, commencing in July 1973.

For further information contact:

Dr. W. D. Morrison, Chairman
Department of Animal and Poultry Science
University of Guelph
Guelph, Ontario N1G 2W1
Telephone: 519-824-4120 Extension: 2251

POSTDOCTORAL FELLOW in cellular neurophysiology especially of invertebrates or in comparative physiological psychology of sensory processes and learning. Applications should include a résumé, narrative of research experience and interests, papers published or in press, and the names of three referees. The position is tenable for 1 year, renewable subject to availability of funds. Write **Ian M. Cooke or M. E. Bitterman, Laboratory of Sensory Sciences, 1993 East-West Road, University of Hawaii, Honolulu, Hawaii 96822.**

An Equal Opportunity Employer

UNIVERSITY OF MASSACHUSETTS/AMHERST

Remote Sensing and photogeology specialist with Ph.D., background in geology needed for Fall 1974. Also teach other specialties, possibly introductory course. Curriculum vitae to **Professor G. E. McGill, Acting Head, Department of Geology and Geography, University of Massachusetts, Amherst, Massachusetts 01002.**

A Nondiscriminatory Affirmative Action Employer

FELLOWSHIP

Postdoctoral Fellowship in Neuroscience offers the opportunity for original investigations into brain mechanisms and behavior (with some emphasis on unit recording) and research into altered states of consciousness. Some teaching in Neuroscience program expected. Equal opportunity employer. Send curriculum vitae and references to **William E. Edmondson, Jr., Chairman, Department of Psychology, Colgate University, Hamilton, New York 13346.**

COURSE

UNIVERSITY OF CHICAGO MULTIVARIATE ANALYSIS OF QUALITATIVE DATA TRAINING SESSION

August 23-26, 1973

Study in this session will focus on two powerful computer programs for the analysis of qualitative data by log-linear models. The session will include lectures, study groups, and computer laboratory work. Write: **R. D. Bock, University of Chicago, 5835 S. Kimbark Avenue, Chicago, Illinois 60637.**
